

Orbsat Reaches Multi-Year Milestone of Over 35,000 Satellite Enabled Messenger and Locator Beacon Units Sold Worldwide

Holiday Season Sees Increased Orders in October and Early December

AVENTURA, FL / ACCESSWIRE / December 9, 2020/ Orbsat Corp (OTCQB:OSAT) ("Orbsat" or the "Company"), a global provider of communication solutions for connectivity to the world through next-generation satellite technology, today announced it has achieved a number of product sales milestones, assisted by recent strength in global e-commerce holiday sales which has risen during the fourth quarter with particularly strong sales in the month of October and in early December.

Although sales generally continue to be affected by COVID-19's negative impact on customer product rentals and purchases for travel use, the Company continues to see high demand for products through its 14 global e-commerce storefronts. Orbsat, through its UK subsidiary, Global Telesat Communications (GTC), and Orbital Satcom (OSC), its US subsidiary, is one of the world's top providers of satellite-enabled messengers and emergency locator beacons from leading brands including [SPOT](#), [Garmin inReach](#), and [Orolia Maritime](#), collectively selling more than 35,000 units, including approximately 5,500 devices in the current year. These devices allow users to communicate, be tracked and monitored, or request help during an emergency, even in remote locations where no other forms of communication are available. The Company has attracted customers in every country in the EU, across all 50 United States, and in total, more than 160 countries worldwide, with users living in or travelling to every continent on the planet.

"We are thankful to reach a new multi-year sales milestone in 2020 during what has been a difficult global environment due to COVID-19," said David Phipps, Chief Executive Officer of Orbsat. "Our business continues to benefit from our global reach and geographic diversification to over 160 countries, helping ensure our ability to service and support individual, corporate and governmental customers with industry-leading satellite-based connectivity solutions with worldwide coverage."
