Avalon GloboCare Appoints Dr. Bo Chen as Vice President of Mergers & Acquisitions to Accelerate Growth

FREEHOLD, NJ -- (Marketwired) -- 01/16/18 -- Avalon GloboCare Corp.(OTCQB: AVCO), a leading global developer of cell-based technologies, announced today that the Company has appointed Dr. Bo Chen as Vice President, Business Development to lead mergers & acquisitions activity. Dr. Chen will focus on executing Avalon's acquisition strategy by helping identify companies with a strategic fit within the cell therapeutics, cell diagnostics and rehabilitation sectors.

Dr. Bo Chen was one of the original founders of the Ludaopei Hospital Group in China, and has served as the global business development director for the past 5 years. The Ludaopei Hospital Group is one of the fastest growing private medical companies in China presently, consisting of multiple hospitals and research centers specialized in leukemia and cell therapeutics. Prior to joining the Ludaopei Hospital Group Dr. Chen had multiple leadership positions in healthcare and biotechnology industries. Dr. Chen holds a Ph.D. degree in engineering science from Virginia Tech.

Dr. David Jin, President and CEO of Avalon GloboCare, stated, "We are pleased to welcome Dr. Bo Chen to the senior management team. Dr. Chen has substantial knowledge and experience guiding global M&A activities within the healthcare sector. In addition to organic growth, our plan is to acquire established companies, with revenue growth and defensible intellectual property within our target verticals, where we can leverage our global reach, capabilities and resources. We are initially targeting companies within the cell therapeutics, diagnostics and rehabilitation sectors, as we believe each of these markets are poised for explosive growth and leverage our core capabilities and expertise."

Dr. Bo Chen, commented, "Avalon is at the forefront of the cell therapy market, developing disruptive technologies with immediate near-term clinical application. I am honored to be joining such an experienced and accomplished leadership team. There is a huge market opportunity in cell based therapies, especially in China, and we will be evaluating target companies in the U.S. and around the world where we can leverage our distinct relationships with some of the largest private medical groups in China."
