Glossary of Terms

"Adjusted EBITDA" means the sum of profit for the period adjusted by (a) total income tax expense, (b) interest income, (c) other income-net, (d) finance costs, (e) exchange gain (loss) - net, (f) gain on sale of investment property, (g) gain on revaluation of investment property, (h) depreciation and (i) long-term incentive plan and equity plus during the relevant period.

"FFO" means profit for the period, excluding: (i) gain on sale of investment property and (ii) gain on revaluation of investment property.

"Releasing" means a lease contract for a building that was vacant for no longer than twelve months.

"Adjusted NOI" means the sum of NOI plus property operating costs related to properties that did not generate rental income during the relevant period.

"Land Reserves" means the lots of land acquired and maintained for future development into leasable properties.

"Net Debt to Adjusted EBITDA" means (i) our gross debt (defined as current portion of long-term debt plus long-term debt plus amortization of debt issuance costs) less cash and cash equivalents divided by (ii) Adjusted EBITDA.

"Net Debt to Total Assets" means (i) our gross debt (defined as current portion of long-term debt plus long-term debt plus amortization of debt issuance costs) less cash and cash equivalents divided by (ii) total assets.

"Same-Store NOI" means rental income of Same-Store Properties in a period minus property operating costs related to such properties. This provides a further analysis of Adjusted NOI by providing the operating performance from the population of properties that is consistent from period to period.

"Vesta FFO" means the sum of FFO, as adjusted for the impact of exchange gain (loss) - net, other income – net, interest income, total income tax expense, depreciation and long-term incentive plan and equity plus.

"Yield on Cost" means rental income for the first year of operation of a property, divided by the total investment in such property (including land acquisition costs, development and construction costs, and closing costs).

Source: Vesta. Notes: (1) Net Debt to Total Assets represents (i) our gross debt (defined as current portion of long-term debt plus long-term debt plus amortization of debt issuance costs) less cash and cash equivalents divided by (ii) total assets. Our management believes that this ratio is useful because it shows the degree in which net debt has been used to finance our assets and using this measure investors and analysts can compare the leverage shown by this ratio with that of other companies in the same industry. (2) Net Debt to Adjusted EBITDA represents (i) our gross debt (defined as current portion of long-term debt plus long-term debt plus amortization of debt issuance costs) less cash and cash equivalents divided by (ii) Adjusted EBITDA. Our management believes that this ratio is useful because it provides investors with information on our ability to repay debt, compared to our performance as measured using Adjusted EBITDA. (3) Net Debt to Adjusted EBITDA for the three-month period ended September 30, 2024, plus Adjusted EBITDA for the year ended December 31, 2023, less Adjusted EBITDA for the three-month period ended September 30, 2023.
