# Orbital Tracking's Global Telesat Expands Commercial Sales Focus with New Motorola Business and Workforce Digital Radio Products

***Global Telesat Communications Celebrates 1,300 Unit Milestone as New Motorola Solutions EMEA Channel Partner***

**AVENTURA, FL / ACCESSWIRE / May 30, 2019** /Orbital Tracking Corp. (OTCQB: TRKK) ("Orbital Tracking" or the "Company"), today announced that its [Global Telesat Communications](#) subsidiary has expanded its commercial product portfolio with the addition of top-selling [Motorola XT400 Series Business Two-Way Radios](#), [XT600d Series Unlicensed Two-Way Radios](#) and [MOTOTRBO™ Digital Portable Radio \(DPR\)](#) workforce radio products as part of its increasing focus on commercial and enterprise sales.

Having recently been named as a Motorola Solutions EMEA Channel Partner and surpassing a 1,300-unit sales milestone, Global Telesat Communications is one of Europe's leading providers of Mobile Satellite Services ("MSS") including satellite enabled tracking, emergency location, and voice/data solutions serving consumers, commercial and government customers throughout Europe. Building on growing demand for wireless business communications in industries ranging from manufacturing and construction to facilities management and security, Global Telesat Communications has expanded its offerings with the introduction of an array of new radio products from [Motorola Solutions](#) including the XT460, XT660, DP1400 and SL4000.

"Demand for advanced, easy-to-use radio systems by customers in commercial and industrial sectors continues to grow and with the addition of these new Motorola radio products into our product portfolio, we will be able to serve new and existing customers in these large markets with a wider array of workforce communications solutions," said David Phipps, Chief Executive Officer of Orbital Tracking.

## **About Motorola Business Two-Way Radios**

Global Telesat Communications (GTC) has introduced Two-Way Business Radios to their portfolio to equip businesses with portable voice solutions across a diverse or dispersed workforce, for greater collaboration and work efficiency.

The [Motorola XT400 Series Business Two-Way Radios](#) and [XT600d Series Unlicensed Two-Way Radios](#) empowers businesses to communicate instantly with personnel dispersed across warehouses, shop floors or construction sites. These radios operate on license and subscription-free PMR446 frequencies, to meet the European Union standard for radios and enable on-site communications with no call charges - the perfect answer for business users

who need to stay in touch with colleagues.

[MOTOTRBO™ DP1400 Digital Portable Radios \(DPR\)](#) connects your entire operation and workforce efficiently through superior audio quality, outstanding coverage and long-lasting battery life, to provide solutions for connecting teams who require reliable communication to coordinate and collaborate with crew members.

[MOTOTRBO™ SL4000e Smart Two-Way Radios](#) are designed to provide management with complete control through high-performing, integrated voice and data capabilities to deliver smart connectivity to an organisation. The Motorola SL4000e expands communications across workforces through upgraded audio clarity when used at high-volume construction sites.
