Key Achievements

SPIR
NYSE

Successfully completed merger with Navsight Holdings to become publicly traded on the NYSE under the ticker SPIR

Grew and diversified business now serving more than 500 government and commercial customers

Successfully completed acquisition of exactEarth cementing our leadership position providing critical data and analytics about the maritime industry

Expanded the impact of our weather data through marquis contracts with NOAA, EUMETSAT and NASA

Launched optical intersatellite links into orbit, challenging yet again what is possible with small satellites in space

**Leveraging Data from Space
to Solve Problems on Earth**
