Tecogen Exhibiting and Presenting June 29-30th 2016 at Northeast Buildings & Facilities Management Show & Conference

WALTHAM, Mass., June 28, 2016 /PRNewswire/ -- [Tecogen® Inc.](#) (NASDAQ: TGEN), a manufacturer and installer of high efficiency, ultra-clean combined heat and power (CHP) products including natural gas engine-driven cogeneration, air conditioning systems, and high-efficiency water heaters for industrial and commercial use, will be exhibiting the company's cutting-edge technology at the North East Buildings & Facilities Management Show & Conference on June 29th and 30th, 2016. Held in Massachusetts at the Boston Convention & Exhibition Center in Hall B-2, Tecogen experts will be on hand to discuss the entire portfolio of clean power solutions at Booth 411.

In addition to exhibiting, Dale Desmarais, Tecogen's Director of Business Development, is hosting a Special Topics session on Wednesday June 29th at 9:45 a.m. ET. Entitled "Heat Pumps & DHRCs to the Rescue," the session will cover the engineering and compelling financial argument in favor of gas driven heat pumps and dedicated heat recovery chiller technology. "Anyone that is serious about reducing their carbon footprint in a cost-effective and efficient way should be considering heat pump technology, especially with many utilities offering attractive incentives to defray the upfront installation expense," said Mr. Desmarais.

Attendance is free and open to the public; advance registration is recommended and may be completed at: <http://proexpos.com/NEBFM/index.php?tpl=register>.

About Tecogen

[Tecogen® Inc.](#) designs, manufactures, sells, installs, and maintains high efficiency, ultra-clean, cogeneration products including natural gas engine-driven combined heat and power, air conditioning systems, and high-efficiency water heaters for residential, commercial, recreational and industrial use. The company is known for cost efficient, environmentally friendly and reliable products for energy production that, through patented technology, nearly eliminate criteria pollutants and significantly reduce a customer's carbon footprint.

In business for over 20 years, Tecogen has shipped more than 2,300 units, supported by an established network of engineering, sales, and service personnel across the United States. For more information, please visit www.tecogen.com or contact us for a free [Site Assessment](#).
