

Board Independence, Diversity and ESG Responsibility

AerCap's Board of Directors are from diverse professional backgrounds and combine a broad spectrum of experience and expertise with a reputation for integrity

The Board of Directors of AerCap currently consists of nine directors, eight of whom are non-executive.¹ We follow the definition of "independent" according to the Dutch Corporate Governance Code and our Board has been majority-independent since our IPO in 2006

With diversity in mind, we carefully select our non-executive directors based upon their combined experience and expertise. The directors are appointed at the annual general meeting of the shareholders by a majority vote. Each director serves up to four years in a term. We believe this strikes the right balance of board stability while allowing for the introduction of regular fresh perspectives

AerCap's Board has direct influence on all material issues facing the company such as significant transactions, funding and risk management either via Board meetings/resolutions or through Board committees. On ESG issues, the AerCap Board exerts oversight and delegates implementation of these ESG strategies to our Group Executive Committee

The extent of our fleet transformation has been one of our key competitive advantages over the past 5 years. The positive impact of our proactive approach extends into a wide range of environmental, social and governance issues

Under the Board's guidance, management has actively implemented our fleet strategy and has significantly reduced our overall carbon footprint. This also translates positively into management assessment metrics and earnings-per-share ("EPS") growth target, aligning management with shareholder interests and ESG factors

Board Assessment and Profile

AerCap's Board is comprised of an international group of directors with experience in management, law, finance, governance, aviation and other areas of expertise (including ESG)

Board Assessment

In 2019, the non-executive directors of the Board performed a self-assessment of the Board's performance. This included an assessment of how well the Board, its committees and its individual members functioned. The non-executive directors concluded that the Board, its committees and its individual members functioned and continue to function satisfactorily. Possible improvement opportunities were documented and will be monitored through to implementation. The Board maintains an induction program for new non-executive directors with the purpose of familiarizing them with AerCap's business, values, governance and compliance. The Board has developed a profile for its non-executive directors which is made available on the Company's website (<https://www.aercap.com/about/our-team/#Board-of-Directors>)

Board Profile¹

1. As of June 30, 2020.
