## About Emerald Bioscience, Inc.

Emerald Bioscience Inc. is a biopharmaceutical company focused on the discovery and development of proprietary first-in-class molecules with strong clinical and commercial differentiation of therapeutics for significant unmet medical needs in global markets. With cannabiproprietary technology licensed from the University of Mississippi, the Company is developing novel ways to deliver cannabinoid-based drugs for specific indications with the aim of optimizing the clinical effects of such drugs while limiting potential adverse events. The Company's science team is experienced in the translation of pioneering research into promising therapeutics with the potential for deep pharmacoeconomic benefits. The Company's aim is to clinically develop multiple proprietary biosynthetic compounds alone or in combination with corporate partners. For more information, visit [www.emeraldbio.life](http://www.emeraldbio.life).
