Adjusted EBITDA

EBITDA represents net income (loss) for the respective periods excluding depreciation and amortization expense, interest income (expense) and income taxes. The Company defines Adjusted EBITDA as EBITDA excluding non-operating gains (losses); executive and management transition costs; restructuring costs; rebranding costs; non-cash impairment charges and write downs; business development and expansion costs; loss on debt extinguishment; contract termination costs; gain on sale of television station and non-cash share-based compensation expense. The Company has included the “Adjusted EBITDA” measure in its EBITDA reconciliation in order to adequately assess the operating performance of its television and online businesses and in order to maintain comparability to its analyst's coverage and financial guidance, when given. Management believes that the Adjusted EBITDA measure allows investors to make a meaningful comparison between its business operating results over different periods of time with those of other similar companies. In addition, management uses Adjusted EBITDA as a metric to evaluate operating performance under the Company's management and executive incentive compensation programs. Adjusted EBITDA should not be construed as an alternative to operating income (loss), net income (loss) or to cash flows from operating activities as determined in accordance with generally accepted accounting principles (“GAAP”) and should not be construed as a measure of liquidity. Adjusted EBITDA may not be comparable to similarly entitled measures reported by other companies. The Company has included a reconciliation of the comparable GAAP measure, net income (loss) to Adjusted EBITDA in this presentation.

Data in this presentation may be unaudited.
