FRAMINGHAM, Mass.--(BUSINESS WIRE)-- Ameresco, Inc. (NYSE:AMRC), a leading energy efficiency and renewable energy company, today announced financial results for the fiscal quarter ended September 30, 2017. The Company has also furnished supplemental information in conjunction with this press release in a Current Report on Form 8-K. The supplemental information includes non-GAAP financial metrics, and has been posted to the "Investor Relations" section of the Company's website at www.ameresco.com.

Management Commentary

"We had a great quarter," said George P. Sakellaris, President and Chief Executive Officer of Ameresco. "We are utilizing innovative technologies to increase the size and value of our efficiency projects. We are also pursuing ways to expand our addressable market. And we continue to grow our energy asset portfolio, which produces high margin recurring revenue."

Sakellaris continued, "Our strategy drove excellent results, with earnings and EPS up double digits. We are confident we will conclude the year with solid momentum. We believe this momentum will continue into the new year as well, and we look forward to even more success in 2018."

Financial Results

(All financial result comparisons made are against the prior year period unless otherwise noted.)

Third Quarter 2017

Revenues were \$204.7 million, compared to \$180.6 million. Operating income was \$14.3 million, compared to operating income of \$9.9 million.

Net income attributable to common shareholders was \$8.5 million compared to \$5.7 million, and net income per diluted share was \$0.19 compared to \$0.12. Non-GAAP EPS was \$0.18, compared to \$0.16.

Adjusted EBITDA, a non-GAAP financial measure, was \$20.8 million, compared to \$19.2 million.

Additional Third Quarter 2017 Operating Highlights:

- Cash flows used in operating activities were \$39.4 million, compared to \$7.7 million, and adjusted cash from operations, a non-GAAP financial measure, was \$8.9 million, compared to \$18.7 million.
- Total project backlog was \$1,724.5 million and consisted of:
 - \$627.5 million of fully-contracted backlog, representing signed customer contracts for installation or construction of projects, which we expect to convert into revenue over the next two to four years, on average; and
 - \$1,097.0 million of awarded projects, representing projects in development for which we do not have signed contracts.
- Assets in development were \$177.7 million or 87 MWe.

FY 2017 Guidance

Based on year to date performance and expectations for the remainder of 2017, Ameresco is revising its 2017 outlook. Ameresco expects to earn total revenue in the range of \$680 million to \$705 million in 2017. The Company also expects adjusted EBITDA for 2017 to be in the range of \$61 million to \$65 million and net income per diluted share to be in the range of \$0.39 to \$0.43 for 2017. This guidance excludes the impact of any non-controlling interest activity and our restructuring activities, as well as any related tax impact.

Share Repurchase Program

Through the end of the third quarter, the Company repurchased 1,828,213 shares of its Class A common stock for \$9.3 million. The Company has approximately \$5.7 million of remaining authorization under the share repurchase program it announced in May 2016.

Exhibit A: Non-GAAP Financial Measures

We use the non-GAAP financial measures defined and discussed below to provide investors and others with useful supplemental information to our financial results prepared in accordance with GAAP. These non-GAAP financial measures should not be considered as an alternative to any measure of financial performance calculated and presented in accordance with GAAP. For a reconciliation of these non-GAAP measures to the most directly comparable financial measures prepared in accordance with GAAP, please see Other Non-GAAP Disclosure and Non-GAAP Financial Guidance in the tables above.

We understand that, although measures similar to these non-GAAP financial measures are frequently used by investors and securities analysts in their evaluation of companies, they have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for the most directly comparable GAAP financial measures or an analysis of our results of operations as reported under GAAP. To properly and prudently evaluate our business, we encourage investors to review our GAAP financial statements included above, and not to rely on any single financial measure to evaluate our business.

Adjusted EBITDA and Adjusted EBITDA Margin

We define adjusted EBITDA as operating income before depreciation, amortization of intangible assets, stock-based compensation expense, restructuring charges, loss related to a significant non-core project in Canada and charges related to a significant customer bankruptcy. We believe adjusted EBITDA is useful to investors in evaluating our operating performance for the following reasons: adjusted EBITDA and similar non-GAAP measures are widely used by investors to measure a company's operating performance without regard to items that can vary substantially from company to company depending upon financing and accounting methods, book values of assets, capital structures and the methods by which assets were acquired; securities analysts often use adjusted EBITDA and similar non-GAAP measures as supplemental measures to evaluate the overall operating performance of companies; and by comparing our adjusted EBITDA in different historical periods, investors can evaluate our operating results without the additional variations of depreciation and amortization expense, stock-based compensation expense, restructuring charges and loss related to a significant non-core project in Canada. We define adjusted EBITDA margin as adjusted EBITDA stated as a percentage of revenue.

Our management uses adjusted EBITDA and adjusted EBITDA margin as measures of operating performance, because they do not include the impact of items that we do not consider indicative of our core operating performance; for planning purposes, including the preparation of our annual operating budget; to allocate resources to enhance the financial

performance of the business; to evaluate the effectiveness of our business strategies; and in communications with the board of directors and investors concerning our financial performance.

During the first quarter of 2016, we changed our calculation and presentation of adjusted EBITDA to exclude restructuring charges and losses related to a significant non-core project in Canada and during the third quarter of 2016, we changed our calculation and presentation of adjusted EBITDA in order to exclude charges related to a significant customer bankruptcy. We do not consider these items indicative of our core operating performance. Adjusted EBITDA and adjusted EBITDA margin for the prior periods have been recalculated to be presented on a comparable basis.

Non-GAAP Net Income and EPS

We define non-GAAP net income and earnings per share ("EPS") to exclude certain discrete items that management does not consider representative of our ongoing operations, including restructuring charges, loss related to a significant non-core project in Canada, impact from redeemable non-controlling interest and charges related to a significant customer bankruptcy. We consider non-GAAP net income and non-GAAP EPS to be important indicators of our operational strength and performance of our business because they eliminate the effects of events that are not part of the Company's core operations.

Adjusted Cash from Operations

We define adjusted cash from operations as cash flows from operating activities plus proceeds from Federal ESPC projects. Cash received in payment of Federal ESPC projects is treated as a financing cash flow under GAAP due to the unusual financing structure for these projects. These cash flows, however, correspond to the revenue generated by these projects. Thus we believe that adjusting operating cash flow to include the cash generated by our Federal ESPC projects provides investors with a useful measure for evaluating the cash generating ability of our core operating business. Our management uses adjusted cash from operations as a measure of liquidity because it captures all sources of cash associated with our revenue generated by operations.
