Genworth Financial Announces New \$350 Million Share Repurchase Authorization

RICHMOND, Va.--(BUSINESS WIRE)-- Genworth Financial, Inc. (NYSE: GNW) today announced that its Board of Directors has authorized a new share repurchase program under which Genworth may repurchase up to \$350 million of its outstanding common stock. The new share repurchase authorization is in addition to Genworth's current \$700 million share repurchase program, of which \$16 million remains as of September 17, 2025.

"The Board's decision to authorize a new share repurchase program reflects the company's commitment to delivering shareholder returns," said Tom McInerney, Genworth's President and Chief Executive Officer. "Supported by strong cash flows from our subsidiary, Enact Holdings, Inc., we are very pleased with our progress toward repurchasing a substantial number of shares at what we believe to be below intrinsic value, and we look forward to continuing this progress under the new authorization."

Genworth determined the size of the additional program based on future cash flow projections from Enact Holdings, Inc. Any repurchases under the authorized program would be funded from holding company cash.

While the company previously shared the potential for significant cash recoveries from the AXA S.A. and Santander Cards UK Limited litigation, those potential proceeds were not included in sizing the additional authorization, pending the outcome of Santander's request for permission to appeal the trial court's decision. If Santander's request is denied, or if the trial court's judgment is upheld on appeal, Genworth will consider a further expansion of our share repurchase program.

Under the new program, share repurchases may be made at the company's discretion from time to time in open market transactions, privately negotiated transactions, or other means, including through Rule 10b5-1 trading plans. The timing and number of shares repurchased under the new program will depend on a variety of factors, including stock price, trading volume, and general business and market conditions. The authorization has no expiration date and may be modified, suspended or terminated at any time.
