Liquidity and Capital Resources

As of October 31, 2020, total unrestricted cash was \$19.0 million, an increase of \$8.7 million from prior-year end. Net debt at the end of Q3 was \$33.6 million, a \$25.1 million reduction from prior-year end. The Company also had an additional \$11.3 million of unused availability on its revolving credit facility.

Outlook

In Q4, iMedia Brands anticipates posting adjusted EBITDA in the mid-to-high single-digit millions. The Company also continues to believe that the pandemic's effect will be reduced because it has a direct-to-consumer revenue model that serves customers who seek to buy goods from the comfort of their own homes, and it is not dependent on the traditional advertising dollars from national advertisers who are impacted by the continued disruption of the brick and mortar shopping experience.

Adjusted EBITDA

EBITDA represents net income (loss) for the respective periods excluding depreciation and amortization expense, interest income (expense) and income taxes. The Company defines Adjusted EBITDA as EBITDA excluding non-operating gains (losses); executive and management transition costs; restructuring costs; non-cash impairment charges and write downs; transaction, settlement, and integration costs, net; rebranding costs; and non-cash share-based compensation expense. The Company has included the "Adjusted EBITDA" measure in its EBITDA reconciliation in order to adequately assess the operating performance of its television and online businesses and in order to maintain comparability to its analyst's coverage and financial guidance, when given. Management believes that the Adjusted EBITDA measure allows investors to make a meaningful comparison between its business operating results over different periods of time with those of other similar companies. In addition, management uses Adjusted EBITDA as a metric to evaluate operating performance under the Company's management and executive incentive compensation programs. EBITDA and Adjusted EBITDA are both non-GAAP measures and should not be construed as an alternative to operating income (loss), net income (loss) or to cash flows from operating activities as determined in accordance with generally accepted accounting principles ("GAAP") and should not be construed as a measure of liquidity. Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. The Company has included a reconciliation of the comparable GAAP measure, net income (loss) to Adjusted EBITDA in this release.
