Inpixon Reports Third Quarter 2022 Financial Results and Provides Business Update

*Planned Strategic Transaction for Enterprise Apps Business Line Valued at \$69 Million
Progressing*

Conference Call to be Held Today at 4:30 p.m. Eastern Time

PALO ALTO, Calif., Nov. 14, 2022 /PRNewswire/ -- Inpixon® (Nasdaq: INPX), the Indoor Intelligence® company, today provided a business update and reported its financial results for the third quarter ended September 30, 2022.

"We took a number of actions in the third quarter in furtherance of our objective to unlock value for our shareholders," commented Nadir Ali, CEO of Inpixon. "We implemented initiatives to streamline our operations and reduce our operating costs. We also signed a definitive agreement for the spinoff and sale of our enterprise apps business segment with KINS Technology Group Inc. in a transaction valued at approximately \$69 million, which we believe is a significant win for our shareholders. We continue to see strong demand for expansions within our existing customer base across both business lines within our Indoor Intelligence segment. Although overall macroeconomic market conditions have resulted in some challenges, we still achieved revenue growth of approximately 30% for the nine months ended September 30, 2022 compared to the same period last year. We believe the activities we are undertaking will have a meaningful impact in accelerating the path to profitability and positioning our Indoor Intelligence business lines for continued growth and long-term success."

Financial Results

Revenues for the three and nine months ended September 30, 2022 were \$4.2 million and \$14.1 million, respectively, compared to \$4.5 million and \$10.9 million for the comparable periods in the prior year for a decrease of approximately 6% and an increase of

approximately 30%, respectively. This decrease during the third quarter of 2022 is primarily attributable to delayed shipments in the IIoT product line of our Indoor Intelligence segment and lower sales for the SAVES product line. The increase in sales for the nine-month period, is primarily attributable to the addition of the CXApp product line in our Indoor Intelligence segment during the second quarter of 2021 and the addition of the Intranav product line in the fourth quarter of 2021. Gross profit for the three and nine months ended September 30, 2022 was \$2.9 million and \$10.1 million, respectively, compared to \$3.3 million and \$7.9 million for the 2021 respective periods, representing a decrease of approximately 10% and an increase of 28%, respectively. The gross profit margin for the three and nine months ended September 30, 2022, was 70% and 71%, compared to 73% and 73% for the three and nine months ended September 30, 2021, respectively. This decrease in margin is primarily due to the sales mix during the periods.

Net loss attributable to stockholders of Inpixon for the three and nine months ended September 30, 2022 was \$17.6 million and \$48.7 million, respectively, compared to \$33.6 million and \$31.4 million, respectively, for the comparable periods in the prior year. This increase in loss was primarily attributable lower gross profit, a \$7.6 million goodwill impairment and other non-cash items including an unrealized net loss on equity securities, offset by decreased operating expenses in the nine months ended September 30, 2022.

Non-GAAP Adjusted EBITDA for the three and nine months ended September 30, 2022, was a loss of \$8.2 million and \$26.9 million, respectively, compared to a loss of \$6.7 million and \$18.5 million for the prior year periods, respectively. Non-GAAP Adjusted EBITDA is defined as net income or loss before interest, provision for income taxes, depreciation and amortization plus adjustments for other income or expense items, non-recurring items and non-cash items including stock-based compensation.

Proforma non-GAAP net loss per basic and diluted common share for the three and nine months ended September 30, 2022 was a loss of \$3.96 and \$13.44, respectively, compared to a loss of \$3.77 and \$13.68 for the prior year periods. Non-GAAP net loss per share is defined as net loss per basic and diluted share adjusted for non-cash items including stock-based compensation, amortization of intangibles and one-time charges and other adjustments including impairment of goodwill, provision for valuation allowance on notes, and acquisition costs.

Non-GAAP Financial Measures

Management believes that certain financial measures not in accordance with generally accepted accounting principles in the United States ("GAAP") are useful measures of operations. EBIDTA, Adjusted EBITDA and pro forma net loss per share are non-GAAP measures. Inpixon defines "EBITDA" as net income (loss) before interest, provision for (benefit from) income taxes, and depreciation and amortization. Management uses Adjusted EBITDA as a metric for which it manages the business, and Inpixon defines "Adjusted EBITDA" as EBITDA plus adjustments for other income or expense items, non-recurring items and non-cash items. Inpixon defines "pro forma net loss per share" as GAAP net loss per share adjusted for stock-based compensation, amortization of intangibles and one-time charges including impairment of goodwill and provision for valuation allowances.

Management provides Adjusted EBITDA and pro forma net loss per share measures so that investors will have the same financial information that management uses, which may assist investors in assessing Inpixon's performance on a period-over-period basis. Adjusted EBITDA or pro forma net loss per share is not a measure of financial performance under GAAP, and should not be considered an alternative to net income (loss) or any other measure of performance under GAAP, or to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity. Adjusted EBITDA and pro forma net loss per share have limitations as analytical tools and should not be considered either in isolation or as a substitute for analysis of Inpixon's results as reported under GAAP.

For more information on our non-GAAP financial measures and a reconciliation of GAAP to non-GAAP measures, please see the "Reconciliation of Non-GAAP Financial Measures" table accompanying this press release.
