Letter from the CEO

I am pleased to report Greystone Housing Impact Investors LP's operating results for the third quarter of 2024. We reported the following financial results as of and for the three months ended September 30, 2024:

- Total revenues of \$24.3 million.
- Net loss of \$0.23 per Beneficial Unit Certificate ("BUC"), basic and diluted.
- Cash Available for Distribution ("CAD") of \$0.27 per BUC.
- Total assets of \$1.55 billion.
- Total Mortgage Revenue Bond ("MRB") and Governmental Issuer Loan ("GIL") investments of \$1.24 billion.

The difference between reported net loss per BUC and CAD per BUC is primarily due to the treatment of unrealized losses on the Partnership's interest rate derivative positions. Unrealized losses of approximately \$9.7 million are included in net income for the three months ended September 30, 2024. Unrealized losses are a result of the impact of declining market interest rates on the calculated fair value of the Partnership's interest rate derivative positions. Unrealized losses do not affect our cash earnings and are added back to net loss when calculating the Partnership's CAD.

We reported the following notable transactions during the third quarter of 2024:

- Advanced funds on MRB and taxable MRB investments totaling \$40.5 million.
- Advanced funds on GIL and property loan investments totaling \$17.5 million.
- Advanced funds to joint venture equity investments totaling \$10.4 million.
- Received redemption proceeds for various MRB, GIL, property loan and taxable MRB investments totaling \$55.8 million, of which \$36.9 million was used to paydown the Partnership's related debt financing.

We continue to strategically invest in the affordable multifamily MRB and GIL asset classes where we believe we can earn attractive leveraged returns. We also continue to see consistent operating results from the properties underlying our affordable multifamily MRBs and GILs, with all such investments being current on contractual principal and interest payments as of September 30, 2024.

Other highlights of our investment portfolio include the following:

- The Partnership continues to execute its hedging strategy, primarily through interest rate swaps, to reduce the impact of changing market interest rates. The Partnership received net payments under its interest rate swap portfolio of approximately \$1.8 million and \$5.2 million during the three and nine months ended September 30, 2024, respectively.
- Six joint venture equity investment properties have completed construction, with four properties having achieved 90% occupancy as of September 30, 2024. Five of the Partnership's joint venture equity investments are currently under construction or in development, with none having experienced material supply chain disruptions for either construction materials or labor to date.

We have noticed traditional bank affordable housing lenders are offering fewer loans or imposing more restrictive terms on borrowers, creating new opportunities for us to pursue beyond our normal pipeline. This is why we structured and closed on our new construction lending joint venture with Black Rock Impact Opportunities in October 2024. We will continue to strategically work with strong sponsors on new investment opportunities where traditional sources of capital may not currently be available. We will also continue to seek to develop new relationships, particularly with those sponsors that are existing clients of Greystone and its affiliates.

Thank you for your continued support of Greystone Housing Impact Investors LP!

Kenneth C. Rogozinski
Chief Executive Officer

Greystone Housing Impact Investors LP was formed for the primary purpose of acquiring a portfolio of MRBs that are issued to provide construction and/or permanent financing of affordable multifamily residential and commercial properties. We also invest in GILs, which are similar to MRBs, to provide construction financing for affordable multifamily properties. We expect and believe the interest paid on the MRBs and GILs to be excludable from gross income for federal income tax purposes. In addition, we have invested in equity interests in multifamily, market rate properties throughout the U.S. We continue to pursue a business strategy of acquiring additional MRBs and GILs on a leveraged basis, and other investments.

- ⁽⁴⁾ Management utilizes a calculation of Cash Available for Distribution ("CAD") to assess the Partnership's operating performance. This is a non-GAAP financial measure. See the Important Disclosure Notices in the Appendices for important information regarding non-GAAP measures. A reconciliation of our GAAP net income (loss) to CAD is provided on page 20 of this report.

Debt Financing
(Dollar amounts in thousands)

⁽¹⁾ The variable-rate debt financing is hedged through our interest rate swap agreements. Though the variable rate indices may differ, these interest rate swaps have effectively synthetically fixed the interest rate of the related debt financing.

⁽²⁾ The securitized assets and related debt financings each have variable interest rates. Though the variable rate indices may differ, the Partnership is largely hedged against rising interest rates.

Interest Rate Sensitivity Analysis

The interest rate sensitivity table below represents the change in interest income from investments, net of interest on debt and settlement payments for interest rate derivatives over the next twelve months, assuming an immediate parallel shift in the SOFR yield curve and the resulting implied forward rates are realized as a component of this shift in the curve and assuming management does not adjust its strategy in response. The amounts in the table below do not consider any potential unrealized gains or losses from derivatives in determining the net interest income impact.

Tax Income Information Related to Beneficial Unit Certificates

The following table summarizes tax-exempt and taxable income as percentages of total income allocated to the Partnership’s BUCs on Schedule K-1 for tax years 2021 to 2023. This disclosure relates only to income allocated to the Partnership’s BUCs and does not consider an individual unitholder’s basis in the BUCs or potential return of capital as such matters are dependent on the individual unitholders’ specific tax circumstances. The disclosure also assumes that the individual unitholder can utilize all allocated losses and deductions, even though such items may be limited depending on the unitholder’s specific tax circumstances. Such amounts are for all BUC holders in the aggregate during the year. Income is allocated to individual investors monthly and amounts allocated to individual investors may differ from these percentages due to, including, but not limited to, BUC purchases and sales activity and the timing of significant transactions during the year.

	2023	2022	2021
Tax-exempt income	40%	25%	32%
Taxable income	60%	75%	68%
	100%	100%	100%

Unrelated Business Taxable Income

In recent years, the Partnership has generated little to no Unrelated Business Taxable Income (“UBTI”) for BUC unitholders. For tax years 2021 to 2023, the Partnership generated a net loss from activities considered to be UBTI as reported on investor Schedule K-1s. The rules around UBTI are complex, so please consult your tax advisor.
