Westell Technologies to Exhibit at CTIA Super Mobility 2015

Westell Technologies nominated as a CTIA Emerging Technology Award Finalist for Addressing the DAS Near-Far Challenge

AURORA, Ill.--(BUSINESS WIRE)-- [Westell Technologies, Inc.](#) (NASDAQ: WSTL), a leading provider of in-building wireless, intelligent site management, cell site optimization, and outside plant solutions announces that it will showcase its products at [CTIA Super Mobility 2015](#) on September 9, 10, and 11 in Las Vegas. As an exhibitor in the Tower and Small Cells Summit (Booth #4264), Westell will provide live demonstrations and present information on its [Optima Management System®](#), [ClearLink® UDIT](#), and [ClearLink® DAS](#) – an innovative solution that addresses the DAS Near-Far signal degradation issue.

“Westell is committed to product development and engineering efforts to continually advance its solution offerings. One of the major product advancements we made this year was addressing the DAS Near-Far problem,” explains Scott Goodrich, President of Westell’s In-Building Wireless (IBW) Group. “Westell’s ClearLink DAS mitigates Near-Far signal degradation and associated performance issues found in conventional DAS networks.”

The technology advancements made by Westell to address the Near-Far issue have gained recognition within the in-building wireless DAS community. In part, Westell has been chosen as a CTIA Emerging Technology Award finalist in the “In-Building Wireless — Small Cell, Wi-Fi, LAN” category. Dozens of industry experts, reporters, and analysts judged and scored hundreds of entries to determine the finalists. Winners will be announced at [CTIA Super Mobility 2015](#). CTIA will host the awards ceremony on Thursday, September 10 at 2:00 p.m. PT from the Networked Society Stage (Booth #3673) in the Sands Expo.

Westell is also a featured sponsor of [TESSCO Technologies’ MobileCON](#), a concentrated, interactive environment devoted solely to business and enterprise IT. MobileCON combines IT-specific exhibits, programming, keynotes, networking, and Q&A sessions. At TESSCO’s Booth #5932, Westell will offer information on its complete DAS solutions, including intelligent site management, power distribution, and passive and active RF DAS conditioners.

Attendees interested in speaking with Westell executives at CTIA Super Mobility 2015 about the Company’s innovative suite of solutions are encouraged to contact Jennifer Davis at jdavis@westell.com.

About Westell

Westell Technologies, Inc., headquartered in Aurora, Illinois, is a leading provider of in-building wireless, intelligent site management, cell site optimization, and outside plant solutions focused on innovation and differentiation at the edge of telecommunication networks, where end users connect. The Company's comprehensive set of products and solutions enable telecommunication service providers and other network operators to improve network performance and reduce operating expenses. With millions of products successfully deployed worldwide, Westell is a trusted partner for transforming networks into high quality, reliable systems.
