Nighthawk Biosciences' Scorpion Subsidiary Announces Grand Opening of its San Antonio Facility

DURHAM, N.C., Oct. 21, 2022 (GLOBE NEWSWIRE) -- [Nighthawk Biosciences](#) (NYSE American: **NHWK**), a fully integrated biopharmaceutical company focused on developing first-in-class therapies to modulate the immune system, today announced that its Scorpion subsidiary plans to host the grand opening of its San Antonio facility today, October 21.

David Halverson, President of Scorpion, commented, "We are pleased with the recent FDA feedback regarding our design, operational strategy, and environmental controls relevant to clinical and commercial manufacturing at our San Antonio facility. In addition, the planning for our new facility in Manhattan, Kansas continues to progress. These two facilities, once fully operational, will provide Scorpion with substantial biomanufacturing capabilities to accommodate future worldwide demand for biologic manufacturing."

The global pharmaceutical CDMO market is projected to reach \$171 billion by 2026 from \$120 billion in 2021¹. The industry currently suffers from a significant lack of capacity, resulting in meaningful delays and escalating costs.

The Company also reports its Scorpion subsidiary recently entered into a commercial contract to provide contract development and manufacturing services for a biopharmaceutical company to support development of their Phase 3 asset.

Jeff Wolf, CEO of Nighthawk, further noted, "We look forward to hosting the formal grand opening of our Scorpion San Antonio facility which represents an important milestone for the Company as we continue to execute on our strategy to develop a fully-integrated ecosystem that is designed to enable more rapid delivery of medical innovations with increased quality and efficiency."

About Scorpion Biological Services

Scorpion Biological Services is a contract research, and contract development and manufacturing organization (CDMO) focused on cell- and gene-based therapies and large molecule biologics. Scorpion provides a broad array of clinical-scale biomanufacturing, analytical and R&D services to pharmaceutical and biotech companies from its San Antonio, Texas facilities. Scorpion also plans to offer commercial-scale biomanufacturing from its newly announced site in Manhattan, Kansas. Additional information is available at: <https://www.scorpionbio.com/>.

NightHawk Biosciences, Inc.

NightHawk Biosciences is a fully integrated biopharmaceutical company focused on the development of new drugs from discovery through commercialization. The Company

leverages its integrated ecosystem of subsidiaries to accelerate the development of novel therapies that arm the immune system, breaking through barriers that prolong traditional drug development. This empowers us to bring our ideas to life with efficient control, superior quality, and uncharacteristic agility.
