FRAMINGHAM, Mass.--(BUSINESS WIRE)-- Ameresco, Inc. (NYSE:AMRC), a leading energy efficiency and renewable energy company, today announced financial results for the fiscal quarter ended September 30, 2018. The Company has also furnished supplemental information in conjunction with this press release in a Current Report on Form 8-K. The supplemental information includes non-GAAP financial metrics and has been posted to the "Investor Relations" section of the Company's website at [www.ameresco.com](http://www.ameresco.com).

## Management Commentary

"We had another strong quarter and continued to build momentum in our business. Gross margin improved materially and profit growth was outstanding," said George P. Sakellaris, President and Chief Executive Officer of Ameresco. "Our recurring revenue streams, particularly energy sales, drove the margin performance and offset the natural variability in project revenue. Visibility improved yet again, with project backlog growing to over \$2 billion and asset development backlog growing to 133MWe. The project business continues to benefit from the trend to larger and more complex projects, which plays to our strength in design, engineering and management. The solid financial performance and growing backlog this quarter reinforces our optimistic outlook for the rest of 2018 and beyond."

## Financial Results

(All financial result comparisons made are against the prior year period unless otherwise noted.)

Third Quarter 2018

Revenues were \$205.4 million, compared to \$204.7 million. Operating income was \$17.3 million, compared to \$14.3 million.

Net income attributable to common shareholders was \$10.7 million compared to \$8.5 million, and net income per diluted share was \$0.23 compared to \$0.19. Non-GAAP EPS was \$0.23 compared to \$0.18.

Adjusted EBITDA, a non-GAAP financial measure, was \$25.6 million, compared to \$20.8 million.

#### Additional Third Quarter 2018 Operating Highlights:

- Cash flows from operating activities were \$25.1 million, compared to cash flows used of \$39.0 million, and adjusted cash from operations, a non-GAAP financial measure, was \$69.0 million, compared to \$9.3 million.
- Total project backlog was \$2.0 billion and consisted of:
  - New record high, \$819.4 million of fully-contracted backlog, representing signed customer contracts for installation or construction of projects, which we expect to convert into revenue over the next one to three years, on average; and
  - \$1.2 billion of awarded projects, representing projects in development for which we do not have signed contracts.
- Assets in development were \$319.8 million or 133 MWe.

#### FY 2018 Guidance

Based on year to date performance and expectations for the remainder of 2018, Ameresco is raising its 2018 earnings guidance. Ameresco now expects net income per diluted share to be in the range of \$0.71 to \$0.79 and adjusted EBITDA to be in the range of \$81 million to \$89 million in 2018. We still expect total revenue to be in the range of \$780 million to \$820 million. This guidance excludes the impact of any non-controlling interest activity and our restructuring activities, as well as any related tax impact.

#### Share Repurchase Program

Through the end of the third quarter, the Company repurchased 2,085,497 shares of its Class A common stock for \$11.5 million. The Company has approximately \$3.5 million of remaining authorization under the share repurchase program it announced in May 2016.

### **Safe Harbor Statement**

Any statements in this press release about future expectations, plans and prospects for Ameresco, Inc., including statements about market conditions, pipeline and backlog, as well as estimated future revenues and net income, and other statements containing the words “projects,” “believes,” “anticipates,” “plans,” “expects,” “will” and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including the timing of, and ability to, enter into contracts for awarded projects on the terms proposed; the timing of work we do on projects where we recognize revenue on a percentage of completion basis, including the ability to perform under recently signed contracts without unusual delay; demand for our energy efficiency and renewable energy solutions; our ability to arrange financing for our projects; changes in federal, state and local government policies and programs related to energy efficiency and renewable energy; the ability of customers to cancel or defer contracts included in our backlog; the effects of our recent acquisitions and restructuring activities; seasonality in construction and in demand for our products and services; a customer’s decision to delay our work on, or other risks involved with, a particular project; availability and costs of labor and equipment; the addition of new customers or the

loss of existing customers; market price of the Company's stock prevailing from time to time; the nature of other investment opportunities presented to the Company from time to time; the Company's cash flows from operations; and other factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the U.S. Securities and Exchange Commission on March 7, 2018. In addition, the forward-looking statements included in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.

### Exhibit A: Non-GAAP Financial Measures

We use the non-GAAP financial measures defined and discussed below to provide investors and others with useful supplemental information to our financial results prepared in accordance with GAAP. These non-GAAP financial measures should not be considered as an alternative to any measure of financial performance calculated and presented in accordance with GAAP. For a reconciliation of these non-GAAP measures to the most directly comparable financial measures prepared in accordance with GAAP, please see Other Non-GAAP Disclosure and Non-GAAP Financial Guidance in the tables above.

We understand that, although measures similar to these non-GAAP financial measures are frequently used by investors and securities analysts in their evaluation of companies, they have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for the most directly comparable GAAP financial measures or an analysis of our results of operations as reported under GAAP. To properly and prudently evaluate our business, we encourage investors to review our GAAP financial statements included above, and not to rely on any single financial measure to evaluate our business.

#### Adjusted EBITDA and Adjusted EBITDA Margin

We define adjusted EBITDA as operating income before depreciation, amortization of intangible assets, stock-based compensation expense, restructuring charges, loss related to a significant non-core project in Canada and charges related to a significant customer bankruptcy. We believe adjusted EBITDA is useful to investors in evaluating our operating performance for the following reasons: adjusted EBITDA and similar non-GAAP measures are widely used by investors to measure a company's operating performance without regard to items that can vary substantially from company to company depending upon financing and accounting methods, book values of assets, capital structures and the methods by which assets were acquired; securities analysts often use adjusted EBITDA and similar non-GAAP measures as supplemental measures to evaluate the overall operating performance of companies; and by comparing our adjusted EBITDA in different historical periods, investors can evaluate our operating results without the additional variations of depreciation and amortization expense, stock-based compensation expense, restructuring charges and loss related to a significant non-core project in Canada. We define adjusted EBITDA margin as adjusted EBITDA stated as a percentage of revenue.

Our management uses adjusted EBITDA and adjusted EBITDA margin as measures of operating performance, because they do not include the impact of items that we do not

consider indicative of our core operating performance; for planning purposes, including the preparation of our annual operating budget; to allocate resources to enhance the financial performance of the business; to evaluate the effectiveness of our business strategies; and in communications with the board of directors and investors concerning our financial performance.

### **Non-GAAP Net Income and EPS**

We define non-GAAP net income and earnings per share ("EPS") to exclude certain discrete items that management does not consider representative of our ongoing operations, including restructuring charges, loss related to a significant non-core project in Canada, impact from redeemable non-controlling interest and charges related to a significant customer bankruptcy. We consider non-GAAP net income and non-GAAP EPS to be important indicators of our operational strength and performance of our business because they eliminate the effects of events that are not part of the Company's core operations.

### **Adjusted Cash from Operations**

We define adjusted cash from operations as cash flows from operating activities plus proceeds from Federal ESPC projects. Cash received in payment of Federal ESPC projects is treated as a financing cash flow under GAAP due to the unusual financing structure for these projects. These cash flows, however, correspond to the revenue generated by these projects. Thus we believe that adjusting operating cash flow to include the cash generated by our Federal ESPC projects provides investors with a useful measure for evaluating the cash generating ability of our core operating business. Our management uses adjusted cash from operations as a measure of liquidity because it captures all sources of cash associated with our revenue generated by operations.
