Bristow Group Provides Update on the Impact of the U.S. Gulf of Mexico on Its Operations

Fiscal 2010 operating income from the U.S. Gulf of Mexico represents six percent of the company's consolidated operating income

HOUSTON, June 10 /PRNewswire-FirstCall/ -- Bristow Group Inc. (NYSE: BRS) today provided an update on the impact of the ongoing deepwater oil spill and the recently announced 180-day moratorium on deepwater drilling in the Gulf of Mexico (the "Drilling Moratorium") on its activity in the U.S. Gulf of Mexico.

"While we expect that the Drilling Moratorium will have a near term negative impact on our operations in the U.S. Gulf of Mexico, we have a large international footprint and our exposure in the U.S. Gulf of Mexico was only six percent of our operating income in fiscal year 2010," said William E. Chiles, President and Chief Executive Officer of Bristow Group.

Although the majority of our work in the U.S. Gulf of Mexico is production related, we currently have three Sikorsky S-92s and six Sikorsky S-76s flying in support of deepwater drilling projects affected by the Drilling Moratorium:

Type	Project	Block
Sikorsky S-92 Large	North Platte	Garden Banks # 959
Sikorsky S-92 Large	Buck Skin	Keathley Canyon # 972
Sikorsky S-92 Large	Front Runner	Green Canyon # 338
Sikorsky S-76 Medium	Oceanographer	Green Canyon # 973
Sikorsky S-76 Medium	Production / Drilling	Eugene Island # 300
Sikorsky S-76 Medium	Front Runner	Green Canyon # 338
Sikorsky S-76 Medium	Pony	Green Canyon # 468
Sikorsky S-76 Medium	Innsbruck	Mississippi Canyon # 993
Sikorsky S-76 Medium	Appaloosa	Mississippi Canyon # 503

These aircraft are currently generating approximately \$3.8 million in monthly revenue and approximately \$0.6 million in monthly operating income. We have been notified by customers that they will be releasing two S-92s and five S-76s. As a result, our revenues from this deepwater drilling work may decline by as much as 85% by the end of June 2010. We are actively seeking to redeploy these aircraft to other customers and other geographic regions to keep them earning revenue and income.

In the near term, these declines may be offset by increased work for BP. We are currently flying seven Sikorsky S-76 medium aircraft and two Eurocopter EC135 small aircraft for BP in support of the spill control and monitoring effort. These aircraft are expected to be generating approximately \$3.8 million in monthly revenue and approximately \$0.7 million in monthly operating income. We anticipate that this activity could continue for several months; however, we have no way to predict whether BP will increase or decrease its need for these or other aircraft in our fleet.

ABOUT BRISTOW GROUP INC.

Bristow Group Inc. is a leading provider of helicopter services to the worldwide offshore energy industry and one of two helicopter service providers to the offshore energy industry with global operations. Through its subsidiaries, affiliates and joint ventures, the Company has significant operations in most major offshore oil and gas producing regions of the world, including the North Sea, the U.S. Gulf of Mexico, Nigeria, Australia and Latin America.
