

A Tradition of Quality Since 1850

THIRD QUARTER REPORT

For the Period Ended June 30, 2010

#### To Our Shareholders

Net income for the fiscal 2010 third quarter was \$20,411,000, or \$0.68 per share, compared to \$18,068,000, or \$0.60 per share, a year ago. The fiscal 2010 third guarter included a favorable adjustment of \$0.02 per share related to the closure of certain prior income tax periods. The fiscal 2009 third guarter results included unusual charges of \$0.03 per share. Sales for the guarter ended June 30, 2010 were \$213,329,000, compared to \$192,047,000 a year ago. All of the Company's segments reported higher sales for the current guarter. Higher unit volumes in several segments and the impact of recent acquisitions were significant factors in the sales improvement. Operating profit for the three months ended June 30, 2010 was \$34,514,000, compared to \$29,810,000 last year. Operating profit for the current guarter included an increase in pension costs of \$1,300,000 compared to a year ago. Operating profit for the fiscal 2009 third guarter included \$2,100,000 of unusual charges.

Net income for the nine months ended June 30, 2010 was \$49,338,000, or \$1.64 per share, compared to \$42,099,000, or \$1.38 per share, last year. Fiscal 2010 included the favorable income tax adjustment of \$0.02 per share noted above. The first nine months last year were negatively affected by unusual items of \$0.24 per share, which consisted of unusual charges of \$0.28 per share offset partially by favorable income tax adjustments of \$0.04 per share. Sales for the nine months ended June 30, 2010 were \$607,168,000, compared to \$580,695,000 last year, representing an increase of 4.6%. The increase was primarily attributable to higher unit volume in several of the Company's segments and the impact of recent acquisitions. Operating profit for the nine months ended June 30, 2010 was \$83,808,000, compared to \$73,328,000 a year ago. Operating profit for the current period included an increase in pension costs of \$3,900,000 compared to a year ago. Fiscal 2009 operating profit included \$12,800,000 of unusual charges.

We are pleased with our fiscal 2010 third quarter results. Unit volumes increased in many of our businesses, with higher sales and the benefit of our recent cost structure initiatives contributing nicely to the improvement in our results. In addition, the results for the current year were achieved despite an increase in pension expense of approximately \$0.03 per share for the quarter and \$0.08 year-to-date over the comparable periods last year.

In November 2009, we provided guidance that our fiscal 2010 earnings per share would approximate fiscal 2009, excluding unusual items. Our results for the fiscal 2010 third quarter and year-to-date were slightly ahead of our internal expectations. As a result, we are now projecting results for fiscal 2010 to be slightly ahead of our original guidance. We continue to remain cautious given the continued decline in U.S. deaths, uncertain economic conditions and recent volatility in the value of the Euro relative to the U.S. dollar.
