

WASH★REIT®

2021

ANNUAL REPORT

I cannot recall a more significant year for our company. I am thankful for, and very proud of, the dedication and commitment shown by the WashREIT team, who has worked hard to prepare us for another eventful year in 2022 as we move forward as a focused multifamily company.

Dear Shareholders,

2021 was certainly one for the books. We began the year as a diversified company facing increasing commercial headwinds, which were further magnified by the pandemic. Following the execution of the most significant capital recycling in our 60+ year history, we became a focused multifamily company and initiated our planned geographic expansion into the Southeast, where we continue to grow our footprint. Where we faced headwinds just a year ago, we see tailwinds, and our growth prospects are the strongest they have been in recent history.

As we scale our portfolio in the Southeast, we are prioritizing the strength of our investment-grade rated balance sheet. We further de-levered our balance sheet and increased liquidity in 2021 to create optionality as we grow, while at the same time improving our risk profile. We have acquired 1,120 homes in high growth submarkets in Atlanta thus far, and by the end of 2022 we expect nearly a quarter of our multifamily units to be in the Southeast.

All told, I cannot recall a more significant year for our company. I am thankful for, and very proud of, the dedication and commitment shown by the WashREIT team, who has worked hard to prepare us for another eventful year in 2022 as we move forward as a focused multifamily company.

Leading with Research

Research influences our strategy and powers our understanding and selection of asset types, markets, and submarkets for capital allocation. Since 2015, we have been investing in value-oriented apartment communities in the Washington Metro market and have targeted assets that offer the strongest long-term growth and value-creation opportunities. Compared to the office and retail sectors, the multifamily sector has considerable demand drivers supporting continued growth, requires significantly less recurring capital expenditures, and generates steadier and stronger cash flows from a more diversified resident base, which produces stronger returns for our shareholders.

Our research on demographic trends shows that apartment demand is deepest at mid-range rents, and rental income can consistently grow if a property's price point does not compete directly with new product. Our strategy of targeting mid-market rental price points with renovation potential has served us well—our acquisitions have outperformed the broader region and we have generated mid-teen average renovation returns on 2,000 apartment home renovations over that timeframe.

Southeast Expansion

As we have progressed our portfolio transformation in the Washington Metro market over the past several years, we have also been exploring potential expansion markets where we believe our mid-market renter strategies can be successful. We believe this expansion will allow us to diversify our geographic concentration risk and provide opportunities for additional growth - driven both by current and projected long-term rent growth outperformance.

The first step in the exploration of our expansion was researching other metropolitan area economies and labor markets. It is our fundamental belief that when we acquire assets in new markets, we are investing in the underlying economy that will power their performance. Our research led us to target the Southeast markets of Atlanta, Raleigh/Durham and Charlotte which are projected to benefit from their

SOUTHEAST EXPANSION

As we acquire properties across the Southeast, our geographic mix of our portfolio continues to diversify.

GEOGRAPHIC MIX
By Number of Units, September 2021

GEOGRAPHIC MIX
By Number of Units, April 2022

industrial mix, with outsized exposure to tech and other innovation industries, driving outperformance in both GDP and employment growth over the medium term.

Our market selection is built on the viewpoint that economies with diverse, innovative industries will benefit from outsized job creation, wage growth and in-migration in the years ahead. Dynamic economies provide a strong foundation of demand upon which to grow our portfolio. This employment growth outperformance creates a virtuous feedback loop with in-migration. Our targeted markets across the Southeast are projected to be among the best in the nation in population growth and net migration over the next decade, driving strong, sustained apartment demand in these markets.

Strong employment growth is a good predictor of apartment demand, but strong employment growth at income bands aligned with our portfolio strategies and in our submarkets is an even better predictor. We measure employment depth and growth at targeted income bands by region, submarket, and asset location to invest into the path of growth with the

appropriate strategy. These insights enable us to best tap into the underlying employment strengths and tailor our approach to capital allocation. Within our targeted markets, not only is there strong projected employment growth—but our strategies are designed to position us to capture a growing share of the total demand at the income bands our communities serve.

Our research-forward approach has also been integral to the development of our successful portfolio strategies. From value luxury in our Class A and A+ communities, to “like-new” interiors in our Class B value-add, and budget-friendly Class B communities, we offer a diverse set of options for our residents, and we align these strategies with submarket attributes to drive rent growth across our portfolio. Our strategies harness the strong middle-income renter demand in Southeastern markets that simultaneously have market constraints from providing new product to serve them. We target the deepest demand segments of those markets, where residents tend to stay for longer timeframes. Each portfolio strategy also has distinct rent growth drivers as well as vintage and price-point parameters.

Southeast Acquisitions

The acquisitions that we have completed thus far fit squarely into our strategies and are expected to benefit from sustained demand in the years ahead. Following the office and retail portfolio disposition transactions, we have acquired four multifamily properties in Atlanta for a total of \$260 million and are under contract for two multifamily properties which substantially completes the deployment of our net proceeds from the commercial dispositions. While it is still in the early days, our Atlanta portfolio is outperforming our initial underwriting assumptions and we remain confident that our research has led us to invest in areas that are poised for strong, sustained growth.

We closed our first Southeastern multifamily acquisition, The Oxford, in August 2021 for \$48 million. The Oxford is a 240-unit garden style community in the city of Conyers, Georgia. The area is primarily comprised of family households who want the benefits of living in the suburbs combined with connectivity to business districts and local employment nodes including the Interstate 20 Corridor, which is experiencing significant investment as employers expand into the area.

Assembly Eagles Landing, which was acquired in November 2021 for \$106 million, is a garden-style community with 490 homes located in Henry County, in the southern suburbs of Atlanta. Henry County's strategic location, with immediate access to Atlanta Airport and within a 2-day drive of 80% of the U.S. population, makes it one of the key supply chain management and e-commerce locations in the Southeast. The community is comprised of two properties that are located immediately adjacent to each other. Historically, each property had been operated and managed independently, however, our strategy includes creating significant economies of scale by operating them as one community. Furthermore, we are already beginning to realize operating improvements, and to date, our daily pricing models are achieving higher rents than we originally underwrote.

As a 1990s vintage community with a price point that represents 85% of the market median rent, and an opportunity to drive NOI growth through operational efficiencies, Assembly Eagles Landing fits squarely into our Class B strategy, which targets vintages from the 1980s to the 2000s and price points that range from 80% to 95% of the market median in high

Carlyle of Sandy Springs, Sandy Springs, GA

growth submarkets. Assembly Eagles Landing does not compete with new supply in Henry County, as new deliveries currently have an average monthly rent that is nearly \$375 per month above what we are currently offering.

Carlyle of Sandy Springs, which we acquired in February 2022 for \$106 million, is a garden-style community with approximately 390 homes located in the desirable Sandy Springs submarket of Fulton County, Georgia. Spanning approximately 30 acres, Carlyle of Sandy Springs is primarily comprised of townhomes. As a 1970s vintage community with a price point that represents approximately 90% of the market median rent and the opportunity to drive NOI growth through value-add renovations, it fits squarely into our Class B value-add strategy. Our value-add renovation program for approximately 70% of the homes is set to begin in year two of ownership. We are positioned to generate strong returns on these renovations as Carlyle does not compete with new supply in the Sandy Springs submarket— new deliveries have an average monthly price point that is over \$350 above the monthly rents that we are currently offering.

Located north of downtown Atlanta, Sandy Springs attracts families and professionals seeking an amenity-rich suburb providing proximity to jobs and entertainment. Fulton County is the most economically active in Georgia, including the 3rd largest concentration of Fortune 500 companies in the U.S., and one of the Southeast's largest tech hubs. Additionally, excellent connectivity via Georgia 400 and I-285 provide quick and easy access to other major employment nodes throughout the Atlanta Metro.

The Southeast acquisitions we have completed thus far are performing very well and are generating robust revenue growth that will translate to even stronger earnings growth as we continue to scale our portfolio by targeting opportunities that will deliver short-term and long-term rent growth outperformance. We are under contract for additional acquisitions in the Southeast and have a solid pipeline of opportunities

beyond what is currently under contract. We look forward to further growth to report on in the near future.

Washington Metro Portfolio Update

Much has changed since this same time last year when we were on the cusp of the post-pandemic rebound and managing through uncertain but improving market conditions. Today, our portfolio has the strongest embedded growth prospects in recent history. We expect rental income to be boosted by historically strong occupancy as we head into the prime spring and summer leasing seasons, a very limited number of new concessions being issued, and the strongest lease rate growth tailwinds that we have seen in 20 years.

Trove, our ground-up multifamily development, leased up during 2021 at a pace that was well above the regional average and stabilized near year-end. Trove consists of 401 units constructed onsite at The Wellington, illustrating our successful execution of a covered land play in a submarket with limited new supply. We expect Trove to be a key growth driver over the next few years, adding approximately \$7 million of NOI in 2022 and \$8 million in 2023, which reflects an NOI growth rate of over 15% for 2023 on top of much greater growth in 2022.

We also anticipate renovation-led value creation to have an increasing impact on growth given that our renovation programs have just recently fully ramped up following the program's suspension during the pandemic. During 2021, we completed full renovations on over 180 units across 10 properties and we expect to complete more than twice that number in 2022. We have a pipeline of approximately 2,900 units where the rent gap between those properties and the neighboring Class A product offers room to renovate and capture a return on investment that is within our targeted range. Historically, our renovation programs have generated mid-teen cash on cash returns. We are capturing very strong lease rate growth on our renovated units and expect to add to our renovation pipeline as we expand into the Southeast, further driving growth in the years ahead.

Project Reimagine

Our shift from serving office and retail tenants to focusing almost exclusively on our apartment residents improves our ability to deliver a superior customer experience. As a focused business to consumer company, we aim to elevate the standard of living for our value-oriented residents, and we are committed to creating living environments that our residents are proud to call home. We firmly believe that the long-term interests of our shareholders are tightly linked to the interests of our residents. In order to maximize that value to both our shareholders and our residents, we have designed a technology-forward, streamlined, efficient, cost effective, and highly scalable operating model.

Our new operating model is one of several major initiatives that will have a significant impact on our ability to drive better results. Internally, we refer to this multi-year effort as Project Reimagine because we set out to push the boundaries of what we thought was possible and to challenge conventional thinking and legacy procedures. Thus far, we have defined our go-forward technology strategy, reshaped our human resource program and identified the optimal staffing model for each phase of our growth,

designed a brand that supports our transformation and resident-focused strategy, and laid the groundwork to internalize property-level residential operations. We are in the process of implementing our core technology platform and plan to launch our new brand and to begin to assume property-level operations later this year.

Following the complete internalization of property-level operations and enhancements to our operating platform, we expect to realize significant benefits which will improve our value proposition for our resident and our shareholders. By delivering better services at mid-market prices for our residents, we will earn their trust as an operator and be positioned to drive stronger revenue. As we grow our portfolio and optimize our expense base, we will generate operating leverage which should translate to above-market earnings growth.

ESG Impact

We believe that investing in our people, residents, and communities, while mitigating our impact on the environment, are key pillars to long-term shareholder value creation. With Project Reimagine, we have an opportunity to further embed environmental, social,

and governance (ESG) values into every aspect of our business, and to redefine our short-term and long-term impact goals for a newly focused multifamily company.

While our company has been well-known for years for its achievements within the environmental aspect of ESG, our impact goals for 2022 and beyond are expanding to be more inclusive of all aspects of ESG, including the socioeconomic impact of our communities, holistic health and wellness of our employees and residents, inclusivity and belonging within our workforce, and both the potential physical and transitional risks of climate change on our assets as the world looks to a carbon-free economy over the next few decades.

While many of our impact goals are evolving from years prior, our commitment to prioritizing the ESG activities that deliver the most impactful results for our stakeholders remains strong. As we look forward, we are focused on using resources responsibly, reducing risk, adding value to our residential communities, and fostering a positive and equitable workplace for our employees.

Diversity, Equity, Inclusion, and Belonging Initiatives

As a multifamily company dedicated to elevating the standard for value living and supporting the overall wellbeing of our residents and employees, our goal of fostering diverse, equitable, and inclusive workplaces and residential communities is critical to our mission. This includes seeking a deep understanding of the current state of our company and communities by consistently listening and gathering insights on the experience and needs of employees and residents and adapting our strategies and deliverables to meet those needs.

In 2020, we established the WashREIT Diversity, Equity, Inclusion and Belonging (DEIB) Council to oversee diversity and inclusion initiatives. Since then, we have developed and implemented a robust targeted recruitment effort, defined our baseline and targets with a diversity and equity audit, launched a Diversity Learning Journey Series, and established a company-wide diversity and inclusion training program in partnership with a diversity consultant. In 2022, we will build upon these efforts with continued and focused communications, training, and programming as we transition our property management function in house and onboard our property-based employees.

Net Zero Carbon Emission

This past year, our impact goal for carbon reduction has been expanded and heightened, including beyond our assets themselves. In 2021, we made a commitment to achieve net zero carbon operations in alignment with the ULI Greenprint Net

Zero by 2050 framework. This commitment serves as confirmation that reducing our carbon emissions will be fully integrated into our strategic decisions across functions throughout our portfolio transformation and beyond. We are taking a deliberate and rigorous process to set our interim reduction targets and identify the carbon reduction strategies necessary to support these targets.

Leadership in Environmental Impact

Mitigating energy, water, waste, and greenhouse gas emissions is an essential part of effective and efficient property management. For the value-oriented multifamily sector, which has often lacked investment

in sustainability and efficiency opportunities, we are proud to say that we are raising the bar for sustainability advancement. In 2021, we achieved the first ever BREEAM Certification for the multifamily industry within the U.S., and thus paved a new path for delivering superior efficiency and sustainability performance in our sector.

Beyond the achievement of the certifications necessary to fulfill our 2020 Green Bond allocation requirements, we obtained BREEAM certifications for all the properties in the Assembly portfolio which was acquired in 2019 (a total of eight properties). Additionally, we continue to incorporate industry best practices for sustainable design and construction in all new development projects, as evidenced by our LEED Silver certification for Trove.

As we continue our portfolio transformation, these achievements highlight our commitment to bring all our properties, including both new acquisitions and new developments, up to WashREIT's standard for delivering superior efficiency and sustainability performance for our residents.

Enterprise Risk Management

As we undergo a transformation to our portfolio and our company, it is critical that we have full visibility of the various risks posed to our portfolio and our organization. Therefore, we have implemented the processes necessary to evaluate the physical and transition climate change risks of both our existing assets and all new acquisitions. Just as important as assessing the risks is managing them, and to do so we have fully integrated climate change risks into our existing Enterprise Risk Management program. This ensures that these topics receive the rigorous level of executive and board level oversight necessary to properly address their potential impacts.

Outlook for 2022 and Beyond

Considering our outlook as we move further into 2022, we are building momentum that will carry over into the years ahead. Our Atlanta acquisitions are outperforming our initial expectations and are positioned for strong rent growth driven by outsized job and wage growth and in-migration. Our Washington Metro apartment communities are benefitting from historically high occupancy and retention and the strongest lease rate growth momentum that we have seen in 20 years.

As we look ahead, we are focused on continuing our geographic expansion, pursuing opportunities to further de-risk our portfolio, capturing both the significant market rent growth that has already occurred plus additional outsized market rent growth that is expected to occur over the course of the year, executing value-add renovations, standing up our new operating model and integrating our core technology platform, and internalizing property-level residential operations.

We believe that our research-driven strategy will produce outsized growth over time and that over the long term we can significantly enhance shareholder value by delivering a superior customer experience that elevates the standard for value living. We are excited for the year ahead and the growth that is to come and we look forward keeping you updated on our progress.

Thank you for your continued trust and support.

ITEM 1: BUSINESS

WashREIT Overview

Washington Real Estate Investment Trust (“WashREIT”) is a self-administered equity real estate investment trust (“REIT”). We own apartment communities in the greater Washington, DC metro and Southeast regions. While we previously owned a combination of commercial and residential assets, we disposed of all but one of our commercial assets (a 300,000 square foot office building in Washington, DC) in 2021. These commercial assets are classified as discontinued operations as of December 31, 2021.

Our focus is to generate returns and maximize shareholder value by providing quality, affordably priced housing to what we believe to be an underserved middle-income market. Our apartment communities fall within the following strategies among broader asset classes, as determined by a variety of factors, including the age of our buildings, rent growth drivers and rent relative to the market:

Class A

- Class A communities are recently developed and command rental rates well above market median rents.
- Class A- communities have been developed within the past twenty years and feature operational improvements and unit upgrades and command rents at or above median market rents.

Class B

- Class B Value-Add communities are over twenty years old but feature operational improvements and strong potential for unit renovations. These communities command average rental rates below median market rents for units that have not been renovated.
- Class B communities are over twenty years old, feature operational improvements and command average rental rates below median market rents. Near-term rent growth is driven by operational improvements and market rent growth without unit renovations. These communities can become Class B Value-Add depending on future market rents and renovation opportunities.

These strategies enable us to provide the best combination of value, quality and resident experience in our apartment communities.

Our Target Regional Real Estate Markets ⁽¹⁾

While we have historically focused our investments in the greater Washington, DC metro region, we began expanding into the Southeast region in 2021. Our targeted expansion markets include Atlanta, Georgia, Raleigh/Durham, North Carolina, and Charlotte, North Carolina. In 2021, we acquired two apartment communities in the Atlanta metro region and expect to continue to invest in the Southeast region in the coming years.

Washington, DC metro region

In 2021, the apartment market in the Washington, DC metro region began its recovery from the pandemic-induced weakness observed in the prior year. Overall market occupancy increased by 230 basis points year-over-year to 97.1% as of December 31, 2021. In 2022, overall market occupancy for the Washington, DC metro region is expected to remain near 97%. The higher occupancy in 2021 resulted in strong rent growth, with a 4.5% increase in the third quarter of 2021 from the third quarter of the prior year, the first year-over-year increase since the first quarter of 2020. This was followed by an 8.8% annual increase in the fourth quarter of 2021 from the fourth quarter of the prior year. All product classes saw growth in 2021, with Class B and Class A units registering 10.5% and 9.1% annual growth, respectively.

Rental rate growth is expected to continue in 2022 due to continued job growth and household formation that is expected to be partially offset by the delivery of new units.

Atlanta metro region

The apartment market in the Atlanta metro region was one of the best-performing markets in the country during 2021, as evidenced by the increase in occupancy and rent growth, with continued economic recovery and in-migration leading to strong

apartment demand. Occupancy increased by 150 basis points year-over-year to 97.0% and Class A and Class B units recorded annual growth of 22.9% and 24.3%, respectively, compared to 2020.

Rental rate growth is expected to continue in 2022, although at levels below the record growth of 2021. Job growth is expected to normalize to approximately 80,000 jobs in 2022, maintaining strong demand even as deliveries of new units in the Atlanta metro region increase over the limited deliveries in 2021 compared to previous years.

Raleigh/Durham and Charlotte metro regions

The apartment markets in the Raleigh/Durham and Charlotte metro regions have also been strong, with annual rent increases of 20.6% and 18.6%, respectively, compared to 2020. While there is strong construction activity in these markets, economic growth and favorable in-migration patterns are expected to support continued rental rate growth in 2022. Occupancy in the Raleigh/Durham market increased by 210 basis points to 97.2% compared to 2020, while occupancy in Charlotte increased 150 basis points to 97.1% compared to 2020.

Rent growth and occupancy are expected to continue in 2022, ranking in the upper quartile of major U.S. cities.

⁽¹⁾ The source of the data in this section is RealPage Market Analytics

Our Portfolio

As of December 31, 2021, we owned approximately 7,800 residential apartment homes in the Washington, DC metro and Southeast regions. We also owned and operated approximately 300,000 square feet of commercial space in the Washington, DC metro region. The percentage of total real estate rental revenue from continuing operations by property type for the three years ended December 31, 2021, and the average occupancy for the year ended December 31, 2021, were as follows:

Average Occupancy, year ended December 31, 2021		% of Total Real Estate Rental Revenue		
		2021	2020	2019
93%	Residential	89 %	82 %	71 %
89%	Other	11 %	18 %	29 %
		100 %	100 %	100 %

Total real estate rental revenue from continuing operations for each of the three years ended December 31, 2021, was \$169.2 million, \$176.0 million and \$176.7 million, respectively. During the three years ended December 31, 2021, we acquired eleven residential properties and substantially completed major construction activities at one residential development project. During that same period, we sold sixteen retail properties and seventeen office properties. See note 13 to the consolidated financial statements for further discussion of our operating results by segment.

No single tenant accounted for more than 5% of real estate rental revenue from continuing operations in any of the three years ended December 31, 2021.

We enter into arrangements from time to time by which various service providers conduct day-to-day property management and/or leasing activities at our properties. Bozzuto Management Company ("Bozzuto") and Greystar Real Estate Partners ("Greystar") currently provide property management and leasing services at our residential properties. Bozzuto and Greystar provide such services under individual property management agreements for each property, each of which is separately terminable by us or Bozzuto/Greystar, as applicable. Although they vary by property, on average, the fees charged by the service provider under each agreement are approximately 3% of revenues at each property. Our future plans are to perform day-to-day property management and leasing activities at our apartment communities internally rather than outsource those activities. Under our current project plan, the insourcing process will begin during 2022 and is expected to be completed in 2023.

Investment Strategy

We expect to continue investing in additional income-producing apartment communities through acquisitions, development, redevelopment and possible joint ventures based on our research-focused investment strategy. We are focused on investing in economies with diverse, innovative industries that we believe will benefit from outsized job creation, wage growth and in-migration in the years to come. Our strategies focus on middle-income renters and mid-range rental price points who make up the largest share of apartment demand in each of our current and target markets. We seek Class B communities priced below market midpoints and Class A- communities that do not compete with new supply to increase the opportunity to grow rents. We target acquisition opportunities that offer more robust NOI growth prospects during the first three years of ownership than our

same-store portfolio. Our research-focused approach enables us to craft optimal strategies to create value from assets, from renovation scoping to disposition timing. We tailor our renovation programs to each submarket, target renter group and individual community to provide an improved yet affordable living experience while enhancing shareholder value. We invest in communities where we believe we can enhance the operating results and increase the community's value. Our communities typically compete for residents and tenants with other communities based on location, quality and rental rates.

We make capital improvements to our properties on an ongoing basis for the purpose of maintaining and increasing their value and income. Major improvements and/or renovations to the properties during the three years ended December 31, 2021 are discussed in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, under the heading "Capital Improvements and Development Costs."

Further description of the properties is contained in Item 2, Properties, and note 13 to the consolidated financial statements, Segment Information, and in Schedule III. Reference is also made to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations.

Human Capital

Employees, Training and Development

On February 16, 2022, we had 53 employees engaged in corporate, financial, asset management and other functions. All of our officers, and substantially all of our employees live and work in or near the greater Washington, DC metro region.

Our human capital resources objectives include identifying, recruiting, retaining, incentivizing and integrating our new and existing employees. At WashREIT, we place great value on employee growth through goals, feedback and professional and leadership development offerings. Our human resources team provides ongoing training and development opportunities to all employees. We financially support employees pursuing industry-specific training and certification programs and we encourage employees to join professional organizations that offer technical, soft skill and leadership development workshops.

We survey our employees regularly on a variety of topics including strategic initiatives, employee engagement, diversity, town hall meetings, community service and other topics and incorporate the feedback to ensure our programs and initiatives are best serving employee needs.

Additionally, our equity and cash incentive plans are designed to attract, retain and reward our workforce through the granting of stock-based and cash-based compensation awards, with the goal of motivating employees to perform to the best of their abilities and achieve our objectives, including increasing stockholder value.

Health, Safety and Well-being

We support our employees with a robust and competitive employee benefits program, including a flexible vacation policy, parental leave, 401(k) matching, tuition reimbursement, an Employee Assistance Program, and other programs.

Additionally, we have a wellness program that provides fun, engaging challenges to encourage employees to continuously improve their physical, mental, and financial well-being. Some of the programs we offer throughout the year include biometric screenings, personal finance check-ups, and healthy lunch challenges. In our corporate office, we offer two wellness rooms for employees to take a break to decompress.

Our technological capabilities allow our employees the flexibility to work from anywhere at any time. This allows us to easily meet our tenants' needs as well as those of our employees, which has been especially important during the COVID-19 pandemic.

Diversity and Inclusion

WashREIT's Diversity, Equity, Inclusion, and Belonging Initiative ("DEIB") is a long-term commitment to promoting an environment where each individual feels comfortable being their most authentic selves. We believe diversity of backgrounds, experiences, cultures, ethnicities, and interests leads to new ways of thinking and drives engagement and organizational success. Our diverse DEIB Council is overseen by WashREIT's senior leadership team and board of trustees. The DEIB Council tracks and monitors our diversity metrics and facilitates learning and training opportunities, including a diversity speaker series, targeted recruitment and relationship development with diverse industry groups for internships and employment opportunities and partnering with community-based non-profits for volunteer activities.

Community Engagement

As a real estate investment trust, investing is at the core of what we do, but the most valuable investments we make are not in our buildings but in our people and our community. We are passionate about making a difference in the regions we call home.

We are committed to improving the lives of those in need, and our employees participate in a wide variety of philanthropic activities throughout the year. Whether volunteering at a food bank, running a toy drive, walking for a cause, or participating in our company-wide community service day, we are proud to foster a culture of giving back.

Regulation

REIT Tax Status

We believe that we qualify as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the "Code"), and intend to continue to qualify as such. To maintain our status as a REIT, we are, among other things required to distribute 90% of our REIT taxable income (determined before the deduction for dividends paid and excluding net capital gains), to our shareholders on an annual basis. When selling a property, we generally have the option of (a) reinvesting the sales proceeds of property sold, in a way that allows us to defer recognition of some or all of the taxable gain realized on the sale, (b) distributing gains to the shareholders with no tax to us or (c) treating net long-term capital gains as having been distributed to our shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to our shareholders.

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed taxable income and taxes on the income generated by our taxable REIT subsidiaries. Our taxable REIT subsidiaries are subject to corporate U.S. federal, state and local income tax on their taxable income at regular statutory rates (see note 1 to the consolidated financial statements for further disclosure).

Americans with Disabilities Act ("ADA")

The properties in our portfolio must comply with Title III of the ADA, to the extent that such properties are "public accommodations" as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. We believe that our properties are in substantial compliance with the ADA and that we will not be required to make substantial capital expenditures to address the requirements of the ADA. However, noncompliance with the ADA could result in imposition of fines or an award of damages to private litigants. The obligation to make readily accessible accommodations is an ongoing one, and we will continue to assess our properties and make alterations as appropriate in this respect.

Fair Housing Act ("FHA")

The FHA, its state law counterparts and the regulations promulgated by the U.S. Department of Housing and Urban Development and various state agencies, prohibit discrimination in housing on the basis of race or color, national origin, religion, sex, familial status (including children under the age of 18 living with parents or legal custodians, pregnant women and people securing custody of children under 18) or handicap (disability) and, in some states, financial capability or other bases. A failure to comply with these laws in our operations could result in litigation, fines, penalties or other adverse claims, or could result in limitations or restrictions on our ability to operate, any of which could materially and adversely affect us. We believe that we operate our properties in substantial compliance with the FHA.

Environmental Matters

We are subject to numerous federal, state and local environmental, health, safety and zoning laws and regulations that govern our operations, including with respect to air emissions, wastewater, and the use, storage and disposal of hazardous and toxic substances and petroleum products. If we fail to comply with such laws, including if we fail to obtain any required permits or licenses, we could face substantial fines or possible revocation of our authority to conduct some of our operations.

In addition, under various federal, state and local laws and regulations relating to the environment, as a current or former owner or operator of real property, we may be liable for costs and damages resulting from the presence or discharge of hazardous or toxic substances, waste or petroleum products at, on, in, under, or migrating from such property, including costs to investigate and clean up such contamination and liability for natural resources damage. In addition, we also may be liable for the costs of

remediating contamination at off-site waste disposal facilities to which we have arranged for the disposal or treatment of hazardous substances, without regard to whether we complied with environmental laws in doing so. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such contamination, and the liability may be joint and several. These liabilities could be substantial and the cost of any required remediation, removal, fines, or other costs could exceed the value of the property and/or our aggregate assets. In addition, the presence of contamination or the failure to remediate contamination at our properties may expose us to third-party liability for costs of remediation and/or bodily injury or property damage or materially adversely affect our ability to sell, lease or develop our properties or to borrow using the properties as collateral. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. Moreover, if contamination is discovered on our properties, environmental laws may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures.

As part of our overall commitment to environmental, social, and governance (“ESG”) practices, we aim to transform environmentally- and socially-responsible strategies into sustainable actions that deliver value to our residents, tenants, shareholders, and communities. Because we are committed to the efficient and sustainable operation of our properties for the entire lifespan of ownership, we have established programs to reduce energy, greenhouse gases, water and waste. These practices include enrolling all of our residential properties with Bright Power Energy Score Cards, replacing old appliances with ENERGY STAR rated equipment and updating water fixtures to low-flow options as units are renovated. We are pairing upgraded LED lighting fixtures with occupancy sensors and daylighting controls, creating partnerships to collect and transport materials for composting and adding donation boxes to facilitate the reuse of durable goods. We are installing chargers for electric vehicles and bike storage facilities for commuters.

We track annual asset-level performance of energy use, greenhouse gas emissions, and waste diversion. Over the past several years we have demonstrated continual progress in achieving reductions. We publish an annual sustainability report that is aligned with the Sustainability Accounting Standards Board and includes the organization’s approach to managing climate risk in alignment with the Task Force on Climate-Related Financial Disclosures. This report can be found online at <https://www.washreit.com/sustainability-copy/>. The reference to our website address does not constitute incorporation by reference of the information contained in the website and such information should not be considered part of this document. In 2021, we announced our commitment to net zero carbon operation in alignment with the Urban Land Institute’s Greenprint Net Zero by 2050 Goal. Meeting this goal will require that we fully integrate a focus on carbon reductions into our strategic approach and at all levels of our organization throughout our portfolio transformation. As a first step toward this goal, we are reevaluating the appropriate interim energy and greenhouse gas emissions targets in support of this long-term objective.

Availability of Reports

Copies of this Annual Report on Form 10-K, as well as our Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to such reports are available, free of charge, on our website www.washreit.com. All required reports are made available on the website as soon as reasonably practicable after they are electronically filed with or furnished to the Securities and Exchange Commission. The reference to our website address does not constitute incorporation by reference of the information contained in the website and such information should not be considered part of this document.

The Securities and Exchange Commission maintains a website (<http://www.sec.gov>) that contains reports, proxy statements, information statements, and other information regarding issuers that file electronically with Securities and Exchange Commission.

ITEM 1A: RISK FACTORS

Set forth below are the risks that we believe are material to our shareholders. We refer to the shares of beneficial interest in WashREIT as our “common shares,” and the investors who own shares as our “shareholders.” This section includes or refers to certain forward-looking statements. You should refer to the explanation of the qualifications and limitations on such forward-looking statements beginning on page 43.

Risks Related to our Business and Operations

We may be unable to successfully expand our operations into new markets and submarkets, which could have a material adverse effect on us, the trading price of our stock and our ability to make distributions to our shareholders.

In connection with our strategic transformation, we intend to expand our residential platform through acquisitions in Southeastern markets. Our current targeted expansion markets include Atlanta, Georgia, Raleigh/Durham, North Carolina, and Charlotte, North Carolina. During 2021, we acquired two apartment communities in the Atlanta metro region and plan to continue to invest in the Southeast region in 2022 and beyond. However, our historic operations have been concentrated in the Washington DC, metro region, where we have expertise in acquiring and operating assets. The risks applicable to our ability to acquire, integrate and operate apartment communities in the Washington DC, metro region are also applicable to our ability to acquire, integrate and operate apartment communities in new markets. In addition to these risks, we will not possess the same level of familiarity with the dynamics and market conditions of any new markets that we may enter, which could adversely affect our ability to expand and success in expanding into those markets. Furthermore, we may be unable to build a significant market share or achieve a desired return on our investments in new markets. The occurrence of any of the foregoing risks could have a material adverse effect on us, the trading price of our stock and our ability to make distributions to our shareholders.

Our performance and value are subject to risks associated with our apartment communities and with the real estate industry, which could adversely affect our cash flow and ability to make distributions to our shareholders.

Our financial performance and the value of our apartment communities are subject to the risk that they do not generate revenues sufficient to meet our operating expenses, debt service and capital expenditures, which could cause our cash flow and ability to make distributions to our shareholders to be adversely affected. Any of the following factors, among others, may adversely affect the cash flow generated by our apartment communities and ability to make distributions to our shareholders:

- a decrease in demand for rental properties over home ownership resulting from, among other reasons, resident preferences, decreases in housing prices and mortgage interest rates, and government programs to promote home ownership or subsidize rental housing, slow or negative employment growth and household formation;
- competition with other housing alternatives, including owner occupied single and residential apartment homes;
- the availability of low-interest mortgages or the availability of mortgages requiring little or no down payment for single family home buyers;
- declines in the financial condition of our tenants;
- significant job losses in the regions in which we operate;
- economic and market conditions including: migration to areas outside of major metropolitan areas where our portfolio is concentrated, new construction and excess inventory of residential and owned housing/condominiums, increasing portions of owned housing/condominium stock being converted to rental use;
- our ability to integrate new technological innovations into our properties to attract residents; and
- political conditions, civil disturbances, earthquakes and other natural disasters, terrorist acts or acts of war and actual or anticipated geopolitical instability.

Each of these factors could possibly limit our ability to retain our current residents, attract new ones or increase or maintain rents, which could lower the value of our properties and adversely affect our results of operations and our financial condition.

Additionally, complying with the REIT requirements may cause us to forgo and/or liquidate otherwise attractive investments. These actions could have the effect of reducing our income and amount available for distribution to shareholders. Thus, compliance with the REIT requirements may hinder our ability to make, or, in certain cases, maintain ownership of, certain attractive investments.

Lastly, in addition, a significant economic downturn over a period of time could result in an event or change in circumstances that results in an impairment in the value of our properties. An impairment loss is recognized if the carrying amount of the asset is not recoverable over its expected holding period and exceeds its fair value.

We are currently dependent upon the economic and regulatory climate of the Washington, DC metro region, which may impact our profitability and may limit our ability to meet our financial obligations when due and/or make distributions to our shareholders.

While we are implementing a strategy of expanding into markets in the Southeast region, as of December 31, 2021, 91% of our residential apartment homes were located in the Washington, DC metro region and such concentration may expose us to a greater amount of market dependent risk than if we were more geographically diverse. General economic conditions and local real estate conditions in the Washington, DC metro region are dependent upon various industries that are predominant in our area (such as government and professional/business services). A downturn in one or more of these industries may have a particularly strong effect on the economic climate of the region. Additionally, we are susceptible to adverse developments in the Washington, D.C. regulatory environment, such as increases in real estate and other taxes, the costs of complying with governmental regulations or increased regulations and actual or threatened reductions in federal government spending and/or changes to the timing of government spending, as has occurred during federal government shutdowns. In general, our properties are concentrated in dense urban and suburban submarkets, and to the extent that these markets become less desirable to operate in, including changes in residential housing supply and demand, our results of operations could be more negatively impacted than if we were more diversified within our markets. In the event of negative economic and/or regulatory changes in the regions in which we operate, we may experience a negative impact to our profitability and may be limited in our ability to meet our financial obligations when due and/or make distributions to our shareholders.

Short-term leases expose us to the effects of declining market rents, which could adversely affect our cash flow, results of operations and financial condition.

Substantially all of our apartment leases are for a term of one year or less. Because these leases generally permit the residents to leave at the end of the lease term without penalty, our rental revenues are impacted by declines in market rents more quickly than if our apartment leases were for longer terms. Additionally, if the terms of a renewal or reletting are less favorable than current terms, then our results of operations and financial condition could be negatively affected. For each of the three years ended December 31, 2021, the same store residential resident retention rate was 60%, 57%, and 55%, respectively.

The risks related to our commercial operations could adversely impact our results of operations and financial condition.

Although we are primarily in the residential rental business, we also own ancillary commercial space, primarily within our apartment communities, and own one office building that we lease to third parties. Gross rental revenue provided by leased commercial space in our portfolio represented 11% of our real estate rental revenue from continuing operations in 2021. The long term nature of our commercial leases and characteristics of many of our tenants (small, local businesses) may subject us to certain risks, such as difficulties or delays in reletting this commercial space and in achieving desired rental rates, the cost of allowances and concessions to tenants, which may be less favorable than current terms, a failure rate of small, local business that may be higher than average and competition with other commercial spaces, which may affect our ability to lease space and the level of rents we can obtain. Additionally, if our commercial tenants experience financial distress or bankruptcy, they may fail to comply with their contractual obligations, seek concessions in order to continue operations or cease their operations. Each of these factors could adversely impact our results of operations and financial condition.

Real estate investments are illiquid, and we may not be able to sell our properties on a timely basis when we determine it is appropriate to do so, which could negatively impact our profitability.

Real estate investments can be difficult to sell and convert to cash quickly, especially if market conditions are not favorable. Such illiquidity could limit our ability to quickly change our portfolio of properties in response to changes in economic or other conditions. Moreover, the REIT tax laws require that we hold our properties for investment, rather than primarily for sale in the ordinary course of business, which may cause us to forego or defer property sales that otherwise would be in our best interest. Due to these factors, we may be unable to sell a property at an advantageous time or on the terms anticipated which could negatively impact our profitability.

Rent control or rent stabilization legislation and other regulatory restrictions may limit our ability to increase rents and pass through new or increased operating costs to our residents.

Jurisdictions in the Washington, DC metro region have adopted laws and regulations imposing restrictions on the timing or amount of rent increases or have imposed regulations relating to low- and moderate-income housing. Such laws and regulations limit our ability to charge market rents, increase rents or evict residents at our apartment communities and could make it more

difficult for us to dispose of properties in certain circumstances. Similarly, compliance procedures associated with rent control statutes and low- and moderate-income housing regulations could have a negative impact on our operating costs, and any failure to comply with low- and moderate-income housing regulations could result in the loss of certain tax benefits and the forfeiture of rent payments. In addition, such low- and moderate-income housing regulations often require us to rent a certain number of homes at below-market rents, which has a negative impact on our ability to increase cash flows from our residential properties subject to such regulations. Furthermore, such regulations may negatively impact our ability to attract higher-paying residents to such properties. As of December 31, 2021, four of our residential properties, each located within the Washington, DC metro region, were subject to such regulations.

Our business and reputation depend on our ability to continue to provide high quality housing and consistent operation of our communities, the failure of which could adversely affect our business, financial condition and results of operations.

Our business and reputation depend on providing our residents with quality housing including a wide variety of amenities such as covered parking, swimming pools, fitness facilities and similar features, highly reliable services, including water and electric power and the consistent operation of our communities. The delayed delivery or any material reduction or prolonged interruption of these services may cause residents to terminate their leases or may result in a reduction of rents and/or increase in our costs or other issues. In addition, we may fail to provide quality housing and continuous access to amenities, including government mandated closures due to health concerns, mechanical failure, power outage, human error, vandalism, physical or electronic security breaches, war, terrorism and similar events. Additionally, residents may choose not to use such facilities or amenities as a result of social distancing recommendations during the COVID-19 pandemic or for other reasons, which may cause our communities to become less appealing to such residents. Such service interruptions, closures, mechanical failures or other events may also expose us to additional liability claims and damage our reputation and brand and could cause current residents to terminate or not renew their leases, and prospective residents to seek housing elsewhere. Any such failures could impair our ability to continue providing quality housing and consistent operation of our communities, which could adversely affect our business, financial condition and results of operations.

We face risks associated with property development/redevelopment, which could have an adverse effect on our financial condition, results of operations or ability to satisfy our debt service obligations.

We may, from time to time, engage in development and redevelopment activities, some of which may be significant. Developing or redeveloping properties presents a number of risks for us, including risks relating to necessary permitting, risks relating to development and construction costs and/or permanent financing, environmental remediation, timeline disruptions and demand for the completed property.

Properties developed or acquired for development may generate little or no cash flow from the date of acquisition through the date of completion of development. In addition, new development activities, regardless of whether or not they are ultimately successful, may require a substantial portion of management's time and attention.

These risks could result in substantial unanticipated delays or expenses and, under certain circumstances, could prevent completion of development activities once undertaken. Some of these development/redevelopment risks may be heightened given current uncertain and potentially volatile market conditions. If market volatility causes economic conditions to remain unpredictable or to trend downwards, we may not achieve our expected returns on properties under development and we could lose some or all of our investments in those properties. In addition, the lead time required to develop, construct, and lease-up a development property may increase, which could adversely impact our projected returns or result in a termination of the development project. The materialization of any of the foregoing risks could have an adverse effect on our financial condition, results of operations or ability to satisfy our debt service obligations.

Corporate social responsibility, specifically related to Environmental, Social and Governance ("ESG"), may constrain our business operations, impose additional costs and expose us to new risks that could adversely impact our results of operations and financial condition and the price of our securities.

Sustainability, social and governance matters have become increasingly important to investors and other stakeholders. Certain organizations that provide corporate risk and corporate governance advisory services to investors have developed scores and ratings to evaluate companies based upon ESG metrics. Many investors focus on ESG-related business practices and scores when choosing where to allocate their investments and may consider a company's score as a factor in making an investment decision. The focus and activism related to ESG and related matters may constrain our business operations or increase expenses. Additionally, if our corporate responsibility procedures or standards do not meet the standards set by various constituencies, we may face reputational damage. While we have generally scored highly in these metrics to date, there can be no assurance that we will continue to do so in the future, particularly since the criteria by which companies are rated for their ESG efforts may change, which could cause us to receive lower scores than in previous years. A low ESG score could result in a negative perception of the Company, exclusion of our securities from consideration by certain investors and/or cause investors

to reallocate their capital away from the Company, each of which could have an adverse impact on the price of our securities.

We face risks associated with property acquisitions.

We may acquire properties and expand into new markets which would increase our size and geographic diversity and could alter our capital structure. In addition, our acquisition activities and results may be exposed to the following risks:

- we may have difficulty finding properties that are consistent with our strategies and meet our standards;
- we may be unable to finance acquisitions on favorable terms or at all;
- the occupancy levels, lease-up timing and rental rates of acquired properties may not meet our expectations;
- even if we enter into an acquisition agreement for a property, we may be unable to complete that acquisition after making a non-refundable deposit and incurring certain other acquisition-related costs;
- we may be unable to acquire a desired property at all or at the desired purchase price because of competition from other real estate investors, including publicly traded real estate investment trusts, institutional investment funds and private investors;
- the timing of property acquisitions may lag the timing of property dispositions, leading to periods of time where projects' proceeds are not invested as profitably as we desire;
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations;
- we may assume liabilities for undisclosed environmental contamination;
- our estimates of capital expenditures required for an acquired property, including the costs of repositioning or redeveloping, may be inaccurate and the acquired properties may fail to perform as we expected in analyzing our investments; and
- we could experience a decline in value of the acquired assets after acquisition.

We may also acquire properties subject to liabilities and without recourse, or with limited recourse with respect to unknown liabilities. As a result, if liability were asserted against us based upon the acquisition of a property, we may have to pay substantial sums to settle it, which could adversely affect our cash flow.

We face risks associated with third-party service providers, which could negatively impact our profitability.

We enter into arrangements from time to time with various service providers which conduct day-to-day property management and/or leasing activities at our apartment communities. Currently, all of our apartment communities are managed by third-party service providers. Failure of such service providers to adequately perform their contracted services could negatively impact our ability to retain residents or lease vacant space. As a result, any such failure could negatively impact our profitability.

We may suffer economic harm as a result of the actions of our partners in real estate joint ventures and other investments which may adversely affect our operations.

While we currently have no interests in joint ventures, we may from time to time invest in joint ventures in which we are not the exclusive investor or the only decision maker. Investments in such entities may involve risks not present when a third party is not involved, including the possibility that the other parties to these investments might become bankrupt or fail to fund their share of required capital contributions, and we may be forced to make contributions to maintain the value of the property. Our partners in these entities may have economic, tax or other business interests or goals that are inconsistent with our business interests or goals and may be in a position to take actions contrary to our policies or objectives. Such investments may also lead to impasses, for example, as to whether to sell a property, because neither we nor the other parties to these investments may have full control over the entity. In addition, we may in certain circumstances be liable for the actions of the other parties to these investments. Each of these factors could have an adverse effect on our financial condition, results of operations, cash flows and ability to make distributions to our shareholders. In some instances, joint venture partners may have competing interests that could create conflicts of interest. These conflicts may include compliance with the REIT requirements, and our REIT status could be jeopardized if any of our joint ventures do not operate in compliance with the REIT requirements. To the extent our joint venture partners do not meet their obligations to us or they take action inconsistent with our interests in the joint venture, we may be adversely affected.

Climate change and regulation regarding climate change in the regions in which we operate, particularly in the Washington, DC metro region currently, may adversely affect our financial condition, results of operations, cash flows, per share market price of our common shares and our ability to satisfy our principal and interest obligations and to make distributions to our shareholders.

All of our properties are located on the East Coast. Climate change (including rising sea levels, flooding, extreme weather, and changes in precipitation and temperature), may result in physical damage to, a decrease in demand for and/or a decrease in rent from and value of our properties located in the areas affected by these conditions. Additionally, our insurance premiums may increase as a result of the threat of climate change or the effects of climate change may not be covered by our insurance policies.

Changes in U.S. federal and state legislation and regulations on climate change could result in utility expenses and/or capital expenditures to improve the energy efficiency of our existing properties or other related aspects of our properties in order to comply with such regulations or otherwise adapt to climate change. Specifically, the District of Columbia, Arlington County, Virginia, Fairfax County, Virginia, and Montgomery County, Maryland have made formal public commitments to carbon reduction. To enforce this commitment in Washington, D.C., the Washington, D.C. City Council passed the DC Clean Energy Omnibus Amendment Act of 2018. The bill requires that all electricity purchased in Washington, D.C. be renewable by 2032 and sets a building energy performance standard requiring certain buildings to meet certain minimum energy efficiency standards. Under Washington D.C.'s Building Energy Performance Standards, all existing buildings over 50,000 square feet were required to reach minimum levels of energy efficiency or deliver savings by 2027, with progressively smaller buildings phasing into compliance over the following years. This regulation may require unplanned capital improvements, and increased engagement to manage occupant energy use, which is a large driver of building performance. If our properties cannot meet performance standards, they risk fines for non-compliance, as well as a decrease in demand and a decline in value. As a result of these and other regulations in the Washington, DC metro region and the markets into which we intend to expand pursuant to the strategic transformation, our financial condition, results of operations, cash flows, per share market price of our common shares and our ability to satisfy our principal and interest obligations and to make distributions to our shareholders could be adversely affected.

Actual or threatened terrorist attacks may adversely affect our ability to generate revenues and the value of our properties.

The majority of the properties in our portfolio are located in or near Washington, D.C., a metropolitan area that has been and may in the future be the target of actual or threatened terrorism attacks. As a result, some residents in our market may choose to relocate to other markets. This could result in an overall decrease in the demand for this market generally, which could increase vacancies or impact rental rates in our properties. In addition, future terrorist attacks in or near Washington, D.C. could directly or indirectly damage such properties, both physically and financially, or cause losses that materially exceed our insurance coverage. As a result of the foregoing, our ability to generate revenues and the value of our properties could decline materially which would negatively affect our results of operations.

Some potential losses are not covered by insurance, which could adversely affect our financial condition or cash flow.

We carry insurance coverage on our properties of types and in amounts that we believe are in line with coverage customarily obtained by owners of similar properties. We believe all of our properties are adequately insured. The property insurance that we maintain for our properties has historically been on an "all risk" basis, which is in full force and effect until renewal in March 2022 or August 2022, depending on the property. There are other types of losses, such as from wars or catastrophic events, for which we cannot obtain insurance at all or at a reasonable cost.

We carry insurance policies on terms and in amounts we consider commercially reasonable. However, it does not cover terrorist related activities except certain non-certified nuclear, chemical and biological acts of terrorism. Our financial condition and results of operations are subject to the risks associated with acts of terrorism and the potential for uninsured losses as the result of any such acts.

Property ownership also involves potential liability to third parties for such matters as personal injuries occurring on the property. Such losses may not be fully insured. In addition to uninsured losses, various government authorities may condemn all or parts of operating properties. Such condemnations could adversely affect the viability of such projects. Any such uninsured loss could adversely affect our financial condition or cash flow.

In the event of an uninsured loss or a loss in excess of our insurance limits, we could lose both the revenues generated from the affected property and the capital we have invested in the affected property. Depending on the specific circumstances of the affected property, it is possible that we could be liable for any mortgage indebtedness or other obligations related to the

property. Any such loss could adversely affect our business and financial condition and results of operations. Additionally, any material increase in insurance rates or decrease in available coverage in the future could adversely affect our results of operations and financial condition.

Certain federal, state and local laws and regulations may cause us to incur substantial costs or subject us to potential liabilities.

We are subject to certain compliance costs and potential liabilities under various U.S. federal, state and local environmental, health, safety and zoning laws and regulations. These laws and regulations govern our and our tenants' operations including with respect to air emissions, wastewater disposal, and the use, storage and disposal of hazardous and toxic substances and petroleum products, including in storage tanks that power emergency generators. If we fail to comply with such laws, including if we fail to obtain any required permits or licenses, we could face substantial fines or possible revocation of our authority to conduct some of our operations.

In addition, various environmental laws impose liability on a current or former owner or operator of real property for investigation, removal or remediation of hazardous or toxic substances or petroleum products at our currently or formerly owned or leased real property, regardless of whether or not we knew of, or caused, the presence or release of such substances. Liability under these laws may be joint and several, meaning that we could be required to bear 100% of the liability even if other parties are also liable. From time to time, we may be required to remediate such substances or remove, abate or manage asbestos, mold, radon gas, lead or other hazardous conditions at our properties. The presence or release of such toxic or hazardous substances or petroleum products at our currently owned or leased properties could result in limitations on or interruptions to our operations, and releases at our currently or formerly owned or leased properties could result in third-party claims for bodily injury, property or natural resource damages, or other losses, including liens in favor of the government for costs the government incurs in cleaning up contamination. In addition, we may be liable for the costs of investigating or remediating contamination at off-site waste disposal facilities to which we have arranged for the disposal, or treatment of hazardous substances without regard to whether we complied with environmental laws in doing so. It is our policy to retain independent environmental consultants to conduct Phase I environmental site assessments and asbestos surveys prior to our acquisition of properties. However, there is a risk that these assessments will not identify all potential environmental issues at a given property. Moreover, environmental, health and safety requirements have become increasingly stringent, and our costs may increase as a result. New or revised laws and regulations or new interpretations of existing laws and regulations, such as those related to climate change, could affect the operation of our properties or result in significant additional expense and operating restrictions on our properties or adversely affect our ability to sell properties or to use properties as collateral.

We may also incur significant costs complying with other regulations. In addition, failure of our properties to comply with the Americans with Disabilities Act ("ADA") could result in injunctive relief, fines, an award of damages to private litigants or mandated capital expenditures to remedy such noncompliance. Any imposition of injunctive relief, fines, damage awards or capital expenditures could adversely impact our business or results of operations. Our properties are subject to various other federal, state and local regulatory requirements, such as state and local fair housing, rent control and fire and life safety requirements. If we fail to comply with the requirements of the ADA or other federal, state and local regulations, we could be subject to fines, penalties, injunctive action, reputational harm and other business effects which could materially and negatively affect our performance and results of operations.

We face cybersecurity risks which have the potential to disrupt our operations, cause material harm to our financial condition, result in misappropriation of assets, compromise confidential information and/or damage our business relationships and can provide no assurance that the steps we and our service providers take in response to these risks will be effective.

Despite system redundancy, the implementation of security measures, required employee awareness training and the existence of a disaster recovery plan, we face cybersecurity risks, such as cyber-attacks, ransomware and other malware, social engineering, phishing schemes or bad actors inside our organization. The risk of a security breach, disruption, or cyber-attack, including by computer hackers, nation-state affiliated actors and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks around the world have increased. These incidents may result in disruption of our operations, material harm to our financial condition, cash flows and the market price of our common shares, misappropriation of assets, compromise or corruption of confidential information collected in the course of conducting our business, liability for stolen information or assets, increased cybersecurity protection and insurance costs, regulatory enforcement, litigation and damage to our stakeholder relationships. These risks require increasing resources from us to analyze and mitigate, and there is no assurance that our efforts will be effective. Additionally, we rely on third-party service providers in our conduct of our business and we can provide no assurance that the security measures of those providers will be effective.

In the normal course of business, we and our service providers collect and retain certain personal information provided by our residents, employees and vendors. Although we make efforts to maintain the security and integrity of our information, we can

provide no assurance that our data security measures will be able to prevent unauthorized access to this personal information. In addition to the risks discussed above related to a breach of confidential information, a breach of personal information may result in regulatory fines and orders, obligations to notify individuals or litigation risks.

Risks Related to the novel coronavirus (COVID-19)

The current outbreak of COVID-19, and the resulting volatility it has created, has disrupted our business and we expect that the COVID-19 pandemic will significantly and adversely impact our business, financial condition and results of operations going forward, and other potential pandemics or outbreaks could materially adversely affect our business, financial condition, results of operations and cash flows in the future. Further, the spread of the COVID-19 outbreak has caused severe disruptions in the U.S. and global economy and financial markets and could potentially create widespread business continuity issues of an unknown magnitude and duration.

The COVID-19 pandemic has had, and COVID-19, any mutation or variant thereof, and any future pandemic will continue to have repercussions across regional and global economies and financial markets. The global impact of the outbreak has been rapidly evolving, and many countries, including the United States (specifically the states and cities that comprise the Washington, DC metro region, where we own the majority of our properties and have development sites and the Southeast regions, into which we intend to expand pursuant to the strategic transformation), have at times also instituted quarantines, shelter-in-place rules, and restrictions on travel, the types of business that may continue to operate, and/or the types of construction projects that may continue. As a result, the COVID-19 pandemic is directly and indirectly negatively impacting most industries both inside and outside the markets in which we currently operate and intend to expand into. Jurisdictions in the Washington, DC metro and Southeast regions have implemented or may implement rent freezes or other similar restrictions. The full extent of the impact on our business is largely uncertain and dependent on a number of factors beyond our control, including a potential increase in the number of cases in the Washington, DC metro and Southeast regions, as a result of this year's flu season or otherwise.

The COVID-19 outbreak has caused and continues to cause severe disruptions in the U.S. and global economy and financial markets and could potentially create widespread business continuity issues of an as yet unknown magnitude and duration, including supply chain disruptions and increased inflation. COVID-19 has disrupted our business and is expected to continue to have a significant adverse effect on our business, financial performance and condition, operating results and cash flows due to, among other factors:

- a decrease in real estate rental revenue (our primary source of operating cash flow), as a result of temporary rent increase freezes impacting new and renewal rental rates on residential properties;
- the inability of our third-party service providers to adequately perform their property management and/or leasing activities at our properties due to decreased on-site staff or other COVID-19-related challenges;
- the financial impact of the COVID-19 pandemic could negatively impact our future compliance with financial covenants of debt agreements;
- a decline in the market value of real estate in the regions in which we operate may result in the carrying value of certain real estate assets exceeding their fair value, which may require us to recognize an impairment to those assets;
- future delays in the supply of products, services or liquidity may negatively impact our ability to complete the development, redevelopment, renovations and lease-up of our properties on schedule or for their original estimated cost;
- increased inflation, which may increase labor or other costs to maintain our properties, and increased sanitation and hygiene requirements;
- a general decline in business activity and demand for real estate transactions could adversely affect our ability or desire to grow or diversify our residential portfolio;
- unanticipated costs and operating expenses and decreased anticipated and actual revenue related to compliance with regulations, such as additional expenses related to staff working remotely, requirements to provide employees with additional mandatory paid time off and increased expenses related to sanitation measures performed at each of our properties, as well as additional expenses incurred to protect the welfare of our employees, such as expanded access to health services;
- shifts in consumer housing demand based on geography, affordability, housing type (e.g. multi-family vs. single-family) and unit type (e.g. studio vs. multi-bedroom), mainly resulting from the paradigm shift of work culture, the decentralization of corporate headquarters and the success of “work from home” models;
- the potential for our employees, particularly our key personnel and property management teams, to become sick with COVID-19 which could adversely affect our business; and
- complying with REIT requirements during a period of reduced cash flow could cause us to liquidate otherwise

attractive investments or borrow funds on unfavorable conditions.

The significance, extent and duration of the impact of COVID-19 remains largely uncertain and dependent on future developments that cannot be accurately predicted at this time, such as a potential increase in cases in the Washington, DC metro and Southeast regions, the continued severity, duration, transmission rate and geographic spread of COVID-19, the extent and effectiveness of the containment measures taken, the timing, effectiveness and availability of vaccines and the willingness of people to take the vaccines and the response of the overall economy, the financial markets and the population, once the current containment measures are lifted.

The ongoing volatility of this situation may limit our ability to make predictions as to the ultimate adverse impact of COVID-19 on us. As a result, we cannot provide an estimate of the overall impact of the COVID-19 pandemic on our business or when, or if, we will be able to resume normal operations. Nevertheless, COVID-19 presents material uncertainty and risk with respect to our business, financial performance and condition, operating results and cash flows.

Risks Related to Financing

We face risks associated with the use of debt, including refinancing risk.

We rely on borrowings under our credit facility, mortgage notes, and debt securities to finance acquisitions and development activities and for general corporate purposes. In the past, the commercial real estate debt markets have experienced significant volatility due to a number of factors, including the tightening of underwriting standards by lenders and credit rating agencies and the reported significant inventory of unsold mortgage-backed securities in the market. This volatility resulted in investors decreasing the availability of debt financing as well as increasing the cost of debt financing. These conditions, which increase the cost and reduce availability of debt, may continue to worsen in the future. Circumstances could again arise in which we may not be able to obtain debt financing in the future on favorable terms, or at all. If we were unable to borrow under our credit facility or to refinance existing debt financing, our financial condition and results of operations would likely be adversely affected. Similarly, global equity markets have experienced significant price volatility and liquidity disruptions in recent years, and similar circumstances could significantly and negatively impact liquidity in the financial market in the future. Any disruption could negatively impact our ability to access additional financing at reasonable terms or at all.

We anticipate that only a small portion of the principal of our currently outstanding debt will be repaid prior to maturity. Therefore, we are likely to need to refinance a significant portion of our outstanding debt as it matures. There is a risk that we may not be able to refinance existing debt or that the terms of any refinancing will not be as favorable as the terms of the existing debt. If principal payments due at maturity cannot be refinanced, extended or repaid with proceeds from other sources, such as new equity capital, our cash flow may not be sufficient to repay all maturing debt in years when significant “balloon” payments come due. In addition, we may rely on debt to fund a portion of our new investments such as our acquisition and development activity. There is a risk that we may be unable to finance these activities on favorable terms or at all. The materialization of any of the foregoing risks would adversely affect our financial condition and results of operations.

Our degree of leverage could limit our ability to obtain additional financing, affect the market price of our common shares or debt securities or otherwise adversely affect our financial condition.

On February 16, 2022, our total consolidated debt was approximately \$0.5 billion. Using the closing share price of \$24.54 per share of our common shares on February 16, 2022, multiplied by the number of our common shares, our consolidated debt to total consolidated market capitalization ratio was approximately 19% as of February 16, 2022.

Our degree of leverage could affect our ability to obtain additional financing for working capital, capital expenditures, acquisitions, development or other general corporate purposes. Our senior unsecured debt is currently rated investment grade by two major rating agencies. However, there can be no assurance that we will be able to maintain this rating, and in the event our senior debt is downgraded from its current rating, we would likely incur higher borrowing costs and/or difficulty in obtaining additional financing. Our degree of leverage could also make us more vulnerable to a downturn in business or the economy generally. There is a risk that changes in our debt to market capitalization ratio, which is in part a function of our share price, or our ratio of indebtedness to other measures of asset value used by financial analysts, may have an adverse effect on the market price of our equity or debt securities.

Additionally, payments of principal and interest on borrowings may leave us with insufficient cash resources to operate our properties, fully implement our capital expenditure, acquisition and redevelopment activities, or meet the REIT distribution requirements imposed by the Code.

Failure to effectively hedge against interest rate changes may adversely affect our financial condition, results of operations, cash flow, per share market price of our common shares and ability to make distributions to our shareholders and agreements we enter into to protect us from rising interest rates expose us to counterparty risk.

We have entered into, and may in the future enter into, hedging transactions to protect ourselves from the effects of interest rate fluctuations on variable rate debt. Our hedging transactions have included, and may in the future include, entering into agreements such as interest rate swaps, caps, floors and other interest rate exchange contracts. These agreements involve risks, such as the risk that such arrangements would not be effective in reducing our exposure to interest rate changes or that a court could rule that such an agreement is not legally enforceable. In addition, interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates. Failure to hedge effectively against interest rate changes could materially adversely affect our financial condition, results of operations, cash flow, per share trading price of our common shares and ability to make distributions to our shareholders. While such agreements are intended to lessen the impact of rising interest rates on us, they could also expose us to the risk that the other parties to the agreements would not perform, and that the hedging arrangements may not be effective in reducing our exposure to interest rate changes. In addition, the REIT provisions of the Code may limit use of certain hedging techniques that might otherwise be advantageous or push us to implement those hedges through a taxable REIT subsidiary, which would increase the cost of our hedging activities. Moreover, there can be no assurance that our hedging arrangements will qualify as highly effective cash flow hedges under Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC") Topic 815, *Derivatives and Hedging*, or that our hedging activities will have the desired beneficial impact on our results of operations. Should we desire to terminate a hedging agreement, there could be significant costs and cash requirements involved to fulfill our obligation under the hedging agreement.

The future of the reference rate used in our existing floating rate debt instruments and hedging arrangements is uncertain, which could hinder our ability to maintain effective hedges and could adversely impact our business operations and financial results.

Our floating-rate debt and certain hedging transactions determine the applicable interest rate or payment amount by reference to a benchmark rate, such as the London Interbank Offered Rate ("LIBOR") as calculated for the U.S. dollar ("USD-LIBOR"), or to another financial metric. As of December 31, 2021, we had approximately \$100.0 million of debt outstanding that was indexed to LIBOR.

In July 2017, the United Kingdom regulator that oversees LIBOR announced its intention to phase out LIBOR rates by the end of 2021, indicating that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. In April 2018, the New York Federal Reserve commenced publishing an alternative reference rate to LIBOR, as calculated for the U.S. dollar ("USD-LIBOR"), the Secured Overnight Financing Rate ("SOFR"), proposed by a group of major market participants convened by the U.S. Federal Reserve with participation by SEC Staff and other regulators.

On November 30, 2020, the United Kingdom regulator announced its intentions, subject to confirmation following an early December consultation, to cease the publication of the one week and two month USD-LIBOR immediately following the December 31, 2021 publications, and the remaining USD-LIBOR tenors immediately following the June 30, 2023 publications.

Despite progress made to date by regulators and industry participants to prepare for the anticipated discontinuation of LIBOR, significant uncertainties still remain. Such uncertainties relate to, for example, whether LIBOR will continue to be viewed as an acceptable market benchmark rate, what rate or rates may become accepted alternatives to LIBOR (for example, various characteristics of SOFR make it uncertain whether it would be viewed by market participants as an appropriate alternative to USD-LIBOR for certain purposes), how any replacement would be implemented across the industry, and the effect any changes in industry views or movement to alternative benchmarks would have on the markets for LIBOR-linked financial instruments.

We can provide no assurance regarding the future of LIBOR and when our current floating rate debt instruments and hedging arrangements that refer to LIBOR will transition from LIBOR as a reference rate to SOFR or another reference rate. The discontinuation of a benchmark rate or other financial metric, changes in a benchmark rate or other financial metric, or changes in market perceptions of the acceptability of a benchmark rate or other financial metric, including LIBOR, could, among other things result in increased interest payments, changes to our risk exposures, or require renegotiation of previous transactions. In addition, any such discontinuation or changes, whether actual or anticipated, could result in market volatility, adverse tax or accounting effects, increased compliance, legal and operational costs, and risks associated with contract negotiations. In addition, confusion related to the transition from USD-LIBOR to SOFR or another replacement reference rate for our floating debt and hedging instruments could have an uncertain economic effect on these instruments, hinder our ability to establish effective hedges and result in a different economic value over time for these instruments than they otherwise would have had under USD-LIBOR.

Covenants in our debt agreements could adversely affect our financial condition.

Our credit facility and other debt instruments contain customary restrictions, requirements and other limitations on our ability to incur indebtedness. We must maintain certain ratios, including a maximum of total indebtedness to total asset value, a maximum of secured indebtedness to total asset value, a minimum of quarterly adjusted EBITDA to fixed charges and a maximum of unsecured indebtedness to unencumbered pool value. Our ability to borrow under our credit facility is subject to compliance with our financial and other covenants.

Failure to comply with any of the covenants under our unsecured credit facility or other debt instruments (including our indenture and our notes purchase agreement) could result in a default under one or more of our debt instruments. If we fail to comply with the covenants in our unsecured credit facility or other debt instruments, other sources of capital may not be available to us or be available only on unattractive terms. In addition, if we breach covenants in our debt agreements, the lenders can declare a default and, if the debt is secured, take possession of the property securing the defaulted loan.

Any default or cross-default events could cause our lenders to accelerate the timing of payments and/or prohibit future borrowings, either of which would have a material adverse effect on our business, operations, financial condition and liquidity.

Risks Related to Our Organizational Structure

Our charter and Maryland law contain provisions that may delay, defer or prevent a change in control of WashREIT, even if such a change in control may be in the best interest of our shareholders, and as a result may depress the market price of our common shares.

Provisions of the Maryland General Corporation Law ("MGCL") may limit a change in control which could prevent holders of our common shares from profiting as a result of such change in control. These provisions include:

- a provision where a corporation is not permitted to engage in any business combination with any "interested stockholder," defined as any holder or affiliate of any holder of 10% or more of the corporation's stock, for a period of five years after that holder becomes an "interested stockholder," and
- a provision where the voting rights of "control shares" acquired in a "control share acquisition," as defined in the MGCL, may be restricted, such that the "control shares" have no voting rights, except to the extent approved by a vote of holders of two-thirds of the common shares entitled to vote on the matter.

Our bylaws currently provide that the foregoing provision regarding "control share acquisitions" will not apply to any acquisition by any person of shares of beneficial interest of WashREIT. However, our board of trustees could, in the future, modify our bylaws such that the foregoing provision regarding "control share acquisitions" would be applicable to WashREIT.

Additionally, Title 8, Subtitle 3 of the MGCL permits our board of trustees, without shareholder approval and regardless of what is currently provided in our declaration of trust or bylaws, to implement certain takeover defenses. These provisions may have the effect of inhibiting a third party from making an acquisition proposal for us or of delaying, deferring or preventing a change in control of us under the circumstances that otherwise could provide our common shareholders with the opportunity to realize a premium over the then current market price.

The stock ownership limits imposed by the Code for REITs and imposed by our charter may restrict our business combination opportunities that might involve a premium price for our common shares or otherwise be in the best interest of our shareholders.

The ownership of our shares must be restricted in several ways in order for us to maintain our qualification as a REIT under the Code. Our charter provides that no person (other than an excepted holder, as defined in our charter) may actually or constructively own more than 9.8% of the aggregate of our outstanding common shares by value or by number of shares, whichever is more restrictive, or 9.8% of the aggregate of the equity shares by value.

Our board of trustees has the authority under our charter to reduce these share ownership limits. Our board of trustees may, in its sole discretion, grant exemptions to the share ownership limits, subject to such conditions and the receipt by our board of trustees of certain representations and undertakings to ensure that our REIT qualification is not adversely affected. In addition to 9.8% (or any lower future percentage) share ownership limits, our charter also prohibits any person from (a) beneficially or constructively owning, as determined by applying certain attribution rules of the Code, our equity shares that would result in us being "closely held" under Section 856(h) of the Code (regardless of whether the interest is held during the last half of a taxable

year) or that would otherwise cause us to fail to qualify as a REIT, or (b) transferring equity shares if such transfer would result in our equity shares being owned by fewer than 100 persons.

The share ownership limits contained in our charter are based on the ownership at any time by any “person,” which term includes entities and certain groups. The share ownership limitations in our charter are common in REIT charters and are intended to provide added assurance of compliance with the tax law requirements. However, the share ownership limits on our shares and our enforcement of them might delay, defer, prevent, or otherwise inhibit a transaction or a change in control of WashREIT, including a transaction that might involve a premium price for our common shares or that might otherwise be in the best interest of our shareholders.

Our rights and the rights of our shareholders to take action against our trustees and officers are limited, which could limit your recourse in the event of actions that you do not believe are in your best interests.

Maryland law provides that a trustee has no liability in that capacity if he or she satisfies his or her duties to us and our shareholders. Under current Maryland law, our trustees and officers will not have any liability to us or our shareholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- a final judgment based upon a finding of active and deliberate dishonesty by the trustee or officer that was material to the cause of action adjudicated.

In addition, our charter authorizes and our bylaws require us to indemnify our trustees for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws also require us to indemnify our officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. As a result, we and our shareholders may have more limited rights against our trustees and officers than might otherwise exist. Accordingly, in the event that actions taken in good faith by any of our trustees or officers impede the performance of WashREIT, your ability to recover damages from such trustees or officers will be limited with respect to trustees and may be limited with respect to officers. In addition, we will be obligated to advance the defense costs incurred by our trustees and our executive officers, and may, in the discretion of our board of trustees, advance the defense costs incurred by our officers, our employees and other agents, in connection with legal proceedings.

Risks Related to Our Common Shares

We cannot assure you we will continue to pay dividends at current rates and the failure to do so could have an adverse effect on the market price of our common shares.

Cash flows from operations are an important factor in our ability to sustain our dividend at its current rate. If our cash flows from operations were to decline significantly, we may have to borrow on our lines of credit to sustain the dividend rate or reduce our dividend. Our ability to continue to pay dividends on our common shares at their current rate or to increase our common share dividend rate will depend on a number of factors, including, among others, our future financial condition and results of operations and the terms of our debt covenants.

Our board of trustees considers, among other factors, trends in our levels of funds from operations, together with associated recurring capital improvements, tenant improvements, leasing commissions and incentives, and adjustments to straight-line rents to reflect cash rents received to achieve a targeted payout ratio. If some or all of these factors were to trend downward for a sustained period of time, our board of trustees could determine to reduce our dividend rate. If we do not maintain or increase the dividend rate on our common shares in the future, it could have an adverse effect on the market price of our common shares.

Additionally, the market value of our securities can be adversely affected by many factors, including certain factors related to our REIT status.

The market value of our securities can be adversely affected by many factors.

As with any public company, a number of factors may adversely influence the public market price of our common shares. These factors include:

- level of institutional interest in us;
- perceived attractiveness of investment in us, in comparison to other REITs;
- perceived attractiveness of the Washington, DC metro and Southeastern regions;

- attractiveness of securities of REITs in comparison to other asset classes taking into account, among other things, that a substantial portion of REITs' dividends may be taxed as ordinary income;
- our financial condition and performance;
- the market's perception of our growth potential and potential future cash dividends;
- investor confidence in the stock and bond markets generally;
- national economic conditions and general stock and bond market conditions;
- government uncertainty, action or regulation;
- increases in market interest rates, which may lead investors to expect a higher annual yield from our distributions in relation to the price of our shares;
- uncertainty around and changes in U.S. federal tax laws;
- changes in our credit ratings; and
- any negative change in the level of our dividend or the partial payment thereof in common shares.

Risks Related to Taxes and our Status as a REIT

The loss of our tax status as a REIT would have significant adverse consequences to us and the value of our common shares.

We believe that we qualify as a REIT, and we intend to continue to operate in a manner that will allow us to continue to qualify as a REIT. However, our charter provides that our board of trustees may revoke or otherwise terminate our REIT election, without the approval of our shareholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. Furthermore, we cannot assure you that we are qualified as a REIT, or that we will remain qualified as a REIT in the future. This is because qualification as a REIT involves the application of highly technical and complex provisions of the Code which include maintaining ownership of specified minimum levels of real estate-related assets, generating specified minimum levels of real estate-related income, maintaining certain diversity of ownership requirements with respect to our shares and distributing at least 90% of our "REIT taxable income" (determined before the deduction for dividends paid and excluding net capital gains) on an annual basis. Moreover, the complexity of these provisions and of applicable treasury regulations is greater in the case of a REIT that, like us, holds some of its assets through entities treated as partnerships for U.S. federal income tax purposes.

Only limited judicial and administrative interpretations of the REIT rules exist. In addition, qualification as a REIT involves the determination of various factual matters and circumstances not entirely within our control.

If we fail to qualify as a REIT, we could face serious tax consequences that could substantially reduce our funds available for payment of dividends for each of the years involved because:

- (i) we would be subject to U.S. federal income tax at the regular corporate rate, without any deduction for dividends paid to shareholders in computing our taxable income, and possibly increased state and local taxes; and
- (ii) unless we are entitled to relief under statutory provisions, we would be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost.

This treatment would reduce net earnings available for investment or distribution to shareholders because of the additional tax liability for the year (or years) involved. To the extent that distributions to shareholders had been made based on the assumption of our qualification as a REIT, we might be required to borrow funds or to liquidate certain of our investments to pay the applicable tax. As a result of these factors, our failure to qualify as a REIT could have a material adverse impact on our results of operations, financial condition and liquidity. If we fail to qualify as a REIT but are eligible for certain relief provisions, then we may retain our status as a REIT but may be required to pay a penalty tax, which could be substantial.

Dividends payable by REITs do not qualify for the reduced tax rates available for some dividends.

The maximum tax rate applicable to income from "qualified dividends" payable by non-REIT C corporations to U.S. shareholders that are individuals, trusts or estates generally is 20% (excluding the 3.8% net investment income tax). Dividends payable by REITs, however, generally are not eligible for the maximum 20% reduced rate and are taxed at applicable ordinary income tax rates, except to the extent that certain holding requirements have been met and a REIT's dividends are attributable to dividends received by a REIT from taxable corporations (such as a taxable REIT subsidiary), to income that was subject to tax at the REIT/corporate level, or to dividends properly designated by the REIT as "capital gain dividends." For taxable years beginning before January 1, 2026, U.S. shareholders that are individuals, trusts or estates may deduct 20% of their dividends from REITs (excluding qualified dividend income and capital gains dividends). For those U.S. shareholders in the top marginal tax bracket of 37%, the deduction for REIT dividends yields an effective income tax rate of 29.6% (excluding the net investment income tax) on REIT dividends, which is higher than the 20% tax rate on qualified dividend income paid by non-REIT C corporations (although the maximum effective rate applicable to such dividends, after taking into account the 21% U.S.

federal income tax rate applicable to non-REIT C corporations is 36.8% (excluding the 3.8% net investment income tax)). Although the reduced rates applicable to dividend income from non-REIT C corporations do not adversely affect the taxation of REITs or dividends payable by REITs, these reduced rates could cause investors who are non-corporate taxpayers to perceive investments in REITs to be relatively less attractive than investments in the shares of non-REIT C corporations that pay dividends, which could adversely affect the value of the stock of REITs, including our common shares.

The REIT distribution requirements could require us to borrow funds during unfavorable market conditions or subject us to tax, which would reduce the cash available for distribution to our shareholders.

In order to qualify as a REIT, we generally must distribute to our shareholders, on an annual basis, at least 90% of our "REIT taxable income," determined without regard to the deduction for dividends paid and excluding net capital gains. In addition, we will be subject to U.S. federal income tax at the regular corporate rate (currently 21%) to the extent that we distribute less than 100% of our net taxable income (including net capital gains) and will be subject to a 4% nondeductible excise tax on the amount by which our distributions in any calendar year are less than a minimum amount specified under U.S. federal income tax laws. We intend to continue to distribute our net income to our shareholders in a manner intended to satisfy the REIT 90% distribution requirement and to avoid U.S. federal income tax and the 4% nondeductible excise tax.

In addition, from time to time our taxable income may exceed our net income as determined by GAAP. This may occur, for instance, because realized capital losses are deducted in determining our GAAP net income but may not be deductible in computing our taxable income. In addition, we may incur nondeductible capital expenditures or be required to make debt or amortization payments. As a result of the foregoing, we may generate less cash flow than taxable income in a particular year and we may incur U.S. federal income tax and the 4% nondeductible excise tax on that income if we do not distribute such income to shareholders in that year. In that event, we may be required to (i) use cash reserves, (ii) incur debt at rates or times that we regard as unfavorable, (iii) sell assets in adverse market conditions, (iv) distribute amounts that would otherwise be invested in future acquisitions, capital expenditures or repayment of debt, or (v) make a taxable distribution of our shares as part of a distribution in which shareholders may elect to receive our shares or (subject to a limit measured as a percentage of the total distribution) cash in order to satisfy the REIT 90% distribution requirement and to avoid U.S. federal income tax and the 4% nondeductible excise tax in that year. These alternatives could increase our costs or reduce our equity. Thus, compliance with the REIT requirements may hinder our ability to grow, which could adversely affect our business, financial condition and results of operations.

Even if we qualify as a REIT, we may face other tax liabilities that reduce our cash flow.

Even if we qualify for taxation as a REIT, we may be subject to certain U.S. federal, state and local taxes on our income, property or net worth, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. Moreover, if we have net income from "prohibited transactions," that income will be subject to a 100% tax. The need to avoid prohibited transactions could cause us to forego or defer sales of properties that might otherwise be in our best interest to sell. In addition, we could, in certain circumstances, be required to pay an excise or penalty tax (which could be significant in amount) in order to utilize one or more relief provisions under the Code to maintain our qualification as a REIT. Any of these taxes would decrease cash available for the payment of our debt obligations and distributions to shareholders. Our taxable REIT subsidiaries (and any taxable REIT subsidiaries formed in the future) generally will be subject to U.S. federal, state and local corporate income tax on their taxable income. Moreover, while we will attempt to ensure that our dealings with our taxable REIT subsidiaries (and any taxable REIT subsidiaries formed in the future) do not adversely affect our REIT qualification, we cannot provide assurances that we will successfully achieve that result.

Partnership tax audit rules could have a material adverse effect on us.

Under current federal partnership tax audit rules, subject to certain exceptions, any audit adjustment to items of income, gain, loss, deduction, or credit of a partnership (and a partner's allocable share thereof) is determined, and taxes, interest, and penalties attributable thereto are assessed and collected, at the partnership level. With respect to any partnership in which we invest, unless such partnership makes an election or takes certain steps to require the partners to pay their tax on their allocable shares of the adjustment, it is possible that such partnership would be required to pay additional taxes, interest, and penalties as a result of an audit adjustment. We could be required to bear the economic burden of those taxes, interest, and penalties even though we, as a REIT, may not otherwise have been required to pay additional corporate-level taxes had we owned the assets of the partnership directly.

There is a risk of changes in the tax laws which may adversely affect our taxation as a REIT and taxation of our shareholders.

The IRS, the United States Treasury Department and Congress frequently review U.S. federal income tax legislation, regulations and other guidance. Most recently, numerous legislative, judicial and administrative changes have been made to the U.S. federal income tax laws in connection with the passage of the Tax Cuts and Jobs Act of 2017 and the Coronavirus Aid, Relief and Economic Security Act. We cannot predict whether, when or to what extent new U.S. federal tax laws, regulations, interpretations or rulings will be adopted. Further, from time to time, changes in state and local tax laws or regulations are enacted, which may result in an increase in our tax liability. Any legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect our taxation or taxation of our shareholders. We urge you to consult with your tax advisor with respect to the status of legislative, regulatory or administrative developments and proposals and their potential effect on an investment in our common shares.

ITEM 1B: UNRESOLVED STAFF COMMENTS

None.

ITEM 2: PROPERTIES

The schedule on the following pages lists our real estate investment portfolio as of December 31, 2021, which consisted of 25 properties and land held for development.

Cost information is included in Schedule III to our financial statements included in this Annual Report on Form 10-K.

Schedule of Properties

Properties	Location	Year Acquired	Year Constructed/ Renovated	# of Homes	Average Occupancy, year ended December 31, 2021	Ending Occupancy, as of December 31, 2021
Residential Properties						
Assembly Alexandria	Alexandria, VA	2019	1990	532	95.7 %	95.9 %
Cascade at Landmark	Alexandria, VA	2019	1988	277	95.1 %	96.8 %
Clayborne	Alexandria, VA	N/A	2008	74	96.9 %	97.3 %
Riverside Apartments	Alexandria, VA	2016	1971	1,222	94.8 %	95.3 %
Bennett Park	Arlington, VA	N/A	2007	224	96.4 %	96.4 %
Park Adams	Arlington, VA	1969	1959	200	95.6 %	95.5 %
The Maxwell	Arlington, VA	N/A	2014	163	96.1 %	96.3 %
The Paramount	Arlington, VA	2013	1984	135	96.2 %	95.6 %
The Wellington	Arlington, VA	2015	1960	711	95.1 %	96.3 %
Trove	Arlington, VA	N/A	2020	401	61.9 %	94.5 %
Roosevelt Towers	Falls Church, VA	1965	1964	191	96.0 %	94.8 %
Assembly Dulles	Herndon, VA	2019	2000	328	95.9 %	95.4 %
Assembly Herndon	Herndon, VA	2019	1991	283	95.1 %	95.8 %
Assembly Leesburg	Leesburg, VA	2019	1986	134	96.5 %	98.5 %
Assembly Manassas	Manassas, VA	2019	1986	408	95.6 %	95.3 %
The Ashby at McLean	McLean, VA	1996	1982	256	96.3 %	95.7 %
3801 Connecticut Avenue	Washington, D.C.	1963	1951	307	93.7 %	97.1 %
Kenmore Apartments	Washington, D.C.	2008	1948	374	92.3 %	94.9 %
Yale West	Washington, D.C.	2014	2011	216	95.3 %	96.3 %
Bethesda Hill Apartments	Bethesda, MD	1997	1986	195	95.7 %	95.9 %
Assembly Germantown	Germantown, MD	2019	1990	218	95.6 %	96.3 %
Assembly Watkins Mill	Gaithersburg, MD	2019	1975	210	96.8 %	98.6 %
Assembly Eagles Landing	Stockbridge, GA	2021	2000	490	96.1 %	95.7 %
The Oxford	Conyers, GA	2021	1999	240	93.0 %	95.0 %
Subtotal Residential Properties				7,789	93.4 %	95.8 %

Properties	Location	Year Acquired	Year Constructed/ Renovated	Net Rentable Square Feet	Percent Leased, as of December 31, 2021 ⁽¹⁾	Ending Occupancy, as of December 31, 2021 ⁽¹⁾
Office Building						
Watergate 600	Washington, D.C.	2017	1972/1997	295,000	92.4 %	91.3 %

⁽¹⁾ Percent leased and ending occupancy calculations are based on square feet and includes temporary lease agreements for Watergate 600. Percent leased is the percentage of net rentable area for which fully executed leases exist and may include signed leases for space not yet occupied by the tenant.

ITEM 3: LEGAL PROCEEDINGS

None.

ITEM 4: MINE SAFETY DISCLOSURES

None.

PART II

ITEM 5: MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market and Shareholder Information: Our shares trade on the New York Stock Exchange under the symbol WRE. As of February 16, 2022, there were 3,004 shareholders of record.

Issuer Repurchases; Unregistered Sales of Securities: A summary of our repurchases of shares of our common stock for the three months ended December 31, 2021 was as follows:

Issuer Purchases of Equity Securities				
Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet be Purchased
October 1 - October 31, 2021	—	\$ —	N/A	N/A
November 1 - November 30, 2021	—	—	N/A	N/A
December 1 - December 31, 2021	41,823	25.81	N/A	N/A
Total	41,823	25.81	N/A	N/A

⁽¹⁾ Represents restricted shares surrendered by employees to WashREIT to satisfy such employees' applicable statutory minimum tax withholding obligations in connection with the vesting of restricted shares.

Performance Graph:

The following line graph sets forth, for the period from December 31, 2016, through December 31, 2021, a comparison of the percentage change in the cumulative total stockholder return on our common stock compared to the cumulative total return of the Standard & Poor's 500 Stock Index and the MSCI US REIT Index. The graph assumes that \$100 was invested on December 31, 2016, in shares of our common stock and each of the aforementioned indices and that all dividends were reinvested without the payment of any commissions. There can be no assurance that the performance of our shares will continue in line with the same or similar trends depicted in the graph below.

Comparison of Five Year Cumulative Total Return

This performance graph shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934 or incorporated by reference into any filing by us under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

ITEM 6: RESERVED

ITEM 7: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We provide Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") in addition to the accompanying consolidated financial statements and notes to assist readers in understanding our results of operations and financial condition. We organize the MD&A as follows:

- *Overview.* Discussion of our business outlook, operating results, investment activity, financing activity and capital requirements to provide context for the remainder of MD&A.
- *Results of Operations.* Discussion of our financial results comparing 2021 to 2020 and 2020 to 2019.
- *Liquidity and Capital Resources.* Discussion of our financial condition and analysis of changes in our capital structure and cash flows.
- *Funds From Operations.* Calculation of NAREIT Funds From Operations ("NAREIT FFO"), a non-GAAP supplemental measure to net income.
- *Critical Accounting Estimates.* Descriptions of accounting policies that reflect significant judgments and estimates used in the preparation of our consolidated financial statements.

When evaluating our financial condition and operating performance, we focus on the following financial and non-financial indicators:

- *Net operating income ("NOI"),* calculated as set forth below under the caption "Results of Operations - Net Operating Income." NOI is a non-GAAP supplemental measure to net income.
- *Funds From Operations ("NAREIT FFO"),* calculated as set forth below under the caption "Funds from Operations." NAREIT FFO is a non-GAAP supplemental measure to net income.
- *Average occupancy,* calculated as average daily occupied apartment homes as a percentage of total apartment homes.

For purposes of evaluating comparative operating performance, we categorize our properties as "same-store" or "non-same-store". Same-store portfolio properties include properties that were owned for the entirety of the years being compared and exclude properties under redevelopment or development and properties acquired, sold or classified as held for sale during the years being compared. We define development properties as those for which we have planned or ongoing major construction activities on existing or acquired land pursuant to an authorized development plan. Development properties are categorized as same-store when they have reached stabilized occupancy (90%) before the start of the prior year. We define redevelopment properties as those for which we have planned or ongoing significant development and construction activities on existing or acquired buildings pursuant to an authorized plan, which has an impact on current operating results, occupancy and the ability to lease space with the intended result of a higher economic return on the property. We categorize a redevelopment property as same-store when redevelopment activities have been complete for the majority of each year being compared.

Overview

During the third quarter of 2021, we completed the sale of twelve office properties (the "Office Portfolio") (see note 3 to the consolidated financial statements) for a contract sale price of \$766.0 million. Also during the third quarter of 2021, we completed the sale of eight retail properties (the "Retail Portfolio") (see note 3 to the consolidated financial statements) for a contract sale price of \$168.3 million. Both the Office Portfolio and Retail Portfolio are classified as discontinued operations in our consolidated financial statements. The remaining office property, Watergate 600, does not meet the qualitative or quantitative criteria for a reportable segment (see note 13 to the consolidated financial statements).

The dispositions of our office and retail properties are part of a strategic shift away from the commercial sector to the residential sector, which simplifies our portfolio to one reportable segment (residential) (the "strategic transformation"). We have used and plan to continue using the net proceeds from the sales to fund the expansion of our residential platform through acquisitions in Southeastern markets and reduce our leverage by repaying outstanding debt. During the third and fourth quarters of 2021, we completed the acquisitions of two apartment communities in Georgia for contract purchase prices of \$48.0 million and \$106.0 million, respectively. The apartment communities have a combined total of 730 apartment homes. We believe the successful execution of this research-driven strategic shift will lead to greater, more sustainable growth.

In connection with this strategic transformation, we are redesigning our operating model for purposes of more efficiently and effectively supporting residential operations. This operating model redesign includes insourcing the property-level management

activities currently performed by third-party management companies. Costs related to the strategic transformation, including the allocation of internal costs, consulting, advisory and termination benefits, are included in Transformation costs on our consolidated statements of operations. We anticipate incurring approximately \$11.0 - \$13.0 million of transformation costs during 2022. We expect to realize significant operational benefits from this operating model redesign and complete its implementation in 2023.

COVID-19

On March 11, 2020, the World Health Organization declared COVID-19, a respiratory illness caused by a novel coronavirus, a pandemic, and on March 13, 2020, the United States declared a national emergency concerning COVID-19. The COVID-19 pandemic caused state and local governments within the Washington, DC metro and Southeast regions to institute quarantines, shelter-in-place rules and restrictions on travel, the types of business that may continue to operate and/or the types of construction projects that may continue.

While the COVID-19 pandemic impacted our operating results for the years ended December 31, 2021 and 2020, we experienced strong cash collections throughout the pandemic at our apartment communities. As of February 16, 2022, we collected 98% of cash rent at same-store communities during the fourth quarter of 2021. We saw an inflection point during the third quarter of 2021, as indicated by the improvement in blended effective lease rate growth, which increased 8.4% in the fourth quarter of 2021 compared to a decrease of 6.4% in the fourth quarter of 2020. Same-store average occupancy increased approximately 190 basis points during the fourth quarter of 2021 compared to the fourth quarter of 2020. We expect continued increases in rental rates and strong occupancy during 2022 as the market recovery continues.

New legislation was enacted to provide relief to businesses in response to the COVID-19 pandemic. We have evaluated and will continue to evaluate the relief options available, or that become available in the future, such as the Coronavirus Aid, Relief, and Economic Securities Act (“CARES Act”), or other emergency relief initiatives and stimulus packages instituted by the federal government. A number of the available relief options contain restrictions on future business activities that require careful evaluation and consideration, including the ability to repurchase shares and pay dividends. We will continue to assess these options and any subsequent legislation or other relief packages, including the accompanying restrictions on our business, as the pandemic continues to evolve. The legislation did not have a material impact on our results of operations for 2021 and 2020.

Selected Financial Data

The following table sets forth our selected financial data on a historical basis. The following data should be read in conjunction with our financial statements and notes thereto included elsewhere in this Form 10-K and this Management’s Discussion and Analysis of Financial Condition and Results of Operations.

	2021	2020	2019	2018	2017
	(in thousands, except per share data)				
Real estate rental revenue	\$ 169,151	\$ 176,004	\$ 176,748	\$ 163,154	\$ 178,568
Loss from continuing operations	\$ (53,140)	\$ (40,318)	\$ (4,253)	\$ (30,808)	\$ (29,567)
Discontinued operations:					
Income from operations of properties sold or held for sale	\$ 23,083	\$ 24,638	\$ 49,543	\$ 56,438	\$ 48,102
Gain on sale of real estate	\$ 46,441	\$ —	\$ 339,024	\$ —	\$ —

Cash dividends declared per share	\$ 0.94	\$ 1.20	\$ 1.20	\$ 1.20	\$ 1.20

Operating Results

The discussion that follows is based on our Operating Results. The ability to compare one period to another is significantly affected by the strategic transformation in 2021 and other acquisitions completed and dispositions made during those years (see note 3 to the consolidated financial statements).

Net income (loss), NOI and NAREIT FFO for the years ended December 31, 2021 and 2020 were as follows (in thousands, except percentage amounts):

	Year Ended December 31,		Change	% Change
	2021	2020		
Net income (loss)	\$ 16,384	\$ (15,680)	\$ 32,064	204.5 %
NOI ⁽¹⁾	\$ 108,369	\$ 113,022	\$ (4,653)	(4.1)%
NAREIT FFO ⁽²⁾	\$ 65,503	\$ 119,359	\$ (53,856)	(45.1)%

⁽¹⁾ See page 29 of the MD&A for reconciliations of NOI to net income.

⁽²⁾ See page 44 of the MD&A for reconciliations of NAREIT FFO to net income.

The increase in net income is primarily due to the change in net gain on sale of real estate (\$61.5 million), higher other income (\$4.1 million) and lower interest expense (\$3.2 million), partially offset by higher loss on extinguishment of debt (\$12.7 million), higher transformation costs (\$6.6 million), higher loss on interest rate derivatives (\$5.3 million), lower NOI (\$4.7 million), higher general and administrative expenses (\$3.6 million), higher depreciation and amortization expenses (\$2.3 million) and lower income from discontinued operations (\$1.6 million).

The lower NOI is primarily due to the sales of Monument II (\$3.7 million), 1227 25th Street (\$2.8 million) and John Marshall II (\$1.4 million) during 2020 and lower same-store NOI (\$1.7 million), partially offset by placing Trove, a residential development, into service starting in 2020 (\$3.3 million) and the acquisitions of The Oxford (\$0.8 million) and Assembly Eagles Landing (\$0.6 million) in 2021. Residential same-store average occupancy for our portfolio increased to 95.3% in 2021 from 94.5% in 2020 as occupancy increased across the portfolio due to recovery from the impact of the COVID-19 pandemic.

The lower NAREIT FFO is primarily due to lower income from discontinued operations, net of depreciation and amortization (\$28.3 million), higher loss on extinguishment of debt (\$12.7 million), higher transformation expenses (\$6.6 million), higher loss on interest rate derivatives (\$5.3 million), lower NOI (\$4.7 million) and higher general and administrative expenses (\$3.6 million). These were partially offset by higher other income (\$4.1 million) and lower interest expense (\$3.2 million).

Investment Activity

Significant investment transactions during 2021 included the following:

- The disposition of the Office Portfolio for a contract sales price of \$766.0 million. As a result of the transaction, we recognized a loss on sale of real estate of \$11.2 million.
- The disposition of the Retail Portfolio for a contract sales price of \$168.3 million. As a result of the transaction, we recognized a gain on sale of real estate of \$57.7 million.
- The acquisition of The Oxford, a 240-unit apartment community in Conyers, Georgia, for a contract purchase price of \$48.0 million.
- The acquisition of Assembly Eagles Landing, a 490-unit apartment community in Stockbridge, Georgia, for a contract purchase price of \$106.0 million.

Financing Activity

Significant financing transactions during 2021 included the following:

- We redeemed \$300.0 million of our Senior Notes due 2022 and repaid \$150.0 million of borrowings outstanding under the 2018 Term Loan. In conjunction with these repayments, we terminated five interest rate swaps (see note 7 to the consolidated financial statements).

- We entered into an amended and restated credit agreement which provides for a \$700.0 million unsecured revolving credit facility (“Revolving Credit Facility”). The Revolving Credit Facility has a four-year term ending in August 2025, with two six-month extension options. We recognized a \$0.2 million non-cash loss on extinguishment of debt related to the write-off of unamortized loan origination costs.
- We issued 1.6 million common shares at a weighted average price per share of \$25.44 for net proceeds of \$40.5 million through our at-the-market program. Subsequent to December 31, 2021, we issued an additional 1.0 million shares at a weighted average price per share of \$26.27 for net proceeds of \$26.9 million.

As of December 31, 2021, the interest rate on the \$700.0 million unsecured revolving credit facility was one-month LIBOR plus 0.85% and the facility fee was 0.20%. The LIBOR was 0.10% as of that date. As of February 16, 2022, we had no outstanding balance and a full borrowing capacity of \$700.0 million on our Revolving Credit Facility and \$151.6 million of cash on hand, primarily due to the proceeds from the Office Portfolio and Retail Portfolio sales.

Capital Requirements

We do not have any debt maturities scheduled during 2022. We expect to have additional capital requirements as set forth on page [37](#) (Liquidity and Capital Resources - Capital Requirements).

Results of Operations

The discussion that follows is based on our consolidated results of operations for the three years ended December 31, 2021. The ability to compare one period to another is significantly affected by the strategic transformation in 2021, including the resulting classification of certain assets as discontinued operations, and other acquisitions completed and dispositions made during those years (see note 3 to the consolidated financial statements). Our Results of Operations for 2020 Compared to 2019 have also been reclassified to reflect the strategic transformation in 2021, including the resulting classification of certain assets as discontinued operations, and other acquisitions completed and dispositions made during those years.

Net Operating Income

NOI, defined as real estate rental revenue less direct real estate operating expenses, is a non-GAAP measure. NOI is calculated as net income, less non-real estate revenue and the results of discontinued operations (including the gain or loss on sale, if any), plus interest expense, depreciation and amortization, lease origination expenses, general and administrative expenses, acquisition costs, real estate impairment, casualty gain and losses and gain or loss on extinguishment of debt. NOI does not include management expenses, which consist of corporate property management costs and property management fees paid to third parties. We believe that NOI is a useful performance measure because, when compared across periods, it reflects the impact on operations of trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results more closely related to a property’s results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. As a result of the foregoing, we provide NOI as a supplement to net income, calculated in accordance with GAAP. NOI does not represent net income or income from continuing operations calculated in accordance with GAAP. As such, NOI should not be considered an alternative to these measures as an indication of our operating performance. A reconciliation of NOI to net income follows.

2021 Compared to 2020

The following tables reconcile NOI to net income and provide the basis for our discussion of our consolidated results of operations and NOI in 2021 compared to 2020. All amounts are in thousands except percentage amounts.

	Year Ended December 31,			
	2021	2020	\$ Change	% Change
Residential revenue:

Discontinued operations ⁽⁶⁾:				
Income from operations of properties sold or held for sale	23,083	24,638	(1,555)	(6.3)%
Gain on sale of real estate, net	46,441	—	46,441	— %
Net income (loss)	<u>\$ 16,384</u>	<u>\$ (15,680)</u>	<u>\$ 32,064</u>	204.5 %

⁽¹⁾ Acquisitions:
2021: The Oxford, Assembly at Eagles Landing

⁽²⁾ Development/redevelopment:
Trove

⁽³⁾ Non-residential:
Includes revenues and expenses from retail operations at residential properties.

⁽⁴⁾ Sold (classified as continuing operations):
2020 Office - John Marshall II, Monument II and 1227 25th Street

(5) Other (classified as continuing operations)

Watergate 600

(6) Discontinued operations:

2021 Office - 1901 Pennsylvania Avenue, 515 King Street, 1220 19th Street, 1600 Wilson Boulevard, Silverline Center, Courthouse Square, 2000 M Street, 1140 Connecticut Avenue, Army Navy Club, 1775 Eye Street, Fairgate at Ballston and Arlington Tower

2021 Retail - Takoma Park, Westminster, Concord Centre, Chevy Chase Metro Plaza, 800 S. Washington Street, Randolph Shopping Center, Montrose Shopping Center and Spring Valley Village

Real Estate Rental Revenue

Real estate rental revenue from our apartment communities is comprised of (a) rent from operating leases of residential apartments with terms of approximately one year or less, recognized on a straight-line basis, (b) revenue from the recovery of operating expenses from our residents, (c) credit losses on lease related receivables, (d) revenue from leases of retail space at our apartment communities and (e) parking and other tenant charges.

Real estate rental revenue from same-store residential properties decreased \$1.6 million, or 1.1%, to \$141.3 million for 2021, compared to \$142.9 million for 2020, primarily due to higher rent abatements (\$1.3 million), lower rental income (\$1.1 million) and higher credit losses (\$0.3 million), partially offset by higher recoveries (\$0.5 million), lower waived one-time fees (\$0.3 million) due to COVID-19 concessions, higher move-in charges (\$0.2 million) and higher parking income (\$0.1 million).

Real estate rental revenue from acquisitions increased due to the acquisition of The Oxford (\$1.4 million) during the third quarter of 2021 and Assembly Eagles Landing (\$0.9 million) during the fourth quarter of 2021.

Real estate rental revenue from development properties increased due to the continued lease-up of the Trove development (\$5.0 million). We placed the remainder of the Trove development costs into service during the first quarter of 2021 and achieved stabilization during the fourth quarter of 2021.

Average occupancy for residential properties for 2021 and 2020 was as follows:

December 31, 2021			December 31, 2020			Increase		
Same-Store	Non-Same-Store	Total	Same-Store	Non-Same-Store	Total	Same-Store	Non-Same-Store	Total
95.3 %	71.0 %	93.4 %	94.5 %	13.0 %	89.9 %	0.8 %	58.0 %	3.5 %

The increase in same-store average occupancy was primarily due to higher average occupancy at The Paramount, 3801 Connecticut Avenue, Kenmore Apartments, The Maxwell, The Wellington, Park Adams, and Ashby at McLean. The increase in non-same-store average was primarily due to the lease-up of Trove, which was placed into service during the first quarter of 2020.

Real Estate Expenses

Residential real estate expenses as a percentage of residential revenue for 2021 and 2020 were 36.8% and 36.4%, respectively.

Real estate expenses from same-store residential properties increased \$0.1 million, or 0.2%, to \$51.1 million for 2021, compared to \$51.0 million for 2020, primarily due to higher expenses related to contract maintenance and supplies (\$0.5 million), utilities (\$0.4 million) and insurance (\$0.4 million) expenses, partially offset by lower real estate tax expenses (\$0.8 million), repairs and maintenance (\$0.2 million) and administrative (\$0.2 million) expenses.

Real estate expenses from development properties increased \$1.7 million due to the continued lease-up of the Trove development.

Other NOI

Other NOI classified as continuing operations decreased due to the sales of Monument II (\$3.7 million) and 1227 25th Street (\$2.8 million) during the fourth quarter of 2020 and the sale of John Marshall II (\$1.4 million) during the second quarter of 2020, partially offset by higher NOI at Watergate 600 (\$0.1 million).

Other Income and Expenses

Property management expenses: These expenses include costs directly related to the third-party management of property operations and corporate management and other costs.

General and administrative expenses: Increase primarily due to a higher short-term incentive compensation expense (\$2.5 million), higher deferred tax expense (\$0.5 million), higher office rent (\$0.5 million), higher share-based compensation expense (\$0.4 million) and higher corporate insurance expense (\$0.3 million), partially offset by lower legal fees (\$0.6 million).

Transformation costs: During 2021 we incurred \$6.6 million of costs related to the strategic transformation, including the allocation of internal costs, consulting, advisory and termination benefits.

Depreciation and amortization: Increase primarily due to placing into service the remainder of the Trove development (\$3.7 million), the acquisitions of The Oxford (\$1.8 million) and Assembly Eagles Landing (\$1.4 million) and higher depreciation and amortization at same store properties (\$0.4 million) and Watergate 600 (\$0.2 million). These increases were partially offset by the dispositions of Monument II (\$3.5 million) and 1227 25th Street (\$1.7 million) in the fourth quarter of 2020.

Loss on sale of real estate, net: The loss during 2020 was primarily due to losses on the sales of John Marshall II (\$6.9 million) and Monument II (\$8.6 million), partially offset by a gain on the sale of 1227 25th Street (\$1.1 million).

Interest Expense: Interest expense by debt type for the year ended December 31, 2021 and 2020 was as follows (in thousands):

Debt Type	Year Ended December 31,		\$ Change	% Change
	2021	2020		
Notes payable	\$ 31,652	\$ 33,569	\$ (1,917)	(5.7)%
Mortgage notes payable	—	172	(172)	(100.0)%
Line of credit	3,161	5,783	(2,622)	(45.3)%
Capitalized interest	(750)	(2,219)	1,469	66.2 %
Total	<u>\$ 34,063</u>	<u>\$ 37,305</u>	<u>\$ (3,242)</u>	<u>(8.7)%</u>

- *Interest expense for notes payable:* Decrease primarily due to lower interest payments resulting from the prepayment during 2021 of \$300.0 million of unsecured notes originally scheduled to mature in October 2022, the prepayment of our \$150.0 million 2015 Term Loan in December 2020, the \$150.0 million 2020 Term Loan executed in May 2020 and prepaid in November 2020 and the prepayment of a \$150.0 million portion of the 2018 Term Loan during 2021. These were partially offset by the \$350.0 million Green Bonds executed in December 2020.
- *Interest expense for mortgage notes payable:* Decrease due to repayment of the mortgage note secured by Yale West Apartments in January 2020.
- *Interest expense for line of credit:* Decrease primarily due to lower weighted average borrowings of \$34.8 million and a lower weighted average interest rate of 1.1% during 2021, as compared to \$204.8 million and 1.5%, respectively, during 2020.
- *Capitalized interest:* Decrease primarily due to placing into service assets at Trove.

Loss on interest rate derivatives: We terminated five interest rate swap arrangements with an aggregate notional value of \$150.0 million and recognized a \$5.8 million loss on interest rate derivatives during 2021 (see note 7 to the consolidated financial statements).

Loss on extinguishment of debt: During the third quarter of 2021 we recognized a \$12.3 million loss on extinguishment of debt related to the prepayment of the \$300.0 million of unsecured notes that were originally scheduled to mature in October 2022, a \$0.2 million loss on extinguishment of debt related to the prepayment of a \$150.0 million portion of the \$250.0 million 2018 Term Loan and a \$0.2 million loss on extinguishment of debt related to the renewal of our Revolving Credit Facility, all of which were repaid in connection with our strategic transformation, using the proceeds from the sales of the Office Portfolio and Retail Portfolio. During the fourth quarter of 2020, we recognized a loss on extinguishment of debt of \$0.3 million related to the prepayments of the \$150.0 million 2020 Term Loan originally scheduled to mature in May 2021 and the \$150.0 million 2015 Term Loan originally scheduled to mature in March 2021. During the second quarter of 2020, we recognized a loss of \$0.2 million related to the prepayment of all \$250.0 million of our 4.95% Senior Notes originally scheduled to mature in October 2020. These losses were partially offset by a gain of \$0.5 million on the prepayment of the mortgage note secured by Yale West Apartments during the first quarter of 2020.

Other income: Other income in 2021 primarily consists of a legal settlement (\$1.3 million), a real estate tax refund for an office property sold in 2018 (\$1.3 million), a gain on life insurance (\$1.0 million) and a construction easement at a retail property (\$0.4 million).

Discontinued operations:

Income from properties sold or held for sale: The decrease during 2021 is primarily due to lower real estate rental revenue (\$47.6 million) as a result of the sale of the Office Portfolio and the sale of the Retail Portfolio during the third quarter of 2021. This was partially offset by lower depreciation and amortization (\$26.8 million), lower real estate expenses (\$17.7 million) and lower management fees (\$1.6 million).

Gain on sale of real estate, net: The net gain during 2021 is due to the gain on sale of the Retail Portfolio (\$57.7 million), partially offset by the loss on sale of the Office Portfolio (\$11.2 million).

2020 Compared to 2019

The following tables reconcile NOI to net income and provide the basis for our discussion of our consolidated results of operations and NOI in 2020 compared to 2019. These results of operations have also been reclassified to reflect the strategic transformation in 2021, including the resulting classification of certain assets as discontinued operations, and other acquisitions completed and dispositions made during the applicable years. All amounts are in thousands except percentage amounts.

	Year Ended December 31,

⁽²⁾ Development/redevelopment:
Trove and land adjacent to Riverside Apartments

⁽³⁾ Non-residential:
Includes revenues and expenses from retail operations at residential properties.

- (4) Sold (classified as continuing operations):
2020 Office - John Marshall II, Monument II and 1227 25th Street
2019 Office – Quantico Corporate Center and 1776 G Street
- (5) Other (classified as continuing operations)
Watergate 600
- (6) Discontinued operations:
2021 Office - 1901 Pennsylvania Avenue, 515 King Street, 1220 19th Street, 1600 Wilson Boulevard, Silverline Center, Courthouse Square, 2000 M Street, 1140 Connecticut Avenue, Army Navy Club, 1775 Eye Street, Fairgate at Ballston and Arlington Tower
2021 Retail - Takoma Park, Westminster, Concord Centre, Chevy Chase Metro Plaza, 800 S. Washington Street, Randolph Shopping Center, Montrose Shopping Center and Spring Valley Village
2019 Retail - Wheaton Park, Bradlee Shopping Center, Shoppes of Foxchase, Gateway Overlook, Olney Village Center, Frederick County Square, Centre at Hagerstown and Frederick Crossing

Real Estate Rental Revenue

Real estate rental revenue from our apartment communities is comprised of (a) rent from operating leases of residential apartments with terms of approximately one year or less, recognized on a straight-line basis, (b) revenue from the recovery of operating expenses from our residents, (c) credit losses on lease related receivables, (d) revenue from leases of retail space at our apartment communities and (e) parking and other tenant charges.

Real estate rental revenue from same-store residential properties decreased \$0.5 million, or 0.5%, to \$97.1 million for 2020, compared to \$97.6 million for 2019, primarily due to higher rent abatements (\$0.5 million), lower move-in charges (\$0.5 million) and higher credit losses related to the COVID-19 pandemic (\$0.2 million). These were partially offset by higher termination fees (\$0.3 million), rental rates (\$0.2 million), parking income (\$0.1 million) and late fees (\$0.1 million).

Real estate rental revenue from acquisitions increased due to the inclusion of a full year of operations at the Assembly Portfolio (\$14.6 million) and Cascade at Landmark (\$3.6 million), which were acquired in 2019.

Real estate rental revenue from development properties increased due to placing 374 units in service at the Trove development (\$1.4 million) during 2020.

Average occupancy for residential properties for 2020 and 2019 was as follows:

December 31, 2020			December 31, 2019			Increase		
Same-Store	Non-Same-Store	Total	Same-Store	Non-Same-Store	Total	Same-Store	Non-Same-Store	Total
94.1 %	83.4 %	89.9 %	95.2 %	68.6 %	87.7 %	(1.1)%	14.8 %	2.2 %

The decrease in same-store average occupancy was primarily due to lower average occupancy at The Paramount, The Maxwell, 3801 Connecticut Avenue, The Ashby at McLean, and Yale West.

Real Estate Expenses

Residential real estate expenses as a percentage of residential revenue for 2020 and 2019 were 36.4% and 35.3%, respectively.

Real estate expenses from same-store residential properties increased \$0.1 million, or 0.4%, to \$34.0 million for 2020, compared to \$33.9 million for 2019, primarily due to higher real estate tax (\$0.5 million) and insurance (\$0.2 million) expenses, partially offset by lower utilities (\$0.3 million), repairs and maintenance (\$0.2 million) and administrative (\$0.1 million) expenses.

Other NOI

Other NOI decreased due to the sales of 1776 G Street (\$9.0 million) and Quantico Shopping Center (\$1.9 million) during 2019 and the sales of John Marshall II (\$3.4 million), 1227 25th Street (\$0.5 million) and Monument II (\$0.4 million) during 2020. These decreases were partially offset by higher NOI at Watergate 600 (\$4.1 million).

Other Income and Expenses

Depreciation and Amortization: Decrease primarily due to higher amortization of intangible lease assets at the Assembly Portfolio (\$6.6 million) and Cascade at Landmark (\$0.3 million) in 2019, lower depreciation and amortization at same-store properties (\$3.4 million) and the dispositions of 1776 G Street (\$2.7 million) and Quantico Corporate Center (\$0.8 million) in 2019 and John

Marshall II (\$2.8 million) and Monument II (\$0.4 million) in 2020. These decreases were partially offset by placing the Trove development (\$3.1 million) into service during 2020 and higher depreciation and amortization at Watergate 600 (\$0.9 million).

General and administrative expenses: Decrease primarily due to lower short term incentive compensation (\$2.0 million) and severance (\$1.1 million) expenses in 2020, partially offset by the reversal of a transfer tax liability in 2019 (\$0.7 million).

Real estate impairment: The real estate impairment charge of \$8.4 million during the first quarter of 2019 reduced the carrying value of Quantico Corporate Center to its then-estimated fair value (see note 3 to the consolidated financial statements).

Loss on sale of real estate: The loss during 2020 is primarily due to losses on the sales of John Marshall II (\$6.9 million) and Monument II (\$8.6 million), partially offset by a gain on the sale of 1227 25th Street (\$1.1 million). The gain during 2019 is due to the sale of 1776 G Street (\$61.0 million), partially offset by a loss on the sale of Quantico Corporate Center (\$1.0 million).

Loss on extinguishment of debt: During the fourth quarter of 2020, we recognized a loss on extinguishment of debt of \$0.3 million related to the prepayments of the \$150.0 million 2020 Term Loan originally scheduled to mature in May 2021 and the \$150.0 million 2015 Term Loan originally scheduled to mature in March 2021. During the second quarter of 2020, we recognized a loss of \$0.2 million related to the prepayment of all \$250.0 million of our 4.95% Senior Notes originally scheduled to mature in October 2020. These losses were partially offset by a gain of \$0.5 million on the prepayment of the mortgage note secured by Yale West Apartments during the first quarter of 2020.

Loss on interest rate derivatives: In December 2020, in connection with the prepayment of our 2015 Term Loan, we terminated interest rate swap agreements with notional amounts in the aggregate of \$150.0 million. As a result of the termination, the accumulated fair value of the interest rate swaps of \$0.6 million was reclassified from Accumulated other comprehensive loss to Loss on interest rate derivatives on our consolidated income statements.

Interest Expense: Interest expense by debt type for the twelve months ended December 31, 2020 and 2019 was as follows (in thousands):

Debt Type	Year Ended December 31,		\$ Change	% Change
	2020	2019		
Notes payable	\$ 33,569	\$ 45,595	\$ (12,026)	(26.4)%
Mortgage notes payable	172	2,074	(1,902)	(91.7)%
Line of credit	5,783	9,279	(3,496)	(37.7)%
Capitalized interest	(2,219)	(3,214)	995	31.0 %
Total	<u>\$ 37,305</u>	<u>\$ 53,734</u>	<u>\$ (16,429)</u>	<u>(30.6)%</u>

- *Interest expense for notes payable:* Decrease primarily due to lower interest paid resulting from the prepayment of all \$250.0 million of our 4.95% Senior Notes in April 2020 and the execution of a six-month \$450.0 million 2019 Term Loan in April 2019 to fund the Assembly Portfolio acquisition that was repaid in the third quarter of 2019, partially offset by the new \$150.0 million 2020 Term Loan executed in May 2020 and prepaid in November 2020, and the issuance of the \$350.0 million Green Bonds in December 2020.
- *Interest expense for mortgage notes payable:* Decrease due to repayment of the mortgage note secured by Yale West Apartments in January 2020.
- *Interest expense for line of credit:* Decrease primarily due to a lower weighted average interest rate of 1.5% during 2020, as compared to 3.3% during 2019, partially offset by higher weighted average borrowings of \$204.8 million during 2020, as compared to \$196.1 million during 2019.
- *Capitalized interest:* Decrease primarily due to placing into service assets at Trove.

Discontinued operations:

Income from properties sold or held for sale: Decrease primarily due to lower real estate rental revenue (\$42.5 million) due to the sale of eight retail properties in 2019, partially offset by lower depreciation and amortization (\$8.1 million), lower real estate expenses (\$8.1 million), lower management fees (\$1.1 million) and interest expense (\$0.3 million) in 2019.

Gain on sale of real estate: The net gain during 2019 is due to gains on the sales of a portfolio of five retail properties (\$333.0 million) and Frederick Crossing and Frederick County Square (\$9.5 million), partially offset by a loss on the sale of Centre at

Hagerstown (\$3.5 million) during 2019.

Loss on extinguishment of debt: We recognized a \$0.8 million loss on extinguishment of debt during 2019 related to the prepayment of the mortgage note secured by Olney Village Center prior to that property's disposition as part of the sale of a portfolio of five retail properties.

Liquidity and Capital Resources

We believe we will have adequate liquidity over the next twelve months to operate our business and to meet our cash requirements, which include meeting our debt obligations, capital commitments and contractual obligations, as well as the payment of dividends, and funding possible growth opportunities. Through our Office Portfolio and Retail Portfolio sales, which had a combined sale price of approximately \$934.3 million, we executed strategic transactions that allowed us and will continue to allow us to expand in Southeastern markets, meet our debt obligations for the next twelve months, complete redemption of all \$300.0 million of unsecured notes originally due to mature in 2022 during the third quarter of 2021, and pay a dividend on a quarterly basis. In connection with our strategic transformation, we are redesigning our operating model for purposes of more efficiently and effectively supporting residential operations. We anticipate incurring approximately \$11.0 - \$13.0 million of transformation costs during 2022. We expect to realize significant operational benefits from this operating model redesign and complete its implementation in 2023. We also believe we have adequate liquidity beyond 2022, with only \$100.0 million of scheduled debt maturities within the next five years.

We will continue to assess the payment of our dividends on a quarterly basis. Future determinations regarding the declaration and payment of dividends, if any, will be at the discretion of our board of trustees which considers, among other factors, trends in our levels of funds from operations and ongoing capital requirements to achieve a targeted payout ratio.

Capital Structure

We manage our capital structure to reflect a long-term investment approach, generally seeking to match the cash flow of our assets with a mix of equity and various debt instruments. We expect that our capital structure will allow us to obtain additional capital from diverse sources that could include additional equity offerings of common shares, public and private secured and unsecured debt financings, asset dispositions, operating units and joint venture equity. Our ability to raise funds through the incurrence of debt and issuance of equity securities is dependent on, among other things, general economic conditions including the impacts of the COVID-19 pandemic, general market conditions for REITs, our operating performance, our debt rating, the current trading price of our common shares and other capital market conditions. We analyze which source of capital we believe to be most advantageous to us at any particular point in time.

As of February 16, 2022, we had cash and cash equivalents of approximately \$151.6 million and availability under our Revolving Credit Facility of \$700.0 million. We currently expect that our potential sources of liquidity for acquisitions, development, redevelopment, expansion and renovation of properties, and operating and administrative expenses, may include:

- Cash flow from operations;
- Borrowings under our Revolving Credit Facility or other new short-term facilities;
- Issuances of our equity securities and/or common units in operating partnerships;
- Issuances of preferred shares;
- Proceeds from long-term secured or unsecured debt financings, including construction loans and term loans, or the issuance of debt securities;
- Investment from joint venture partners; and
- Net proceeds from the sale of assets.

During 2022, we expect that we will have significant capital requirements, including the following items:

- Funding dividends and distributions to our shareholders (which we intend to continue to pay at or about current levels);
- Approximately \$35.0 - \$40.0 million to invest in our existing portfolio of operating assets;
- Approximately \$10.0 - \$15.0 million to invest in our development and redevelopment projects; and
- Funding for potential property acquisitions throughout 2022, offset by proceeds from potential property dispositions.

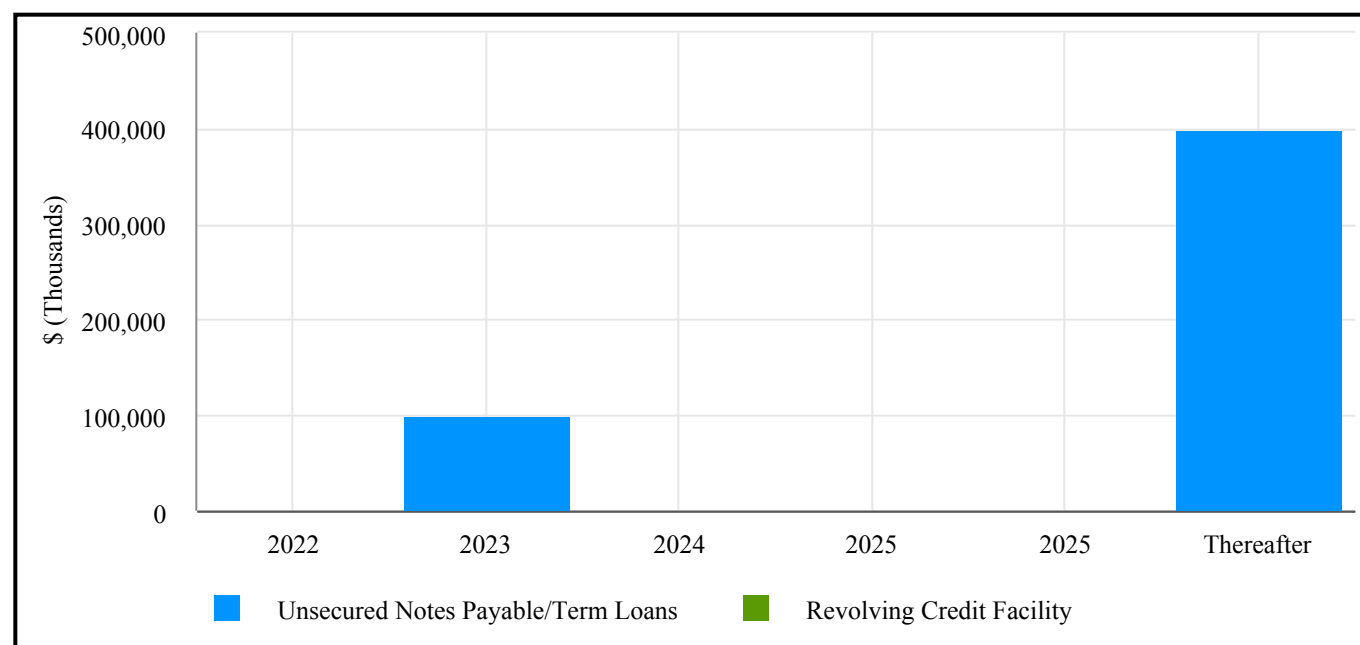

There can be no assurance that our capital requirements will not be materially higher or lower than the above expectations. We currently believe that we will have enough cash on hand and/or will generate sufficient cash flow from operations and potential property sales and have access to the capital resources necessary to fund our requirements in 2022. However, as a result of the uncertainty of the future impacts of the COVID-19 pandemic, general market conditions in the greater Washington, DC metro and Southeast regions, economic conditions affecting the ability to attract and retain tenants, declines in our share price, unfavorable changes in the supply of competing properties, or our properties not performing as expected, we may not generate sufficient cash flow from operations and property sales or otherwise have access to capital on favorable terms, or at all. If we are unable to obtain capital from other sources, we may need to alter capital spending to be materially different than what is stated in the prior paragraph. If capital were not available, we may be unable to satisfy the distribution requirement applicable

to REITs, make required principal and interest payments, make strategic acquisitions or make necessary and/or routine capital improvements or undertake improvement/redevelopment opportunities with respect to our existing portfolio of operating assets.

Debt Financing

We generally use unsecured or secured, corporate-level debt, including unsecured notes, our Revolving Credit Facility, bank term loans and mortgages, to meet our borrowing needs. Long-term, we generally use fixed rate debt instruments in order to match the returns from our real estate assets. If we issue unsecured debt in the future, we will seek to ladder the maturities of our debt to mitigate exposure to interest rate risk in any particular future year. We also utilize variable rate debt for short-term financing purposes. At times, our mix of variable and fixed rate debt may not suit our needs. At those times, we may use derivative financial instruments including interest rate swaps and caps, forward interest rate options or interest rate options in order to assist us in managing our debt mix. We may either hedge our variable rate debt to give it an effective fixed interest rate or hedge fixed rate debt to give it an effective variable interest rate.

As of December 31, 2021, our future debt principal payments are scheduled as follows (in thousands):

Year	Unsecured Notes Payable/Term Loans	Revolving Credit Facility	Total Debt	Average Interest Rate
2022	\$ —	\$ —	\$ —	— %
2023	100,000 ⁽¹⁾	—	100,000	2.3 %
2024	—	—	—	— %
2025	—	—	—	— %
2026	—	—	—	— %
Thereafter	400,000	—	400,000	4.5 %
Scheduled principal payments	500,000	—	500,000	4.1 %
Premiums and discounts, net	(138)	—	(138)	
Debt issuance costs, net	(2,916)	—	(2,916)	
Total	<u>\$ 496,946</u>	<u>\$ —</u>	<u>\$ 496,946</u>	4.1 %

⁽¹⁾ WashREIT entered into an interest rate swap to effectively fix a LIBOR plus 110 basis points floating interest rate to a 2.31% all-in fixed rate for the remaining \$100.0 million portion of the 2018 Term Loan. The interest rates are fixed through the term loan maturity of July 2023.

The weighted average maturity for our debt is 7.2 years. If principal amounts due at maturity cannot be refinanced, extended or paid with proceeds of other capital transactions, such as new equity capital, our cash flow may be insufficient to repay all maturing debt. Prevailing interest rates or other factors at the time of a refinancing, such as possible reluctance of lenders to

make commercial real estate loans, may result in higher interest rates and increased interest expense or inhibit our ability to finance our obligations.

From time to time, we may seek to repurchase and cancel our outstanding unsecured notes and term loans through open market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Debt Covenants

Pursuant to the terms of our Revolving Credit Facility, 2018 Term Loan and unsecured notes, we are subject to customary operating covenants and maintenance of various financial ratios.

Failure to comply with any of the covenants under our Revolving Credit Facility, 2018 Term Loan, unsecured notes or other debt instruments could result in a default under one or more of our debt instruments. This could cause our lenders to accelerate the timing of payments and could therefore have a material adverse effect on our business, operations, financial condition and liquidity. In addition, our ability to draw on our Revolving Credit Facility or incur other unsecured debt in the future could be restricted by the debt covenants.

As of December 31, 2021, we were in compliance with the covenants related to our Revolving Credit Facility, 2018 Term Loan and unsecured notes.

Common Equity

We have authorized for issuance 150.0 million common shares, of which approximately 86.3 million shares were outstanding at December 31, 2021.

On February 17, 2021, we entered into separate amendments to each of our existing equity distribution agreements (“Original Equity Distribution Agreements”) with each of Wells Fargo Securities, LLC, BNY Mellon Capital Markets, LLC, Capital One Securities, Inc., Citigroup Global Markets Inc., Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC, KeyBanc Capital Markets Inc. and Truist Securities, Inc. (f/k/a SunTrust Robinson Humphrey, Inc.), each dated May 4, 2018 (collectively, as amended, the “Equity Distribution Agreements”) for our at-the-market program. Also on February 17, 2021, we entered into a separate equity distribution agreement with BTIG, LLC on the same terms as the Amended Equity Distribution Agreements (the “BTIG Equity Distribution Agreement”). On September 22, 2021, BTIG, LLC notified us that it was terminating the BTIG Equity Distribution Agreement, effective as of September 27, 2021. Pursuant to the Equity Distribution Agreements, we may sell, from time to time, up to an aggregate price of \$550.0 million of our common shares of beneficial interest, \$0.01 par value per share. Issuances of our common shares are made at market prices prevailing at the time of issuance. We may use net proceeds from the issuance of common shares under this program for general business purposes, including, without limitation, working capital, the acquisition, renovation, expansion, improvement, development or redevelopment of income producing properties or the repayment of debt.

Our issuances and net proceeds on the Equity Distribution Agreements in 2021 and 2020 and the Original Equity Distribution Agreements in 2020 and 2019, respectively, were as follows (in thousands, except per share data):

	Year Ended December 31,		
	2021	2020	2019
Issuance of common shares	1,636	2,046	1,859
Weighted average price per share	\$ 25.44	\$ 23.86	\$ 30.00
Net proceeds	\$ 40,462	\$ 48,355	\$ 54,916

Subsequent to December 31, 2021, we issued an additional 1.0 million shares at a weighted average price per share of \$26.27 for net proceeds of \$26.9 million.

We have a dividend reinvestment program, whereby shareholders may use their dividends and optional cash payments to purchase common shares. The common shares sold under this program may either be common shares issued by us or common shares purchased in the open market.

Our issuances and net proceeds on the dividend reinvestment program for the three years ended December 31, 2021 were as follows (in thousands; except per share data):

	Year Ended December 31,		
	2021	2020	2019
Issuance of common shares	75	90	173
Weighted average price per share	\$ 23.37	\$ 24.12	\$ 27.58
Net proceeds	\$ 1,744	\$ 2,121	\$ 4,755

Preferred Equity

Our board of trustees can, at its discretion, authorize the issuance of up to 10.0 million preferred shares. The ability to issue preferred equity provides WashREIT an additional financing tool that may be used to raise capital for future acquisitions or other business purposes. As of December 31, 2021, no preferred shares are issued and outstanding.

Capital Commitments

We will require capital for development and redevelopment projects currently underway and in the future. We are currently engaged in development activities on land adjacent to The Wellington and predevelopment activities for the ground-up development of a residential property on land adjacent to Riverside Apartments. As of December 31, 2021, we had no outstanding contractual commitments related to our development and redevelopment projects, and expect to fund approximately \$10.0 - \$15.0 million of total development and redevelopment spending during 2022.

In addition to our development and redevelopment projects, we anticipate funding approximately \$25.0 million on several major renovation projects at our residential properties during 2022.

These projects include unit renovations, property technology initiatives, common area and mechanical upgrades, pool deck renovations, facade and retaining wall restorations and fire system and roof replacements. Not all of the anticipated spending had been committed via executed construction contracts at December 31, 2021. We expect to fund these projects using cash generated by our real estate operations, through borrowings on our Revolving Credit Facility, or raising additional debt or equity capital in the public market.

Contractual Obligations

As of December 31, 2021, certain contractual obligations will require significant capital as follows (in thousands):

	Payments due by Period				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Long-term debt ⁽¹⁾	\$ 668,127	\$ 21,700	\$ 159,063	\$ 35,990	\$ 451,374
Purchase obligations ⁽²⁾	951	823	128	—	—
Tenant-related capital ⁽³⁾	1,813	1,813	—	—	—
Building capital ⁽⁴⁾	1,769	1,769	—	—	—
Operating leases	4,378	1,148	3,230	—	—

⁽¹⁾ See notes 5 and 6 of the consolidated financial statements. Amounts include principal, interest and facility fees.

⁽²⁾ Represents electricity and gas purchase agreements with terms through 2024.

⁽³⁾ Committed tenant-related capital based on executed leases as of December 31, 2021.

⁽⁴⁾ Committed building capital additions based on contracts in place as of December 31, 2021.

We have various standing or renewable contracts with vendors. The majority of these contracts can be canceled with immaterial or no cancellation penalties, with the exception of our elevator maintenance agreements and our electricity and gas purchase agreements, which are included above on the purchase obligations line. Contract terms on leases that can be canceled are generally one year or less. We are currently committed to fund tenant-related capital improvements as described in the table above for executed leases. However, expected leasing levels could require additional tenant-related capital improvements which are not currently committed.

Historical Cash Flows

Cash flows from operations are an important factor in our ability to sustain our dividend at its current rate. If our cash flows from operations were to decline significantly, we may have to reduce our dividend. Consolidated cash flows for the three years ended December 31, 2021 were as follows (in thousands):

	Year ended December 31,			Variance	
	2021	2020	2019	2021 vs. 2020	2020 vs. 2019
Cash provided by operating activities	\$ 89,156	\$ 112,978	\$ 130,923	\$ (23,822)	\$ (17,945)
Cash provided by investing activities	702,170	65,760	61,036	636,410	4,724
Cash used in financing activities	(565,396)	(185,199)	(184,848)	(380,197)	(351)

Net cash provided by operating activities decreased in 2021 as compared to 2020 primarily due to the sales of the Office Portfolio and the Retail Portfolio during 2021 (see note 3 to the consolidated financial statements) and costs associated with our strategic transformation. Net cash provided by operating activities decreased in 2020 as compared to 2019 primarily due to the sales of the 8 retail properties and 1776 G Street during 2019 and John Marshall II in 2020 (see note 3 to the consolidated financial statements).

Net cash provided by investing activities increased in 2021 as compared to 2020 primarily due to the sales of the Office Portfolio and the Retail Portfolio partially offset by the acquisitions of The Oxford and Assembly Eagles Landing during 2021. Net cash provided by investing activities increased in 2020 as compared to 2019 primarily due to lower development expenditures during 2020.

Net cash used in financing activities increased in 2021 as compared to 2020 primarily due to the repayment of \$300.0 million of unsecured notes and higher net repayments on the Revolving Credit Facility during 2021. Net cash used in financing activities increased in 2020 as compared to 2019 primarily due to higher repayments of notes payable and term loans, the repayment of the mortgage note and the settlement of certain interest rate swaps (see note 7 to the consolidated financial statements), partially offset by lower net repayments on the Revolving Credit Facility.

Capital Improvements and Development Costs

Our capital improvement, development and redevelopment costs for the three years ended December 31, 2021 were as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Accretive capital improvements and development costs:			
Acquisition related	\$ 7,218	\$ 10,487	\$ 9,158
Expansions and major renovations	17,096	16,561	25,008
Development/redevelopment	8,406	28,812	47,492
Tenant improvements (including first generation leases)	2,427	21,785	28,565
Total accretive capital improvements ⁽¹⁾	35,147	77,645	110,223
Other capital improvements:	5,669	9,262	5,725
Total	\$ 40,816	\$ 86,907	\$ 115,948

⁽¹⁾ We consider these capital improvements to be accretive to revenue and not necessarily to net income.

Included in the capital improvement and development costs listed above are capitalized interest in the amount of \$0.8 million, \$2.2 million and \$3.2 million for the three years ended December 31, 2021, respectively, and capitalized employee compensation in the amount of \$1.6 million, \$2.0 million and \$1.2 million for the three years ended December 31, 2021, respectively.

Accretive Capital Improvements

Acquisition Related Improvements: Acquisition related improvements are capital improvements to properties acquired during the preceding three years which were anticipated at the time we acquired the properties. These types of improvements were made in 2021 to the Assembly Portfolio and Cascade at Landmark.

Expansions and Major Renovations: Expansion projects increase the rentable area of a property, while major renovation projects are improvements sufficient to increase the income otherwise achievable at a property. Expansions and major renovations during 2021 included common area, lobby, unit and facade renovations at Riverside Apartments; heating system replacement, unit renovations and solar panel installations at 3801 Connecticut Avenue; plaza restoration and elevator modernization at The Ashby and common area and unit renovations at the Assembly Portfolio.

Development/Redevelopment: Development costs represent expenditures for ground up development of new operating properties. Redevelopment costs represent expenditures for improvements intended to reposition properties in their markets and generate more income than would be otherwise achievable. Development/redevelopment costs in 2021 primarily include development costs for Trove, which was placed into service in the first quarter of 2021, and predevelopment costs for a future residential development adjacent to Riverside Apartments.

Other Capital Improvements

Other capital improvements, also referred to as recurring capital improvements, are those not included in the above categories. Over time these costs will be recurring in nature to maintain a property's income and value. This category includes improvements made as needed upon vacancy of an apartment. Such improvements totaled \$3.9 million in 2021, averaging approximately \$1,206 per unit for the 41% of units which turned over relative to our total portfolio of apartment homes. Aside from improvements related to apartment turnover, these improvements include facade repairs, installation of new heating and air conditioning equipment, asphalt replacement, permanent landscaping, new lighting and new finishes. In addition, we incurred repair and maintenance expense of \$3.8 million during 2021 to maintain the quality of our buildings.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements as of December 31, 2021 that are reasonably likely to have a current or future material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Forward-Looking Statements

Some of the statements contained in this Form 10-K constitute forward-looking statements within the meaning of federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” or “potential” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. Such statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance, or achievements of WashREIT to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Additional factors include, but are not limited to:

- (a) the risks associated with ownership of real estate in general and our real estate assets in particular;
- (b) the economic health of the greater Washington, DC metro and Southeast region;
- (c) the risk of failure to enter into and/or complete contemplated acquisitions and dispositions, at all, within the price ranges anticipated and on the terms and timing anticipated;
- (d) changes in the composition of our portfolio;
- (e) fluctuations in interest rates;
- (f) reductions in or actual or threatened changes to the timing of federal government spending;
- (g) the risks related to use of third-party providers;
- (h) the economic health of our residents;
- (i) the ultimate duration of the COVID-19 global pandemic, including any mutations thereof, the actions taken to contain the pandemic or mitigate its impact, and the direct and indirect economic effects of the pandemic and containment

measures, the effectiveness and willingness of people to take COVID-19 vaccines, and the duration of associated immunity and efficacy of the vaccines against emerging variants of COVID-19;

- (j) compliance with applicable laws and corporate social responsibility goals, including those concerning the environment and access by persons with disabilities;
- (k) the risks related to not having adequate insurance to cover potential losses;
- (l) changes in the market value of securities;
- (m) terrorist attacks or actions and/or cyber-attacks;
- (n) whether we will succeed in the day-to-day property management and leasing activities that we have previously outsourced;
- (o) the availability and terms of financing and capital and the general volatility of securities markets;
- (p) risks related to changes in interest rates, including the future of the reference rate used in our existing floating rate debt instruments;
- (q) the risks related to our organizational structure and limitations of stock ownership;
- (r) failure to qualify and maintain our qualification as a REIT and the risks of changes in laws affecting REITs; and
- (s) other factors discussed under the caption “Risk Factors.”

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see the section entitled “Risk Factors.” We undertake no obligation to update our forward-looking statements or risk factors to reflect new information, future events, or otherwise.

Funds From Operations

NAREIT FFO is a widely used measure of operating performance for real estate companies. In its 2018 NAREIT FFO White Paper Restatement, the National Association of Real Estate Investment Trusts, Inc. (“NAREIT”) defines NAREIT FFO as net income (computed in accordance with GAAP) excluding gains (or losses) associated with sales of properties; impairments of depreciable real estate, and real estate depreciation and amortization. We consider NAREIT FFO to be a standard supplemental measure for REITs, and believe it is a useful metric because it facilitates an understanding of the operating performance of our properties without giving effect to real estate depreciation and amortization, which historically assumes that the value of real estate assets diminishes predictably over time. Since real estate values have instead historically risen or fallen with market conditions, we believe that NAREIT FFO more accurately provides investors an indication of our ability to incur and service debt, make capital expenditures and fund other needs. Our NAREIT FFO may not be comparable to FFO reported by other REITs. These other REITs may not define the term in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently.

The following table provides the calculation of our NAREIT FFO and a reconciliation of NAREIT FFO to net income for the three years ended December 31, 2021 (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Net income (loss)	\$ 16,384	\$ (15,680)	\$ 383,550
Adjustments:			
Depreciation and amortization	72,656	70,336	83,362
Real estate impairment	—	—	8,374
Loss (gain) on sale of depreciable real estate, net	—	15,009	(59,961)
Discontinued operations:			
Depreciation and amortization	22,904	49,694	57,817
Gain on sale of depreciable real estate, net	(46,441)	—	(339,024)
NAREIT FFO	<u>\$ 65,503</u>	<u>\$ 119,359</u>	<u>\$ 134,118</u>

Critical Accounting Estimates

We base the discussion and analysis of our financial condition and results of operations upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We evaluate these estimates on an on-going basis, including those related to estimated useful lives of real estate assets, estimated fair value of acquired leases, cost reimbursement income, bad debts, contingencies and litigation. We base the estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We cannot assure you that actual results will not differ from those estimates.

We believe the following accounting estimates are the most critical to aid in fully understanding our reported financial results, and they require our most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain.

Accounting for Asset Acquisitions

We allocate the purchase price, including transaction costs, of acquired assets, including physical assets and in-place leases, and assumed liabilities, based on their fair values. We determine the estimated fair values of the assets and liabilities in accordance with current GAAP fair value provisions. We determine the fair values of acquired buildings on an “as-if-vacant” basis considering a variety of factors, including the replacement cost of the property, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. We determine the fair value of land acquired based on comparisons to similar properties that have been recently marketed for sale or sold.

The fair value of in-place leases are based upon our evaluation of the specific characteristics of the leases. Factors considered in the fair value analysis include the estimated cost to replace the leases, including foregone rents and expense reimbursements during hypothetical expected lease-up periods (referred to as “absorption cost”), consideration of current market conditions and costs to execute similar leases. We classify absorption costs as other assets and amortize absorption costs as amortization expense on a straight-line basis over the remaining life of the underlying leases.

Real Estate Impairment

We recognize impairment losses on long-lived assets used in operations, development assets or land held for future development, if indicators of impairment are present and the net undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. Estimates of undiscounted cash flows are based on forward-looking assumptions, including annual and residual cash flows and our estimated holding period for each property. Such assumptions involve a high degree of judgment and could be affected by future economic and market conditions. When determining if a property has indicators of impairment, we evaluate the property's occupancy, our expected holding period for the property, strategic decisions regarding the property's future operations or development and other market factors. If such carrying amount is in excess of the estimated undiscounted cash flows from the operation and disposal of the property, we would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its estimated fair value, calculated in

accordance with current GAAP fair value provisions. Assets held for sale are recorded at the lower of cost or fair value less costs to sell.

U.S. Federal Income Taxes

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed taxable income and taxes on the income generated by our taxable REIT subsidiaries. Our taxable REIT subsidiaries are subject to corporate U.S. federal and state income tax on their taxable income at regular statutory rates, or as calculated under the alternative minimum tax, as appropriate. As of both December 31, 2021 and 2020, our TRSs had a deferred tax asset of \$1.4 million that was fully reserved.

ITEM 7A: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal material financial market risk to which we are exposed is interest rate risk. Our exposure to interest rate risk relates primarily to refinancing long-term fixed rate obligations, the opportunity cost of fixed rate obligations in a falling interest rate environment and our variable rate line of credit. We primarily enter into debt obligations to support general corporate purposes, including acquisition of real estate properties, capital improvements and working capital needs. We use interest rate swap arrangements to reduce our exposure to the variability in future cash flows attributable to changes in interest rates.

The table below presents principal, interest and related weighted average interest rates by year of maturity, with respect to debt outstanding on December 31, 2021 (dollars in thousands).

	2022	2023	2024	2025	2026	Thereafter	Total	Fair Value
Unsecured fixed rate debt ⁽¹⁾								
Principal	\$ —	\$100,000	\$ —	\$ —	\$ —	\$400,000	\$ 500,000	\$ 515,341
Interest payments	\$20,300	\$19,340	\$17,995	\$17,995	\$17,995	\$69,369	\$ 162,994	
Interest rate on debt maturities	— %	2.3 %	— %	— %	— %	4.5 %	4.1 %	

⁽¹⁾ Includes a \$100.0 million term loan with a floating interest rate. The interest rate on the \$100.0 million term loan is effectively fixed by interest rate swap arrangements at 2.31%.

We entered into the interest rate swap arrangements designated and qualifying as cash flow hedges to reduce our exposure to the variability in future cash flows attributable to changes in interest rates. Derivative instruments expose us to credit risk in the event of non-performance by the counterparty under the terms of the interest rate hedge agreement. We believe that we minimize our credit risk on these transactions by dealing with major, creditworthy financial institutions. As part of our ongoing control procedures, we monitor the credit ratings of counterparties and our exposure to any single entity, thus minimizing our credit risk concentration.

The following table sets forth information pertaining to interest rate swap contracts in place as of December 31, 2021 and 2020 and their respective fair values (dollars in thousands):

Notional Amount	Fixed Rate	Floating Index Rate	Effective Date	Termination/ Expiration Date	Fair Value as of:	
					December 31, 2021	December 31, 2020
\$ 100,000	1.205%	One-Month USD-LIBOR	3/31/2017	7/21/2023	\$ (821)	\$ (2,671)
50,000	1.208%	One-Month USD-LIBOR	3/31/2017	9/27/2021	—	(1,338)
25,000	2.610%	One-Month USD-LIBOR	6/29/2018	9/27/2021	—	(1,562)
25,000	2.610%	One-Month USD-LIBOR	6/29/2018	9/27/2021	—	(1,562)
25,000	2.610%	One-Month USD-LIBOR	6/29/2018	9/27/2021	—	(1,561)
25,000	2.610%	One-Month USD-LIBOR	6/29/2018	9/27/2021	—	(1,561)
					<u>\$ (821)</u>	<u>\$ (10,255)</u>

We enter into debt obligations primarily to support general corporate purposes including acquisition of real estate properties, capital improvements and working capital needs.

In the second quarter of 2021 we determined that the hedged transactions for five interest rate swap arrangements with an aggregate notional value of \$150.0 million were probable not to occur and that these interest swap arrangements were no longer effective cash flow hedges as of June 30, 2021 due to our intention to prepay a \$150.0 million portion of the 2018 Term Loan. As a result, we recognized a loss of \$5.8 million for the second quarter of 2021, which was recorded to Loss on interest rate derivatives on our consolidated statements of operations. On September 27, 2021, we prepaid a \$150.0 million portion of the 2018 Term Loan. In connection with the prepayment, we terminated the five interest rate swap arrangements with an aggregate notional value of \$150.0 million. We currently expect to hold the remaining \$100.0 million portion of the 2018 Term Loan until maturity. The interest rate swap arrangement with a notional value of \$100.0 million related to the remaining portion of the 2018 Term Loan is an effective cash flow hedge as of December 31, 2021.

ITEM 8: FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and supplementary data appearing on pages [85](#) to [121](#) are incorporated herein by reference.

ITEM 9: CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A: CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2021. Based on the foregoing, our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level.

Internal Control over Financial Reporting

See the Report of Management in Item 8 of this Form 10-K.

See the Reports of Independent Registered Public Accounting Firm in Item 8 of this Form 10-K.

During the three months ended December 31, 2021, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B: OTHER INFORMATION

Material U.S. Federal Income Tax Considerations

The following is a summary of certain material U.S. federal income tax considerations relating to our qualification and taxation as a real estate investment trust, a "REIT," and the acquisition, holding, and disposition of (i) our common shares, preferred shares and depositary shares (together with common shares and preferred shares, the "shares") as well as our warrants and rights, and (ii) certain debt securities that we may offer (together with the shares, the "securities"). For purposes of this discussion, references to "our Company," "we" and "us" mean only Washington Real Estate Investment Trust and not its subsidiaries or affiliates. This summary is based upon the Internal Revenue Code of 1986, as amended, (the "Code"), the Treasury Regulations, rulings and other administrative interpretations and practices of the Internal Revenue Service ("IRS") (including administrative interpretations and practices expressed in private letter rulings, which are binding on the IRS only with respect to the particular taxpayers who requested and received those rulings), and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and will not seek an advance ruling from the IRS regarding any matter discussed in this section. The summary is also based upon the assumption that we will operate the Company and its subsidiaries and affiliated entities in accordance with their applicable organizational documents. This summary is for general information only, and does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular investor in light of its investment or tax circumstances, or to investors subject to special tax rules, including:

- tax-exempt organizations, except to the extent discussed below in "—Taxation of U.S. Shareholders—Taxation of

Tax-Exempt Shareholders” and “Taxation of Holders of Debt Securities-Tax-Exempt Holders of Debt Securities,”

- broker-dealers,
- non-U.S. corporations, non-U.S. partnerships, non-U.S. trusts, non-U.S. estates, or individuals who are not taxed as citizens or residents of the United States, all of which may be referred to collectively as “non-U.S. persons,” except to the extent discussed below in “—Taxation of Non-U.S. Shareholders” and “—Taxation of Holders of Debt Securities—Non-U.S. Holders of Debt Securities,”
- trusts and estates,
- regulated investment companies (“RICs”)
- REITs, financial institutions,
- insurance companies,
- subchapter S corporations,
- foreign (non-U.S.) governments,
- persons subject to the alternative minimum tax provisions of the Code,
- persons holding the shares as part of a “hedge,” “straddle,” “conversion,” “synthetic security” or other integrated investment,
- persons holding the shares through a partnership or similar pass-through entity,
- persons with a “functional currency” other than the U.S. dollar,
- persons holding 10% or more (by vote or value) of the beneficial interest in us, except to the extent discussed below,
- persons who do not hold the shares as a “capital asset,” within the meaning of Section 1221 of the Code,
- corporations subject to the provisions of Section 7874 of the Code,
- U.S. expatriates
- persons required for U.S. federal income tax purposes to accelerate the recognition of any item of gross income as a result of such income being recognized on an applicable financial statement, or
- persons otherwise subject to special tax treatment under the Code.

This summary does not address state, local or non-U.S. tax considerations. This summary also does not consider tax considerations that may be relevant with respect to securities we may issue, or selling security holders may sell, other than our shares and certain debt instruments described below. Each time we or selling security holders sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that sale and may add to, modify or update the discussion below, as appropriate.

Each prospective investor is advised to consult his or her tax advisor to determine the impact of his or her personal tax situation on the anticipated tax consequences of the acquisition, ownership and sale of our shares, warrants, rights and/or debt securities. This includes the U.S. federal, state, local, foreign and other tax considerations of the ownership and sale of our shares, warrants, rights and/or debt securities, and the potential changes in applicable tax laws.

Taxation of the Company as a REIT

We elected to be taxed as a REIT, commencing with our first taxable year ended December 31, 1960. A REIT generally is not subject to U.S. federal income tax on the “REIT taxable income” (generally, taxable income of the REIT subject to specified adjustments, including a deduction for dividends paid and excluding net capital gain) that it distributes to shareholders, provided that the REIT meets the annual REIT distribution requirement and the other requirements for qualification as a REIT

under the Code. We believe that we are organized and have operated, and we intend to continue to operate, in a manner so as to qualify for taxation as a REIT under the Code. However, qualification and taxation as a REIT depend upon our ability to meet the various qualification tests imposed under the Code, including (through our actual annual (or in some cases quarterly) operating results) requirements relating to income, asset ownership, distribution levels and diversity of share ownership. Given the complex nature of the REIT qualification requirements, the ongoing importance of factual determinations and the possibility of future changes in our circumstances, we cannot provide any assurances that we will be organized or operated in a manner so as to satisfy the requirements for qualification and taxation as a REIT under the Code, or that we will meet such requirements in the future. See “—Failure to Qualify as a REIT.”

The sections of the Code that relate to our qualification and taxation as a REIT are highly technical and complex. This discussion sets forth the material aspects of the Code sections that govern the U.S. federal income tax treatment of a REIT and its shareholders. This summary is qualified in its entirety by the applicable Code provisions, relevant rules and Treasury Regulations, and related administrative and judicial interpretations.

Taxation of REITs in General

For each taxable year in which we qualify for taxation as a REIT, we generally will not be subject to U.S. federal corporate income tax on our “REIT taxable income” (generally, taxable income subject to specified adjustments, including a deduction for dividends paid and excluding our net capital gain) that is distributed currently to our shareholders. This treatment substantially eliminates the “double taxation” at the corporate and shareholder levels that generally results from an investment in a non-REIT C corporation. A non-REIT C corporation is a corporation that generally is required to pay tax at the corporate level. Double taxation means taxation once at the corporate level when income is earned and once again at the shareholder level when the income is distributed. In general, the income that we generate is taxed only at the shareholder level upon a distribution of dividends to our shareholders.

U.S. shareholders generally will be subject to taxation on dividends distributed by us (other than designated capital gain dividends and “qualified dividend income”) at rates applicable to ordinary income, instead of at lower capital gain rates. For taxable years beginning before January 1, 2026, generally, U.S. shareholders that are individuals, trusts or estates may deduct 20% of the aggregate amount of ordinary dividends distributed by us, subject to certain limitations. Capital gain dividends and qualified dividend income will continue to be subject to a maximum 20% rate (excluding the 3.8% tax on “net investment income”).

Any net operating losses, foreign tax credits and other tax attributes of a REIT generally do not pass through to our shareholders, subject to special rules for certain items such as the net capital gain that we recognize.

Even if we qualify for taxation as a REIT, we will be subject to U.S. federal income tax in the following circumstances:

1. We will be taxed at regular corporate rates on any undistributed “REIT taxable income,” including any undistributed net capital gain. REIT taxable income is the taxable income of the REIT subject to specified adjustments, including a deduction for dividends paid.
2. If we have (1) net income from the sale or other disposition of “foreclosure property” that is held primarily for sale to customers in the ordinary course of business, or (2) other non-qualifying income from foreclosure property, such income will be subject to tax at the highest corporate rate.
3. Our net income from “prohibited transactions” will be subject to a 100% penalty tax. In general, prohibited transactions are sales or other dispositions of property held primarily for sale to customers in the ordinary course of business, other than foreclosure property.
4. If we fail to satisfy either the 75% gross income test or the 95% gross income test, as discussed below, but our failure is due to reasonable cause and not due to willful neglect and we nonetheless maintain our qualification as a REIT because we satisfy specified cure provisions, we will be subject to a 100% tax on an amount equal to (a) the greater of (1) the amount by which we fail the 75% gross income test or (2) the amount by which we fail the 95% gross income test, as the case may be, multiplied by (b) a fraction intended to reflect our profitability.
5. We will be subject to a 4% nondeductible excise tax on the excess of the required calendar year distribution over the sum of the amounts actually distributed, excess distributions from the preceding tax year and amounts retained for which U.S. federal income tax was paid. The required distribution for each calendar year is equal to the sum of:

- 85% of our REIT ordinary income for the year;
 - 95% of our REIT capital gain net income for the year, other than capital gains we elect to retain and pay tax on as described below; and
 - any undistributed taxable income from prior taxable years.
6. We will be subject to a 100% penalty tax on certain rental income we receive when a taxable REIT subsidiary provides services to our tenants, on certain expenses deducted by a taxable REIT subsidiary on payments made to us and on income for services rendered to us by a taxable REIT subsidiary, if the arrangements among us, our tenants, and our taxable REIT subsidiaries do not reflect arm's-length terms.
 7. If we acquire any assets from a non-REIT C corporation in a carry-over basis transaction, we would be liable for corporate income tax, at the highest applicable corporate rate, on the "built-in gain" inherent in those assets if we disposed of those assets within five years after they were acquired. To the extent that assets are transferred to us in a carry-over basis transaction by a partnership in which a non-REIT C corporation owns an interest, we will be subject to this tax in proportion to the non-REIT C corporation's interest in the partnership. Built-in gain is the amount by which an asset's fair market value exceeds its adjusted tax basis at the time we acquire the asset. The results described in this paragraph assume that the non-REIT C corporation or partnership transferor will not elect, in lieu of this treatment, to be subject to an immediate tax when the asset is acquired by us.
 8. We may elect to retain and pay U.S. federal income tax on our net long-term capital gain. In that case, a U.S. shareholder would include its proportionate share of our undistributed long-term capital gain (to the extent that we make a timely designation of such gain to the shareholder) in its income, would be deemed to have paid the tax we paid on such gain, and would be allowed a credit for its proportionate share of the tax deemed to have been paid, and an adjustment would be made to increase the basis of the U.S. shareholder in our common shares.
 9. If we violate an asset test (other than certain de minimis violations) or other requirements applicable to REITs, as described below, but our failure is due to reasonable cause and not due to willful neglect and we nevertheless maintain our REIT qualification because we satisfy specified cure provisions, we will be subject to a tax equal to the greater of \$50,000 or the amount determined by multiplying the net income generated by such non-qualifying assets by the highest rate of tax applicable to non-REIT C corporations during periods when owning such assets would have caused us to fail the relevant asset test.
 10. If we fail to satisfy a requirement under the Code and the failure would result in the loss of our REIT qualification, other than a failure to satisfy a gross income test or an asset test, as described above, but nonetheless maintain our qualification as a REIT because the requirements of certain relief provisions are satisfied, we will be subject to a penalty of \$50,000 for each such failure.
 11. If we fail to comply with the requirement to send annual letters to our shareholders requesting information regarding the actual ownership of our shares and the failure was not due to reasonable cause or was due to willful neglect, we will be subject to a \$25,000 penalty or, if the failure is intentional, a \$50,000 penalty.
 12. The earnings of any subsidiaries that are non-REIT C corporations, including any taxable REIT subsidiaries, are subject to U.S. federal corporate income tax.

Notwithstanding our qualification as a REIT, we and our subsidiaries may be subject to a variety of taxes, including payroll taxes and state, local, and foreign income, property and other taxes on our assets, operations and/or net worth. We could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for Qualification as a REIT

The Code defines a "REIT" as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) that issues transferable shares or transferable certificates to evidence its beneficial ownership;
- (3) that would be taxable as a domestic corporation, but for Sections 856 through 859 of the Code;
- (4) that is neither a financial institution nor an insurance company within the meaning of certain provisions of the Code;

- (5) that is beneficially owned by 100 or more persons;
- (6) not more than 50% in value of the outstanding shares or other beneficial interest of which is owned, actually or constructively, by five or fewer individuals (as defined in the Code to include certain entities and as determined by applying certain attribution rules) during the last half of each taxable year;
- (7) that makes an election to be a REIT for the current taxable year, or has made such an election for a previous taxable year that has not been revoked or terminated, and that satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status;
- (8) that uses a calendar year for U.S. federal income tax purposes;
- (9) that meets other applicable tests, described below, regarding the nature of its income and assets and the amount of its distributions; and
- (10) that has no earnings and profits from any non-REIT taxable year at the close of any taxable year.

The Code provides that conditions (1), (2), (3) and (4) above must be met during the entire taxable year and condition (5) above must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. Conditions (5) and (6) do not apply until after the first taxable year for which an election is made to be taxed as a REIT. Condition (6) must be met during the last half of each taxable year. For purposes of determining share ownership under condition (6) above, a supplemental unemployment compensation benefits plan, a private foundation or a portion of a trust permanently set aside or used exclusively for charitable purposes generally is considered an individual. However, a trust that is a qualified trust under Code Section 401(a) generally is not considered an individual, and beneficiaries of a qualified trust are treated as holding shares of a REIT in proportion to their actuarial interests in the trust for purposes of condition (6) above.

We believe that we have been organized, have operated and have issued sufficient shares of beneficial interest with sufficient diversity of ownership to allow us to satisfy the above conditions. In addition, our declaration of trust contains restrictions regarding the transfer of shares of beneficial interest that are intended to assist us in continuing to satisfy the share ownership requirements described in conditions (5) and (6) above. If we fail to satisfy these share ownership requirements, we will fail to qualify as a REIT unless we qualify for certain relief provisions described below under “—Requirements for Qualification as a REIT-Relief from Violations; Reasonable Cause.”

To monitor our compliance with condition (6) above, we are generally required to maintain records regarding the actual ownership of our shares. To do so, we must demand written statements each year from the record holders of specified percentages of our shares pursuant to which the record holders must disclose the actual owners of the shares (i.e., the persons required to include in gross income the dividends paid by us). We must maintain a list of those persons failing or refusing to comply with this demand as part of our records. We could be subject to monetary penalties if we fail to comply with these record-keeping requirements. A shareholder that fails or refuses to comply with the demand is required by Treasury Regulations to submit a statement with its tax return disclosing the actual ownership of our stock and other information. If we comply with the record-keeping requirement and we do not know or, exercising reasonable diligence, would not have known of our failure to meet condition (6) above, then we will be treated as having met condition (6) above.

To qualify as a REIT, we cannot have at the end of any taxable year any undistributed earnings and profits that are attributable to a non-REIT taxable year. We elected to be taxed as a REIT beginning with our first taxable year in 1960 and we have not succeeded to any earnings and profits of a regular corporation. Therefore, we do not believe we have had any undistributed non-REIT earnings and profits.

Relief from Violations; Reasonable Cause

The Code provides relief from violations of the REIT gross income requirements, as described below under “—Requirements for Qualification as a REIT—Gross Income Tests,” in cases where a violation is due to reasonable cause and not to willful neglect, and other requirements are met, including the payment of a penalty tax that is based upon the magnitude of the violation. In addition, certain provisions of the Code extend similar relief in the case of certain violations of the REIT asset requirements (see “—Requirements for Qualification as a REIT—Asset Tests” below) and other REIT requirements, again provided that the violation is due to reasonable cause and not willful neglect, and other conditions are met, including the payment of a penalty tax. If we did not have reasonable cause for a failure, we would fail to qualify as a REIT. Whether we would have reasonable cause for any such failure cannot be known with certainty, because the determination of whether

reasonable cause exists depends on the facts and circumstances at the time and we cannot provide any assurance that we in fact would have reasonable cause for a particular failure or that the IRS would not successfully challenge our view that a failure was due to reasonable cause. Moreover, we may be unable to actually rectify a failure and restore asset test compliance within the required timeframe due to the inability to transfer or otherwise dispose of assets, including as a result of restrictions on transfer imposed by our lenders or undertakings with our co-investors and/or the inability to acquire additional qualifying assets due to transaction risks, access to additional capital or other considerations. If we fail to satisfy any of the various REIT requirements, there can be no assurance that these relief provisions would be available to enable us to maintain our qualification as a REIT, and, if such relief provisions are available, the amount of any resultant penalty tax could be substantial.

Effect of Subsidiary Entities

Ownership of Partnership Interests. In the case of a REIT that is a partner in an entity that is treated as a partnership for U.S. federal income tax purposes, Treasury Regulations provide that the REIT is deemed to own its proportionate share of the partnership's assets, and to earn its proportionate share of the partnership's income, for purposes of the asset and gross income tests applicable to REITs, as described below. A REIT's proportionate share of a partnership's assets and income is based on the REIT's pro rata share of the capital interests in the partnership. The Company's capital interest in a partnership is calculated based on either the Company's percentage ownership of the capital of the partnership or based on the allocations provided in the applicable partnership or limited liability company operating agreement, using the more conservative calculation. However, solely for purposes of the 10% value test, described below, the determination of a REIT's interest in the partnership's assets is based on the REIT's proportionate interest in the equity and certain debt securities issued by the partnership. In addition, the assets and gross income of the partnership are deemed to retain the same character in the hands of the REIT. Thus, our proportionate share of the assets and items of income of any of our subsidiary partnerships, which include the assets, liabilities, and items of income of any partnership in which our subsidiary partnership holds an interest, are treated as our assets and items of income for purposes of applying the REIT requirements.

Any investment in partnerships involves special tax considerations, including the possibility of a challenge by the IRS of the status of any subsidiary partnership as a partnership, as opposed to an association taxable as a corporation, for U.S. federal income tax purposes. If any of these entities were treated as an association for U.S. federal income tax purposes, it would be taxable as a corporation and therefore could be subject to an entity-level tax on its income. In such a situation, the character of our assets and items of gross income would change and could preclude us from satisfying the REIT asset tests or the gross income tests as discussed in “—Requirements for Qualification as a REIT—Asset Tests” and “—Requirements for Qualification as a REIT—Gross Income Tests,” and in turn could prevent us from qualifying as a REIT, unless we are eligible for relief from the violation pursuant to relief provisions. See “—Requirements for Qualification as a REIT—Relief from Violations; Reasonable Cause” above, and “—Requirements for Qualification as a REIT—Gross Income Tests,” “—Requirements for Qualification as a REIT—Asset Tests” and “—Requirements for Qualification as a REIT—Failure to Qualify as a REIT,” below, for discussion of the effect of failure to satisfy the REIT tests for a taxable year, and of the relief provisions. In addition, any change in the status of any subsidiary partnership for tax purposes might be treated as a taxable event, in which case we could have taxable income that is subject to the REIT distribution requirements without receiving any cash.

Under the Bipartisan Budget Act of 2015, liability is imposed on the partnership (rather than its partners) for adjustments to reported partnership taxable income resulting from audits or other tax proceedings. The liability can include an imputed underpayment of tax, calculated by using the highest marginal U.S. federal income tax rate, as well as interest and penalties on such imputed underpayment of tax. Using certain rules, partnerships may be able to transfer these liabilities to their partners. In the event any adjustments are imposed by the IRS on the taxable income reported by any subsidiary partnerships, we intend to utilize certain rules to the extent possible to allow us to transfer any liability with respect to such adjustments to the partners of the subsidiary partnerships who should properly bear such liability. However, there is no assurance that we will qualify under those rules or that we will have the authority to use those rules under the operating agreements for certain of our subsidiary partnerships.

We may from time to time be a limited partner or non-managing member in some of our partnerships and limited liability companies. If a partnership or limited liability company in which we own an interest takes or expects to take actions that could jeopardize our status as a REIT or requires us to pay tax, we may be forced to dispose of our interest in such entity. In addition, it is possible that a partnership or limited liability company could take an action which could cause us to fail a gross income or asset test, and that we would not become aware of such action in time to dispose of our interest in the partnership or limited liability company or take other corrective action on a timely basis. In that case, we could fail to qualify as a REIT unless we were entitled to relief, as described below.

Ownership of Disregarded Subsidiaries. If a REIT owns a corporate subsidiary that is a “qualified REIT subsidiary,” or QRS, that subsidiary is generally disregarded for U.S. federal income tax purposes, and all assets, liabilities and items of income,

deduction and credit of the subsidiary are treated as assets, liabilities and items of income, deduction and credit of the REIT itself, including for purposes of the gross income and asset tests applicable to REITs, as described below. A QRS is any corporation, other than a taxable REIT subsidiary, that is directly or indirectly wholly owned by a REIT. Other entities that are wholly owned by us, including single member limited liability companies that have not elected to be taxed as corporations for U.S. federal income tax purposes, are also generally disregarded as separate entities for U.S. federal income tax purposes, including for purposes of the REIT income and asset tests. Disregarded subsidiaries, along with any partnerships in which we hold an equity interest, are sometimes referred to herein as “pass-through subsidiaries.”

In the event that a disregarded subsidiary ceases to be wholly owned by us (for example, if any equity interest in the subsidiary is acquired by a person other than us or another disregarded subsidiary of ours) the subsidiary’s separate existence would no longer be disregarded for U.S. federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation unless it is a taxable REIT subsidiary or a QRS. See “—Requirements for Qualification as a REIT—Gross Income Tests” and “—Requirements for Qualification as a REIT—Asset Tests.”

Ownership of Interests in Taxable REIT Subsidiaries. Each of our taxable REIT subsidiaries is a corporation other than a REIT in which we directly or indirectly hold stock, and that has made a joint election with us to be treated as a taxable REIT subsidiary under Section 856(l) of the Code. A taxable REIT subsidiary also includes any corporation other than a REIT in which a taxable REIT subsidiary of ours owns, directly or indirectly, securities (other than certain “straight debt” securities), which represent more than 35% of the total voting power or value of the outstanding securities of such corporation. Other than some activities relating to lodging and health care facilities, a taxable REIT subsidiary may generally engage in any business, including the provision of customary or non-customary services to our tenants without causing us to receive impermissible tenant service income under the REIT gross income tests. A taxable REIT subsidiary is required to pay regular U.S. federal income tax, and state and local income tax where applicable, as a regular corporation. In addition, a taxable REIT subsidiary may be prevented from deducting interest on debt, including debt funded directly or indirectly by us, if certain tests are not satisfied. If dividends are paid to us by one or more of our taxable REIT subsidiaries, then a portion of the dividends we distribute to shareholders who are taxed at individual rates will generally be eligible for taxation at lower capital gains rates, rather than at ordinary income rates. See “—Taxation of U.S. Shareholders—Taxation of Taxable U.S. Shareholders—Qualified Dividend Income.”

Generally, a taxable REIT subsidiary can perform impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. However, several provisions applicable to the arrangements between us and our taxable REIT subsidiaries ensure that such taxable REIT subsidiaries will be subject to an appropriate level of U.S. federal income taxation. For example, taxable REIT subsidiaries are limited in their ability to deduct interest payments in excess of a certain amount, including interest payments made directly or indirectly to us, as described below in “—Annual Distribution Requirements.” In addition, we will be obligated to pay a 100% penalty tax on some payments we receive or on certain expenses deducted by our taxable REIT subsidiaries, and on income earned by our taxable REIT subsidiaries for services provided to, or on behalf of, us, if the economic arrangements between us, our tenants and such taxable REIT subsidiaries are not comparable to similar arrangements among unrelated parties. Our taxable REIT subsidiaries, and any future taxable REIT subsidiaries acquired by us, may make interest and other payments to us and to third parties in connection with activities related to our properties. There can be no assurance that our taxable REIT subsidiaries will not be limited in their ability to deduct interest payments made to us. In addition, there can be no assurance that the IRS might not seek to impose the 100% excise tax on a portion of payments received by us from, or expenses deducted by, or service income imputed to, our taxable REIT subsidiaries.

We own two subsidiaries that have elected to be treated as taxable REIT subsidiaries for U.S. federal income tax purposes. Our taxable REIT subsidiaries are taxable as regular corporations and have elected, together with us, to be treated as our taxable REIT subsidiaries. We may elect, together with other corporations in which we may own directly or indirectly stock, for those corporations to be treated as our taxable REIT subsidiaries.

Gross Income Tests

To qualify as a REIT, we must satisfy two gross income tests that are applied on an annual basis. First, in each taxable year, at least 75% of our gross income (excluding gross income from prohibited transactions, certain hedging transactions, as described below, and certain foreign currency transactions) must be derived from investments relating to real property or mortgages on real property, including:

- “rents from real property”;
- dividends or other distributions on, and gain from the sale of, shares in other REITs;
- gain from the sale of real property or mortgages on real property, in either case, not held for sale to customers;
- interest income derived from mortgage loans secured by real property; and
- income attributable to temporary investments of new capital in stocks and debt instruments during the one-year period following our receipt of new capital that we raise through equity offerings or issuance of debt obligations with at least a five-year term.

Second, at least 95% of our gross income in each taxable year (excluding gross income from prohibited transactions, certain hedging transactions, as described below, and certain foreign currency transactions) must be derived from some combination of income that qualifies under the 75% gross income test described above, as well as (a) other dividends, (b) interest (including interest income from debt instruments issued by publicly offered REITs), and (c) gain from the sale or disposition of stock or securities (including gain from the sale or other disposition of debt instruments issued by publicly offered REITs), in either case, not held for sale to customers.

Gross income from certain hedging transactions is excluded from gross income for purposes of the 95% gross income requirement. Similarly, gross income from certain hedging transactions is excluded from gross income for purposes of the 75% gross income test. Income from, and gain from the termination of, certain hedging transactions, where the property or indebtedness that was the subject of the prior hedging transaction was extinguished or disposed of, also will be excluded from gross income for purposes of either the 75% gross income test or the 95% gross income test. See “—Requirements for Qualification as a REIT—Gross Income Tests—Income from Hedging Transactions.”

Rents from Real Property. Rents we receive will qualify as “rents from real property” for the purpose of satisfying the gross income requirements for a REIT described above only if several conditions are met. These conditions relate to the identity of the tenant, the computation of the rent payable, and the nature of the property lease.

- First, the amount of rent must not be based in whole or in part on the income or profits of any person. However, an amount we receive or accrue generally will not be excluded from the term “rents from real property” solely by reason of being based on a fixed percentage or percentages of receipts or sales;
- Second, we, or an actual or constructive owner of 10% or more of our shares, must not actually or constructively own 10% or more of the interests in the tenant, or, if the tenant is a corporation, 10% or more of the voting power or value of all classes of stock of the tenant. Rents received from such tenant that is a taxable REIT subsidiary, however, will not be excluded from the definition of “rents from real property” as a result of this condition if either (i) at least 90% of the space at the property to which the rents relate is leased to third parties, and the rents paid by the taxable REIT subsidiary are comparable to rents paid by our other tenants for comparable space or (ii) the property is a qualified lodging facility or a qualified health care property and such property is operated on behalf of the taxable REIT subsidiary by a person who is an “eligible independent contractor” (as described below) and certain other requirements are met;
- Third, rent attributable to personal property, leased in connection with a lease of real property, must not be greater than 15% of the total rent received under the lease. If this requirement is not met, then the portion of rent attributable to personal property will not qualify as “rents from real property”; and
- Fourth, for rents to qualify as rents from real property for the purpose of satisfying the gross income tests, we generally must not operate or manage the property or furnish or render services to the tenants of such property, other than through an “independent contractor” who is adequately compensated and from whom we derive no revenue or through a taxable REIT subsidiary. To the extent that impermissible services are provided by an independent contractor, the cost of the services generally must be borne by the independent contractor. We anticipate that any services we provide directly to tenants will be “usually or customarily rendered” in connection with the rental of space for occupancy only and not otherwise considered to be provided for the tenants’ convenience. We may provide a minimal amount of “non-customary” services to tenants of our properties, other than through an independent contractor or a taxable REIT subsidiary, but we intend that our income from these services will not exceed 1% of our total gross income from the property. If the impermissible tenant services income exceeds 1% of our total income from a property, then all of the income from that property will fail to qualify as rents from real property. If the total amount of impermissible tenant

services income does not exceed 1% of our total income from the property, the services will not “taint” the other income from the property (that is, it will not cause the rent paid by tenants of that property to fail to qualify as rents from real property), but the impermissible tenant services income will not qualify as rents from real property. We will be deemed to have received income from the provision of impermissible services in an amount equal to at least 150% of our direct cost of providing the service.

We monitor (and intend to continue to monitor) the activities provided at, and the non-qualifying income arising from, our properties and believe that we have not provided services at levels that will cause us to fail to meet the income tests. We provide services and may provide access to third-party service providers at some or all of our properties. Based upon our experience in the markets where the properties are located, we believe that all access to service providers and services provided to tenants by us (other than through a qualified independent contractor or a taxable REIT subsidiary) either are usually or customarily rendered in connection with the rental of real property and not otherwise considered rendered to the occupant, or, if considered impermissible services, will not result in an amount of impermissible tenant service income that will cause us to fail to meet the income test requirements. However, we cannot provide any assurance that the IRS will agree with these positions.

Income we receive that is attributable to the rental of parking spaces at the properties will constitute rents from real property for purposes of the REIT gross income tests if the services provided with respect to the parking facilities are performed by independent contractors from whom we derive no income, either directly or indirectly, or by a taxable REIT subsidiary. We believe that the income we receive that is attributable to parking facilities will meet these tests and, accordingly, will constitute rents from real property for purposes of the REIT gross income tests.

Interest Income. “Interest” generally will be non-qualifying income for purposes of the 75% or 95% gross income tests if it depends in whole or in part on the income or profits of any person. However, interest based on a fixed percentage or percentages of receipts or sales may still qualify under the gross income tests. We do not expect to derive significant amounts of interest that will not qualify under the 75% and 95% gross income tests.

Dividend Income. Our share of any dividends received from any taxable REIT subsidiaries will qualify for purposes of the 95% gross income test but not for purposes of the 75% gross income test. We do not anticipate that we will receive sufficient dividends from any taxable REIT subsidiaries to cause us to exceed the limit on non-qualifying income under the 75% gross income test. Dividends that we receive from other qualifying REITs will qualify for purposes of both REIT income tests.

Income from Hedging Transactions. From time to time we may enter into hedging transactions with respect to one or more of our assets or liabilities. Any such hedging transactions could take a variety of forms, including the use of derivative instruments such as interest rate swap or cap agreements, option agreements, and futures or forward contracts. Income of a REIT, including income from a pass-through subsidiary, arising from “clearly identified” hedging transactions that are entered into to manage the risk of interest rate or price changes with respect to borrowings, including gain from the disposition of such hedging transactions, to the extent the hedging transactions hedge indebtedness incurred, or to be incurred, by the REIT to acquire or carry real estate assets (each such hedge, a “Borrowings Hedge”), will not be treated as gross income for purposes of either the 95% gross income test or the 75% gross income test. Income of a REIT arising from hedging transactions that are entered into to manage the risk of currency fluctuations with respect to our investments (each such hedge, a “Currency Hedge”) will not be treated as gross income for purposes of either the 95% gross income test or the 75% gross income test provided that the transaction is “clearly identified.” This exclusion from the 95% and 75% gross income tests also will apply if we previously entered into a Borrowings Hedge or a Currency Hedge, a portion of the hedged indebtedness or property is disposed of, and in connection with such extinguishment or disposition we enter into a new “clearly identified” hedging transaction to offset the prior hedging position. In general, for a hedging transaction to be “clearly identified,” (1) it must be identified as a hedging transaction before the end of the day on which it is acquired, originated, or entered into; and (2) the items of risks being hedged must be identified “substantially contemporaneously” with entering into the hedging transaction (generally not more than 35 days after entering into the hedging transaction). To the extent that we hedge with other types of financial instruments or in other situations, the resultant income will be treated as income that does not qualify under the 95% or 75% gross income tests unless the hedge meets certain requirements and we elect to integrate it with a specified asset and to treat the integrated position as a synthetic debt instrument. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT but there can be no assurance we will be successful in this regard.

Income from Prohibited Transactions. Any gain that we realize on the sale of any property held as inventory or otherwise held primarily for sale to customers in the ordinary course of business, either directly or through pass-through subsidiaries, will be treated as income from a prohibited transaction that is subject to a 100% penalty tax. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. However, we will not be treated as a dealer in real property for purposes of the 100% tax with respect to a real estate asset that we sell if (i) we have held the property for at

least two years for the production of rental income prior to the sale, (ii) capitalized expenditures on the property in the two years preceding the sale are less than 30% of the net selling price of the property, and (iii) we either (a) have seven or fewer sales of property (excluding certain property obtained through foreclosure) for the year of sale; or (b) the aggregate adjusted basis of property sold during the year is 10% or less of the aggregate adjusted basis of all of our assets as of the beginning of the taxable year; or (c) the fair market value of property sold during the year is 10% or less of the aggregate fair market value of all of our assets as of the beginning of the taxable year; or (d) the aggregate adjusted basis of property sold during the year is 20% or less of the aggregate adjusted basis of all of our assets as of the beginning of the taxable year and the aggregate adjusted basis of property sold during the 3-year period ending with the year of sale is 10% or less of the aggregate tax basis of all of our assets as of the beginning of each of the 3 taxable years ending with the year of sale; or (e) the fair market value of property sold during the year is 20% or less of the aggregate fair market value of all of our assets as of the beginning of the taxable year and the fair market value of property sold during the 3-year period ending with the year of sale is 10% or less of the aggregate fair market value of all of our assets as of the beginning of each of the 3 taxable years ending with the year of sale. If we rely on clauses (b), (c), (d), or (e) in the preceding sentence, substantially all of the marketing and development expenditures with respect to the property sold must be made through an independent contractor from whom we derive no income or, one of our taxable REIT subsidiaries. The sale of more than one property to one buyer as part of one transaction constitutes one sale for purposes of this “safe harbor.” We intend to hold our properties for investment with a view to long-term appreciation, to engage in the business of acquiring, developing and owning our properties and to make occasional sales of the properties as are consistent with our investment objectives. However, the IRS may successfully contend that some or all of the sales made by us or subsidiary partnerships or limited liability companies are prohibited transactions. In that case, we would be required to pay the 100% penalty tax on our allocable share of the gains resulting from any such sales.

Income from Foreclosure Property. We generally will be subject to tax at the maximum corporate rate (currently 21%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that constitutes qualifying income for purposes of the 75% gross income test. Foreclosure property is real property and any personal property incident to such real property (1) that we acquire as the result of having bid on the property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after a default (or upon imminent default) on a lease of the property or a mortgage loan held by us and secured by the property, (2) for which we acquired the related loan or lease at a time when default was not imminent or anticipated, and (3) with respect to which we made a proper election to treat the property as foreclosure property. Any gain from the sale of property for which a foreclosure property election has been made and remains in place generally will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property. To the extent that we receive any income from foreclosure property that does not qualify for purposes of the 75% gross income test, we intend to make an election to treat the related property as foreclosure property if the election is available (which may not be the case with respect to any acquired “distressed loans”).

Failure to Satisfy the Gross Income Tests. If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for that year if we are entitled to relief under the Code. These relief provisions will be generally available if (1) our failure to meet these tests was due to reasonable cause and not due to willful neglect and (2) following our identification of the failure to meet the 75% and/or 95% gross income tests for any taxable year, we file a schedule with the IRS setting forth a description of each item of our gross income that satisfies the gross income tests for purposes of the 75% or 95% gross income test for such taxable year in accordance with Treasury Regulations. It is not possible, however, to state whether in all circumstances we would be entitled to the benefit of these relief provisions. If these relief provisions are inapplicable to a particular set of circumstances, we will fail to qualify as a REIT. As discussed above, under “—Taxation of the Company as a REIT—General,” even if these relief provisions apply, a tax would be imposed based on the amount of non-qualifying income. We intend to take advantage of any and all relief provisions that are available to us to cure any violation of the income tests applicable to REITs.

Any redetermined rents, redetermined deductions, excess interest, or redetermined taxable REIT subsidiary service income we generate will be subject to a 100% penalty tax. In general, redetermined rents are rents from real property that are overstated as a result of services furnished by one of our taxable REIT subsidiaries to any of our tenants, redetermined deductions and excess interest represent amounts that are deducted by a taxable REIT subsidiary for amounts paid to us that are in excess of the amounts that would have been deducted based on arm’s-length negotiations, and redetermined taxable REIT subsidiary service income is gross income (less deductions allocable thereto) of a taxable REIT subsidiary attributable to services provided to, or on behalf of, us that is less than the amounts that would have been paid by us to the taxable REIT subsidiary if based on arm’s-length negotiations. Rents we receive will not constitute redetermined rents if they qualify for the safe harbor provisions contained in the Code. Safe harbor provisions are provided where:

- amounts are excluded from the definition of impermissible tenant service income as a result of satisfying the 1% de minimis exception;

- a taxable REIT subsidiary renders a significant amount of similar services to unrelated parties and the charges for such services are substantially comparable;
- rents paid to us by tenants leasing at least 25% of the net leasable space of the REIT's property who are not receiving services from the taxable REIT subsidiary are substantially comparable to the rents paid by the REIT's tenants leasing comparable space who are receiving such services from the taxable REIT subsidiary and the charge for the service is separately stated; or
- the taxable REIT subsidiary's gross income from the service is not less than 150% of the taxable REIT subsidiary's direct cost of furnishing the service.

While we anticipate that any fees paid to a taxable REIT subsidiary for tenant services will reflect arm's-length rates, a taxable REIT subsidiary may under certain circumstances provide tenant services which do not satisfy any of the safe-harbor provisions described above. Nevertheless, these determinations are inherently factual, and the IRS has broad discretion to assert that amounts paid between related parties should be reallocated to clearly reflect their respective incomes. If the IRS successfully made such an assertion, we would be required to pay a 100% penalty tax on the redetermined rent, redetermined deductions or excess interest, as applicable.

Asset Tests

At the close of each calendar quarter, we must satisfy the following tests relating to the nature and diversification of our assets. For purposes of the asset tests, a REIT is not treated as owning the stock of a qualified REIT subsidiary or an equity interest in any entity treated as a partnership otherwise disregarded for U.S. federal income tax purposes. Instead, a REIT is treated as owning its proportionate share of the assets held by such entity.

- At least 75% of the value of our total assets must be represented by some combination of "real estate assets," cash, cash items, and U.S. government securities. For purposes of this test, real estate assets include interests in real property, such as land and buildings, leasehold interests in real property, stock of other corporations that qualify as REITs and debt instruments issued by publicly offered REITs, some types of mortgage-backed securities, mortgage loans, personal property leased in connection with real property to the extent that rents attributable to such personal property are treated as "rents from real property", and stock or debt instruments held for less than one year purchased with an offering of our shares or long term debt. Assets that do not qualify for purposes of the 75% asset test are subject to the additional asset tests described below.
- Not more than 25% of our total assets may be represented by securities other than those described in the first bullet above.
- Except for securities described in the first bullet above and the last bullet below and securities in qualified REIT subsidiaries and taxable REIT subsidiaries, the value of any one issuer's securities owned by us may not exceed 5% of the value of our total assets.
- Except for securities described in the first bullet above and the last bullet below and securities in qualified REIT subsidiaries and taxable REIT subsidiaries, we may not own more than 10% of any one issuer's outstanding voting securities.
- Except for securities described in the first bullet above and the last bullet below and securities in qualified REIT subsidiaries and taxable REIT subsidiaries, and certain types of indebtedness that are not treated as securities for purposes of this test, as discussed below, we may not own more than 10% of the total value of the outstanding securities of any one issuer.
- Not more than 20% of the value of our total assets may be represented by the securities of one or more taxable REIT subsidiaries.
- Not more than 25% of our total assets may be represented by debt instruments issued by publicly offered REITs that are "nonqualified" debt instruments (e.g., not secured by real property or interests in real property).

The 10% value test does not apply to certain "straight debt" and other excluded securities, as described in the Code, including (1) loans to individuals or estates; (2) obligations to pay rent from real property; (3) rental agreements described in Section 467

of the Code; (4) any security issued by other REITs; (5) certain securities issued by a state, the District of Columbia, a foreign government, or a political subdivision of any of the foregoing, or the Commonwealth of Puerto Rico; and (6) any other arrangement as determined by the IRS. In addition, (1) a REIT's interest as a partner in a partnership is not considered a security for purposes of the 10% value test; (2) any debt instrument issued by a partnership (other than straight debt or other excluded security) will not be considered a security issued by the partnership if at least 75% of the partnership's gross income is derived from sources that would qualify for the 75% REIT gross income test; and (3) any debt instrument issued by a partnership (other than straight debt or other excluded security) will not be considered a security issued by a partnership to the extent of the REIT's interest as a partner in the partnership.

For purposes of the 10% value test, debt will meet the "straight debt" safe harbor if (1) neither us, nor any of our controlled taxable REIT subsidiaries (i.e., taxable REIT subsidiaries more than 50% of the vote or value of the outstanding stock of which is directly or indirectly owned by us), own any securities not described in the preceding paragraph that have an aggregate value greater than 1% of the issuer's outstanding securities, as calculated under the Code, (2) the debt is a written unconditional promise to pay on demand or on a specified date a sum certain in money, (3) the debt is not convertible, directly or indirectly, into stock, and (4) the interest rate and the interest payment dates of the debt are not contingent on the profits, the borrower's discretion or similar factors. However, contingencies regarding time of payment and interest are permissible for purposes of qualifying as a straight debt security if either (1) such contingency does not have the effect of changing the effective yield of maturity, as determined under the Code, other than a change in the annual yield to maturity that does not exceed the greater of (i) 5% of the annual yield to maturity or (ii) 0.25%, or (2) neither the aggregate issue price nor the aggregate face amount of the issuer's debt instruments held by the REIT exceeds \$1,000,000 and not more than 12 months of unaccrued interest can be required to be prepaid thereunder. In addition, debt will not be disqualified from being treated as "straight debt" solely because the time or amount of payment is subject to a contingency upon a default or the exercise of a prepayment right by the issuer of the debt, provided that such contingency is consistent with customary commercial practice.

We own two subsidiaries that have elected to be treated as taxable REIT subsidiaries for U.S. federal income tax purposes. Our taxable REIT subsidiaries are taxable as non-REIT C corporations and have elected, together with us, to be treated as our taxable REIT subsidiaries. So long as our taxable REIT subsidiaries qualify as such, we will not be subject to the 5% asset test, 10% voting securities limitation or 10% value limitation with respect to our ownership interest in the taxable REIT subsidiaries. We may acquire securities in other taxable REIT subsidiaries in the future. We believe that the aggregate value of our interests in our taxable REIT subsidiaries does not exceed, and believe that in the future it will not exceed, 20% of the aggregate value of our gross assets. To the extent that we own an interest in an issuer that does not qualify as a REIT, a qualified REIT subsidiary, or a taxable REIT subsidiary, we believe that our pro rata share of the value of the securities, including debt, of any such issuer does not exceed 5% of the total value of our assets. Moreover, with respect to each issuer in which we own an interest that does not qualify as a qualified REIT subsidiary or a taxable REIT subsidiary, we believe that our ownership of the securities of any such issuer complies with the 10% voting securities limitation and 10% value limitation.

No independent appraisals have been obtained to support these conclusions. In this regard, however, we cannot provide any assurance that the IRS will agree with our determinations.

Failure to Satisfy the Asset Tests. The asset tests must be satisfied not only on the last day of the calendar quarter in which we, directly or through pass-through subsidiaries, acquire securities in the applicable issuer, but also on the last day of the calendar quarter in which we increase our ownership of securities of such issuer, including as a result of increasing our interest in pass-through subsidiaries. After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in the relative values of our assets (including a discrepancy caused solely by the change in the foreign currency exchange rate used to value a foreign asset). If failure to satisfy the asset tests results from an acquisition of securities or other property during a quarter, we can cure this failure by disposing of sufficient non-qualifying assets within 30 days after the close of that quarter. We intend to continue to maintain adequate records of the value of our assets to ensure compliance with the asset tests and to take any available action within 30 days after the close of any quarter as may be required to cure any noncompliance with the asset tests. Although we plan to take steps to ensure that we satisfy such tests for any quarter with respect to which testing is to occur, there can be no assurance that such steps will always be successful. If we fail to timely cure any noncompliance with the asset tests, we will cease to qualify as a REIT, unless we satisfy certain relief provisions.

The failure to satisfy the 5% asset test, or the 10% vote or value asset tests can be remedied even after the 30-day cure period under certain circumstances. Specifically, if we fail these asset tests at the end of any quarter and such failure is not cured within 30 days thereafter, we may dispose of sufficient assets (generally within six months after the last day of the quarter in which our identification of the failure to satisfy these asset tests occurred) to cure such a violation that does not exceed the lesser of 1% of our assets at the end of the relevant quarter or \$10,000,000. If we fail any of the other asset tests or our failure of the 5% and 10% asset tests is in excess of the de minimis amount described above, as long as such failure was due to reasonable

cause and not willful neglect, we are permitted to avoid disqualification as a REIT, after the 30-day cure period, by taking steps including the disposing of sufficient assets to meet the asset test (generally within six months after the last day of the quarter in which our identification of the failure to satisfy the REIT asset test occurred), paying a tax equal to the greater of \$50,000 or the highest corporate income tax rate of the net income generated by the non-qualifying assets during the period in which we failed to satisfy the asset test, and filing in accordance with applicable Treasury Regulations a schedule with the IRS that describes the assets that caused us to fail to satisfy the asset test(s). We intend to take advantage of any and all relief provisions that are available to us to cure any violation of the asset tests applicable to REITs. In certain circumstances, utilization of such provisions could result in us being required to pay an excise or penalty tax, which could be significant in amount.

Annual Distribution Requirements

To qualify as a REIT, we are required to distribute dividends, other than capital gain dividends, to our shareholders each year in an amount at least equal to:

- the sum of: (1) 90% of our “REIT taxable income,” computed without regard to the dividends paid deduction and our net capital gain; and (2) 90% of our after tax net income, if any, from foreclosure property; minus
- the excess of the sum of specified items of non-cash income over 5% of our REIT taxable income, computed without regard to our net capital gain and the deduction for dividends paid.

For purposes of this test, non-cash income means income attributable to leveled stepped rents, original issue discount included in our taxable income without the receipt of a corresponding payment, cancellation of indebtedness or income attributable to a like-kind exchange that is later determined to be taxable.

We generally must make dividend distributions in the taxable year to which they relate. Dividend distributions may be made in the following year in two circumstances. First, if we declare a dividend in October, November, or December of any year with a record date in one of these months and pay the dividend on or before January 31 of the following year. Such distributions are treated as both paid by us and received by each shareholder on December 31 of the year in which they are declared. Second, distributions may be made in the following year if they are declared before we timely file our tax return for the year and if made with or before the first regular dividend payment after such declaration. These distributions are taxable to our shareholders in the year in which paid, even though the distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

To the extent that we do not distribute all of our net capital gain or distribute at least 90%, but less than 100%, of our “REIT taxable income,” as adjusted, we will be required to pay tax on that amount at regular corporate tax rates. We intend to make timely distributions sufficient to satisfy these annual distribution requirements. In certain circumstances we may elect to retain, rather than distribute, our net long-term capital gains and pay tax on such gains. In this case, we could elect for our shareholders to include their proportionate share of such undistributed long-term capital gains in income, and to receive a corresponding credit for their share of the tax that we paid. Our shareholders would then increase their adjusted basis of their stock by the difference between (1) the amounts of capital gain dividends that we designated and that they included in their taxable income, minus (2) the tax that we paid on their behalf with respect to that income.

To the extent that in the future we may have available net operating losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. Our deduction for any net operating loss carryforwards arising from losses we sustain in taxable years beginning after December 31, 2017 is limited to 80% of our REIT taxable income (determined without regard to the deduction for dividends paid), and any unused portion of such losses may be carried forward indefinitely.

If we fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for such year, (b) 95% of our REIT capital gain net income for such year, and (c) any undistributed taxable income from prior periods, we would be subject to a non-deductible 4% excise tax on the excess of such required distribution over the sum of (x) the amounts actually distributed, and (y) the amounts of income we retained and on which we paid corporate income tax.

We expect that our REIT taxable income (determined before our deduction for dividends paid) will be less than our cash flow because of depreciation and other non-cash charges included in computing REIT taxable income. Accordingly, we anticipate that we will generally have sufficient cash or liquid assets to enable us to satisfy the distribution requirements described above. However, from time to time, we may not have sufficient cash or other liquid assets to meet these distribution requirements due to timing differences between the actual receipt of income and actual payment of deductible expenses, and the inclusion of income and deduction of expenses in arriving at our taxable income.

The Code limits the deductibility of net interest expense paid or accrued on debt properly allocable to a trade or business to 30% of “adjusted taxable income,” subject to certain exceptions. Any deduction in excess of the limitation is carried forward and may be used in a subsequent year, subject to the 30% limitation. Adjusted taxable income is determined without regard to certain deductions, including those for net interest expense, net operating loss carryforwards and, for taxable years beginning before January 1, 2022, depreciation, amortization and depletion. If we or our subsidiaries, as applicable, are eligible to make a timely election (which is irrevocable), the 30% limitation does not apply to a trade or business involving real property development, redevelopment, construction, reconstruction, rental, operation, acquisition, conversion, disposition, management, leasing or brokerage, within the meaning of Section 469(c)(7)(C) of the Code. If this election is made, depreciable real property (including certain improvements) held by the relevant trade or business must be depreciated under the alternative depreciation system under the Code, which is generally less favorable than the generally applicable system of depreciation under the Code. If we do not make the election or if the election is determined not to be available with respect to all or certain of our business activities, this interest deduction limitation could result in us having more REIT taxable income and thus increase the amount of distributions we must make to comply with the REIT requirements and avoid incurring corporate level tax. Similarly, the limitation could cause our taxable REIT subsidiaries to have greater taxable income and thus potentially greater corporate tax liability.

Furthermore, under amendments to Section 451 of the Code made by 2017 legislation informally called the Tax Cuts and Jobs Act (the “TCJA”), subject to certain exceptions, we must accrue income for U.S. federal income tax purposes no later than when such income is taken into account as revenue in our financial statements, which could create additional differences between REIT taxable income and the receipt of cash attributable to such income. In addition, Section 162(m) of the Code places a per-employee limit of \$1 million on the amount of compensation that a publicly held corporation may deduct in any one year with respect to its chief executive officer and certain other highly compensated executive officers. Changes to Section 162(m) made by the TCJA eliminated an exception that formerly permitted certain performance-based compensation to be deducted even if in excess of \$1 million, which may have the effect of increasing our REIT taxable income. If these timing differences occur, we may need to arrange for short-term, or possibly long-term, borrowings or need to pay dividends in the form of taxable stock dividends in order to meet the distribution requirements.

We may be able to rectify a failure to meet the distribution requirement for a year by paying “deficiency dividends” to our shareholders in a later year, which may be included in our deduction for dividends paid for the earlier year. Thus, we may be able to avoid being taxed on amounts distributed as deficiency dividends. However, we will be required to pay interest to the IRS based upon the amount of any deduction claimed for deficiency dividends.

Record-Keeping Requirements

We are required to comply with applicable record-keeping requirements. Failure to comply could result in monetary fines.

Failure to Qualify as a REIT

If we fail to satisfy one or more requirements for REIT qualification other than gross income and asset tests that have the specific savings clauses, we can avoid termination of our REIT qualification by paying a penalty of \$50,000 for each such failure, provided that our noncompliance was due to reasonable cause and not willful neglect.

If we fail to qualify for taxation as a REIT in any taxable year and the relief provisions do not apply, we will be subject to tax on our taxable income at regular corporate rates. If we fail to qualify for taxation as a REIT, we will not be required to make any distributions to shareholders, and any distributions that are made to shareholders will not be deductible by us. As a result, our failure to qualify for taxation as a REIT would significantly reduce the cash available for distributions by us to our shareholders. In addition, if we fail to qualify for taxation as a REIT, all distributions to shareholders, to the extent of our current and accumulated earnings and profits, will be taxable as regular corporate dividends. For taxable years before January 1, 2026, generally, U.S. shareholders that are individuals, trusts or estates may deduct 20% of the aggregate amount of ordinary dividends distributed by us, subject to certain limitations. Alternatively, such dividends paid to U.S. shareholders that are individuals, trusts and estates may be taxable at the preferential income tax rates (i.e., the 20% maximum U.S. federal rate (excluding the 3.8% tax on “net investment income”)) for qualified dividends. In addition, subject to the limitations of the Code, corporate distributees may be eligible for the dividends-received deduction,

Unless entitled to relief under specific statutory provisions, we also will be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. In addition, if we merge with another REIT and we are the “successor” to the other REIT, the other REIT’s disqualification from taxation as a REIT would prevent us from being taxed as a REIT for the four taxable years following the year during which the other REIT’s qualification was lost. There can be no

assurance that we would be entitled to any statutory relief. We intend to take advantage of any and all relief provisions that are available to us to cure any violation of the requirements applicable to REITs.

Taxation of U.S. Shareholders

Taxation of Taxable U.S. Shareholders

This section summarizes the taxation of U.S. shareholders that are not tax-exempt organizations. For these purposes, the term “U.S. shareholder” is a beneficial owner of our shares that is, for U.S. federal income tax purposes:

- a. a citizen or resident of the United States;
- a. a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or of a political subdivision thereof (including the District of Columbia);
- a. an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a. any trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in place to be treated as a U.S. person.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our shares, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding our shares should consult its own tax advisor regarding the U.S. federal income tax consequences to the partner of the acquisition, ownership and disposition of our shares by the partnership.

Distributions Generally. So long as we qualify as a REIT, distributions out of our current or accumulated earnings and profits that are not designated as capital gains dividends or “qualified dividend income” will be taxable to our taxable U.S. shareholders as ordinary income and will not be eligible for the dividends-received deduction in the case of U.S. shareholders that are corporations. However, for tax years prior to 2026, generally U.S. shareholders that are individuals, trusts or estates may deduct 20% of the aggregate amount of ordinary dividends distributed by us, subject to certain limitations. For purposes of determining whether distributions to holders of shares are out of current or accumulated earnings and profits, our earnings and profits will be allocated first to any outstanding preferred shares and then to our outstanding common shares. Dividends received from REITs are generally not eligible to be taxed at the preferential qualified dividend income rates currently available to individual U.S. shareholders who receive dividends from taxable subchapter “C” corporations.

Capital Gain Dividends. We may elect to designate distributions of our net capital gain as “capital gain dividends.” Distributions that we properly designate as “capital gain dividends” will be taxable to our taxable U.S. shareholders as long-term capital gains without regard to the period for which the U.S. shareholder that receives such distribution has held its shares. Designations made by us will only be effective to the extent that they comply with Revenue Ruling 89-81, which requires that distributions made to different classes of shares be composed proportionately of dividends of a particular type. If we designate any portion of a dividend as a capital gain dividend, a U.S. shareholder will receive an IRS Form 1099-DIV indicating the amount that will be taxable to the shareholder as capital gain. Corporate shareholders, however, may be required to treat up to 20% of some capital gain dividends as ordinary income. Recipients of capital gain dividends from us that are taxed at corporate income tax rates will be taxed at the normal corporate income tax rates on these dividends.

We may elect to retain and pay taxes on some or all of our net long-term capital gains, in which case U.S. shareholders will be treated as having received, solely for U.S. federal income tax purposes, our undistributed capital gains as well as a corresponding credit or refund, as the case may be, for taxes that we paid on such undistributed capital gains. A U.S. shareholder will increase the basis in its shares by the difference between the amount of capital gain included in its income and the amount of tax it is deemed to have paid. A U.S. shareholder that is a corporation will appropriately adjust its earnings and profits for the retained capital gain in accordance with Treasury Regulations to be prescribed by the IRS. Our earnings and profits will be adjusted appropriately.

We will classify portions of any designated capital gain dividend or undistributed capital gain as either:

- a long-term capital gain distribution, which would be taxable to non-corporate U.S. shareholders at a maximum rate of 20% (excluding the 3.8% tax on “net investment income”), and taxable to U.S. shareholders that are corporations at a maximum rate of 21%; or

- an “unrecaptured Section 1250 gain” distribution, which would be taxable to non-corporate U.S. shareholders at a maximum rate of 25%, to the extent of previously claimed depreciation deductions.

Distributions from us in excess of our current and accumulated earnings and profits will not be taxable to a U.S. shareholder to the extent that they do not exceed the adjusted basis of the U.S. shareholder’s shares in respect of which the distributions were made. Rather, the distribution will reduce the adjusted basis of these shares. To the extent that such distributions exceed the adjusted basis of a U.S. shareholder’s shares of our shares, the U.S. shareholder generally must include such distributions in income as long-term capital gain, or short-term capital gain if the shares have been held for one year or less. In addition, any dividend that we declare in October, November or December of any year and that is payable to a shareholder of record on a specified date in any such month will be treated as both paid by us and received by the shareholder on December 31 of such year, provided that we actually pay the dividend before the end of January of the following calendar year.

To the extent that we have available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. See “—Taxation of the Company as a REIT” and “—Requirements for Qualification as a REIT—Annual Distribution Requirements.” Such losses, however, are not passed through to U.S. shareholders and do not offset income of U.S. shareholders from other sources, nor would such losses affect the character of any distributions that we make, which are generally subject to tax in the hands of U.S. shareholders to the extent that we have current or accumulated earnings and profits.

The maximum amount of dividends that we may designate as capital gain and as “qualified dividend income” (discussed below) with respect to any taxable year may not exceed the dividends actually paid by us with respect to such year, including dividends paid by us in the succeeding tax year that relate back to the prior tax year for purposes of determining our dividends paid deduction.

Qualified Dividend Income. We may elect to designate a portion of our distributions paid to shareholders as “qualified dividend income.” A portion of a distribution that is properly designated as qualified dividend income is taxable to non-corporate U.S. shareholders as capital gain, provided that the shareholder has held the shares with respect to which the distribution is made for more than 60 days during the 121-day period beginning on the date that is 60 days before the date on which such shares become ex-dividend with respect to the relevant distribution. The maximum amount of our distributions eligible to be designated as qualified dividend income for a taxable year is equal to the sum of:

- the qualified dividend income received by us during such taxable year from non-REIT corporations (including our taxable REIT subsidiaries);
- the excess of any “undistributed” REIT taxable income recognized during the immediately preceding year over the U.S. federal income tax paid by us with respect to such undistributed REIT taxable income; and
- the excess of (i) any income recognized during the immediately preceding year attributable to the sale of a built-in-gain asset that was acquired in a carry-over basis transaction from a “C” corporation with respect to which the Company is required to pay U.S. federal income tax, over (ii) the U.S. federal income tax paid by us with respect to such built-in gain.

Generally, dividends that we receive will be treated as qualified dividend income for purposes of the first bullet above if (A) the dividends are received from (i) a U.S. corporation (other than a REIT or a RIC), (ii) any of our taxable REIT subsidiaries, or (iii) a “qualifying foreign corporation,” and (B) specified holding period requirements and other requirements are met. A foreign corporation (other than a “foreign personal holding company,” a “foreign investment company,” or “passive foreign investment company”) will be a qualifying foreign corporation if it is incorporated in a possession of the United States, the corporation is eligible for benefits of an income tax treaty with the United States that the Secretary of Treasury determines is satisfactory, or the stock of the foreign corporation on which the dividend is paid is readily tradable on an established securities market in the United States. We generally expect that an insignificant portion, if any, of our distributions from us will consist of qualified dividend income. If we designate any portion of a dividend as qualified dividend income, a U.S. shareholder will receive an IRS Form 1099-DIV indicating the amount that will be taxable to the shareholder as qualified dividend income.

Passive Activity Losses and Investment Interest Limitations. Distributions we make and gain arising from the sale or exchange by a U.S. shareholder of our shares will not be treated as passive activity income. As a result, U.S. shareholders generally will not be able to apply any “passive losses” against this income or gain. Distributions we make, to the extent they do not constitute a return of capital, generally will be treated as investment income for purposes of computing the investment interest limitation. A U.S. shareholder may elect, depending on its particular situation, to treat capital gain dividends, capital gains from the

disposition of shares and income designated as qualified dividend income as investment income for purposes of the investment interest limitation, in which case the applicable capital gains will be taxed at ordinary income rates. We will notify shareholders regarding the portions of our distributions for each year that constitute ordinary income, return of capital and qualified dividend income.

Distributions to Holders of Depositary Shares. Owners of depositary shares will be treated for U.S. federal income tax purposes as if they were owners of the underlying preferred shares represented by such depositary shares. Accordingly, such owners will be entitled to take into account, for U.S. federal income tax purposes, income and deductions to which they would be entitled if they were direct holders of underlying preferred shares. In addition, (i) no gain or loss will be recognized for U.S. federal income tax purposes upon the withdrawal of certificates evidencing the underlying preferred shares in exchange for depositary receipts, (ii) the tax basis of each share of the underlying preferred shares to an exchanging owner of depositary shares will, upon such exchange, be the same as the aggregate tax basis of the depositary shares exchanged therefor, and (iii) the holding period for the underlying preferred shares in the hands of an exchanging owner of depositary shares will include the period during which such person owned such depositary shares.

Dispositions of Our Shares. If a U.S. shareholder sells, redeems or otherwise disposes of its shares in a taxable transaction, it will recognize gain or loss for U.S. federal income tax purposes in an amount equal to the difference between the amount of cash and the fair market value of any property received on the sale or other disposition and the holder's adjusted basis in the shares for tax purposes. In general, a U.S. shareholder's adjusted basis will equal the U.S. shareholder's acquisition cost, increased by the excess for net capital gains deemed distributed to the U.S. shareholder (discussed above) less tax deemed paid on it and reduced by returns on capital.

In general, capital gains recognized by individuals and other non-corporate U.S. shareholders upon the sale or disposition of our shares will be subject to a maximum U.S. federal income tax rate of 20% (excluding the 3.8% tax on "net investment income"), if our shares are held for more than one year, and will be taxed at ordinary income rates of up to 37% if the stock is held for one year or less. Gains recognized by U.S. shareholders that are corporations are subject to U.S. federal income tax at a maximum rate of 21%, whether or not such gains are classified as long-term capital gains. The IRS has the authority to prescribe, but has not yet prescribed, Treasury Regulations that would apply a capital gain tax rate of 25% (which is higher than the long-term capital gain tax rates for non-corporate U.S. shareholders) to a portion of capital gain realized by a non-corporate U.S. shareholder on the sale of the Company's shares that would correspond to the REIT's "unrecaptured Section 1250 gain." U.S. shareholders should consult with their own tax advisors with respect to their capital gain tax liability.

Capital losses recognized by a U.S. shareholder upon the disposition of our shares that were held for more than one year at the time of disposition will be considered long-term capital losses, and are generally available only to offset capital gain income of the shareholder but not ordinary income (except in the case of individuals, who may offset up to \$3,000 of ordinary income each year). In addition, any loss upon a sale or exchange of our shares by a U.S. shareholder who has held the shares for six months or less, after applying holding period rules, will be treated as a long-term capital loss to the extent of distributions that we make that are required to be treated by the U.S. shareholder as long-term capital gain.

If a shareholder recognizes a loss upon a subsequent disposition of our shares in an amount that exceeds a prescribed threshold, it is possible that the provisions of Treasury Regulations involving "reportable transactions" could apply, with a resulting requirement to separately disclose the loss-generating transaction to the IRS. These regulations, though directed towards "tax shelters," are broadly written, and apply to transactions that would not typically be considered tax shelters. The Code imposes significant penalties for failure to comply with these requirements. U.S. shareholders should consult their tax advisors concerning any possible disclosure obligation with respect to the receipt or disposition of our shares, or transactions that we might undertake directly or indirectly.

Redemption of Preferred Shares and Depositary Shares. Whenever we redeem any preferred shares held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing the preferred shares so redeemed. The treatment accorded to any redemption by us for cash (as distinguished from a sale, exchange or other disposition) of our preferred shares to a holder of such preferred shares can only be determined on the basis of the particular facts as to each holder at the time of redemption. In general, a holder of our preferred shares will recognize capital gain or loss measured by the difference between the amount received by the holder of such shares upon the redemption and such holder's adjusted tax basis in the preferred shares redeemed (provided the preferred shares are held as a capital asset) if such redemption (i) is "not essentially equivalent to a dividend" with respect to the holder of the preferred shares under Section 302(b)(1) of the Code, (ii) is a "substantially disproportionate" redemption with respect to the shareholder under Section 302(b)(2) of the Code, or (iii) results in a "complete termination" of the holder's interest in all classes of our shares under Section 302(b)(3) of the Code. In applying these tests, there must be taken into account not only any series or class of the preferred shares being redeemed, but also such holder's ownership of other classes of our shares and any options (including stock purchase rights) to

acquire any of the foregoing. The holder of our preferred shares also must take into account any such securities (including options) which are considered to be owned by such holder by reason of the constructive ownership rules set forth in Sections 318 and 302(c) of the Code.

If the holder of preferred shares owns (actually or constructively) none of our voting shares, or owns an insubstantial amount of our voting shares, based upon current law, it is probable that the redemption of preferred shares from such a holder would be considered to be “not essentially equivalent to a dividend.” However, whether a distribution is “not essentially equivalent to a dividend” depends on all of the facts and circumstances, and a holder of our preferred shares intending to rely on any of these tests at the time of redemption should consult its tax advisor to determine their application to its particular situation.

Satisfaction of the “substantially disproportionate” and “complete termination” exceptions is dependent upon compliance with the respective objective tests set forth in Section 302(b)(2) and Section 302(b)(3) of the Code. A distribution to a holder of preferred shares will be “substantially disproportionate” if the percentage of our outstanding voting shares actually and constructively owned by the shareholder immediately following the redemption of preferred shares (treating preferred shares redeemed as not outstanding) is less than 80% of the percentage of our outstanding voting shares actually and constructively owned by the shareholder immediately before the redemption, and immediately following the redemption the shareholder actually and constructively owns less than 50% of the total combined voting power of the Company. Because the Company’s preferred shares are nonvoting shares, a shareholder would have to reduce such holder’s holdings (if any) in our classes of voting shares to satisfy this test.

If the redemption does not meet any of the tests under Section 302 of the Code, then the redemption proceeds received from our preferred shares will be treated as a distribution on our shares as described under “—Taxation of U.S. Shareholders—Taxation of Taxable U.S. Shareholders-Distributions Generally,” and “—Taxation of Non-U.S. Shareholders-Distributions Generally.” If the redemption of a holder’s preferred shares is taxed as a dividend, the adjusted basis of such holder’s redeemed preferred shares will be transferred to any other shares held by the holder. If the holder owns no other shares, under certain circumstances, such basis may be transferred to a related person, or it may be lost entirely.

With respect to a redemption of our preferred shares that is treated as a distribution with respect to our shares, which is not otherwise taxable as a dividend, the IRS has proposed Treasury Regulations that would require any basis reduction associated with such a redemption to be applied on a share-by-share basis which could result in taxable gain with respect to some shares, even though the holder’s aggregate basis for the shares would be sufficient to absorb the entire amount of the redemption distribution (in excess of any amount of such distribution treated as a dividend). Additionally, these proposed Treasury Regulations would not permit the transfer of basis in the redeemed shares of the preferred shares to the remaining shares held (directly or indirectly) by the redeemed holder. Instead, the unrecovered basis in our preferred shares would be treated as a deferred loss to be recognized when certain conditions are satisfied. These proposed Treasury Regulations would be effective for transactions that occur after the date the regulations are published as final Treasury Regulations. There can, however, be no assurance as to whether, when, and in what particular form such proposed Treasury Regulations will ultimately be finalized.

Net Investment Income Tax. In certain circumstances, certain U.S. shareholders that are individuals, estates or trusts are subject to a 3.8% tax on “net investment income,” which includes, among other things, dividends on and gains from the sale or other disposition of REIT shares. U.S. shareholders should consult their own tax advisors regarding this legislation.

Expansion of Medicare Tax. The temporary 20% deduction allowed by Section 199A of the Code, as added by the TCJA, with respect to ordinary REIT dividends received by non-corporate taxpayers is allowed only for purposes of Chapter 1 of the Code and thus is apparently not allowed as a deduction allocable to such dividends for purposes of determining the amount of net investment income, described above, subject to the 3.8% Medicare tax, which is imposed under Chapter 2A of the Code. Prospective investors should consult their own tax advisors regarding this legislation.

Taxation of Tax-Exempt Shareholders

U.S. tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from U.S. federal income taxation. Such entities, however, may be subject to taxation on their unrelated business taxable income, or UBTI. While some investments in real estate may generate UBTI, the IRS has ruled that dividend distributions from a REIT to a tax-exempt entity generally do not constitute UBTI. Based on that ruling, and provided that (1) a tax-exempt shareholder has not held our shares as “debt financed property” within the meaning of the Code (i.e., where the acquisition or holding of our shares is financed through a borrowing by the U.S. tax-exempt shareholder), (2) our shares are not otherwise used in an unrelated trade or business of a U.S. tax-exempt shareholder, and (3) we do not hold an asset that gives rise to “excess inclusion income,” distributions that we make and income from the sale of our shares generally should not give rise to UBTI to a U.S. tax-exempt shareholder.

Tax-exempt shareholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, or qualified group legal services plans exempt from U.S. federal income taxation under Sections 501(c)(7), (c)(9) or (c)(17) of the Code, respectively, or single parent title-holding corporations exempt under Section 501(c)(2) and whose income is payable to any of the aforementioned tax-exempt organizations, are subject to different UBTI rules, which generally require such shareholders to characterize distributions from us as UBTI unless the organization is able to properly claim a deduction for amounts set aside or placed in reserve for certain purposes so as to offset the income generated by its investment in our shares. These shareholders should consult with their tax advisors concerning these set aside and reserve requirements.

In certain circumstances, a pension trust (1) that is described in Section 401(a) of the Code, (2) is tax exempt under Section 501(a) of the Code, and (3) that owns more than 10% of the value of our shares could be required to treat a percentage of the dividends as UBTI, if we are a “pension-held REIT.” We will not be a pension-held REIT unless:

- either (1) one pension trust owns more than 25% of the value of our stock, or (2) one or more pension trusts, each individually holding more than 10% of the value of our shares, collectively own more than 50% of the value of our shares; and
- we would not have qualified as a REIT but for the fact that Section 856(h)(3) of the Code provides that shares owned by such trusts shall be treated, for purposes of the requirement that not more than 50% of the value of the outstanding shares of a REIT is owned, directly or indirectly, by five or fewer “individuals” (as defined in the Code to include certain entities), as owned by the beneficiaries of such trusts.

The percentage of any REIT dividend from a “pension-held REIT” that is treated as UBTI is equal to the ratio of the UBTI earned by the REIT, treating the REIT as if it were a pension trust and therefore subject to tax on UBTI, to the total gross income of the REIT. An exception applies where the percentage is less than 5% for any year, in which case none of the dividends would be treated as UBTI. The provisions requiring pension trusts to treat a portion of REIT distributions as UBTI will not apply if the REIT is able to satisfy the “not closely held requirement” without relying upon the “look-through” exception with respect to pension trusts. As a result of certain limitations on the transfer and ownership of our common and preferred shares contained in our declaration of trust, we do not expect to be classified as a “pension-held REIT,” and accordingly, the tax treatment described above with respect to pension-held REITs should be inapplicable to our tax-exempt shareholders.

Taxation of Non-U.S. Shareholders

The following discussion addresses the rules governing U.S. federal income taxation of non-U.S. shareholders. For purposes of this summary, “non-U.S. shareholder” is a beneficial owner of our shares that is not a U.S. shareholder (as defined above under “—Taxation of U.S. Shareholders—Taxation of Taxable U.S. Shareholders”) or an entity that is treated as a partnership for U.S. federal income tax purposes. These rules are complex, and no attempt is made herein to provide more than a brief summary of such rules. Accordingly, the discussion does not address all aspects of U.S. federal income taxation and does not address state local or foreign tax consequences that may be relevant to a non-U.S. shareholder in light of its particular circumstances. Prospective non-U.S. shareholders are urged to consult their tax advisors to determine the impact of U.S. federal, state, local and foreign income tax laws on their ownership of our common shares or preferred shares, including any reporting requirements.

Distributions Generally. As described in the discussion below, distributions paid by us with respect to our common shares, our preferred shares and depositary shares will be treated for U.S. federal income tax purposes as either:

- ordinary income dividends;
- long-term capital gain; or
- return of capital distributions.

This discussion assumes that our shares will continue to be considered regularly traded on an established securities market for purposes of the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA, provisions described below. If our shares are no longer regularly traded on an established securities market, the tax considerations described below would materially differ.

Ordinary Income Dividends. A distribution paid by us to a non-U.S. shareholder will be treated as an ordinary income dividend if the distribution is payable out of our earnings and profits and:

- not attributable to our net capital gain; or
- the distribution is attributable to our net capital gain from the sale of U.S. Real Property Interests (“USRPIs”), and the non-U.S. shareholder owns 10% or less of the value of our common shares at all times during the one-year period ending on the date of the distribution.

In general, non-U.S. shareholders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of our shares. In cases where the dividend income from a non-U.S. shareholder’s investment in our shares is, or is treated as, effectively connected with the non-U.S. shareholder’s conduct of a U.S. trade or business, the non-U.S. shareholder generally will be subject to U.S. federal income tax at graduated rates, in the same manner as U.S. shareholders are taxed with respect to such dividends. Such income must generally be reported on a U.S. income tax return filed by or on behalf of the non-U.S. shareholder. The income may also be subject to the 30% branch profits tax in the case of a non-U.S. shareholder that is a corporation.

Generally, we will withhold and remit to the IRS 30% (or lower applicable treaty rate) of dividend distributions (including distributions that may later be determined to have been made in excess of current and accumulated earnings and profits) that could not be treated as capital gain distributions with respect to the non-U.S. shareholder (and that are not deemed to be capital gain dividends for purposes of the FIRPTA withholding rules described below) unless:

- a lower treaty rate applies and the non-U.S. shareholder files an IRS Form W-8BEN or Form W-8BEN-E, as applicable, evidencing eligibility for that reduced treaty rate with us; or
- the non-U.S. shareholder files an IRS Form W-8ECI with us claiming that the distribution is income effectively connected with the non-U.S. shareholder’s trade or business; or
- the non-U.S. shareholder is a foreign sovereign or controlled entity of a foreign sovereign and also provides an IRS Form W-8EXP claiming an exemption from withholding under section 892 of the Code.

Return of Capital Distributions. Unless (A) our shares constitute a USRPI, as described in “—Dispositions of Our Shares” below, or (B) either (1) the non-U.S. shareholder’s investment in our shares is effectively connected with a U.S. trade or business conducted by such non-U.S. shareholder (in which case the non-U.S. shareholder will be subject to the same treatment as U.S. shareholders with respect to such gain) or (2) the non-U.S. shareholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a “tax home” in the United States (in which case the non-U.S. shareholder will be subject to a 30% tax on the individual’s net capital gain for the year), distributions that we make which are not dividends out of our earnings and profits will not be subject to U.S. federal income tax. If we cannot determine at the time a distribution is made whether or not the distribution will exceed current and accumulated earnings and profits, the distribution will be subject to withholding at the rate applicable to dividends. The non-U.S. shareholder may seek a refund from the IRS of any amounts withheld if it subsequently is determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits. If our shares constitute a USRPI, as described below, distributions that we make in excess of the sum of (1) the non-U.S. shareholder’s proportionate share of our earnings and profits, and (2) the non-U.S. shareholder’s basis in its shares, will be taxed under FIRPTA at the rate of tax, including any applicable capital gains rates, that would apply to a U.S. shareholder of the same type (e.g., an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a refundable withholding tax at a rate of 15% of the amount by which the distribution exceeds the non-U.S. shareholder’s share of our earnings and profits.

Capital Gain Dividends. A distribution paid by us to a non-U.S. shareholder will be treated as long-term capital gain if the distribution is paid out of our current or accumulated earnings and profits and:

- the distribution is attributable to our net capital gain (other than from the sale of USRPIs) and we timely designate the distribution as a capital gain dividend; or
- the distribution is attributable to our net capital gain from the sale of USRPIs and the non-U.S. common shareholder owns more than 10% of the value of common shares at any point during the one-year period ending on the date on which the distribution is paid.

Long-term capital gain that a non-U.S. shareholder is deemed to receive from a capital gain dividend that is not attributable to the sale of USRPIs generally will not be subject to U.S. federal income tax in the hands of the non-U.S. shareholder unless:

- the non-U.S. shareholder's investment in our shares is effectively connected with a U.S. trade or business of the non-U.S. shareholder, in which case the non-U.S. shareholder will be subject to the same treatment as U.S. shareholders with respect to any gain, except that a non-U.S. shareholder that is a corporation also may be subject to the 30% (or lower applicable treaty rate) branch profits tax; or
- the non-U.S. shareholder is a nonresident alien individual who is present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States in which case the nonresident alien individual will be subject to a 30% tax on his capital gains.

Under FIRPTA, distributions that are attributable to net capital gain from the sale by us of USRPIs and paid to a non-U.S. shareholder that owns more than 10% of the value of our shares at any time during the one-year period ending on the date on which the distribution is paid will be subject to U.S. tax as income effectively connected with a U.S. trade or business. The FIRPTA tax will apply to these distributions whether or not the distribution is designated as a capital gain dividend, and, in the case of a non-U.S. shareholder that is a corporation, such distributions also may be subject to the 30% (or lower applicable treaty rate) branch profits tax.

Any distribution paid by us that is treated as a capital gain dividend or that could be treated as a capital gain dividend with respect to a particular non-U.S. shareholder will be subject to special withholding rules under FIRPTA. We will withhold and remit to the IRS 21% (or, to the extent provided in Treasury Regulations, 20%) of any distribution that could be treated as a capital gain dividend with respect to the non-U.S. shareholder, whether or not the distribution is attributable to the sale by us of USRPIs. The amount withheld is creditable against the non-U.S. shareholder's U.S. federal income tax liability or refundable when the non-U.S. shareholder properly and timely files a tax return with the IRS.

Certain non-U.S. pension funds that are "qualified foreign pension funds" as defined by Section 897(l) of the Code and certain non-U.S. publicly traded entities that are "qualified shareholders" as defined by Section 897(k) of the Code may be entitled to exceptions to the FIRPTA tax with respect to distributions we pay. Non-U.S. shareholders should consult with their tax advisors regarding the application of these exceptions.

Undistributed Capital Gain. Although the law is not entirely clear on the matter, it appears that amounts designated by us as undistributed capital gains in respect of our shares held by non-U.S. shareholders generally should be treated in the same manner as actual distributions by us of capital gain dividends. Under this approach, the non-U.S. shareholder would be able to offset as a credit against their U.S. federal income tax liability resulting therefrom their proportionate share of the tax paid by us on the undistributed capital gains treated as long-term capital gains to the non-U.S. shareholder, and generally receive from the IRS a refund to the extent their proportionate share of the tax paid by us were to exceed the non-U.S. shareholder's actual U.S. federal income tax liability on such long-term capital gain. If we were to designate any portion of our net capital gain as undistributed capital gain, a non-U.S. shareholder should consult its tax advisors regarding taxation of such undistributed capital gain.

Dispositions of Our Shares. Unless our shares constitute a USRPI, a sale of our shares by a non-U.S. shareholder generally will not be subject to U.S. federal income taxation under FIRPTA. Generally, subject to the discussion below regarding dispositions by "qualified shareholders" and "qualified foreign pension funds," with respect to any particular shareholder, our shares will constitute a USRPI only if each of the following three statements is true:

- 50% or more of our assets on any of certain testing dates during a prescribed testing period consist of interests in real property located within the United States, excluding for this purpose, interests in real property solely in a capacity as creditor;
- We are not a "domestically-controlled qualified investment entity." A domestically-controlled qualified investment entity includes a REIT, less than 50% of value of which is held directly or indirectly by non-U.S. shareholders at all times during a specified testing period. Although we believe that we are and will remain a domestically-controlled REIT, because our shares are publicly traded, we cannot guarantee that we are or will remain a domestically-controlled qualified investment entity; and
- Either (a) our shares are not "regularly traded," as defined by applicable Treasury Regulations, on an established securities market; or (b) our shares are "regularly traded" on an established securities market and the selling non-U.S. shareholder has held over 10% of our outstanding common shares any time during the five-year period ending on the date of the sale.

Certain non-U.S. pension funds that are "qualified foreign pension funds" as defined by Section 897(l) of the Code and certain

non-U.S. publicly traded entities that are “qualified shareholders” as defined by Section 897(k) of the Code may be entitled to exceptions to the FIRPTA tax with respect to the sale of our shares. Non-U.S. shareholders should consult with their tax advisors regarding the application of these exceptions.

Specific wash sales rules applicable to sales of shares in a domestically-controlled qualified investment entity could result in gain recognition, taxable under FIRPTA, upon the sale of our shares even if we are a domestically-controlled qualified investment entity. These rules would apply if a non-U.S. shareholder (1) disposes of our shares within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been taxable to such non-U.S. shareholder as gain from the sale or exchange of a USRPI, (2) acquires, or enters into a contract or option to acquire, other shares of our shares during the 61-day period that begins 30 days prior to such ex-dividend date, and (3) if our shares are “regularly traded” on an established securities market in the United States, such non-US stockholder has owned more than 10% of our outstanding shares at any time during the one-year period ending on the date of such distribution.

If gain on the sale of our shares were subject to taxation under FIRPTA, the non-U.S. shareholder would be required to file a U.S. federal income tax return and would be subject to the same treatment as a U.S. shareholder with respect to such gain, subject to the applicable alternative minimum tax and a special alternative minimum tax in the case of non-resident alien individuals, and, if our common shares were not “regularly traded” on an established securities market, the purchaser of the shares generally would be required to withhold 15% of the purchase price and remit such amount to the IRS.

Gain from the sale of our shares that would not otherwise be subject to FIRPTA will nonetheless be taxable in the United States to a non-U.S. shareholder as follows: (1) if the non-U.S. shareholder’s investment in our shares is effectively connected with a U.S. trade or business conducted by such non-U.S. shareholder, the non-U.S. shareholder will be subject to the same treatment as a U.S. shareholder with respect to such gain, or (2) if the non-U.S. shareholder is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year and has a “tax home” in the United States, the nonresident alien individual will be subject to a 30% tax on the individual’s capital gain.

Taxation of Holders of Our Warrants and Rights

Warrants. Holders of our warrants will not generally recognize gain or loss upon the exercise of a warrant. A holder’s basis in the preferred shares, depositary shares representing preferred shares or common shares, as the case may be, received upon the exercise of the warrant will be equal to the sum of the holder’s adjusted tax basis in the warrant and the exercise price paid. A holder’s holding period in the preferred shares, depositary shares representing preferred shares or common shares, as the case may be, received upon the exercise of the warrant will not include the period during which the warrant was held by the holder. Upon the expiration of a warrant, the holder will recognize a capital loss in an amount equal to the holder’s adjusted tax basis in the warrant. Upon the sale or exchange of a warrant to a person other than us, a holder will recognize gain or loss in an amount equal to the difference between the amount realized on the sale or exchange and the holder’s adjusted tax basis in the warrant. Such gain or loss will be capital gain or loss and will be long-term capital gain or loss if the warrant was held for more than one year. Upon the sale of the warrant to us, the IRS may argue that the holder should recognize ordinary income on the sale. Prospective holders of our warrants should consult their own tax advisors as to the consequences of a sale of a warrant to us.

Rights. In the event of a rights offering, the tax consequences of the receipt, expiration, and exercise of the rights we issue will be addressed in detail in a prospectus supplement. Prospective holders of our rights should review the applicable prospectus supplement in connection with the ownership of any rights, and consult their own tax advisors as to the consequences of investing in the rights.

Dividend Reinvestment and Share Purchase Plan

General

We offer shareholders and prospective shareholders the opportunity to participate in our Dividend Reinvestment and Share Purchase Plan, which is referred to herein as the “DRIP.”

Although we do not currently offer any discount in connection with the DRIP, nor do we plan to offer such a discount at present, we reserve the right to offer in the future a discount on shares purchased, not to exceed 5%, with reinvested dividends or cash distributions and shares purchased through the optional cash investment feature. This discussion assumes that we do not offer a discount in connection with the DRIP. If we were to offer a discount in connection with the DRIP the tax considerations described below would materially differ. In the event that we offer a discount in connection with the DRIP, shareholders are urged to consult with their tax advisors regarding the tax treatment to them of receiving a discount.

Amounts Treated as a Distribution

Generally, a DRIP participant will be treated as having received a distribution with respect to our shares for U.S. federal income tax purposes in an amount determined as described below.

- A shareholder who participates in the dividend reinvestment feature of the DRIP and whose dividends are reinvested in our shares purchased from us will be treated for U.S. federal income tax purposes as having received a distribution from us with respect to our shares equal to the fair market value of our shares credited to the shareholder's DRIP account on the date the dividends are reinvested. The amount of the distribution deemed received will be reported on the Form 1099-DIV received by the shareholder.
- A shareholder who participates in the dividend reinvestment feature of the DRIP and whose dividends are reinvested in our shares purchased in the open market, will be treated for U.S. federal income tax purposes as having received (and will receive a Form 1099-DIV reporting) a distribution from us with respect to its shares equal to the fair market value of our shares credited to the shareholder's DRIP account (plus any brokerage fees and any other expenses deducted from the amount of the distribution reinvested) on the date the dividends are reinvested.
- A shareholder who participates in the optional cash purchase through the DRIP (or a newly enrolled participant not currently our shareholder making their initial investment in our common shares through the DRIP's optional cash purchase feature) will not be treated as receiving a distribution from us.

We will pay the annual maintenance cost for each shareholder's DRIP account. Consistent with the conclusion reached by the IRS in a private letter ruling issued to another REIT, we intend to take the position that the administrative costs do not constitute a distribution which is either taxable to a shareholder or which would reduce the shareholder's basis in their common shares. However, because the private letter ruling was not issued to us, we have no legal right to rely on its conclusions. Thus, it is possible that the IRS might view the shareholder's share of the administrative costs as constituting a taxable distribution to them and/or a distribution which reduces the basis in their shares. For this and other reasons, we may in the future take a different position with respect to these costs.

In the situations described above, a shareholder will be treated as receiving a distribution from us even though no cash distribution is actually received. These distributions will be taxable in the same manner as all other distributions paid by us, as described above under “—Taxation of U.S. Shareholders—Taxation of Taxable U.S. Shareholders,” “—Taxation of U.S. Shareholders—Taxation of Tax-Exempt Shareholders,” or “—Taxation of Non-U.S. Shareholders,” as applicable.

Basis and Holding Period in Shares Acquired Pursuant to the DRIP. The tax basis for our shares acquired by reinvesting cash distributions through the DRIP generally will equal the fair market value of our shares on the date of distribution (plus the amount of any brokerage fees paid by the shareholder). The holding period for our shares acquired by reinvesting cash distributions will begin on the day following the date of distribution.

The tax basis in our shares acquired through an optional cash investment generally will equal the cost paid by the participant in acquiring our shares, including any brokerage fees paid by the shareholder. The holding period for our shares purchased through the optional cash investment feature of the DRIP generally will begin on the day our shares are purchased for the participant's account.

Withdrawal of Shares from the DRIP. When a participant withdraws stock from the DRIP and receives whole shares, the participant will not realize any taxable income. However, if the participant receives cash for a fractional share, the participant will be required to recognize gain or loss with respect to that fractional share.

Effect of Withholding Requirements. Withholding requirements generally applicable to distributions from us will apply to all amounts treated as distributions pursuant to the DRIP. See “—Information Reporting and Backup Withholding Tax Applicable to Shareholders—U.S. Shareholders—Generally” and “—Information Reporting and Backup Withholding Tax Applicable to Shareholders—Non-U.S. Shareholders—Generally” for discussion of the withholding requirements that apply to other distributions that we pay. All withholding amounts will be withheld from distributions before the distributions are reinvested under the DRIP. Therefore, if a U.S. shareholder is subject to withholding, distributions which would otherwise be available for reinvestment under the DRIP will be reduced by the withholding amount.

Information Reporting and Backup Withholding Tax Applicable to Shareholders

U.S. Shareholders—Generally

In general, information-reporting requirements will apply to payments of distributions on our shares and payments of the proceeds of the sale of our shares to some U.S. shareholders, unless an exception applies. Further, the payer will be required to withhold backup withholding tax on such payments if:

- (1) the payee fails to furnish a taxpayer identification number (“TIN”) to the payer or to establish an exemption from backup withholding;
- (2) the IRS notifies the payer that the TIN furnished by the payee is incorrect;
- (3) there has been a notified payee under-reporting with respect to interest, dividends or original issue discount described in Section 3406(c) of the Code; or
- (4) there has been a failure of the payee to certify under the penalty of perjury that the payee is not subject to backup withholding under the Code.

Some shareholders may be exempt from backup withholding. Any amounts withheld under the backup withholding rules from a payment to a shareholder will be allowed as a credit against the shareholder’s U.S. federal income tax liability and may entitle the shareholder to a refund, provided that the required information is furnished to the IRS.

U.S. Shareholders—Withholding on Payments in Respect of Certain Foreign Accounts.

As described below, certain future payments made to “foreign financial institutions” and “non-financial foreign entities” may be subject to withholding at a rate of 30%. U.S. shareholders should consult their tax advisors regarding the effect, if any, of this withholding provision on their ownership and disposition of our common stock. See “—Non-U.S. Shareholders—Withholding on Payments to Certain Foreign Entities” below.

Non-U.S. Shareholders—Generally

Generally, information reporting will apply to payments or distributions on our shares, and backup withholding described above for a U.S. shareholder will apply, unless the payee certifies that it is not a U.S. person or otherwise establishes an exemption. The payment of the proceeds from the disposition of our shares to or through the U.S. office of a U.S. or foreign broker will be subject to information reporting and, possibly, backup withholding as described above for U.S. shareholders, or the withholding tax for non-U.S. shareholders, as applicable, unless the non-U.S. shareholder certifies as to its non-U.S. status or otherwise establishes an exemption, provided that the broker does not have actual knowledge that the shareholder is a U.S. person or that the conditions of any other exemption are not, in fact, satisfied. The proceeds of the disposition by a non-U.S. shareholder of our shares to or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, if the broker is a U.S. person, a controlled foreign corporation for U.S. federal income tax purposes, or a foreign person 50% or more of whose gross income from all sources for specified periods is from activities that are effectively connected with a U.S. trade or business, a foreign partnership 50% or more of whose interests are held by partners who are U.S. persons, or a foreign partnership that is engaged in the conduct of a trade or business in the United States, then information reporting generally will apply as though the payment was made through a U.S. office of a U.S. or foreign broker unless the broker has documentary evidence as to the non-U.S. shareholder’s foreign status and has no actual knowledge to the contrary.

Applicable Treasury Regulations provide presumptions regarding the status of shareholders when payments to the shareholders cannot be reliably associated with appropriate documentation provided to the payor. If a non-U.S. shareholder fails to comply with the information reporting requirement, payments to such person may be subject to the full withholding tax even if such person might have been eligible for a reduced rate of withholding or no withholding under an applicable income tax treaty. Because the application of these Treasury Regulations varies depending on the non-U.S. shareholder’s particular circumstances, non-U.S. shareholders are urged to consult their tax advisor regarding the information reporting requirements applicable to them.

Backup withholding is not an additional tax. Any amounts that we withhold under the backup withholding rules will be refunded or credited against the non-U.S. shareholder’s U.S. federal income tax liability if certain required information is furnished to the IRS. Non-U.S. shareholders should consult their own tax advisors regarding application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury Regulations.

Non-U.S. Shareholders—Withholding on Payments to Certain Foreign Entities

The Foreign Account Tax Compliance Act (“FATCA”) imposes a 30% withholding tax on certain types of payments made to “foreign financial institutions” and certain other non-U.S. entities unless certain due diligence, reporting, withholding, and certification obligations requirements are satisfied.

As a general matter, FATCA imposes a 30% withholding tax on dividends in respect of our shares if paid to a foreign entity unless either (i) the foreign entity is a “foreign financial institution” that undertakes certain due diligence, reporting, withholding, and certification obligations, or in the case of a foreign financial institution that is a resident in a jurisdiction that has entered into an intergovernmental agreement to implement FATCA, the entity complies with the diligence and reporting requirements of such agreement, (ii) the foreign entity is not a “foreign financial institution” and identifies certain of its U.S. investors, or (iii) the foreign entity otherwise is exempted under FATCA. While withholding under FATCA would have applied to payments of gross proceeds from the sale or other disposition of our shares received after December 31, 2018, proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers may generally rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

If withholding is required under FATCA on a payment related to our shares, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction (provided that such benefit is available). Prospective investors should consult their tax advisors regarding the effect of FATCA in their particular circumstances.

Taxation of Holders of Debt Securities

The following discussion summarizes certain U.S. federal income tax considerations relating to the purchase, ownership and disposition of certain debt securities that we may offer. This summary assumes the debt securities will be issued with no more than a de minimis amount of original issue discount for U.S. federal income tax purposes. This summary only applies to investors that will hold their debt securities as “capital assets” (within the meaning of Section 1221 of the Code) and purchase their debt securities in the initial offering at their issue price. If such debt securities are purchased at a price other than the offering price, the amortizable bond premium or market discount rules may apply which are not described herein. Prospective holders should consult their own tax advisors regarding these possibilities. This section also does not apply to any debt securities treated as “equity,” rather than debt, for U.S. federal income tax purposes.

The tax consequences of owning any notes issued with more than de minimis original issue discount, floating rate debt securities, convertible or exchangeable notes, indexed notes or other debt securities not covered by this discussion that we offer will be discussed in the applicable prospectus supplement.

U.S. Holders of Debt Securities

This section summarizes the taxation of U.S. Holders of debt securities that are not tax-exempt organizations. For these purposes, the term “U.S. Holder” is a beneficial owner of our debt securities that is, for U.S. federal income tax purposes:

- a citizen or resident of the United States;
- a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or of a political subdivision thereof (including the District of Columbia);
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- any trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in place to be treated as a U.S. person.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our debt securities, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding our debt securities should consult its own tax advisor regarding the U.S. federal income tax consequences to the partner of the acquisition, ownership and disposition of our debt securities by the partnership.

Payments of Interest. Interest on a note will generally be taxable to a U.S. Holder as ordinary interest income at the time it is received or accrued, in accordance with the U.S. Holder’s regular method of tax accounting for U.S. federal income tax

purposes.

Sale, Exchange, Retirement, Redemption or Other Taxable Disposition of the Debt Securities. Upon a sale, exchange, retirement, redemption or other taxable disposition of debt securities, a U.S. Holder generally will recognize taxable gain or loss in an amount equal to the difference, if any, between the “amount realized” on the disposition and the U.S. Holder’s adjusted tax basis in such debt securities. The amount realized will include the amount of any cash and the fair market value of any property received for the debt securities (other than any amount attributable to accrued but unpaid interest, which will be taxable as ordinary income (as described above under “—Taxation of Holders of Debt Securities—U.S. Holders of Debt Securities—Payments of Interest”) to the extent not previously included in income). A U.S. Holder’s adjusted tax basis in a note generally will be equal to the cost of the note to such U.S. Holder decreased by any payments received on the note other than stated interest. Any such gain or loss generally will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder’s holding period for the note is more than one year at the time of disposition. For non-corporate U.S. Holders, long-term capital gain generally will be subject to reduced rates of taxation. The deductibility of capital losses against ordinary income is subject to certain limitations.

Information Reporting and Backup Withholding. Payments of interest on, or the proceeds of the sale, exchange or other taxable disposition (including a retirement or redemption) of, a note are generally subject to information reporting unless the U.S. Holder is an exempt recipient (such as a corporation). Such payments may also be subject to U.S. federal backup withholding unless (1) the U.S. Holder is an exempt recipient (such as a corporation), or (2) prior to payment, the U.S. Holder provides a taxpayer identification number and certifies as required on a duly completed and executed IRS Form W-9 (or permitted substitute or successor form), and otherwise complies with the requirements of the backup withholding rules. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against that U.S. Holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Net Investment Income. In certain circumstances, certain U.S. Holders that are individuals, estates, or trusts are subject to a 3.8% tax on “net investment income,” which includes, among other things, interest income and net gains from the sale, exchange or other taxable disposition (including a retirement or redemption) of the debt securities, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive activities or securities or commodities trading activities). Investors in debt securities should consult their own tax advisors regarding the applicability of this tax to their income and gain in respect of their investment in the debt securities.

Tax-Exempt Holders of Debt Securities

In general, a tax-exempt organization is exempt from U.S. federal income tax on its income, except to the extent of its UBTI (as defined above under “—Taxation of U.S. Shareholders—Taxation of U.S. Tax-Exempt Shareholders”). Interest income accrued on the debt securities and gain recognized in connection with dispositions of the debt securities generally will not constitute UBTI unless the tax-exempt organization holds the debt securities as debt-financed property (e.g., the tax-exempt organization has incurred “acquisition indebtedness” with respect to such note). Before making an investment in the debt securities, a tax-exempt investor should consult its tax advisors with regard to UBTI and the suitability of the investment in the debt securities.

Non-U.S. Holders of Debt Securities

The following discussion addresses the rules governing U.S. federal income taxation of Non-U.S. Holders of debt securities. For purposes of this summary, “Non-U.S. Holder” is a beneficial owner of our debt securities that is not (i) a U.S. Holder (as defined above under “—U.S. Holders of Debt Securities”) or (ii) an entity treated as a partnership for U.S. federal income tax purposes.

Payments of Interest. Subject to the discussions below concerning backup withholding and FATCA (as defined below), all payments of interest on the debt securities made to a Non-U.S. Holder will not be subject to U.S. federal income or withholding taxes under the “portfolio interest” exception of the Code, provided that the Non-U.S. Holder:

- does not own, actually or constructively, 10% or more of our stock,
- is not a controlled foreign corporation with respect to which we are a “related person” (within the meaning of Section 864(d)(4) of the Code),
- is not a bank whose receipt of interest on a note is described in Section 881(c)(3)(A) of the Code, and

- provides its name and address on an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable form) and certifies, under penalties of perjury, that it is not a U.S. Holder.

The applicable Treasury Regulations provide alternative methods for satisfying the certification requirement described in this section. In addition, under these Treasury Regulations, special rules apply to pass-through entities and this certification requirement may also apply to beneficial owners of pass-through entities. If a Non-U.S. Holder cannot satisfy the requirements described above, payments of interest will generally be subject to the 30% U.S. federal withholding tax, unless the Non-U.S. Holder provides the applicable withholding agent with a properly executed (1) IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable form) claiming an exemption from or reduction in withholding under an applicable income tax treaty or (2) IRS Form W-8ECI (or other applicable form) stating that interest paid on the debt securities is not subject to U.S. federal withholding tax because it is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States (as discussed below under “—Non-U.S. Holders of Debt Securities—Income Effectively Connected with a U.S. Trade or Business”).

Sale, Exchange, Retirement, Redemption or Other Taxable Disposition of the Debt Securities. Subject to the discussions below concerning backup withholding and FATCA and except with respect to accrued but unpaid interest, which generally will be taxable as interest and may be subject to the rules described above under “—Non-U.S. Holders of Debt Securities—Payments of Interest,” a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on the receipt of payments of principal on a note, or on any gain recognized upon the sale, exchange, retirement, redemption or other taxable disposition of a note, unless:

- such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States, in which case such gain will be taxed as described below under “—Non-U.S. Holders of Debt Securities—Income Effectively Connected with a U.S. Trade or Business,” or
- such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met, in which case such Non-U.S. Holder will be subject to tax at 30% (or, if applicable, a lower treaty rate) on the gain derived from such disposition, which may be offset by U.S. source capital losses.

Income Effectively Connected with a U.S. Trade or Business. If a Non-U.S. Holder is engaged in a trade or business in the United States, and if interest on the debt securities or gain realized on the sale, exchange or other taxable disposition (including a retirement or redemption) of the debt securities is effectively connected with the conduct of such trade or business, the Non-U.S. Holder generally will be subject to regular U.S. federal income tax on such income or gain in the same manner as if the Non-U.S. Holder were a U.S. Holder. If the Non-U.S. Holder is eligible for the benefits of an income tax treaty between the United States and the Non-U.S. Holder’s country of residence, any “effectively connected” income or gain generally will be subject to U.S. federal income tax only if it is also attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States. In addition, if such a Non-U.S. Holder is a foreign corporation, such holder may also be subject to a branch profits tax equal to 30% (or such lower rate provided by an applicable income tax treaty) of its effectively connected earnings and profits, subject to certain adjustments. Payments of interest that are effectively connected with a U.S. trade or business will not be subject to the 30% U.S. federal withholding tax provided that the Non-U.S. Holder claims exemption from withholding. To claim exemption from withholding, the Non-U.S. Holder must certify its qualification, which generally can be done by filing a properly executed IRS Form W-8ECI (or other applicable form).

Information Reporting and Backup Withholding. Generally, we must report annually to the IRS and to Non-U.S. Holders the amount of interest paid to Non-U.S. Holders and the amount of tax, if any, withheld with respect to those payments. Copies of these information returns reporting such interest and withholding may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides. In general, a Non-U.S. Holder will not be subject to backup withholding or additional information reporting requirements with respect to payments of interest that we make, provided that the statement described above in last bullet point under “—Non-U.S. Holders of Debt Securities—Interest” has been received and we do not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code, that is not an exempt recipient. In addition, proceeds from a sale or other disposition of a note by a Non-U.S. Holder generally will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of the sale or disposition (including a retirement or redemption) of a note within the United States or conducted through certain U.S. or U.S.-related financial intermediaries, unless the statement described above has been received and we do not have actual knowledge or reason to know that the holder is a U.S. person. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a non-U.S. holder’s U.S. federal income tax liability if the required information is furnished in a timely manner to the IRS.

Additional Withholding Requirements. As discussed above under “—Information Reporting and Backup Withholding Tax Applicable to Shareholders—Non-U.S. Shareholders—Withholding on Payments to Certain Foreign Entities,” FATCA imposes a 30% withholding tax on certain types of payments made to “foreign financial institutions” and certain other non-U.S. entities unless certain due diligence, reporting, withholding, and certification obligations requirements are satisfied.

As a general matter, payments to Non-U.S. Holders that are foreign entities (whether as beneficial owner or intermediary) of interest on a debt obligation of a U.S. issuer will be subject to a withholding tax (separate and apart from, but without duplication of, the withholding tax described above) at a rate of 30%, unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied. While withholding under FATCA would have applied to payments of gross proceeds from the sale or other disposition of, a debt obligation of a U.S. issuer received after December 31, 2018, proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers may generally rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

If withholding is required under FATCA on a payment related to the debt securities, Non-U.S. Holders that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction (provided that such benefit is available). Prospective investors should consult their tax advisors regarding the effect of FATCA in their particular circumstances.

Other Tax Considerations

State, Local and Foreign Taxes

We may be required to pay tax in various state or local jurisdictions, including those in which we transact business, and our shareholders may be required to pay tax in various state or local jurisdictions, including those in which they reside. Our state and local tax treatment may not conform to the U.S. federal income tax consequences discussed above. In addition, a shareholder’s state and local tax treatment may not conform to the U.S. federal income tax consequences discussed above. Consequently, prospective investors should consult with their tax advisors regarding the effect of state and local tax laws on an investment in our shares and depositary shares.

A portion of our income is earned through our taxable REIT subsidiaries. The taxable REIT subsidiaries are subject to U.S. federal, state and local income tax at the full applicable corporate rates. In addition, a taxable REIT subsidiary will be limited in its ability to deduct interest payments in excess of a certain amount made directly or indirectly to us. To the extent that our taxable REIT subsidiaries and we are required to pay U.S. federal, state or local taxes, we will have less cash available for distribution to shareholders.

Tax Shelter Reporting

If a holder recognizes a loss as a result of a transaction with respect to our shares of at least (i) for a holder that is an individual, S corporation, trust or a partnership with at least one non-corporate partner, \$2 million or more in a single taxable year or \$4 million or more in a combination of taxable years, or (ii) for a holder that is either a corporation or a partnership with only corporate partners, \$10 million or more in a single taxable year or \$20 million or more in a combination of taxable years, such holder may be required to file a disclosure statement with the IRS on Form 8886. Direct shareholders of portfolio securities are in many cases exempt from this reporting requirement, but shareholders of a REIT currently are not excepted. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

Legislative or Other Actions Affecting REITs

The rules dealing with U.S. federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department. We cannot give you any assurances as to whether, or in what form, any proposals affecting REITs or their shareholders will be enacted. Changes to the U.S. federal tax laws and interpretations thereof could adversely affect an investment in our shares. Shareholders should consult their tax advisors regarding the effect of potential changes to the U.S. federal tax laws and on an investment in our shares.

ITEM 9C: DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS.

Not applicable.

PART III

Certain information required by Part III is omitted from this Form 10-K in that we will file a definitive proxy statement pursuant to Regulation 14A with respect to our 2022 Annual Meeting (the “Proxy Statement”) no later than 120 days after the end of the fiscal year covered by this Form 10-K, and certain information included therein is incorporated herein by reference. Only those sections of the Proxy Statement which specifically address the items set forth herein are incorporated by reference. In addition, we have adopted a code of ethics that applies to all of our trustees, officers and employees, which can be reviewed and printed from our website www.washreit.com. The reference to our website address does not constitute incorporation by reference of the information contained in the website and such information should not be considered part of this document.

ITEM 10: DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

NAME	POSITION
<i>Trustees</i>	
Paul T. McDermott	Chairman and Chief Executive Officer, WashREIT
Edward S. Civera	Lead Independent Trustee, WashREIT; Retired Chairman, Catalyst Health Solutions, Inc.
Benjamin S. Butcher	Chief Executive Officer, President and Chairman of the Board of Directors of STAG Industrial, Inc.
William G. Byrnes	Retired Managing Director, Alex Brown & Sons
Ellen M. Goitia	Retired Partner, KPMG
Thomas H. Nolan, Jr.	Former Chairman of the Board and Chief Executive Officer, Spirit Realty Capital Inc.
Vice Adm. Anthony L. Winns (RET.)	President, Middle East-Africa Region, Lockheed Martin Corporation
<i>Executive Officers</i>	
Paul T. McDermott	Chairman and Chief Executive Officer, WashREIT
Stephen E. Riffie	Executive Vice President and Chief Financial Officer
Taryn D. Fielder	Senior Vice President, General Counsel and Corporate Secretary
Susan L. Gerock	Senior Vice President and Chief Information Officer

The other information required by this Item is hereby incorporated herein by reference to our Proxy Statement.

MANAGEMENT’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of Washington Real Estate Investment Trust (“WashREIT”) is responsible for establishing and maintaining adequate internal control over financial reporting and for the assessment of the effectiveness of internal controls over financial reporting. WashREIT’s internal control system over financial reporting is a process designed under the supervision of WashREIT’s principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated financial statements in accordance with U.S. generally accepted accounting principles.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions.

In connection with the preparation of WashREIT’s annual consolidated financial statements, management has undertaken an assessment of the effectiveness of WashREIT’s internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission (the 2013 COSO Framework). Management’s assessment included an evaluation of the design of WashREIT’s internal control over financial reporting and testing of the operational effectiveness of those controls.

Based on this assessment, management has concluded that as of December 31, 2021, WashREIT’s internal control over financial reporting was effective at a reasonable assurance level regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Ernst & Young LLP, the independent registered public accounting firm that audited WashREIT’s consolidated financial statements included in this report, has issued an unqualified opinion on the effectiveness of WashREIT’s internal control over financial reporting, a copy of which appears on page [85](#) of this annual report.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of Washington Real Estate Investment Trust

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Washington Real Estate Investment Trust and Subsidiaries (the Company) as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive income (loss), equity and cash flows for each of the three years in the period ended December 31, 2021, and the related notes and financial statement schedules listed in the Index at Item 15(a) (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 18, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Impairment Assessment of Income Producing Properties

Description of the Matter The Company had net income producing property of \$1.6 billion as of December 31, 2021. As discussed in Note 2 to the consolidated financial statements, real estate is evaluated for recoverability based on estimated cash flows if there are indicators of potential impairment.

Auditing the Company's impairment analysis involved a high degree of subjectivity due to the uncertainty around the Company's estimated cash flows used in the impairment assessment. Estimated future cash flows are based on assumptions, including the projected annual and residual cash flows and the estimated holding period for individual properties, that are forward looking and could be affected by future economic and market conditions.

How We Addressed the Matter in Our Audit We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's process for assessing impairment of income producing properties. For example, we tested controls over management's review of qualitative and quantitative indicators of impairment and properties' expected future cash flows used in the recoverability evaluation, and we tested management's review of the significant assumptions used in their impairment assessment.

Our testing of the Company's impairment assessment included, among other procedures, evaluating the significant assumptions and testing the completeness and accuracy of the underlying data used by the Company to develop its estimated future cash flows for individual income producing properties. We held discussions with management about the current status of potential transactions and about management's judgments to understand the probability of future events that could affect the holding period and other cash flow assumptions for the properties. We searched for and evaluated information that corroborates or contradicts the Company's assumptions. We also compared the significant assumptions to current industry, market and economic trends and to the historical results of the properties.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2002.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of Washington Real Estate Investment Trust

Opinion on Internal Control Over Financial Reporting

We have audited Washington Real Estate Investment Trust and Subsidiaries' internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Washington Real Estate Investment Trust and Subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2021 consolidated financial statements of the Company and our report dated February 18, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

WASHINGTON REAL ESTATE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2021, 2020 AND 2019

NOTE 1: NATURE OF BUSINESS

Washington Real Estate Investment Trust ("WashREIT"), a Maryland real estate investment trust, is a self-administered equity real estate investment trust, successor to a trust organized in 1960. Our business consists of the ownership and operation of income-producing real estate properties primarily in the greater Washington, DC metro region, the majority of which are residential properties.

U.S. Federal Income Taxes

We believe that we qualify as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the "Code"), and intend to continue to qualify as such. To maintain our status as a REIT, we are, among other things, required to distribute 90% of our REIT taxable income (which is generally our ordinary taxable income, with certain modifications), excluding any net capital gains and any deductions for dividends paid to our shareholders on an annual basis. When selling a property, we generally have the option of (a) reinvesting the sales proceeds of property sold in a way that allows us to defer recognition of some or all taxable gain realized on the sale, (b) distributing gains to the shareholders with no tax to us or (c) treating net long-term capital gains as having been distributed to our shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to our shareholders. During the three years ended December 31, 2021, we sold our interests in the following properties (in thousands):

Disposition Date	Property	Type	(Loss) Gain on Sale
July 26, 2021	Office Portfolio ⁽¹⁾	Office	\$ (11,220)
September 22, 2021	Retail Portfolio ⁽²⁾	Retail	57,661
	Total 2021		\$ 46,441
April 21, 2020	John Marshall II	Office	\$ (6,855)
December 2, 2020	Monument II	Office	(8,595)
December 17, 2020	1227 25th Street	Office	1,125
	Total 2020		\$ (14,325)
June 26, 2019	Quantico Corporate Center ⁽³⁾	Office	\$ (1,046)
July 23, 2019	Shopping Center Portfolio ⁽⁴⁾	Retail	333,023
August 21, 2019	Frederick Crossing and Frederick County Square	Retail	9,507
August 27, 2019	Centre at Hagerstown	Retail	(3,506)
December 19, 2019	1776 G Street	Office	61,007
	Total 2019		\$ 398,985

⁽¹⁾ Consists of twelve office properties: 1901 Pennsylvania Avenue, 515 King Street, 1220 19th Street, 1600 Wilson Boulevard, Silverline Center, Courthouse Square, 2000 M Street, 1140 Connecticut Avenue, Army Navy Club, 1775 Eye Street, Fairgate at Ballston and Arlington Tower.

⁽²⁾ Consists of eight retail properties: Takoma Park, Westminster, Concord Centre, Chevy Chase Metro Plaza, 800 S. Washington Street, Randolph Shopping Center, Montrose Shopping Center and Spring Valley Village.

⁽³⁾ Consists of 925 and 1000 Corporate Drive.

⁽⁴⁾ Consists of five retail properties: Gateway Overlook, Wheaton Park, Olney Village Center, Bradlee Shopping Center and Shoppes of Foxchase.

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed taxable income and taxes on the income generated by our taxable REIT subsidiaries ("TRSs"). Our TRSs are subject to corporate federal and state income tax on their taxable income at regular statutory rates. As of both December 31, 2021 and 2020, our TRSs had a deferred tax asset of \$1.4 million that was fully reserved.

Beginning in 2018, ordinary taxable income per share is equal to the Section 199A dividend that was created by the Tax Cuts and Jobs Act. The following is a breakdown of the taxable percentage of our dividends for the three years ended December 31,

2021 (unaudited):

	2021	2020	2019
Ordinary income/Section 199A dividends	— %	36 %	80 %
Return of capital	100 %	64 %	20 %
Qualified dividends	— %	— %	— %
Unrecaptured Section 1250 gain	— %	— %	— %
Capital gain	— %	— %	— %

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Principles of Consolidation and Basis of Presentation

The accompanying audited consolidated financial statements include the consolidated accounts of WashREIT and our subsidiaries and entities in which WashREIT has a controlling financial interest. All intercompany balances and transactions have been eliminated in consolidation.

We have prepared the accompanying audited consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission.

Use of Estimates in the Financial Statements

The preparation of financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

We primarily lease residential properties under operating leases with terms of generally one year or less. Rental revenues are recognized in accordance with ASC Topic 842, *Leases*, using a method that represents straight-line basis over the term of the leases. In circumstances where a lease concession is provided to the resident, primarily in lease-up, we recognize a reduction of rental revenues on a straight-line basis.

We also generate other property-related revenue associated with the leasing of apartment homes, including parking income, move-in charges, pet rent and other miscellaneous revenue. Similar to rental income, such revenues are recorded when due from tenants and recognized monthly as they are earned.

We recognize cost reimbursement income at our residential properties from pass-through expenses on an accrual basis over the periods in which the expenses were incurred. Pass-through expenses are primarily comprised of utility costs which are reimbursed by tenants in accordance with specific allowable costs per tenant lease agreements.

We recognize gains on sales of real estate when we have executed a contract for sale of the asset, transferred controlling financial interest in the asset to the buyer and determined that it is probable that we will collect substantially all of the consideration for the asset. Our real estate sale transactions typically meet these criteria at closing.

Rents and Other Receivables

Lease related receivables, which include contractual amounts accrued and unpaid from residents and accrued straight-line rents receivable, are reduced for credit losses. Such amounts are recognized as a reduction to real estate rental revenues. We evaluate the collectability of lease receivables on a lease-by-lease basis. We recognize the credit loss on lease related receivables when, in the opinion of management, collection of substantially all lease payments is not probable. When collectability is determined not probable, any lease income recognized subsequent to recognizing the credit loss is limited to the lesser of the lease income reflected on a straight-line basis or cash collected.

Debt Issuance Costs

We amortize external debt issuance costs using the effective interest rate method or the straight-line method, which approximates the effective interest rate method over the estimated life of the related debt. We record debt issuance costs related to notes, net of amortization, on our consolidated balance sheets as an offset to their related debt. We record debt issuance costs related to revolving lines of credit on our consolidated balance sheets with Prepaid expenses and other assets, regardless of whether a balance on the line of credit is outstanding. We record the amortization of all debt issuance costs as interest expense.

Real Estate and Depreciation

We depreciate buildings on a straight-line basis over an estimated useful life of 26 to 40 years. We capitalize all capital improvements associated with replacements, improvements or major repairs to real property that extend its useful life and depreciate them using the straight-line method over their estimated useful lives ranging from 3 to 40 years. We also capitalize costs incurred in connection with our development projects, including interest incurred on borrowing obligations and other internal costs during periods in which qualifying expenditures have been made and activities necessary to get the development projects ready for their intended use are in progress. Capitalization of these costs begins when the activities and related expenditures commence and ceases when the project is substantially complete and ready for its intended use, at which time the project is placed into service and depreciation commences.

Real estate depreciation expense from continuing operations was \$66.2 million, \$64.6 million and \$62.5 million during the years ended December 31, 2021, 2020 and 2019, respectively.

We charge maintenance and repair costs that do not extend an asset's useful life to expense as incurred.

Interest expense from continuing operations and interest capitalized to real estate assets related to development and major renovation activities for the three years ended December 31, 2021 were as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Total interest incurred	\$ 34,813	\$ 39,524	\$ 56,948
Capitalized interest	(750)	(2,219)	(3,214)
Interest expense, net of capitalized interest	\$ 34,063	\$ 37,305	\$ 53,734

We recognize impairment losses on long-lived assets used in operations, development assets or land held for future development if indicators of impairment are present and the net undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. Estimates of undiscounted cash flows are based on forward-looking assumptions, including annual and residual cash flows and our estimated holding period for each property. Such assumptions involve a high degree of judgment and could be affected by future economic and market conditions. When determining if a property has indicators of impairment, we evaluate the property's occupancy, our expected holding period for the property, strategic decisions regarding the property's future operations or development and other market factors. If such carrying amount is in excess of the estimated undiscounted cash flows from the operation and disposal of the property, we would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its estimated fair value, calculated in accordance with current GAAP fair value provisions. Assets held for sale are recorded at the lower of cost or fair value less costs to sell.

Asset Acquisitions

The properties we acquire typically are not businesses as defined by ASU 2017-01, *Business Combinations (Topic 805) - Clarifying the Definition of a Business*. Per this definition, a set of transferred assets and activities is not a business when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. We therefore account for such acquisitions as asset acquisitions. Acquisition costs are capitalized and identifiable assets (including physical assets and in-place leases), liabilities assumed and any noncontrolling interests are measured by allocating the cost of the acquisition on a relative fair value basis. Acquisitions executed prior to our adoption of ASU 2017-01 as of January 1, 2017 were accounted for as business combinations.

We determine the fair values of acquired buildings on an "as-if-vacant" basis considering a variety of factors, including the replacement cost of the property, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. We determine the fair value of land acquired based on comparisons to similar

properties that have been recently marketed for sale or sold.

The fair value of in-place leases are based upon our evaluation of the specific characteristics of the leases. Factors considered in the fair value analysis include the estimated cost to replace the leases, including foregone rent and expense reimbursements during the hypothetical expected lease-up periods (referred to as “absorption cost”), consideration of current market conditions and costs to execute similar leases. We classify leasing absorption costs as other assets and amortize absorption costs as amortization expense on a straight-line basis over the remaining life of the underlying leases.

Software Developed for Internal Use

The costs of software developed for internal use that qualify for capitalization are included with Prepaid expenses and other assets on our consolidated balance sheets. These capitalized costs include external direct costs utilized in developing or obtaining the applications and expenses for employees who are directly associated with the development of the applications. Capitalization of such costs begins when the preliminary project stage is complete and continues until the project is substantially complete and is ready for its intended purpose. Completed projects are amortized on a straight-line basis over their estimated useful lives.

Held for Sale and Discontinued Operations

We classify properties as held for sale when they meet the necessary criteria, which include: (a) senior management commits to a plan to sell the assets; (b) the assets are available for immediate sale in their present condition subject only to terms that are usual and customary for sales of such assets; (c) an active program to locate a buyer and other actions required to complete the plan to sell the assets has been initiated; (d) the sale of the assets is probable and transfer of the assets is expected to qualify for recognition as a completed sale within one year; (e) the assets are being actively marketed for sale at a price that is reasonable in relation to its current fair value; and (f) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Depreciation on these properties is discontinued at the time they are classified as held for sale, but operating revenues, operating expenses and interest expense continue to be recognized until the date of sale.

Revenues and expenses of properties that are either sold or classified as held for sale are presented as discontinued operations for all periods presented in the consolidated statements of operations if the dispositions represent a strategic shift that has (or will have) a major effect on our operations and financial results. Interest on debt that can be identified as specifically attributed to these properties is included in discontinued operations. If the dispositions do not represent a strategic shift that has (or will have) a major effect on our operations and financial results, then the revenues and expenses of the properties that are classified as sold or held for sale are presented as continuing operations in the consolidated statements of operations for all periods presented.

Segments

We evaluate performance based upon net operating income from the combined properties in each segment. Our reportable operating segment is a consolidation of similar properties. GAAP requires that segment disclosures present the measure(s) used by the chief operating decision maker for purposes of assessing segments’ performance. Net operating income is a key measurement of our segment profit and loss. Net operating income is defined as segment real estate rental revenue less segment real estate expenses.

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents include cash and commercial paper with original maturities of 90 days or less. We maintain cash deposits with financial institutions that at times exceed applicable insurance limits. We reduce this risk by maintaining such deposits with high quality financial institutions that management believes are credit-worthy.

Restricted cash includes funds escrowed for tenant security deposits.

Transformation Costs

Transformation costs include costs related to the strategic transformation, including the allocation of internal costs, consulting, advisory and termination benefits.

Earnings Per Common Share

We determine “Basic earnings per share” using the two-class method as our unvested restricted share awards and units have non-forfeitable rights to dividends, and are therefore considered participating securities. We compute basic earnings per share by dividing net income less the allocation of undistributed earnings to unvested restricted share awards and units by the weighted-average number of common shares outstanding for the period.

We also determine “Diluted earnings per share” under the two-class method with respect to the unvested restricted share awards. We further evaluate any other potentially dilutive securities at the end of the period and adjust the basic earnings per share calculation for the impact of those securities that are dilutive. Our dilutive earnings per share calculation includes the dilutive impact of operating partnership units under the if-converted method and our share based awards with performance conditions prior to the grant date and all market condition awards under the contingently issuable method.

Stock Based Compensation

We currently maintain equity based compensation plans for trustees, officers and employees.

We recognize compensation expense for service-based share awards ratably over the period from the service inception date through the vesting period based on the fair market value of the shares on the date of grant. We account for forfeitures as they occur. If an award's service inception date precedes the grant date, we initially measure compensation expense for awards with performance conditions at fair value at the service inception date based on probability of payout, and we remeasure compensation expense at subsequent reporting dates until all of the award's key terms and conditions are known and the grant date is established. We amortize awards with performance conditions using the graded expense method. We measure compensation expense for awards with market conditions based on the grant date fair value, as determined using a Monte Carlo simulation, and we amortize the expense ratably over the requisite service period, regardless of whether the market conditions are achieved and the awards ultimately vest. Compensation expense for the trustee grants, which fully vest immediately, is fully recognized upon issuance based upon the fair market value of the shares on the date of grant.

Accounting for Uncertainty in Income Taxes

We can recognize a tax benefit only if it is “more likely than not” that a particular tax position will be sustained upon examination or audit. To the extent that the “more likely than not” standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being recognized upon settlement. As of December 31, 2021 and 2020, we did not have any unrecognized tax benefits. We do not believe that there will be any material changes to our uncertain tax positions over the next twelve months.

We are subject to federal income tax as well as income tax of the states of Maryland, Virginia and Georgia, and the District of Columbia. However, as a REIT, we generally are not subject to income tax on our taxable income to the extent it is distributed as dividends to our shareholders.

Tax returns filed for 2018 through 2020 tax years are subject to examination by taxing authorities. We classify interest and penalties related to uncertain tax positions, if any, in our financial statements as a component of general and administrative expenses.

Derivatives

We borrow funds at a combination of fixed and variable rates. Borrowings under our revolving credit facility and term loans bear interest at variable rates. Our interest rate risk management objectives are to minimize interest rate fluctuation on long-term indebtedness and limit the impact of interest rate changes on earnings and cash flows. To achieve these objectives, from time to time, we may enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We generally do not hold or issue these derivative contracts for trading or speculative purposes. The interest rate swaps we enter into are recorded at fair value on a recurring basis. We assess the effectiveness of our cash flow hedges both at inception and on an ongoing basis. The effective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recorded in Accumulated other comprehensive income (loss). Our cash flow hedges become ineffective if critical terms of the hedging instrument and the debt instrument, such as notional amounts, settlement dates, reset dates, calculation period and LIBOR do not perfectly match. In addition, we evaluate the default risk of the counterparty by monitoring its creditworthiness. When ineffectiveness of a cash flow hedge exists, the ineffective portion of changes in fair value of the interest rate swaps associated with our cash flow hedges is recognized in earnings in the period affected.

NOTE 3: REAL ESTATE

As of December 31, 2021 and 2020, our real estate investment portfolio classified as income producing property that is held and used, at cost, consists of properties valued as follows (in thousands):

	December 31,	
	2021	2020
Residential	\$ 1,790,914	\$ 1,606,193
Other ⁽¹⁾	173,856	168,851
	<u>\$ 1,964,770</u>	<u>\$ 1,775,044</u>

⁽¹⁾ Consists of Watergate 600

Our results of operations are dependent on the overall economic health of our markets and residents which are affected by external economic factors, such as inflation, consumer confidence and unemployment rates, as well as changing residents and consumer requirements.

As of December 31, 2021, one property, Riverside Apartments, accounted for more than approximately 10% of total assets and two properties, Riverside Apartments and Watergate 600, each accounted for more than approximately 10% of real estate rental revenue.

We have properties under development/redevelopment and held for current or future development. The cost of our real estate portfolio under development or held for future development as of December 31, 2021 and 2020 was \$30.6 million and \$36.5 million, respectively.

As of December 31, 2021, we have invested \$29.8 million, including the cost of acquired land, in a residential development adjacent to Riverside Apartments. In addition we continue to capitalize qualifying costs on several other projects with minor development activity necessary to ready each project for its intended use. We placed the remainder of the Trove development costs into service during the first quarter of 2021.

Acquisitions

Properties and land for development acquired during the three years ended December 31, 2021 were as follows:

Acquisition Date	Property	Type	# of Homes (unaudited)	Contract Purchase Price (in thousands)
August 10, 2021	The Oxford	Residential	240	\$ 48,000
November 19, 2021	Assembly Eagles Landing	Residential	490	106,000
			<u>730</u>	<u>\$ 154,000</u>
April 30, 2019	Assembly Portfolio - Virginia ⁽¹⁾	Residential	1,685	\$ 379,100
June 27, 2019	Assembly Portfolio - Maryland ⁽²⁾	Residential	428	82,070
July 23, 2019	Cascade at Landmark	Residential	277	69,750
			<u>2,390</u>	<u>\$ 530,920</u>

⁽¹⁾ Consists of Assembly Alexandria, Assembly Manassas, Assembly Dulles, Assembly Leesburg and Assembly Herndon.

⁽²⁾ Consists of Assembly Germantown and Assembly Watkins Mill. The Assembly Portfolio - Virginia and Assembly Portfolio - Maryland properties are collectively the "Assembly Portfolio."

The results of operations from acquired operating properties are included in the consolidated statements of operations as of their acquisition dates.

The revenue and earnings of our acquisitions during their year of acquisition for the three years ended December 31, 2021 are as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Real estate rental revenue	\$ 2,262	\$ —	\$ 27,641
Net loss	(1,921)	—	(10,167)

As discussed in note 2, we record the acquired physical assets (land and building) and in-place leases (absorption costs) and any other assumed liabilities by allocating the total cost of the acquisitions on a relative fair value basis.

We recorded the total cost of the above acquisitions as follows (in thousands):

	2021	2020	2019
Land	\$ 20,914	\$ —	\$ 92,391
Buildings and improvements	128,540	—	423,663
Leasing commissions/absorption costs	4,786	—	15,474
Total	<u>\$ 154,240</u>	<u>\$ —</u>	<u>\$ 531,528</u>

The weighted average remaining life for the absorption costs is 4 months.

The difference in the total cost of the 2021 acquisitions of \$154.2 million and the cash paid for the acquisitions per the consolidated statements of cash flows of \$153.7 million is primarily due to credits received at settlement totaling \$0.5 million. The difference in the total cost of the 2019 acquisitions of \$531.5 million and the cash paid for the acquisitions per the consolidated statements of cash flows of \$528.6 million is primarily due to credits received at settlement totaling \$2.9 million.

Fair Value of In-place Leases

Balances, net of accumulated depreciation or amortization, as appropriate, of the components of the fair value of in-place leases at December 31, 2021 and 2020 were as follows (in thousands):

	December 31,					
	2021			2020		
	Gross Carrying Value	Accumulated Amortization	Net	Gross Carrying Value	Accumulated Amortization	Net
Tenant origination costs	\$ 12,080	\$ 7,344	\$ 4,736	\$ 12,080	\$ 6,522	\$ 5,558
Leasing commissions/absorption costs	56,373	45,471	10,902	51,587	42,083	9,504
Net lease intangible assets	621	612	9	621	602	19
Net lease intangible liabilities	13,340	9,021	4,319	13,340	8,245	5,095

Amortization of these combined components during the three years ended December 31, 2021, was as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Depreciation and amortization expense	\$ 4,378	\$ 3,194	\$ 18,092
Real estate rental revenue increase, net	(765)	(759)	(827)
	<u>\$ 3,613</u>	<u>\$ 2,435</u>	<u>\$ 17,265</u>

Amortization of these combined components over the next five years and thereafter is projected to be as follows (in thousands):

	Depreciation and amortization expense	Real estate rental revenue, net increase	Total
2022	\$ 5,040	\$ (772)	\$ 4,268
2023	2,226	(767)	1,459
2024	2,216	(764)	1,452
2025	2,211	(765)	1,446
2026	2,163	(718)	1,445
Thereafter	1,782	(524)	1,258

Properties Sold and Held for Sale

We intend to hold our properties for investment with a view to long-term appreciation, to engage in the business of acquiring, developing and owning our properties, and to make occasional sales of the properties that no longer meet our long-term strategy or return objectives and where market conditions for sale are favorable. The proceeds from the sales may be reinvested into other properties, used to fund development operations or to support other corporate needs or distributed to our shareholders. Depreciation on these properties is discontinued when classified as held for sale, but operating revenues, other operating expenses and interest continue to be recognized through the date of sale.

We sold our interests in the following properties during the three years ended December 31, 2021:

Disposition Date	Property	Type	Rentable Square Feet (unaudited)	Contract Sale Price (in thousands)	(Loss) Gain on Sale (in thousands)
July 26, 2021	Office Portfolio ⁽¹⁾	Office	2,370,000	\$ 766,000	\$ (11,220)
September 22, 2021	Retail Portfolio ⁽²⁾	Retail	693,000	168,314	57,661
Total 2021			3,063,000	\$ 934,314	\$ 46,441
April 21, 2020	John Marshall II	Office	223,000	\$ 57,000	\$ (6,855)
December 2, 2020	Monument II	Office	207,000	53,000	(8,595)
December 17, 2020	1227 25th Street	Office	135,000	53,500	1,125
Total 2020			565,000	\$ 163,500	\$ (14,325)
June 26, 2019	Quantico Corporate Center ⁽³⁾	Office	272,000	\$ 33,000	\$ (1,046)
July 23, 2019	Shopping Center Portfolio ⁽⁴⁾	Retail	800,000	485,250	333,023
August 21, 2019	Frederick Crossing and Frederick County Square	Retail	520,000	57,500	9,507
August 27, 2019	Centre at Hagerstown	Retail	330,000	23,500	(3,506)
December 19, 2019	1776 G Street	Office	262,000	129,500	61,007
Total 2019			2,184,000	\$ 728,750	\$ 398,985

⁽¹⁾ Consists of twelve office properties: 1901 Pennsylvania Avenue, 515 King Street, 1220 19th Street, 1600 Wilson Boulevard, Silverline Center, Courthouse Square, 2000 M Street, 1140 Connecticut Avenue, Army Navy Club, 1775 Eye Street, Fairgate at Ballston and Arlington Tower.

⁽²⁾ Consists of eight retail properties: Takoma Park, Westminster, Concord Centre, Chevy Chase Metro Plaza, 800 S. Washington Street, Randolph Shopping Center, Montrose Shopping Center and Spring Valley Village.

⁽³⁾ Consists of 925 and 1000 Corporate Drive.

⁽⁴⁾ Consists of five retail properties: Gateway Overlook, Wheaton Park, Olney Village Center, Bradlee Shopping Center and Shoppes of Foxchase.

We have fully transferred control of the assets associated with these disposed properties and do not have continuing involvement in the operations of these properties.

In June 2021, we entered into a purchase and sale agreement with a single buyer to sell the Office Portfolio for a purchase price of \$766.0 million. Upon execution of the purchase and sale agreement, the properties in the Office Portfolio met the criteria for classification as held for sale. We closed on the sale of the Office Portfolio on July 26, 2021, recognizing a loss on sale of real estate of \$11.2 million.

In June 2021, we executed a letter of intent to sell the Retail Portfolio. During the 2021 Quarter, we executed a purchase and sale agreement for the sale of our remaining eight retail properties for a purchase price of \$168.3 million and closed on the sale on September 22, 2021, recognizing a gain on real estate of \$57.7 million.

The dispositions of the Office Portfolio and the Retail Portfolio represent a strategic shift that will have a major effect on our financial results and we have accordingly reported the Office Portfolio and Retail Portfolio as discontinued operations.

As of December 31, 2021, we assessed our properties for impairment and did not recognize any impairment charges during 2021. We applied reasonable estimates and judgments in evaluating each of the properties as of December 31, 2021. Should external or internal circumstances change requiring the need to shorten holding periods or adjust future estimated cash flows from our properties, we could be required to record impairment charges in the future.

Discontinued Operations

The results of the Office and Retail Portfolios, which were sold in 2021, are classified as discontinued operations and are summarized as follows (amounts in thousands, except for share data):

	Year Ended December 31,		
	2021	2020	2019
Real estate rental revenue	\$ 70,519	\$ 118,114	\$ 160,632
Expenses:			
Property operating and maintenance	(11,201)	(20,967)	(25,831)
Real estate taxes and insurance	(11,136)	(19,050)	(22,283)
Property management	(2,195)	(3,765)	(4,845)
Depreciation and amortization	(22,904)	(49,694)	(57,817)
Interest expense	—	—	(313)
Loss on extinguishment of debt	—	—	(764)
Gain on sale of real estate, net	46,441	—	339,024
Income from discontinued operations	<u>\$ 69,524</u>	<u>\$ 24,638</u>	<u>\$ 387,803</u>
Basic net income per share	\$ 0.82	\$ 0.30	\$ 4.81
Diluted net income per share	\$ 0.82	\$ 0.30	\$ 4.81
Capital expenditures	\$ 3,316	\$ 20,812	\$ 42,013

All assets and liabilities related to the Office Portfolio and Retail Portfolio were sold as of December 31, 2021.

As of December 31, 2020, assets and liabilities related to the Office Portfolio and Retail Portfolio were as follows (in thousands):

	December 31, 2020
Land	\$ 249,869
Income producing property	958,704
	<u>1,208,573</u>
Accumulated depreciation and amortization	(414,008)
Income producing property, net	<u>794,565</u>
Development in progress and land held for development	1,122
Investment in real estate, net	<u>795,687</u>
Cash and cash equivalents	3
Restricted cash	10
Rents and other receivables	46,369
Prepaid expenses and other assets	<u>41,452</u>
Total assets	<u>\$ 883,521</u>
Accounts payable and other liabilities	\$ 14,706
Advance rents	4,754
Tenant security deposits	5,769
Liabilities related to properties sold or held for sale	<u>\$ 25,229</u>

NOTE 4: LEASE ACCOUNTING

Leasing as a Lessee

For leases where we are the lessee, primarily in our corporate office operating lease, we recognize a right-of-use asset and a lease liability in accordance with Accounting Standards Codification (“ASC”) Topic 842. The right-of-use asset and associated liability is equal to the present value of the minimum lease payments, applying our incremental borrowing rate. Our borrowing rate is computed based on observable borrowing rates taking into consideration our credit quality and adjusting to a secured borrowing rate for similar assets and term. As of December 31, 2021, we had \$4.6 million in right-of-use assets and liabilities recorded within Income producing property and Accounts payable and other liabilities on our consolidated balance sheets, respectively.

Lease expense for the operating lease is recognized on a straight-line basis over the expected lease term and is included in “General and administrative expense.”

Leasing as a Lessor

Future Minimum Rental Income

As of December 31, 2021, non-cancelable commercial operating leases provide for future minimum rental income from continuing operations as follows (in thousands):

2022	\$	16,395
2023		16,753
2024		16,429
2025		15,930
2026		15,922
Thereafter		62,718
	\$	<u>144,147</u>

Apartment leases are not included as the terms are generally for one year or less. Rental income under most of these commercial leases increase in future years based on agreed-upon percentages or in some instances, changes in the Consumer Price Index.

NOTE 5: UNSECURED LINES OF CREDIT PAYABLE

During the third quarter of 2021, we entered into an amended and restated credit agreement (“Credit Agreement”) which provides for a \$700.0 million unsecured revolving credit facility (“Revolving Credit Facility”) and the continuation of an existing \$250.0 million unsecured term loan (“2018 Term Loan”). The Revolving Credit Facility has a four-year term ending in August 2025, with two six-month extension options. The Credit Agreement has an accordion feature that allows us to increase the aggregate facility to \$1.5 billion, subject to the lenders’ agreement to provide additional revolving loan commitments or term loans. As a result of the transaction, we recognized a loss on extinguishment of debt of \$0.2 million related to the write-off of unamortized loan origination costs. We incurred \$4.8 million of additional loan origination costs which will be amortized as interest expense over the term of the Revolving Credit Facility.

The 2018 Term Loan increased and replaced the \$150.0 million unsecured term loan, initially entered into on July 22, 2016 (“2016 Term Loan”), that was scheduled to mature in July 2023. The 2018 Term Loan is scheduled to mature in July 2023 and bears interest at a rate of either one month LIBOR plus a margin ranging from 0.85% to 1.75% or the base rate plus a margin ranging from 0.0% to 0.75% (in each case depending upon WashREIT’s credit rating). We used the \$100.0 million of additional proceeds from the 2018 Term Loan primarily to repay outstanding borrowings on the Revolving Credit Facility.

On September 27, 2021, we prepaid a \$150.0 million portion of the 2018 Term Loan using proceeds from the sale of the Office Portfolio and Retail Portfolio (see note 3). As a result of the prepayment, we recognized a loss on extinguishment of debt of \$0.3 million related to the write-off of unamortized loan origination costs. Simultaneous with the prepayment, we terminated five interest rate swap arrangements (see note 6). We currently expect to hold the remaining \$100.0 million portion of the 2018 Term Loan until maturity.

The amount of the Revolving Credit Facility unused and available at December 31, 2021 was as follows (in thousands):

Committed capacity	\$	700,000
Borrowings outstanding		—
Unused and available	\$	700,000

We executed borrowings and repayments on the Revolving Credit Facility during 2021 as follows (in thousands):

Balance, December 31, 2020	\$	42,000
Borrowings		108,000
Repayments		(150,000)
Balance, December 31, 2021	\$	—

The Revolving Credit Facility bears interest at a rate of either one month LIBOR plus a margin ranging from 0.70% to 1.40% or the base rate plus a margin ranging from 0.0% to 0.40% (in each case depending upon WashREIT's credit rating). The base rate is the highest of the administrative agent's prime rate, the federal funds rate plus 0.50% and the LIBOR market index rate plus 1.0%. In addition, the Revolving Credit Facility requires the payment of a facility fee ranging from 0.10% to 0.30% (depending on WashREIT's credit rating) on the \$700.0 million committed revolving loan capacity, without regard to usage. As of December 31, 2021, the interest rate on the Revolving Credit Facility is one month LIBOR plus 0.85%, the one month LIBOR is 0.10% and the facility fee is 0.20%.

All outstanding advances for the Revolving Credit Facility are due and payable upon maturity in August 2025, unless extended pursuant to one or both of the two six-month extension options. Interest only payments are due and payable generally on a monthly basis.

For the three years ended December 31, 2021, we recognized interest expense (excluding facility fees) and facility fees as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Interest expense (excluding facility fees)	\$ 390	\$ 3,035	\$ 6,554
Facility fees	1,419	1,423	1,400

The Revolving Credit Facility contains and the prior unsecured credit facility that it replaced contained certain financial and non-financial covenants, all of which we have met as of December 31, 2021 and 2020. Included in these covenants are limits on our total indebtedness, secured and unsecured indebtedness and required debt service payments.

Information related to revolving credit facilities for the three years ended December 31, 2021 as follows (in thousands, except percentage amounts):

	Year Ended December 31,		
	2021	2020	2019
Total revolving credit facilities at December 31	\$ 700,000	\$ 700,000	\$ 700,000
Borrowings outstanding at December 31	—	42,000	56,000
Weighted average daily borrowings during the year	34,803	204,809	196,074
Maximum daily borrowings during the year	79,000	456,000	300,000
Weighted average interest rate during the year	1.12 %	1.48 %	3.34 %
Weighted average interest rate on borrowings outstanding at December 31	— %	1.15 %	2.73 %

The covenants under our Credit Agreement require us to insure our properties against loss or damage in amounts customarily maintained by similar businesses or as they may be required by applicable law. The covenants for the notes require us to keep all of our insurable properties insured against loss or damage at least equal to their then full insurable value. We have an insurance policy that has no terrorism exclusion, except for non-certified nuclear, chemical and biological acts of terrorism. Our financial condition and results of operations are subject to the risks associated with acts of terrorism and the potential for uninsured losses as the result of any such acts. Effective November 26, 2002, under this existing coverage, any losses caused by certified acts of terrorism would be partially reimbursed by the United States under a formula established by federal law. Under

this formula, the United States pays 85% of covered terrorism losses exceeding the statutorily established deductible paid by the insurance provider, and insurers pay 10% until aggregate insured losses from all insurers reach \$100 billion in a calendar year. If the aggregate amount of insured losses under this program exceeds \$100 billion during the applicable period for all insured and insurers combined, then each insurance provider will not be liable for payment of any amount which exceeds the aggregate amount of \$100 billion. On December 20, 2019, The Terrorism Risk Insurance Program Reauthorization Act of 2019 was signed into law, extending the program through December 31, 2027.

NOTE 6: NOTES PAYABLE

Our unsecured notes and term loans outstanding as of December 31, 2021 and 2020 are as follows (in thousands):

	Coupon/Stated Rate	Effective Rate ⁽¹⁾	December 31,		Payoff Date/ Maturity Date ⁽²⁾
			2021	2020	
10-Year Unsecured Notes	3.95 %	4.02 %	—	300,000	8/26/2021
2018 Term Loan	1 Month LIBOR + 110 basis points	2.31 %	100,000	250,000	7/21/2023
30-Year Unsecured Notes	7.25 %	7.36 %	50,000	50,000	2/25/2028
Green Bonds	3.44 %	4.09 %	350,000	350,000	12/29/2030
Total principal			500,000	950,000	
Premiums and discounts, net			(138)	(456)	
Deferred issuance costs, net			(2,916)	(4,174)	
Total			<u>\$ 496,946</u>	<u>\$ 945,370</u>	

⁽¹⁾ For fixed rate notes, the effective rate represents the yield on issuance date, including the effects of discounts on the notes. For variable rate notes, the effective rate represents the rate as fixed by interest rate derivatives (see note 7).

⁽²⁾ No principal amounts are due prior to maturity.

In August 2021, we redeemed \$300.0 million of our existing unsecured notes that were scheduled to mature in 2022. As a result of the prepayment, we recognized a loss on extinguishment of debt of \$12.3 million comprised of a prepayment penalty of \$11.9 million and the write-off of unamortized loan origination costs of \$0.4 million.

In April 2020, we used borrowings from our Revolving Credit Facility to prepay all \$250.0 million of our 4.95% 10-year unsecured notes without penalty.

On May 5, 2020, we entered into a one-year, \$150.0 million unsecured term loan facility (“2020 Term Loan”), maturing on May 5, 2021 with a one-year extension option. The 2020 Term Loan bears interest at LIBOR + 1.50%, which margin is subject to change based on our credit ratings, with a 0.50% floor for the LIBOR rate. We used the proceeds to repay borrowings under our Revolving Credit Facility. We repaid in full the 2020 Term Loan on November 30, 2020.

On September 29, 2020, we entered into a note purchase agreement to issue \$350.0 million aggregate principal amount of 3.44% senior unsecured 10-year notes payable (the “Green Bonds”). The effective interest rate under the Green Bonds, including amortization of the associated interest rate swaps (see note 8), is 4.09%. The closing and full funding of the Green Bonds occurred on December 17, 2020. We incurred \$2.6 million of debt issuance costs associated with the Green Bonds which are reported on our consolidated balance sheets as an offset to their related debt. The Green Bonds are senior unsecured obligations of WashREIT and rank equal in right to payment with all other senior unsecured indebtedness of WashREIT.

The proceeds of the sale of the Green Bonds were used to finance or refinance recently completed and future green building and energy efficiency, sustainable water and wastewater management and renewable energy projects.

In the fourth quarter of 2020, we repaid all \$150.0 million of borrowings on the 2015 Term Loan and all \$150.0 million of borrowings on the 2020 Term Loan. As a result of these transactions, we recognized a loss on extinguishment of debt of \$0.3 million.

The note purchase agreement contains customary financial covenants, including a maximum total leverage ratio, a maximum secured leverage ratio, a minimum fixed charge coverage ratio, a minimum unencumbered interest coverage ratio, and a maximum unencumbered leverage ratio. The note purchase agreement also contains restrictive covenants that, among other things, restrict the ability of WashREIT and its subsidiaries to enter into transactions with affiliates, consolidate or merge or transfer or lease all or substantially all of its assets, create liens, make dividends and distributions if an event of default exists, or substantially change the general nature of our business. Such financial and restrictive covenants are substantially similar to the corresponding covenants contained in our Credit Agreement.

The note purchase agreement also contains customary events of default, including payment defaults, cross defaults with certain other indebtedness, breaches of certain covenants and bankruptcy events. In the case of an event of default, we will generally be prohibited from paying any dividends, subject to certain exceptions including payment of dividends necessary to maintain REIT status, and the Purchasers may, among other remedies, accelerate the payment of all obligations. In the event of a change in control of WashREIT, we must offer to prepay the Green Bonds at par.

The required principal payments on the unsecured notes and term loans as of December 31, 2021 are as follows (in thousands):

2022	\$	—
2023		100,000
2024		—
2025		—
2026		—
Thereafter		400,000
	\$	<u>500,000</u>

Interest on these notes is payable semi-annually, except for the term loans, for which interest is payable monthly. These notes contain certain financial and non-financial covenants, all of which we have met as of December 31, 2021. Included in these covenants is the requirement to maintain a minimum level of unencumbered assets, as well as limits on our total indebtedness, secured indebtedness and required debt service payments.

NOTE 7: DERIVATIVE INSTRUMENTS

On July 22, 2016, we entered into two forward interest rate swap arrangements with total notional amounts of \$100.0 million and \$50.0 million to swap the floating interest rate under the \$150.0 million 2016 Term Loan (see note 5) to an all-in fixed interest rate of 2.86%, starting on March 31, 2017 and extending until the scheduled maturity of the 2016 Term Loan on July 21, 2023.

On March 29, 2018, we entered into the \$250.0 million 2018 Term Loan (see note 5) maturing on July 21, 2023, which increased and replaced the 2016 Term Loan. The interest rate swap arrangements that had effectively fixed the 2016 Term Loan effectively fixed the interest rate on a \$150.0 million portion of the 2018 Term Loan at 2.31%. On March 29, 2018, we entered into four interest rate swap arrangements with a total notional amount of \$100.0 million to effectively fix the interest rate on the remaining \$100.0 million of the 2018 Term Loan at 3.71%, that commenced on June 29, 2018 and extending until the maturity of the 2018 Term Loan on July 21, 2023. The \$250.0 million 2018 Term Loan had an all-in fixed interest rate of 2.87% (see note 5 and note 6).

In the second quarter of 2021 we determined that the hedged transactions for five interest rate swap arrangements with an aggregate notional value of \$150.0 million were probable not to occur and that these interest swap arrangements were no longer effective cash flow hedges as of June 30, 2021 due to our intention to prepay a \$150.0 million portion of the 2018 Term Loan. As a result, we recognized a loss of \$5.8 million for the second quarter of 2021, which was recorded to Loss on interest rate derivatives on our consolidated statements of operations. On September 27, 2021, we prepaid the \$150.0 million portion of the 2018 Term Loan (see note 5). In connection with the prepayment, we terminated the five interest rate swap arrangements with an aggregate notional value of \$150.0 million.

Our remaining interest rate swap arrangement with a notional amount of \$100.0 million is recorded at fair value in accordance with GAAP, based on discounted cash flow methodologies and observable inputs. We record the effective portion of changes in fair value of the cash flow hedge in Other comprehensive income (loss). We assess the effectiveness of a cash flow hedge both at inception and on an ongoing basis. If a cash flow hedge is no longer expected to be effective, hedge accounting is discontinued. Hedge ineffectiveness of our cash flow hedges is recorded in earnings.

The fair values of the interest rate swaps as of December 31, 2021 and 2020, are as follows (in thousands):

Derivative Instrument	Aggregate Notional Amount	Effective Date	Maturity Date	Fair Value	
				Derivative Liabilities	
				December 31,	
				2021	2020
Interest rate swaps	\$ 100,000	March 31, 2017	July 21, 2023	\$ (821)	\$ (2,671)
Interest rate swaps	50,000	March 31, 2017	July 21, 2023	—	(1,338)
Interest rate swaps	100,000	June 29, 2018	July 21, 2023	—	(6,246)
				<u>\$ (821)</u>	<u>\$ (10,255)</u>

We record interest rate swaps on our consolidated balance sheets with prepaid expenses and other assets when in a net asset position, and with accounts payable and other liabilities when in a net liability position. The current interest rate swaps have been effective since inception. The gains or losses on the effective swaps are recognized in other comprehensive income, as follows (in thousands):

	Year Ending December 31,		
	2021	2020	2019
Unrealized gain (loss) on interest rate hedges	\$ 3,673	\$ (33,025)	\$ (8,016)

Amounts reported in Accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. The gains or losses reclassified from Accumulated other comprehensive income into interest expense for the three years ended December 31, 2021, were as follows (in thousands):

	Year Ending December 31,		
	2021	2020	2019
Loss reclassified from Accumulated other comprehensive income (loss) into interest expense	\$ 2,039	\$ 79	\$ —

During the next twelve months, we estimate that \$0.8 million will be reclassified as an increase to interest expense.

We have agreements with each of our derivative counterparties that contain a provision whereby we could be declared in default on our derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to our default on the indebtedness. As of December 31, 2021, we did not have any derivatives in an asset position and the fair value of the derivative liabilities, including accrued interest, was \$0.8 million. As of December 31, 2021, we have not posted any collateral related to these agreements.

Derivative instruments expose us to credit risk in the event of non-performance by the counterparty under the terms of the interest rate hedge agreement. We believe that we minimize our credit risk on these transactions by dealing with major, creditworthy financial institutions. We monitor the credit ratings of counterparties and our exposure to any single entity, thus minimizing our credit risk concentration.

NOTE 8: FAIR VALUE DISCLOSURES

Assets and Liabilities Measured at Fair Value

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosures about the fair value measurements are required to be disclosed separately for each major category of assets and liabilities, as follows:

- Level 1: Quoted prices in active markets for identical assets
- Level 2: Significant other observable inputs
- Level 3: Significant unobservable inputs

The only assets or liabilities we had at December 31, 2021 and 2020 that are recorded at fair value on a recurring basis are the assets held in the Supplemental Executive Retirement Plan ("SERP"), which primarily consists of investments in mutual funds, and the interest rate swaps (see note 7).

We base the valuations related to the SERP on assumptions derived from significant other observable inputs and accordingly

these valuations fall into Level 2 in the fair value hierarchy.

The valuation of the interest rate swaps is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each interest rate swap. This analysis reflects the contractual terms of the interest rate swaps, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments (or receipts) and the discounted expected variable cash receipts (or payments). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. To comply with the provisions of ASC 820, we incorporate credit valuation adjustments in the fair value measurements to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk. These credit valuation adjustments were concluded to not be significant inputs for the fair value calculations for the periods presented. In adjusting the fair value of our derivative contracts for the effect of nonperformance risk, we have considered the impact of netting and any applicable credit enhancements, such as the posting of collateral, thresholds, mutual puts and guarantees. The valuation of interest rate swaps fall into Level 2 in the fair value hierarchy.

The fair values of these assets and liabilities at December 31, 2021 and 2020 were as follows (in thousands):

	December 31, 2021				December 31, 2020			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:								
SERP	\$ 2,566	\$ —	\$ 2,566	\$ —	\$ 2,433	\$ —	\$ 2,433	\$ —
Interest rate swaps	—	—	—	—	—	—	—	—
Liabilities:								
Interest rate swaps	\$ (821)	\$ —	\$ (821)	\$ —	\$ (10,255)	\$ —	\$ (10,255)	\$ —

Financial Assets and Liabilities Not Measured at Fair Value

The following disclosures of estimated fair value were determined by management using available market information and established valuation methodologies, including discounted cash flow models. Many of these estimates involve significant judgment. The estimated fair value disclosed may not necessarily be indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions or estimation methodologies could have an effect on the estimated fair value amounts. In addition, fair value estimates are made at a point in time and thus, estimates of fair value subsequent to December 31, 2021 may differ significantly from the amounts presented.

Below is a summary of significant methodologies used in estimating fair values and a schedule of fair values at December 31, 2021.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents and restricted cash include cash and commercial paper with original maturities of less than 90 days, which are valued at the carrying value, which approximates fair value due to the short maturity of these instruments (Level 1 inputs).

Debt

Mortgage notes payable consist of instruments in which certain of our real estate assets are used for collateral. We estimate the fair value of the mortgage notes payable by discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads estimated through independent comparisons to real estate assets or loans with similar characteristics. Line of credit payable consist of bank facilities which we use for various purposes including working capital, acquisition funding and capital improvements. The line of credit advances and term loans with floating interest rates are priced at a specified rate plus a spread. We estimate the market value based on a comparison of the spreads of the advances to market given the adjustable base rate. We estimate the fair value of the notes payable by discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads derived using the relevant securities' market prices. We classify these fair value measurements as Level 3 as we use

significant unobservable inputs and management judgment due to the absence of quoted market prices.

As of December 31, 2021 and 2020, the carrying values and estimated fair values of our financial instruments were as follows (in thousands):

	December 31,			
	2021		2020	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$ 233,600	\$ 233,600	\$ 7,697	\$ 7,697
Restricted cash	620	620	593	593
Line of credit payable	—	—	42,000	42,000
Notes payable	496,946	515,341	945,370	978,678

NOTE 9: STOCK BASED COMPENSATION

WashREIT maintains short-term and long-term incentive plans that allow for stock-based awards to officers and non-officer employees. Stock based awards are provided to officers and non-officer employees, as well as trustees, under the Washington Real Estate Investment Trust 2016 Omnibus Incentive Plan which allows for awards in the form of restricted shares, restricted share units, options, and other awards up to an aggregate of 2,400,000 shares over the ten year period in which the plan will be in effect. Restricted share units are converted into shares of our stock upon full vesting through the issuance of new shares. There were no options issued or outstanding as of December 31, 2021 and 2020.

On February 14, 2020, the board of trustees adopted an Amended and Restated Executive Officer Short-Term Incentive Plan (the “Officer STIP”) and an Amended and Restated Executive Officer Long-Term Incentive Plan (the “Officer LTIP”). Upon adoption by the board of trustees, both plans became effective for the performance periods beginning January 1, 2020.

Officer STIP

Under the Officer STIP, as revised, all named executive officers will have the opportunity to receive an annual cash bonus based on the achievement of certain performance measures that will be established for each performance period. Each year, the Compensation Committee will establish the threshold, target and high performance goals for each performance measure, as well as the weighting attributable to each such performance measure, with the aggregate weighting for all such performance measures to total 100%. Such performance measures will consist of one or more financial performance measures and, if determined by the Compensation Committee, individual performance measures.

Upon or following completion of a performance period, the degree of achievement of each performance measure will be determined by the Compensation Committee. The degree of achievement of any individual financial performance measures will be determined by the Compensation Committee in its discretion with respect to the Chief Executive Officer, and by the Chief Executive Officer or other immediate supervisor in his or her discretion with respect to all other participants (subject to final approval by the Compensation Committee), and the Compensation Committee will evaluate the degree of achievement of the individual performance measures on a scale of below 1 (below threshold), 1 (threshold), 2 (target) or 3 (high) or any fractional number between 1 and 3.

Each participant’s total award under the Officer STIP with respect to a performance period will be stated as a percentage of the participant’s annual base salary determined as of the first day of that performance period, which percentage will depend upon the participant’s position and the degree of achievement of threshold, target, and high performance goals for the performance period which, except as otherwise determined by the Compensation Committee, will be as set forth in the table below:

	Threshold	Target	High
President and Chief Executive Officer	63%	125%	188%
Executive Vice President	48%	93%	160%
Senior Vice President	35%	65%	115%

If a Change in Control (as defined in the Officer STIP) occurs during a performance period while the participant is employed, the participant will receive a prorated award under the Officer STIP calculated based on the actual levels of achievement of the

prorated performance goals as of the date of the Change in Control.

Officer LTIP

Under the Officer LTIP, as revised, all named executive officers will have the opportunity to receive awards based on (i) the achievement of performance measures, which will be established for each performance period, and (ii) continued employment with the Company. The aggregate weighting for the performance measures and the time-based measures, as determined by the Compensation Committee, will total 100%. The performance measures will consist of one or more shareholder return measures and one or more strategic measures. The awards earned under the Officer LTIP, if any, are payable in our common shares of beneficial interest. Each participant's total award under the Officer LTIP with respect to a performance period will be stated as a percentage of the participant's annual base salary determined as of the beginning of that performance period. The percentage will depend upon the participant's position and the degree of achievement of threshold, target, and high performance goals for the performance period which, except as otherwise determined by the Compensation Committee, will be as set forth in the table below:

	<i>Threshold</i>	<i>Target</i>	<i>High</i>
President and Chief Executive Officer	198%	275%	440%
Executive Vice President	143%	200%	295%
Senior Vice President	100%	143%	207%

Any time-based awards under the Officer LTIP will be subject to a three-year vesting schedule, with any award vesting in one-third increments on December 15 of each year of the applicable performance period if the participant remains employed by the Company on each of such dates. The Officer LTIP provides that following a performance period, 100% of any performance-based award will vest immediately upon grant.

Each year, the Compensation Committee will establish the threshold, target and high performance goals for each performance measure. Upon or following completion of a performance period, the degree of achievement of each performance measure will be determined by the Compensation Committee in its discretion.

If a Change in Control (as defined in the Officer LTIP) occurs during a performance period while the participant is employed, the Officer LTIP provides that all time-based awards which are unvested will become vested, and the participant will receive a pro-rated portion of the shareholder return measure-based awards and the strategic measure-based awards will be calculated at target.

Prior Short-Term Incentive Plan ("Prior STIP")

Under the Prior STIP, executive officers earned awards, payable 50% in cash and 50% in restricted shares, based on a percentage of salary and an achievement rating subject to the discretion of the Compensation Committee of the board of trustees in consideration of various performance conditions and other subjective factors during a one-year performance period. With respect to the 50% of the Prior STIP award payable in restricted shares, the restricted shares will vest over a three-year period commencing on the January 1 following the end of the one-year performance period. Prior to the adoption of the 2016 Omnibus Incentive Plan, stock based awards to officers, non-officer employees and trustees were issued under the Washington Real Estate Investment Trust 2007 Omnibus Long-Term Incentive Plan which allowed for awards in the form of restricted shares, restricted share units, options and other awards up to an aggregate of 2,000,000 shares while the plan was in effect.

The grant date for the 50% of the Prior STIP award payable in restricted shares was the date on which the Compensation Committee approved the Prior STIP awards. We recognize compensation expense on this 50% when the grant date occurs at the end of the one-year period through the three-year vesting period.

Bonuses payable under the short-term incentive plans for non-executive officers and staff are payable 100% in cash.

Prior Long-Term Incentive Plan ("Prior LTIP")

Under the Prior LTIP, executive officers earned awards payable, 75% in unrestricted shares and 25% in restricted shares, based on a percentage of salary and the achievement of certain market conditions. For performance periods beginning prior to January 1, 2018, performance was evaluated based 50% on absolute total shareholder return ("TSR") and 50% on relative TSR over a three-year evaluation period with a new three-year period initiating under the existing plan each year. During the first quarter of 2018, we amended the Prior LTIP for executive officers to eliminate the absolute TSR component and only utilize relative TSR

in the measurement of market condition performance. Under the amended Prior LTIP, relative TSR was evaluated 50% relative to a defined population of peer companies and 50% relative to the FTSE NAREIT Diversified Index. The amendment became effective for three-year performance periods commencing on or after January 1, 2018. The officers' total award opportunities under the Prior LTIP stated as a percentage of base salary ranged from 80% to 150% at target level. The unrestricted shares vest immediately at the end of the three-year performance period, and the restricted shares vest over a one-year period commencing on the January 1 following the end of the three-year performance period.

We recognize compensation expense for the Prior LTIP ratably (over three years for the 75% unrestricted shares and over four years for the 25% restricted shares) based on the grant date fair value, as determined using a Monte Carlo simulation, and regardless of whether the market conditions are achieved and the awards ultimately vest.

We use a binomial model which employs the Monte Carlo method as of the grant date to determine the fair value of the Officer LTIP awards. For three-year performance periods commencing on or after January 1, 2021, the market condition performance measurement is based on total shareholder return relative to a defined population of peer companies (50% weighting), relative to the FTSE Residential Index (42.5% weighting) and the FTSE Office Index (7.5% weighting). The model evaluates the awards for changing total shareholder return over the term of the vesting, relative to the peer companies and relative to the FTSE indexes, and uses random simulations that are based on past stock characteristics as well as dividend growth and other factors for WashREIT and each of the peer companies. For the three-year performance periods commencing between January 1, 2018 and December 31, 2020, the market condition performance measurement is based on total shareholder return relative to a defined population of peer companies (50% weighting) and relative to the FTSE NAREIT Diversified Index (50% weighting). For three-year performance periods commencing prior to January 1, 2018, the market condition performance measurement was based on total shareholder return on an absolute basis (50% weighting) and relative to a defined population of peer companies (50% weighting).

The assumptions used to value the TSR portion of the officer LTIP and Prior LTIP awards were as follows:

	2021 Awards	2020 Awards	2019 Awards
Expected volatility ⁽¹⁾	35.5 %	17.5 %	18.1 %
Risk-free interest rate ⁽²⁾	0.3 %	1.4 %	2.4 %
Expected term ⁽³⁾	3 years	3 years	3 and 4 years
Share price at grant date	\$23.20	\$31.50	\$23.00

⁽¹⁾ Expected volatility based upon historical volatility of our daily closing share price.

⁽²⁾ Risk-free interest rate based on U.S. treasury constant maturity bonds on the measurement date with a maturity equal to the market condition performance period.

⁽³⁾ Expected term based on the market condition performance period.

The calculated grant date fair value as a percentage of base salary for the officers for the three-year performance period that commenced in 2021 ranged from approximately 37% to 78% for the 50% of the LTIP based on TSR relative to a defined population of peer companies and from 38% to 80% for the 50% of the LTIP based on TSR relative to the FTSE indexes.

The calculated grant date fair value as a percentage of base salary for the officers for the three-year performance period that commenced in 2020 ranged from approximately 20% to 42% for the 50% of the LTIP based on TSR relative to a defined population of peer companies and from 22% to 46% for the 50% of the LTIP based on TSR relative to the FTSE NAREIT Diversified Index.

The calculated grant date fair value as a percentage of base salary for the officers for the three-year performance period that commenced in 2019 ranged from approximately 35% to 68% for the 50% of the LTIP based on TSR relative to a defined population of peer companies and from 39% to 74% for the 50% of the LTIP based on TSR relative to the FTSE NAREIT Diversified Index.

During 2017, our chief executive officer was granted a one-time equity award of 100,000 restricted shares. None of the restricted shares vest until the fifth anniversary of the grant date, at which time 100% of the restricted shares will vest, subject to Mr. McDermott's continued employment with WashREIT until such vesting date.

Our non-executive officers and other employees earn restricted share unit awards under a long-term incentive plan for non-executive officers and staff based upon various percentages of their salaries and annual performance calculations. The restricted share unit awards vest ratably over three years from December 15 preceding the grant date based upon continued employment.

We recognize compensation expense for these awards according to a graded vesting schedule over the three-year requisite service period.

Restricted share awards made to retirement-eligible employees fully vest on the grant date. Employees are considered retirement-eligible when they are both over the age of 55 and have been employed by WashREIT for at least 20 years, or over the age of 65. We fully recognize compensation expense for such awards as of the grant date.

Trustee Awards

We award share based compensation to our trustees in the form of restricted shares which vest immediately and are restricted from sale for the period of the trustees' service. The value of share-based compensation for each trustee was \$100,000 for each of three years ended December 31, 2021.

Total Compensation Expense

Total compensation expense recognized in the consolidated financial statements for each of the three years ended December 31, 2021 for all share based awards was \$8.6 million, \$7.9 million and \$7.7 million, respectively, net of capitalized stock-based compensation expense of \$0.3 million, \$0.4 million and \$0.2 million, respectively.

Restricted Share Awards with Performance and Service Conditions

The activity for the three years ended December 31, 2021 related to our restricted share awards, excluding those subject to market conditions, was as follows:

	Shares	Wtd Avg Grant Fair Value
Unvested at December 31, 2018	311,010	\$ 29.07
Granted	213,782	26.26
Vested during year	(236,013)	27.43
Forfeited	(19,396)	26.60
Unvested at December 31, 2019	269,383	28.45
Granted	285,101	30.39
Vested during year	(239,033)	27.54
Forfeited	(8,456)	28.35
Unvested at December 31, 2020	306,995	30.96
Granted	238,134	23.53
Vested during year	(277,967)	26.39
Forfeited	(7,467)	26.73
Unvested at December 31, 2021	259,695	29.16

The total fair value of share grants vested for each of the three years ended December 31, 2021 was \$7.6 million, \$6.6 million and \$6.5 million, respectively.

As of December 31, 2021, the total compensation cost related to non-vested share awards not yet recognized was \$4.4 million, which we expect to recognize over a weighted average period of 16 months.

Restricted and Unrestricted Shares with Market Conditions

Stock based awards with market conditions under the LTIP and Prior LTIP were awarded in 2021, 2020 and 2019 with fair market values, as determined using a Monte Carlo simulation, as follows (in thousands):

	2021 Awards ⁽¹⁾	2020 Awards ⁽¹⁾	2019 Awards	
	Unrestricted	Unrestricted	Restricted	Unrestricted
Relative Peer TSR	\$ 951	\$ 510	\$ 184	\$ 552
Absolute/Index TSR ⁽²⁾	971	565	201	602

The unamortized value of these awards with market conditions as of December 31, 2021 was as follows (in thousands):

	2021 Awards ⁽¹⁾	2020 Awards ⁽¹⁾	2019 Awards	
	Unrestricted	Unrestricted	Restricted	Unrestricted
Relative Peer TSR	\$ 692	\$ 177	\$ 46	\$ —
Absolute/Index TSR ⁽²⁾	706	196	50	—

⁽¹⁾ The 2021 and 2020 Awards were granted under the Officer LTIP, whereby all of the shares vest immediately at the end of the three-year performance period. The 2019 Awards were granted under the Prior LTIP, whereby the unrestricted shares (75%) vest immediately at the end of the three-year performance period and the restricted shares (25%) vest over a one-year period commencing on the January 1 following the end of the three-year performance period.

⁽²⁾ The performance conditions for the 2021 awards were evaluated based on 50% on TSR relative to a defined population of peer companies and 50% on TSR relative to the FTSE Multifamily and Office indexes. The performance conditions for the 2020 and 2019 awards were evaluated based on 50% on TSR relative to a defined population of peer companies and 50% on TSR relative to the FTSE NAREIT Diversified Index.

NOTE 10: OTHER BENEFIT PLANS

We have a Retirement Savings Plan (the “401(k) Plan”), which permits all eligible employees to defer a portion of their compensation in accordance with the Code. Under the 401(k) Plan, we may make discretionary contributions on behalf of eligible employees. For each of the three years ended December 31, 2021, we made contributions to the 401(k) plan of \$0.4 million, \$0.4 million and \$0.5 million, respectively.

We have adopted non-qualified deferred compensation plans for the officers and members of the board of trustees. The plans allow for a deferral of a percentage of annual cash compensation and trustee fees. The plans are unfunded and payments are to be made out of the general assets of WashREIT. The deferred compensation liability was \$0.5 million and \$0.7 million at December 31, 2021 and 2020, respectively.

In November 2005, the board of trustees approved the establishment of a SERP for the benefit of officers. This is a defined contribution plan under which, upon a participant's termination of employment from WashREIT for any reason other than discharge for cause, the participant will be entitled to receive a benefit equal to the participant's accrued benefit times the participant's vested interest. We account for this plan in accordance with ASC 710-10 and ASC 320-10, whereby the investments are reported at fair value, and unrealized holding gains and losses are included in earnings. At December 31, 2021 and 2020, the accrued benefit liability was \$2.6 million and \$2.4 million, respectively. For each of the three years ended December 31, 2021, we recognized current service cost of \$0.2 million, \$0.2 million and \$0.2 million, respectively.

NOTE 11: EARNINGS PER COMMON SHARE

We determine “Basic earnings per share” using the two-class method as our unvested restricted share awards and units have non-forfeitable rights to dividends, and are therefore considered participating securities. We compute basic earnings per share by dividing net income less the allocation of undistributed earnings to unvested restricted share awards and units by the weighted-average number of common shares outstanding for the period.

We also determine “Diluted earnings per share” as the more dilutive of the two-class method or the treasury stock method with respect to the unvested restricted share awards. We further evaluate any other potentially dilutive securities at the end of the period and adjust the basic earnings per share calculation for the impact of those securities that are dilutive. Our dilutive earnings per share calculation includes the dilutive impact of operating partnership units under the if-converted method and our share based awards with performance conditions prior to the grant date and all market condition awards under the contingently issuable method.

The computation of basic and diluted earnings per share for the three years ended December 31, 2021 was as follows (in thousands, except per share data):

	Year Ended December 31,		
	2021	2020	2019
Numerator:			
Loss from continuing operations	\$ (53,140)	\$ (40,318)	\$ (4,253)
Allocation of earnings to unvested restricted share awards	(393)	(545)	(125)
Adjusted loss from continuing operations	(53,533)	(40,863)	(4,378)
Income from discontinued operations, including gain on sale of real estate	69,524	24,638	387,803
Allocation of earnings from discontinued operations to unvested restricted share awards	—	—	(1,837)
Adjusted income from discontinued operations	69,524	24,638	385,966
Adjusted net income (loss)	<u>\$ 15,991</u>	<u>\$ (16,225)</u>	<u>\$ 381,588</u>
Denominator:			
Weighted average shares outstanding – basic and diluted	84,544	82,348	80,257
Earnings per common share, basic:			
Continuing operations	\$ (0.63)	\$ (0.50)	\$ (0.05)
Discontinued operations	0.82	0.30	4.81
Basic net income (loss) per common share ⁽¹⁾	<u>\$ 0.19</u>	<u>\$ (0.20)</u>	<u>\$ 4.75</u>
Earnings per common share, diluted:			
Continuing operations	\$ (0.63)	\$ (0.50)	\$ (0.05)
Discontinued operations	0.82	0.30	4.81
Diluted net income (loss) per common share ⁽¹⁾	<u>\$ 0.19</u>	<u>\$ (0.20)</u>	<u>\$ 4.75</u>
Dividends declared per common share	\$ 0.94	\$ 1.20	\$ 1.20

⁽¹⁾ Earnings per share may not sum due to rounding

NOTE 12: COMMITMENTS AND CONTINGENCIES

Development Commitments

At December 31, 2021, we had no committed contracts outstanding with third parties in connection with our development and redevelopment projects.

Litigation

We are involved from time to time in various legal proceedings, lawsuits, examinations by various tax authorities and claims that have arisen in the ordinary course of business. Management believes that the resolution of any such current matters will not have a material adverse effect on our financial condition or results of operations.

NOTE 13: SEGMENT INFORMATION

We operate in a single reportable segment which includes the ownership, development, redevelopment and acquisition of apartment communities. Each of our operating properties, including our remaining office property, do not meet the criteria to be considered separate operating segments on a stand-alone basis. We do not distinguish or group our consolidated operations based on size, type or geography. All but one community is within the Washington, DC metro region and no community comprises more than 10% of consolidated revenues. Further, our apartment communities have similar long-term economic characteristics and provide similar products and services to our residents. As a result, our operating properties are aggregated into a single reportable segment: residential.

Prior to the end of the second quarter of 2021, we had two reportable segments: office and residential. During the third quarter

of 2021, we closed on the sales of the Office Portfolio and the Retail Portfolio (see note 3), and following such sales, we have one remaining office property, Watergate 600, which does not meet the criteria for a reportable segment, and has been classified within “Other” on our segment disclosure tables.

We evaluate performance based upon net operating income of the combined properties in the segment. Our reportable operating segment is a consolidation of similar properties. GAAP requires that segment disclosures present the measure(s) used by the chief operating decision maker for purposes of assessing each segment’s performance. Net operating income is a key measurement of our segment profit and loss and is defined as real estate rental revenue less real estate expenses.

Real estate rental revenue as a percentage of the total for each of the reportable operating segments for the three years ended December 31, 2021 was as follows:

	Year Ended December 31,		
	2021	2020	2019
Multifamily	89 %	82 %	71 %
Other	11 %	18 %	29 %

The percentage of income producing real estate assets classified as held and used, at cost, for each of the reportable operating segments as of December 31, 2021 and 2020 was as follows:

	2021	2020
Multifamily	91 %	90 %
Other	9 %	10 %

The following tables present revenues, net operating income, capital expenditures and total assets for the three years ended December 31, 2021 from these segments, and reconciles net operating income of reportable segments to net (loss) income as reported (in thousands):

	Twelve Months Ended December 31, 2021		
	Residential	Other ^{(1), (3)}	Consolidated
Real estate rental revenue	\$ 150,965	\$ 18,186	\$ 169,151
Real estate expenses	55,527	5,255	60,782
Net operating income	\$ 95,438	\$ 12,931	\$ 108,369
Property management expenses			(6,133)
General and administrative expenses			(27,538)
Transformation costs			(6,635)
Depreciation and amortization			(72,656)
Interest expense			(34,063)
Loss on interest rate derivatives			(5,866)
Loss on extinguishment of debt			(12,727)
Other income			4,109
Discontinued operations:			
Income from properties sold or held for sale			23,083
Gain on sale of real estate, net			46,441
Net income			\$ 16,384
Capital expenditures	\$ 27,953	\$ 4,506	\$ 32,459
Total assets	\$ 1,455,328	\$ 420,666	\$ 1,875,994

	Twelve Months Ended December 31, 2020		
	Residential	Other ^{(2), (3)}	Consolidated
Real estate rental revenue	\$ 145,138	\$ 30,866	\$ 176,004
Real estate expenses	52,852	10,130	62,982
Net operating income	\$ 92,286	\$ 20,736	\$ 113,022
Property management expenses			(6,145)
General and administrative expenses			(23,951)
Depreciation and amortization			(70,336)
Loss on sale of real estate			(15,009)
Interest expense			(37,305)
Loss on interest rate derivatives			(560)
Loss on extinguishment of debt			(34)
Discontinued operations:			
Income from properties sold or held for sale			24,638
Net loss			<u>\$ (15,680)</u>
Capital expenditures	\$ 24,675	\$ 33,642	\$ 58,317
Total assets	\$ 1,333,235	\$ 1,076,583	\$ 2,409,818
	Twelve Months Ended December 31, 2019		
	Residential	Other ^{(2), (3)}	Consolidated
Real estate rental revenue	\$ 126,197	\$ 50,551	\$ 176,748
Real estate expenses	44,537	18,789	63,326
Net operating income	\$ 81,660	\$ 31,762	\$ 113,422
Property management expenses			(6,098)
General and administrative expenses			(26,068)
Depreciation and amortization			(83,362)
Real estate impairment			(8,374)
Gain on sale of real estate			59,961
Interest expense			(53,734)
Discontinued operations:			
Income from properties sold or held for sale			49,543
Gain on sale of real estate			339,024
Loss on extinguishment of debt			(764)
Net income			<u>\$ 383,550</u>
Capital expenditures	\$ 25,779	\$ 43,168	\$ 68,947
Total assets	\$ 1,340,634	\$ 1,287,694	\$ 2,628,328

⁽¹⁾ Other represents Watergate 600, an office property that does not meet the qualitative or quantitative criteria for a reportable segment.

⁽²⁾ Other represents Watergate 600, an office property that does not meet the qualitative or quantitative criteria for a reportable segment and office properties sold during 2020: John Marshall II, Monument II and 1227 25th Street.

⁽³⁾ Total capital expenditures include office and retail properties classified as discontinued operations and total assets include office and retail properties classified as discontinued operations and corporate assets.

NOTE 14: SELECTED QUARTERLY FINANCIAL DATA (UNAUDITED)

While the Company previously owned a combination of commercial and residential assets, we disposed of all but one of our commercial assets in 2021. These commercial assets are classified as discontinued operations as of December 31, 2021.

Unaudited financial data by quarter in each of the years ended December 31, 2021 and 2020 were as follows (in thousands, except for per share data):

	Quarter ^{(1), (2)}			
	First	Second	Third	Fourth
2021				
Real estate rental revenue	\$ 40,607	\$ 41,297	\$ 42,499	\$ 44,748
Loss from continuing operations	\$ (7,277)	\$ (16,737)	\$ (22,330)	\$ (6,796)

⁽¹⁾ With regard to per share calculations, the sum of the quarterly results may not equal full year results due to rounding.

⁽²⁾ The third quarter of 2021 includes net gain on sales of real estate of \$46.4 million. The second and fourth quarters of 2020 include loss on sale of real estate of \$7.5 million and \$7.5 million respectively.

NOTE 15: SHAREHOLDERS' EQUITY

On February 17, 2021, we entered into separate amendments to each of our existing equity distribution agreements (“Original Equity Distribution Agreements”) with each of Wells Fargo Securities, LLC, BNY Mellon Capital Markets, LLC, Capital One Securities, Inc., Citigroup Global Markets Inc., Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC, KeyBanc Capital Markets Inc. and Truist Securities, Inc. (f/k/a SunTrust Robinson Humphrey, Inc.), each dated May 4, 2018 (collectively, as amended, the “Equity Distribution Agreements”). Also on February 17, 2021, we entered into a separate equity distribution agreement with BTIG, LLC on the same terms as the Amended Equity Distribution Agreements (the “BTIG Equity Distribution Agreement”). On September 22, 2021, BTIG, LLC notified us that it was terminating the BTIG Equity Distribution Agreement, effective as of September 27, 2021. Pursuant to the Equity Distribution Agreements, we may sell, from time to time, up to an aggregate price of \$550.0 million of our common shares of beneficial interest, \$0.01 par value per share. Issuances of our common shares are made at market prices prevailing at the time of issuance. We may use net proceeds from the issuance of common shares under this program for general business purposes, including, without limitation, working capital, the acquisition, renovation, expansion, improvement, development or redevelopment of income producing properties or the repayment of debt. Our issuances and net proceeds on the Equity Distribution Agreements in 2020 and 2021 and the Original Equity Distribution Agreements in 2020 and 2019, respectively, for the three years ended December 31, 2021 were as follows (in thousands, except per share data):

	Year Ended December 31,		
	2021	2020	2019
Issuance of common shares	1,636	2,046	1,859
Weighted average price per share	\$ 25.44	\$ 23.86	\$ 30.00
Net proceeds	\$ 40,462	\$ 48,355	\$ 54,916

Subsequent to December 31, 2021, we issued an additional 1.0 million shares at a weighted average price per share of \$26.27 for net proceeds of \$26.9 million.

We have a dividend reinvestment program, whereby shareholders may use their dividends and optional cash payments to purchase common shares. The common shares sold under this program may either be common shares issued by us or common shares purchased in the open market. Net proceeds under this program are used for general corporate purposes.

Our issuances and net proceeds on the dividend reinvestment program for the three years ended December 31, 2021 were as follows (in thousands, except per share data):

	Year Ended December 31,		
	2021	2020	2019
Issuance of common shares	75	90	173
Weighted average price per share	\$ 23.37	\$ 24.12	\$ 27.58
Net proceeds	\$ 1,744	\$ 2,121	\$ 4,755

NOTE 16: DEFERRED COSTS

As of December 31, 2021 and 2020, deferred leasing costs and deferred leasing incentives were included in prepaid expenses and other assets as follows (in thousands):

	December 31,					
	2021			2020		
	Gross Carrying Value	Accumulated Amortization	Net	Gross Carrying Value	Accumulated Amortization	Net
Deferred leasing costs	\$ 8,977	\$ 4,734	\$ 4,243	\$ 11,295	\$ 5,879	\$ 5,417
Deferred leasing incentives	509	389	120	533	304	229

Amortization, including write-offs, of deferred leasing costs and deferred leasing incentives for the three years ended December 31, 2021 were as follows (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Deferred leasing costs amortization	\$ 535	\$ 1,269	\$ 2,009
Deferred leasing incentives amortization	85	536	932

NOTE 17: SUBSEQUENT EVENT

On February 1, 2022, we closed on the acquisition of Carlyle of Sandy Springs, a 389-unit residential property in Atlanta, Georgia, for a contract purchase price of \$105.6 million.

- a) The purchase cost of real estate investments has been divided between land and buildings and improvements on the basis of management's determination of the fair values.
- b) Excludes the right of use asset and associated accumulated depreciation for our corporate office operating lease of \$4.6 million and \$0.6 million, respectively.
- c) At December 31, 2021, total land, buildings and improvements are carried at \$1,157.5 million for federal income tax purposes.
- d) The useful life shown is for the main structure. Buildings and improvements are depreciated over various useful lives ranging from 3 to 40 years.
- e) As of December 31, 2021, WashREIT had one residential property under development, the Riverside Apartments land parcel. The value not yet placed into service at December 31, 2021 was \$29.8 million.
- f) As of December 31, 2021, WashREIT had investments in various development, redevelopment and renovation projects, including The Ashby at McLean and The Paramount. The total value of these projects, which has not yet been placed in service, is \$0.8 million at December 31, 2021.

WASHINGTON REAL ESTATE INVESTMENT TRUST AND SUBSIDIARIES

**SUMMARY OF REAL ESTATE INVESTMENTS AND ACCUMULATED DEPRECIATION
(IN THOUSANDS)**

The following is a reconciliation of real estate assets and accumulated depreciation for the three years ended December 31, 2021 (in thousands):

	Year Ended December 31,		
	2021	2020	2019
Real estate assets			
Balance, beginning of period	\$ 3,021,232	\$ 3,159,463	\$ 2,973,816
Additions:			
Property acquisitions ⁽¹⁾	149,497	—	516,054
Improvements ⁽¹⁾	34,095	81,119	140,109
Deductions:			
Impairment write-down	—	—	(24,432)
Write-off of disposed assets	(619)	(1,694)	(7,430)
Property sales	(1,213,395)	(217,656)	(438,654)
Balance, end of period	<u>\$ 1,990,810</u>	<u>\$ 3,021,232</u>	<u>\$ 3,159,463</u>
Accumulated depreciation			
Balance, beginning of period	\$ 749,014	\$ 712,630	\$ 770,535
Additions:			
Depreciation	86,399	106,920	107,938
Deductions:			
Impairment write-down	—	—	(16,058)
Write-off of disposed assets	(27)	(730)	(2,173)
Property sales	(433,460)	(69,806)	(147,612)
Balance, end of period	<u>\$ 401,926</u>	<u>\$ 749,014</u>	<u>\$ 712,630</u>

⁽¹⁾ Includes non-cash accruals for capital items.

CERTIFICATION

I, Paul T. McDermott, certify that:

1. I have reviewed this annual report on Form 10-K of Washington Real Estate Investment Trust;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

WRITTEN STATEMENT OF
CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

The undersigned, the President and Chief Executive Officer, the Chief Financial Officer and Chief Accounting Officer of Washington Real Estate Investment Trust (“WashREIT”), each hereby certifies on the date hereof, that:

- (a) the Annual Report on Form 10-K for the year ended December 31, 2021 filed on the date hereof with the Securities and Exchange Commission (the “Report”) fully complies with the requirements of Section 13 (a) or 15(d) of the Securities Exchange Act of 1934; and
- (b) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of WashREIT.
