

SinglePoint Closes Second Order of Contract to Supply One Hundred Million Dollar Contract of Premium Hemp Flower

SinglePoint Secures 15 Month, \$109,465,000 Contract to Supply Hemp Flower, Second Batch has been Approved and Sold

PHOENIX, June 27, 2019 (GLOBE NEWSWIRE) -- via OTC PR WIRE -- SinglePoint (OTCQB: SING) announced today that it has signed a \$109,465,000 (One Hundred Nine Million, Four Hundred Sixty-Five Thousand Dollars) contract with Elite Foundation LLC of North Carolina to supply more than 275,000 pounds of premium hemp flower over a period of 15 months. The client has approved and taken receipt of the second batch of product and Elite has approved approximately 5000 pounds of varietal strain hemp flower which has been reserved for their next 4 to 6 shipments expected every other week.

"We are grateful for the opportunity to work with SinglePoint in continuing to establish ourselves as the Southeast's preferred hemp provider, trusted to satisfy our clientele's growing demands by ensuring quality, consistency and variety for the downline. This alliance potentiates a cascade of mutual benefits across many sectors within the burgeoning hemp industry, and we look very much forward to generating these positive energies together!" states Max Alexander, Chairman and CFO of Elite Foundation.

According to President Wil Ralston, "There is very little high-quality hemp flower in the United states so were pleased that our client can take advantage of our supply before its available to other supermarket clients. After visiting with our suppliers yesterday it is clear that the market is drying up quickly and we have access to supply the best flower available to the market with additional greenhouse quality flower coming to market as well. This has been a great development for SinglePoint and our VP of Sales, Don Smith, has done a wonderful job of closing this contract. He is currently working with additional clients in need of hemp flower as well as many other raw materials such a biomass. We look forward to the closure of these deals among others in our pipeline including private labeled finished goods for retail distribution. We see a large opportunity to put end user product throughout retail distribution in the coming months. Industrial derived hemp has created a wave of new products and opportunities in which SinglePoint has been able to drive additional revenue and profit."

BDS Analytics and Arcview Market Research project that the collective market for CBD sales in the U.S. will surpass \$20 billion by 2024 while New York-based investment bank Cowen & Co, estimates that the market could pull in \$15 billion by 2025. The smokable hemp market currently represents approximately 2% of the overall CBD market, but with a 250% growth from 2017 to 2018, Brightfield Group, a Chicago-based cannabis market research firm, identifies dried and smokable hemp flowers as one of the fastest-growing segments of the CBD market. SinglePoint's bold entry into the hemp flower market positions the company as one of the leading hemp flower wholesalers in the country.

With the passage of the 2018 Farm Bill and the mainstreaming of CBD hemp flower, the market is growing rapidly. There is a significant need for reliable suppliers with the capacity to move product. Its demonstrated capacity to deliver has established SinglePoint as one of the dominant players in the hemp flower marketplace.
