# Amtech Systems Announces $9.5 Million in Solar Orders

## Fiscal 2008 YTD Solar Orders Total $42 million

TEMPE, Ariz.--(BUSINESS WIRE)--

Amtech Systems, Inc. (NASDAQ: ASYS), a global supplier of production and automation systems and related supplies for the manufacture of solar cells, semiconductors, and silicon wafers, today announced the Company has received $9.5 million in follow-on solar orders for diffusion processing systems from existing solar cell customers based in China and Taiwan, since its last order announcement on January 31, 2008.

Since the beginning of its 2008 fiscal year, October 1, 2007, Amtech has received solar orders totaling approximately $42 million, including this most recent order. Equipment orders typically ship within six to nine months of receipt.

"We are very pleased to receive these significant follow-on orders, which reflect the increasing customer acceptance we are seeing for our solar products," said J.S. Whang, President and Chief Executive Officer of Amtech.

About Amtech Systems, Inc.

Amtech Systems, Inc. manufactures capital equipment, including silicon wafer handling automation, thermal processing equipment and related consumables used in fabricating solar cells and semiconductor devices. Semiconductors, or semiconductor chips, are fabricated on silicon wafer substrates, sliced from ingots, and are part of the circuitry, or electronic components, of many products including solar cells, computers, telecommunications devices, automotive products, consumer goods, and industrial automation and control systems. The Company's wafer handling, thermal processing and consumable products currently address the diffusion, oxidation and deposition steps used in the fabrication of solar cells, semiconductors, MEMS and the polishing of newly sliced silicon wafers.
