Forward Looking Statements

This press release contains forward-looking statements that involve substantial uncertainties and risks. These forward-looking statements are based upon our current expectations, estimates and projections and reflect our beliefs and assumptions based upon information available to us at the date of this release. We caution readers that forward-looking statements are predictions based on our current expectations about future events. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Our actual results, performance or achievements could differ materially from those expressed or implied by the forward-looking statements as a result of a number of factors, including but not limited to our ability to continue growing our business by expanding existing applications for detailed automation of inspections for rail transportation into other types of freight distribution and handling. Anticipated revenue growth in 2017 and beyond for this specific project and ultimate profitability is dependent upon our ability to successfully adapt existing technologies for new applications, allow further research & development of new solutions for the intelligent technologies business, our business environment and industry trends, competitive environment, the sufficiency and availability of working capital and general changes in economic conditions and other risks and uncertainties described in our filings with the Securities and Exchange Commission, including our Annual Report Form 10-K for the year ended December 31, 2016. Any forward-looking statement made by us herein speaks only as of the date on which it is made. We undertake no obligation to revise or update any forward-looking statement for any reason.
