Telkonet Announces Fiscal Year 2018 Financial Results

Teleconference and Webcast to be Held Today at 4:30 P.M. EST

WAUKESHA, WI / ACCESSWIRE / April 1, 2019 /Telkonet, Inc. (OTCQB: TKOI), (the "Company", "Telkonet"), developer of the EcoSmart Platform of intelligent automation solutions designed to optimize comfort, energy efficiency and operational analytics in support of the emerging Internet of Things (IoT), today announced financial results for the fiscal year ended December 31, 2018. Telkonet management will hold a teleconference to discuss these results with the financial community today at 4:30 p.m. ET/3:30 p.m. CT.

"While 2018 annual revenues were flat overall, the Company completed order growth ending in record annual orders and backlog at year-end of \$4.0 million, up from \$1.5 million in the prior year," stated Jason Tienor, Telkonet's Chief Executive Officer. "Marquee multi-year project awards, increased market penetration and awareness through an expanded strategic marketing plan and expanding channel growth have yielded increases to our order activity."

Operating and Financial Highlights Comparison for the Years Ended December 31, 2018 and 2017:

- Net loss from continuing operations decreased to \$3.0 million for the year ended December 31, 2018 compared to \$3.5 million in the prior year
- Operating expense decreased 7% to \$6.8 million for the year ended December 31, 2018 compared to \$7.3 million in 2017
- Focusing on long-term, sustainable strategic growth, the Company recognized 69% growth in recurring revenues year-over-year resulting from increased sales activity on the annual support contracts
- Through expanded marketing activities and extended project negotiations, Telkonet increased orders and compiled the largest backlog in company history of approximately \$4.0 million for the year ended December 31, 2018
- Successful certification as the first intelligent device participating in Hilton's new Connected Room Initiative
- Extensive Channel development resulting in end-of-year sales through channel efforts of 75% for the year ended December 31, 2018 as compared to 59% in the prior year
- Completion and release of Telkonet's newest products, Touch Flex WiFi and Zigbee, resulting in expanding markets and new technological deployments
- Completion of numerous new integrations including Assa Abloy doorlocks and additional building management and property management systems

NON-GAAP Financial Measures

Telkonet will post to the Company's investor relations web site (www.telkonet.com) any reconciliation of differences between non-GAAP financial information that may be required in connection with issuing the Company's financial results.

The Company, as is common in its industry, uses adjusted EBITDA from continuing operations, a non-GAAP measurement gauge to demonstrate earnings exclusive of interest and non-cash events. The Company manages its business based on its cash flows. The Company, in its daily management of its business affairs and analysis of its monthly, quarterly and annual performance, makes its decisions based on cash flows, not on the amortization of assets obtained through historical activities. The Company, in managing its current and future affairs, cannot affect the amortization of the intangible assets to any material degree, and therefore uses adjusted EBITDA from continuing operations as its primary management guide. Adjusted EBITDA from continuing operations is not, and should not be considered, an alternative to net income (loss), income (loss) from continuing operations, or any other measure for determining operating performance or liquidity, as determined under accounting principles generally accepted in the United States (GAAP). In assessing the overall health of its business for the years ended December 31, 2018 and 2017, the Company excluded items in the following general category described below:

- *Stock-based compensation:* The Company believes that because of the variety of

equity awards used by companies, varying methodologies for determining stock-based compensation and the assumptions and estimates involved in those determinations, the exclusion of non-cash stock-based compensation enhances the ability of management and investors to understand the impact of non-cash stock-based compensation on our operating results. Further, the Company believes that excluding stock-based compensation expense allows for a more transparent comparison of its financial results to the previous period.

Adjusted EBITDA from continuing operations and other non-GAAP financial measures should not be considered in isolation from, or as a substitute for, a measure of financial performance prepared in accordance with GAAP. Further, investors are cautioned that there are inherent limitations associated with the use of the non-GAAP financial measure as an analytical tool. In particular, the non-GAAP financial measure is not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measure reflect the exclusion of items that are recurring and will be reflected in the Company's financial results for the foreseeable future. The Company compensates for these limitations by providing specific information in the reconciliation included in this press release regarding the GAAP amounts excluded from the non-GAAP financial measure.
