Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of **Athene Annuity and Life Company** (the Company) have been prepared in conformity with the accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Iowa.

The Insurance Division, Department of Commerce, of the State of Iowa (the Division) recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Iowa Insurance Law. The NAIC’s *Accounting Practices & Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Among the products issued by the Company are indexed universal life insurance and indexed annuities. These products allow a portion of the premium to earn interest based on certain indices, including the Standard & Poor’s 500 Composite Stock Price Index and other bespoke indices. Call options, futures, variance swaps and total return swaps are purchased to hedge the interest credited to the customer as a direct result of movements in the related indices. In 2006, the Commissioner of the Division issued Bulletin 06-01, *Accounting for Derivative Instruments Used to Hedge the Growth in Interest Credited for Index Products*, which prescribes that an insurer may elect to recognize changes in the fair value of derivative instruments purchased to hedge indexed products in the statement of operations. The Company has elected to apply Bulletin 06-01 to its futures, variance swaps and total return swaps that are hedging fixed indexed annuities. Application of Bulletin 06-01 does not impact the Company’s statutory surplus amounts.

In 2009, the Commissioner of the Division promulgated Iowa Administrative Code (IAC) Section 191-97, *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve*, which prescribes that an insurer may elect (i) to use an amortized cost method to account for certain derivative instruments, such as call options, purchased to hedge the growth in interest credited to the customer on indexed insurance products and (ii) to utilize an indexed annuity reserve calculation methodology under which call options associated with the current index interest crediting term are valued at zero. IAC Section 191-97 does not apply to products that do not guarantee a minimum interest accumulation, such as our variable and index-linked deferred annuities. The Company has elected to apply IAC Section 191-97 to its eligible over the counter (OTC) call options and reserve liabilities.

The NAIC requires annuities issued by life insurance companies on or after January 1, 2015, to use the 2012 Individual Annuity Reserving (IAR) Mortality Table. In 2015, the Division promulgated IAC Section 191-43.3(5), which set an elective alternative effective date of January 1, 2016 for adoption of the 2012 IAR Mortality Table. The Company chose to use the Annuity 2000 Mortality Table for all annuities issued in 2015.

During 2025, the Company received a permitted accounting practice from the Division to record its investment in Apollo Aligned Alternatives Aggregator, L.P. (AAA) as if the underlying investments held by AAA were owned directly by the Company. The permission represents a deviation from SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies* and requires the Company to apply look-through accounting and reporting to AAA’s investments as if the investments were owned directly by the Company. As a result of this permitted practice, the Company’s net income for the three months ended March 31, 2026 increased by \$20.9 million and cumulative capital and surplus as of March 31, 2026 was reduced by \$274.6 million prior to the application of reinsurance. After the application of reinsurance, the permitted practice had no impact on the Company’s net income or capital and surplus as of March 31, 2026.

A reconciliation of the Company’s net income and statutory surplus between practices prescribed or permitted by the State of Iowa and NAIC SAP is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from the estimates used in preparing the financial statements.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

C. Accounting Policy

- (1) Short-term investments - No Significant Changes
- (2) Bonds which qualify as issuer credit obligations are stated at amortized cost or fair value based on their rating by the NAIC. Bonds held at amortized cost are amortized using the scientific interest method on a yield-to-worst basis.
- (3) Common stocks - No Significant Changes
- (4) Preferred stocks - No Significant Changes
- (5) Mortgage loans - No Significant Changes
- (6) Bonds which qualify as asset-backed securities are stated at amortized cost or fair market value based on their rating by the NAIC. Changes to estimated cash flows on the securities are accounted for retrospectively for securities that are highly rated at the time of purchase and in which the security cannot be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. The prospective method is used for those securities where an other-than-temporary impairment has been taken, the security is not highly rated at the time of purchase, securities where receipt of all contractual principal cash flows is not expected, or those securities that can be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. Asset-backed securities stated at amortized cost are amortized or accreted using the scientific interest method.

Debt securities that do not qualify as bonds under the principles-based bond definition are reported at the lower of amortized cost or fair value. Residual interests in securitization vehicles that do not qualify as bonds are initially reported at cost. Subsequently, they are reported using the calculated practical expedient method, where the book/adjusted carrying value is reduced by distributions received until the residual interests have a book or adjusted carrying value of zero. Any distribution received thereafter is recognized as interest income.

- (7) Investments in subsidiaries, controlled and affiliated entities - No Significant Changes
- (8) Investments in joint ventures, partnerships and limited liability entities - No Significant Changes
- (9) Derivatives - No Significant Changes
- (10) Investment income as a factor in the premium deficiency calculation - No Significant Changes
- (11) Liabilities for losses and loss/claim adjustment expenses - No Significant Changes
- (12) Changes in capitalization policy - No Significant Changes
- (13) Pharmaceutical rebate receivables - No Significant Changes

D. Going Concern

Management’s assessment of the relevant conditions through May 14, 2026 does not give rise to substantial doubt of the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

Effective January 1, 2026, the Company adopted the NAIC’s prescribed Generator of Economic Scenarios (GOES), which provides a standardized set of economic scenarios used in principle-based reserving calculations. The adoption of GOES increased policy reserve liabilities in the separate account by \$55.3 million and after consideration of modified coinsurance, decreased surplus by \$11.1 million as of January 1, 2026. This adoption represents a change in valuation basis and in accordance with SSAP No. 51, *Life Contracts*, the impact was recorded directly to surplus.

The NAIC has issued VM-22, *Requirements for Principle-Based Reserves for Non-Variable Annuities*, which establishes a principle-based framework for determining statutory reserves for covered annuity products. VM-22 provides for a phased implementation over a three-year transition period, with optional adoption beginning January 1, 2026 and mandatory adoption effective January 1, 2029. The Company has elected to apply VM-22 prospectively to applicable annuity products issued directly by the Company on or after January 1, 2026.

3. Business Combinations and Goodwill - None

4. Discontinued Operations - None

5. Investments

- A. Mortgage Loans, including Mezzanine Real Estate Loans - No Significant Changes
- B. Debt Restructuring - No Significant Changes
- C. Reverse Mortgages - None
- D. Asset-Backed Securities
 - (1) Prepayment assumptions for asset-backed securities were obtained from broker dealer survey values or internal estimates.
 - (2) Asset-backed securities with a recognized other-than-temporary impairment (OTTI) - None

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

The following table shows the gross unrealized losses and fair values of asset-backed securities, which have not been impaired to fair value, aggregated by length of time that individual securities have been in a continuous unrealized loss position as of March 31, 2026:

- a. The aggregate amount of unrealized losses:

1. Less than 12 months

\$ 260,790,181

2. 12 months or longer

657,988,959
- b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months

\$ 25,555,480,503

2. 12 months or longer

9,526,544,664

Notes to the Financial Statements

5. Investments (Continued)

(5) A full analysis of all relevant qualitative considerations was completed in reaching the conclusion that the impairments were not other-than-temporary, including the intent and ability to hold the investment for a period of time sufficient to allow for a recovery in value. Specific events that may influence the operations of the issuer and impaired earnings potential are reviewed in addition to length of time and extent to which the fair value has been less than cost.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Repurchase Transaction - Cash Taker - Overview of Secured Borrowing Transactions

(1) Information regarding the company policy or strategies for engaging in repo programs, policy for requiring collateral

The Company participates in repurchase agreements with unaffiliated financial institutions. Under these agreements, the Company lends bonds and receives cash as collateral. The Company monitors the estimated fair value of the collateral and the securities loaned throughout the duration of the contract and contributes additional collateral as necessary. Securities loaned under these agreements may be sold or re-pledged by the transferee.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

Repurchase Transaction - Cash Provider - Overview of Secured Borrowing Transactions

(1) Information regarding the company policy or strategies for engaging in repo programs, policy for requiring collateral

Included in short-term investments and cash equivalents are amounts receivable under reverse repurchase agreements, which involves the purchase of investments from a seller with the agreement that the investments will be repurchased by the seller at a specified price, and at a specified date or within a specified period of time, not to exceed 364 days. The investments purchased, which represent collateral on a secured lending arrangement, are not reflected in the Company's balance sheets. Instead, the secured lending arrangement is reflected as a short-term investment or cash equivalent for the principal amount loaned under the agreement, if not subject to the master netting arrangements as discussed below.

6. Joint Ventures, Partnerships and Limited Liability Companies

Apollo Aligned Alternatives, L.P. (AAA) is a strategic alternative investment vehicle designed to include investment by affiliated and unaffiliated insurers and other investors, with each investor having pro rata exposure to the underlying investments. The partnership is managed by an affiliate of the Company. Under the terms of the partnership agreement, the Company has the right to require distribution of its pro rata portion of underlying assets and direct such assets to be liquidated.

As discussed in Note 1, the Company received a permitted practice to measure its investment in AAA as if the underlying investments held by AAA were owned directly by the Company. The Company presents the pro rata interests in the underlying funds that comprise its investment in AAA on Schedule BA, Part 1 annually. On Schedule BA, Parts 2 and 3, the Company reports its proportional share of AAA's activity in total.

While AAA's unfunded capital commitments (Unfunded AAA Commitments) have been included on a look through basis for the Company (based on the Company's percentage interest in AAA) as of March 31, 2026, such Unfunded AAA Commitments are not the legal obligation of the Company. Additionally, while the Company may provide commitments in respect of such Unfunded AAA Commitments under the Liquidity Facility, the Company has not yet done so.

The following table lists the general account's pro rata interest in the net contribution, carry value, fund income and unfunded commitments of new investment funds held by AAA during the three months ended March 31, 2026.

Investment Holding Name	Contribution	Carry Value	Fund Income	Unfunded Amount	Ownership %

- A. Some employees of the Company and Athene Employee Services LLC participate in one or more Share Award Agreements (the Agreements) sponsored by Athene Holding Ltd., for which the Company has no legal obligation. Salary expense of the Company and of Athene Employee Services LLC is allocated through the Shared Services Agreement. Under SSAP No. 104, *Share-Based Payments*, the stock compensation expense associated with the Agreements that would have been allocated to the Company is required to be recorded as a capital contribution to the reporting entity. The Company has allocated the stock compensation expense associated with the Agreements based on the same methodology as the Shared Services Agreement. In accordance with SSAP No. 104, the Company incurred expense and recorded a capital contribution under the Agreements totaling \$5.1 million and \$23.3 million for the three months ended March 31, 2026 and for the year ended December 31, 2025, respectively, which includes amounts contributed by the Company to downstream insurance subsidiaries.

11. Debt

- A. Debt, Including Capital Notes - No Significant Changes
- B. FHLB (Federal Home Loan Bank) Agreements
 - (1) The Company is a member of the FHLB of Des Moines. Through its membership, the Company is eligible to borrow under fixed or floating rate short-term arrangements to provide additional liquidity. These borrowings are accounted for as borrowed money under SSAP No. 15, *Debt and Holding Company Obligations*. The Company did not have any outstanding borrowings as of March 31, 2026 or December 31, 2025.

The Company has issued general and separate account funding agreements to the FHLB of Des Moines in exchange for cash resulting in a liability of \$27,788.9 million as of March 31, 2026. The Company uses these funds in an investment spread strategy, consistent with its other investment spread operations. As such, the Company applies SSAP No. 52, *Deposit-Type Contracts*, accounting treatment to these funds, consistent with its other deposit-type contracts. It is not part of the Company's strategy to utilize these funds for operations, and any funds obtained from the FHLB of Des Moines for use in general operations would be accounted for consistent with SSAP No. 15 as borrowed money.

The Company must provide appropriate collateral to borrow under the arrangements described above. The borrowing capacity available to the Company under these agreements is largely a factor of the Company's ability to post eligible collateral, as well as internal limits such as single-holder exposure limits (10% of the entity's balance sheet liabilities) and NAIC capital requirements.

The tables below indicate the amount of FHLB of Des Moines stock purchased, collateral pledged, assets and liabilities related to the agreements with FHLB of Des Moines.

Fiduciary or Best Interest Standards - On February 13, 2020, the NAIC adopted the Suitability in Annuity Transactions Model Regulation (SAT), to incorporate a "best interest" standard of conduct for annuity recommendations and to impose related obligations on insurance producers and issuing insurers, including training requirements. In addition the SAT incorporates a "best interest" or similar standard with respect to the suitability of annuity sales. A producer is considered to have acted in the best interest of the customer if they have satisfied certain prescribed obligations regarding care, disclosure, conflict of interest and documentation. State adoption of these revisions, and any future changes in such laws and regulations, may impact the way our US insurance subsidiaries market and sell their annuity products. All states, including Iowa, have adopted the amended SAT or their own standard of conduct. On July 22, 2018, separate and apart from the NAIC, the NYDFS issued amendments to its SAT regulation to incorporate a "best interest" standard with respect to the suitability of life insurance and annuity sales. Future changes in such laws and regulations, including those that impose a "best interest" standard, may impact the way the Company and its subsidiaries market and sell annuity products.

Since 2016, the DOL has issued various regulations expanding the definition of "investment advice" and broadening the circumstances under which distributors and manufacturers of insurance and annuity products could be considered "fiduciaries" and subject to certain standards in providing advice. On April 23, 2024, the Department of Labor published the final version of the fiduciary rule that was intended to broaden the circumstances under which financial institutions, including insurance companies, could be considered to be fiduciaries under ERISA, including with respect to recommendations to rollover assets from employer-sponsored retirement plans to individual retirement accounts. The DOL also published amendments to certain prohibited transaction exemptions, including PTE 84-24 (applicable to the sale of annuity contracts) and PTE 2020-02 (applicable to receipt of compensation in connection with providing investment advice, including advice to rollover assets from an employer-sponsored retirement plan). Two federal district courts in Texas issued stays on the implementation of the final version of the fiduciary rule and the amendments to the prohibited transaction exemptions and the DOL filed an appeal to these decisions. The appeal was later dismissed on November 28, 2025 and the court later formally vacated the fiduciary rule. On March 18, 2026, the DOL announced the reinstatement of the 1975 regulation defining investment advice by reference to a five-part test for determining whether certain communications to ERISA plans and individual retirement accounts constitute "fiduciary" investment advice for purposes of ERISA and Section 4975 of the Code. There has been indication the DOL may revisit addressing the rule in 2026 and we will continue to monitor the situation to determine if any update would impact our business.

In addition to the matters previously discussed, the Company is routinely involved in litigation and other proceedings, reinsurance claims and regulatory proceedings arising in the ordinary course of its business. At present, no contingencies related to pending litigation and regulatory matters are considered material in relation to the financial position of the Company.

Estimates of possible losses or ranges of losses for particular matters cannot, in the ordinary course, be made with a reasonable degree of certainty. It is possible that the Company's results of operations or cash flow in a particular quarterly or annual period could be materially adversely affected by an ultimate unfavorable resolution of pending litigation and regulatory matters.

Transfers into and out of Level 3 represent securities carried at lower of cost or fair value resulting in periodic transfers into and out of Level 3 Financial instruments which are characterized as carried at fair value. Transfers into and out of Level 3 may also occur due to changes in valuation sources, or changes in the availability of market observable inputs.

(3) Transfers between fair value hierarchy levels are recognized at the end of the period in which the transfer occurs.

(4) The following discussion describes the valuation methodologies and inputs used for assets and liabilities measured and disclosed at fair value. The techniques utilized in estimating the fair values of financial instruments are reliant on the assumptions used.

Fair value estimates are based on quoted market prices when available. When quoted market prices are not available, the Company utilizes commercially available pricing vendors that utilize observable market inputs, like recent trading activity, to derive fair value. When vendor prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates the fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect risk inherent in a particular methodology, model or input employed.

The Company's financial assets and liabilities carried at estimated fair value have been classified, for disclosure purposes, based on a hierarchy defined by current accounting guidance. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices for inactive markets or valuation techniques that require observable direct or indirect inputs for substantially the full term of the asset or liability.

Level 2 inputs include the following:

1. Quoted prices for similar assets or liabilities in active markets,
2. Observable inputs other than quoted market prices, and
3. Observable inputs derived principally from market data through correlation or other means.

- Level 3 - Prices or valuation techniques with unobservable inputs significant to the overall fair value estimate. These valuations use critical assumptions not readily available to market participants. Level 3 valuations are based on market standard valuation methodologies, including discounted cash flows, matrix pricing, or other similar techniques.

Assets and liabilities are valued as discussed below in part C.

Bonds, cash equivalents and short-term investments – The Company obtains the fair value for most marketable, public securities without an active market from several commercial pricing services. These are classified as Level 2 assets. The pricing services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers, and other reference data. If the Company cannot value public security with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3. The Company values privately placed securities based on the credit quality and duration of comparable marketable securities, which may be securities of another issuer. In some instances, the Company uses a matrix-based pricing model. These models consider the current level of risk-free interest rates, corporate spreads, credit quality of the issuer, and cash flow characteristics of the security. Privately placed securities are classified as Level 2 or 3.

Preferred stocks and common stocks unaffiliated – The Company values equity securities traded on an exchange as Level 1. Private equities or equity securities not traded on an exchange and are priced by a commercial pricing service are classified as Level 2, and the securities priced by an internal model are classified as Level 3. In addition, unaffiliated common stocks include FHLB stock, which is carried at fair value, which is presumed to be par because it can only be redeemed by the bank and is classified as Level 2.

Mortgage loans – The Company estimates mortgage loans on a monthly basis using discounted cash flow analysis and rates being offered for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. The discounted cash flow model uses unobservable inputs, including estimates of discount rates and loan prepayments. Mortgage loans are classified as Level 3.

Policy loans – The fair value of policy loans classified as Level 2 is equal to the carrying value of the loans, which are collateralized by the cash surrender value of the associated insurance contracts.

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

Derivatives (including separate account group annuity and index-linked annuity) – Derivative contracts can be exchange traded or over-the-counter. Over-the-counter derivatives are valued using valuation models or an income approach using third-party broker valuations. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, measures of volatility, prepayment rates, and correlation of the inputs. The Company considers and incorporates counterparty credit risk in the valuation process through counterparty credit rating requirements and monitoring of overall exposure. The Company also evaluates and includes its own nonperformance risk in valuing derivatives. The majority of the Company's derivatives trade are in liquid markets; therefore, the Company can verify model inputs and model selection does not involve significant management judgment and are classified within Level 2. If the Company cannot verify model inputs and model selection does involve significant management judgment, the derivatives are classified as Level 3.

Other invested assets – Within other invested assets, partnerships are valued based on net asset value information provided by the general partner or related asset manager. These partnership interests usually include multiple underlying investments for which either observable market prices or other valuation methods are used to determine the fair value. These investments are reported in the Net Asset Value column. Other than partnerships, other invested assets may include surplus notes and other investments with bond or stock characteristics and the Company attempts to value these using several commercial pricing services, which would be classified as Level 2 assets. If the Company cannot value with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3 assets.

Non-Guaranteed separate account assets – Separate account assets classified as Level 2 are valued based on the fair value of the underlying funds. Financial instruments within these separate accounts included in the NAV column are valued using the same fair value assumptions and methods utilized for other invested assets in the general account. Fair values and changes in the fair values of the underlying funds accrue directly to the policy owners and are not included in the Company's revenues and expenses or surplus.

Guaranteed separate account assets – Financial instruments within these separate accounts classified as Level 2 and 3 or included in the NAV column are valued using the same fair value assumptions and methods utilized in the general account.

Repurchase agreements - The carrying value of the repurchase agreements liability approximates fair value and is reported as level 2.

Deposit-type contracts (including separate account) – Deposit-type contracts classified as Level 3 include single premium immediate annuities, supplemental contracts and other deposit funds. The fair values for these products are calculated by discounting best estimate cash flows based on market interest rate assumptions. Fair value of funding agreements and guaranteed interest contracts are calculated by discounting future cash flows using market rates on the valuation date, and are classified as Level 2.

- D. Not Practicable to Estimate Fair Value - None
- E. Nature and Risk of Investments Reported at NAV

The Company invests in certain non-fixed income, alternative investments in the form of limited partnerships (investment funds) which are reported at NAV. Adjustments to the carrying amount reflect the Company's pro rata ownership percentage of the operating results as indicated by NAV in the investment fund financial statements. The NAV from the investment fund financial statements can be on a lag of up to three months when investee information is not received in a timely manner. These investments are listed in the NAV column of the fair value tables above as this is the primary method for reporting fair value for these investments.

As of March 31, 2026, the Company's general and separate accounts have \$5,155.0 million unfunded commitments to invest in these investment funds. See Note 6 for additional details on the Company's reporting of unfunded commitments.

b. Issuer or obligor is current on all contracted interest and principal payments.
c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.
Has the reporting entity self-designated 5GI securities? Yes [X] No []

STATEMENT AS OF MARCH 31, 2026 OF THE Athene Annuity and Life Company

GENERAL INTERROGATORIES

19.

By self-designating PLGI securities, the reporting entity is certifying its compliance with the requirements as specified in the Purposes and Procedures Manual of the NAIC Investment Analysis Office (P&P Manual) for private letter rating (PLR) securities and the following elements of each self-designated PLGI security:

a.

The security was either:

i.

issued prior to January 1, 2018 (which is exempt from PLR filing requirements pursuant to the P&P Manual), or

ii.

issued from January 1, 2018 to December 31, 2021 and subject to a confidentiality agreement executed prior to January 1, 2022 which confidentiality agreement remains in force, for which an insurance company cannot provide a copy of a private letter rating rationale report to the SVO due to confidentiality or other contractual reasons ("waived submission PLR securities").

b.

The reporting entity is holding capital commensurate with the NAIC Designation and NAIC Designation Category reported for the security.

c.

The NAIC Designation and NAIC Designation Category were derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating, dated during the financial statement year, held by the insurer and available for examination by state insurance regulators.

d.

Other than for waived submission PLR securities, defined above, on or after January 1, 2024 for any PLR securities issued on or after January 1, 2022, if the reporting entity is not permitted to share this private credit rating or the private rating letter rationale report of the PL security with the SVO, it certifies that it is reporting it as an NAIC 5.B GI and may not assign any other self-designation.

Has the reporting entity self-designated PLGI to securities, all of which meet the above requirement and as specified in the P&P Manual?

Yes [☐] No [☒]

20.

By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:

a.

The shares were purchased prior to January 1, 2019.

b.

The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.

c.

The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.

d.

The fund only or predominantly holds bonds in its portfolio.

e.

The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.

f.

The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.

Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria?

Yes [☐] No [☒]

The organizational chart shows the ultimate controlling persons of the reporting entity together with Apollo Global Management, Inc. (“AGM”), the Apollo Operating Group, subsidiaries of the Apollo Operating Group and the Apollo Funds. The Apollo Operating Group refers to (i) the limited partnerships through which the ultimate controlling persons currently operate Apollo’s business and (ii) one or more limited partnerships formed for the purposes of, among other activities, holding certain of Apollo’s gains or losses on its principal investments in the Apollo Funds. The Apollo Funds refers to the funds, alternative asset companies and other entities that are managed by the Apollo Operating Group. The organizational chart does not include subsidiaries or alternative investment vehicles of the Apollo Funds, which are included in Part 1A. Pursuant to a disclaimer of affiliation filed with the domiciliary insurance department of the reporting entity, the organizational chart also does not include any (i) personal investment entities of AGM Inc.’s controlling individuals, Marc Rowan, Joshua Harris and Leon Black, or (ii) portfolio companies, other than the following portfolio companies that control a United States domiciled insurer (excluding a captive insurer of a portfolio company) and their respective subsidiaries: Athene Holding Ltd.; Catalina Holdings (Bermuda) Ltd.; LifePoint Health, Inc.; and VA Capital Company LLC.

¹ Joshua Harris, a former controlling person of Apollo Global Management, Inc., divested control on April 14, 2025.
