About Aethlon Medical, Inc.

Aethlon Medical creates affinity biofiltration devices to treat life-threatening diseases. Our lead therapeutic candidate is the Aethlon Hemopurifier®, a first-in-class device that targets the rapid elimination of infectious viruses and cancer-promoting exosomes from the circulatory system of treated individuals. U.S. clinical progression of Hemopurifier therapy is being advanced under an FDA approved clinical study. We also provide government contracting services to the Defense Advanced Research Projects Agency related to the development of a biofiltration device to treat sepsis. Additional information can be found online at www.AethlonMedical.com or you can connect with us on Twitter, LinkedIn, Facebook and Google+.
