## EyeGate Pharmaceuticals to Present at the 2016 Aegis Capital Conference

WALTHAM, Mass., Sept. 21, 2016 (GLOBE NEWSWIRE) -- EyeGate Pharmaceuticals, Inc. (Nasdaq:EYEG), ("EyeGate" or the "Company"), a specialty pharmaceutical company that focuses on developing and commercializing products for treating diseases and disorders of the eye, today announced that Stephen From, President & Chief Executive Officer of EyeGate, is scheduled to present at the 2016 Aegis Capital Corp. Investment Growth Conference, being held September 21 and 22, 2016 at the Encore at Wynn Las Vegas in Las Vegas, NV.

Details of the presentations are as follows:

**Date:** Thursday, September 22, 2016  
**Time:** 1:30 – 2:00 PM PT  
**Location:** Track 1. Life Science Presenters

Investors attending the conference who would like to schedule a one-on-one meeting with EyeGate's management may do so by contacting their Aegis representative, or Joseph Green at The Ruth Group at [jgreen@theruthgroup.com](mailto:jgreen@theruthgroup.com).

### About EyeGate Pharmaceuticals

EyeGate is a clinical-stage specialty pharmaceutical company that is focused on developing and commercializing products for treating diseases and disorders of the eye. The EGP-437 combination product, EyeGate's first and only product in clinical trials, incorporates a reformulated topically active corticosteroid, Dexamethasone Phosphate that is delivered into the ocular tissues through EyeGate's proprietary innovative drug delivery system, the EyeGate® II Delivery System. In addition, EyeGate is developing, through its wholly-owned Jade subsidiary, products using cross-linked thiolated carboxymethyl hyaluronic acid ("CMHA-S"), a modified form of the natural polymer hyaluronic acid (HA), which possesses unique physical and chemical properties such as hydration and healing properties. The ability of CMHA-S to adhere longer to the ocular surface, resist degradation and protect the ocular surface makes it well-suited for treating various ocular surface injuries. EyeGate intends to initiate a clinical study for Jade's lead product candidate for corneal epithelial defects by year-end 2016. ### Safe Harbor Statement:

Some of the statements in this press release are "forward-looking" and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These "forward-looking" statements include statements relating to, among other things, the commercialization efforts and other regulatory or marketing approval efforts pertaining to EyeGate's products, including EyeGate's EGP-437 combination product and those of Jade,

a wholly owned subsidiary of EyeGate, as well as the success thereof, with such approvals or success may not be obtained or achieved on a timely basis or at all. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this press release, including, among other things, certain risk factors described under the heading "Risk Factors" contained in our Annual Report on Form 10-K filed with the SEC on March 30, 2016, and our Quarterly Report on Form 10-Q, as filed with the SEC on August 10, 2016 or described in our other public filings. Our results may also be affected by factors of which we are not currently aware. The forward-looking statements in this press release speak only as of the date of this press release. EyeGate expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.
