Coda Octopus Group, Inc. Second Quarter Results

LAKELAND, FL -- (Marketwire) -- 06/18/12 -- Coda Octopus Group, Inc. (PINKSHEETS: CDOC) announced last Friday its unaudited financial results for Q2 fiscal year 2012 following completion of the first phase of the restructuring of the Group over the previous two years.

For the six months ending April 30th 2012, the Group achieved revenues of \$9.6m, up from \$6.8m for the previous year, and Net Income of \$1.38m versus a Net Loss of \$463k in the previous year. Another significant milestone for the Group is that it has recorded positive cash flow of \$577k from its operations over the same period. The full Quarterly Report is available at www.otcmarkets.com (PINKSHEETS: CDOC).

Annmarie Gayle, Group CEO, said, "These results underline that the restructuring strategy which the new management embarked upon in 2009 was the right one for the Group. Under this strategy we reduced our Selling, General and Administrative Expenditure (SG&A) costs significantly (from \$11.2m in 2009 to \$5.3m in 2011, and \$2.4m in the current year to date), and during which time we have also advanced our innovative patented technology on which our 3D sonar products including the Echoscope® and UIS™ are based. Our continuation on this path will yield the right results for our stakeholders and the Group as a whole.

"We look forward in the latter parts of this fiscal year and into next year to the positive effects on our future results of the new products we recently announced, notably our Dimension® ROV (Remotely Operated Vehicle) targeted real-time visualization sonar with ROV integration capabilities, and the F170™ family of positioning units."

About Coda Octopus Group, Inc.

Originally founded in 1994 as Coda Technologies, the Coda Octopus Group is now headquartered in Lakeland, Florida. The Group consists of a Marine Products business in Florida and Edinburgh, Scotland, and engineering businesses in Utah and Weymouth, England. Each of the Group companies are technology innovators with a particularly high level of sonar expertise. The Group has facilities in Florida, Utah, the UK and Norway.

Alongside providing custom engineering and development for defense applications, and oil and gas, companies, one of the Group's key products is the Coda Echoscope® - the first real time 3D sub sea sonar. The Echoscope® is also at the heart of the Underwater Inspection System™ which is being adopted for homeland security, and other applications in ports around the world.

With this patented revolutionizing sub-sea visualization capability, and the existing systems integration skills within Colmek Systems Engineering, Inc and Martech Systems Engineering Ltd, the Coda Octopus Group believes they can become a world leading integrated sonar

technology supplier.
