EyeGate Pharmaceuticals Announces New Board Member, Peter Greenleaf

WALTHAM, Mass., Aug. 07, 2018 (GLOBE NEWSWIRE) -- EyeGate Pharmaceuticals, Inc. (NASDAQ: EYEG) ("EyeGate" or the "Company"), a clinical-stage, specialty pharmaceutical company with two proprietary platform technologies for treating diseases and disorders of the eye, today announced the appointment of Peter Greenleaf to its Board of Directors. Mr. Greenleaf was elected to the Board at the Company's annual stockholders meeting on July 10, 2018.

Paul Chaney, EyeGate's Chairman, said, "We are pleased to welcome Peter Greenleaf to the EyeGate Board. Peter brings over two decades of biopharmaceutical experience that will be invaluable to EyeGate as we grow the company. We look forward to working with Peter to create value for our shareholders."

Mr. Greenleaf added, "I am excited about EyeGate's unique and proprietary platforms which address significant opportunities for growth in the ophthalmic market. I look forward to lending my expertise and working with EyeGate's management and Board on reaching company milestones."

Mr. Greenleaf has over 20 years of biopharmaceutical experience, and currently serves as the Chief Executive Officer of Cerecor Inc. (NASDAQ: CERQ), a biopharmaceutical company focused on neurological and psychiatric disorders and Chairman of the board at Biodelivery Sciences (NASDAQ: BDSI), a specialty pharmaceutical company focused on pain management and addiction medicine. Previously, he served as Chairman and CEO of Sucampo Pharmaceuticals and led the company's acquisition by Mallinckrodt Pharmaceuticals for \$1.2 billion. Prior to joining Sucampo Pharmaceuticals, Mr. Greenleaf held senior positions spanning commercial, corporate development, and strategy functions at several pharmaceutical companies. Notably, he served as President of MedImmune LLC, the biologics arm of AstraZeneca, and President of MedImmune Ventures, a wholly owned venture capital fund within the AstraZeneca Group. Mr. Greenleaf is also currently a member of the Board of Directors of the Biotechnology Industry Organization (BIO) serving on the Governing Boards of the Emerging Companies and Health Sections. He earned his M.B.A. from St. Joseph's University and a B.S. from Western Connecticut State University.

About EyeGate

EyeGate is a clinical-stage specialty pharmaceutical company focused on developing and commercializing products using its two proprietary platform technologies for treating diseases and disorders of the eye.

EyeGate's CMHA-S platform is based on a cross-linked thiolated carboxymethyl hyaluronic acid (CMHA-S), a modified form of the natural polymer hyaluronic acid (HA), which is a gel

that possesses unique physical and chemical properties such as hydrating and healing when applied to the ocular surface. The ability of CMHA-S to adhere longer to the ocular surface, resist degradation and protect the ocular surface makes it well-suited for treating various ocular surface injuries.

EGP-437, EyeGate's other product in clinical trials, incorporates a reformulated, topically active corticosteroid, Dexamethasone Phosphate, that is delivered into the ocular tissues through EyeGate's proprietary innovative drug delivery system, the EyeGate II Delivery System. EyeGate Social Media

EyeGate uses its website (www.EyeGatePharma.com), Facebook page, corporate Twitter account, and LinkedIn page as channels of distribution of information about EyeGate and its product candidates. Such information may be deemed material information, and EyeGate may use these channels to comply with its disclosure obligations under Regulation FD. Therefore, investors should monitor EyeGate's website and its social media accounts in addition to following its press releases, SEC filings, public conference calls, and webcasts. The social media channels that EyeGate intends to use as a means of disclosing the information described above may be updated from time to time as listed on EyeGate's investor relations website.

Forward-looking Statements

Some of the statements in this press release are "forward-looking" and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These "forward-looking" statements include statements relating to, among other things, the commercialization efforts and other regulatory or marketing approval efforts pertaining to EyeGate's products, including EyeGate's EGP-437 combination product and those of Jade Therapeutics, Inc., a wholly owned subsidiary of EyeGate, as well as the success thereof, with such approvals or success may not be obtained or achieved on a timely basis or at all. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this press release, including, among other things, certain risk factors described under the heading "Risk Factors" contained in EyeGate's Annual Report on Form 10-K filed with the SEC on March 2, 2018 or described in EyeGate's other public filings. EyeGate's results may also be affected by factors of which EyeGate is not currently aware. The forward-looking statements in this press release speak only as of the date of this press release. EyeGate expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.
