With 15 years' experience across the professional and financial services industry, McShane is a commercially focused finance leader who brings a wealth of expertise to the position. She joins from Barclays, where she spent the last 10 years of her career, most recently as Head of Finance for the Corporate Bank and Commercial Finance Director for Transaction Banking. Her background working across a variety of financial products and industry sectors - including four years at Barclaycard, and prior to Barclays, in Corporate Tax Advisory and Transaction Services at KPMG – will deliver rich insight into the various market verticals Paysafe focuses on. Prior to Amazon she worked at the Bill & Melinda Gates Foundation where she worked with organisations to improve accessibility and use of financial services across the globe. At Paysafe, she will lead new

product development for the Digital Wallet's business, including various transformative initiatives such as the company's embedded finance solution which it recently launched with crypto exchange, Binance.
