Bruce A. Campbell, Chairman, President and CEO, said, "Solid demand for our airport-to-airport service along with strong pricing delivered outstanding results for the fourth quarter. We were most encouraged by the continued positive leverage of our business model which produced a 370 basis point improvement as compared to the fourth quarter of 2009. The resulting 86.0% operating ratio is our best operating performance since the third quarter of 2008. We are pleased with our continued progress toward attaining the returns and margins our shareholders have come to expect from Forward Air."

Commenting further, Mr. Campbell said, "We were also encouraged by the fourth quarter performance of our Forward Air Solutions segment. With a continued firming of the economy, further success penetrating complementary industry verticals and on-going cost control initiatives, we expect this segment to be a profitable contributor in 2011."

In closing, Mr. Campbell said, "We expect that improving macroeconomic trends as well as positive trends specific to Forward Air will continue throughout 2011. Utilizing our dedicated team of employees and independent contractors we intend to take full advantage of this improved operating environment in order to drive maximum value to our shareholders."

In commenting further on the quarter, Rodney L. Bell, Senior Vice President and CFO said, "Strong free cash flow of \$40.1 million allowed us to increase cash by \$32.5 million to end 2010 with \$74.5 million on our balance sheet. Consistent with the end of 2009, we closed 2010 with \$50 million outstanding on our line of credit and had \$38.3 million available on our credit facility."

Commenting on the Company's guidance for the first quarter, Mr. Bell said, "We anticipate our first quarter 2011 revenues will increase in the range of 9% to 13% over the comparable 2010 period, and we expect income per diluted share to be between \$0.20 and \$0.24 per share. This compares to \$0.12 per share in the first quarter of 2010."

This quarterly dividend is pursuant to a cash dividend policy approved by the Board of Directors, which anticipates a total annual dividend of \$0.28 per share of common stock, payable in quarterly increments of \$0.07 per share of common stock. The actual declaration of future cash dividends, and the establishment of record and payment dates, is subject to final determination by the Board of Directors each quarter after its review of the Company's financial performance.

#### About Forward Air Corporation

Forward Air Corporation operates two business segments, Forward Air, Inc. and Forward Air Solutions, Inc.

Forward Air, Inc. is a high-service-level contractor to the air cargo industry providing time-definite ground transportation services through a network of terminals located on or near major airports in 84 cities in the United States and Canada. It provides these services as a cost-effective alternative to air transportation of cargo that must be delivered at a specific time but is relatively less time-sensitive than traditional air freight or when air transportation is not economical.

Forward Air Solutions, Inc. is a provider of pool distribution services. Pool distribution involves the consolidation and shipment of several smaller less-than-truckload shipments to a common area or region. Once at the regional destination, the loads are deconsolidated, then grouped with other shipments with common delivery points, and delivered in a very precise, time-sensitive manner. Our pool distribution network consists of terminals and service locations in 19 cities within the Mid-Atlantic, Southeast, Midwest and Southwestern United States.

#### Important Information

This press release contains "forward-looking statements," as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements other than historical information or statements of current condition and relate to future events or our future financial performance. Some forward-looking statements may be identified by use of such terms as "believes," "anticipates," "intends," "plans," "estimates," "projects" or "expects." Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The following is a list of factors, among others, that could cause actual results to differ materially from those contemplated by the forward-looking statements: economic factors such as recessions, inflation, higher interest rates and downturns in customer business cycles, our inability to maintain our historical growth rate because of a decreased volume of freight moving through our network or decreased average revenue per pound of freight moving through our network, increasing competition and pricing pressure, surplus inventories, loss of a major customer, the creditworthiness of our customers and their ability to pay for services rendered, our ability to secure terminal facilities in desirable locations at reasonable rates, the inability of our information systems to handle an increased volume of freight moving through our network, changes in fuel prices, claims for property damage, personal injuries or workers' compensation, employment matters including rising health care costs, enforcement of and changes in governmental regulations, environmental and tax matters, the handling of hazardous materials, the availability and compensation of qualified independent owner-operators and freight handlers needed to serve our transportation needs and our inability to successfully integrate acquisitions. As a result of the foregoing, no assurance can be given as to future financial condition, cash flows or results of operations. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
