Second Quarter 2012 Highlights:

- Consolidated net sales increased 8 percent to \$290.4 million, compared with second quarter 2011 net sales of \$268.0 million.
- Net loss totaled \$7.9 million, or \$(0.23) per diluted share, compared with second quarter 2011 net loss of \$13.6 million, or \$(0.40) per diluted share.
- Fiscal 2012 outlook anticipates sales growth of up to 1 percent and operating margin (including a \$4.0 million pre-tax first quarter restructuring charge) comparable to fiscal 2011.
- The board of directors approved a quarterly dividend of \$0.22 per share, payable on August 30, 2012 to shareholders of record on August 16, 2012.

PORTLAND, Ore.--(BUSINESS WIRE)-- Columbia Sportswear Company (NASDAQ: COLM), a leading innovator in the active outdoor apparel and footwear industries, today announced net sales of \$290.4 million for the quarter ended June 30, 2012, an 8 percent increase compared with net sales of \$268.0 million for the same period in 2011. Changes in currency exchange rates reduced the reported sales increase by 1 percentage point.

Second quarter net loss improved 42 percent to \$7.9 million, or \$(0.23) per diluted share, compared with net loss of \$13.6 million, or \$(0.40) per diluted share, for the same period in 2011.

Tim Boyle, Columbia's president and chief executive officer, commented, "Second quarter sales growth reflected improved operational execution and supply chain capacities which allowed us to deliver a larger portion of our international distributors' Fall 2012 advance orders in the second quarter. We are also in good position entering the third quarter to fulfill wholesale customers' orders on a timely basis because we have received Fall 2012 inventory earlier this year. Second quarter sales were also strong in Japan and in our U.S. direct-to-consumer business. Continued focus on expense management, reflected by lower SG&A expense, more than offset lower gross margins, resulting in meaningful improvement in our second quarter financial performance."

Boyle continued, "Based on our performance through the first half of 2012, and despite increasing macro-economic headwinds in key markets, we are reaffirming our full year guidance for 2012 sales growth of up to 1 percent, and operating margins to approximate the 8.1 percent operating margins achieved in 2011. While we recognize the higher degree of uncertainty posed by today's macro-economic conditions, we remain focused on innovation,

operational execution and expense control as we position our brands for renewed sales growth and improved profitability.”

Second Quarter Results

(All comparisons are between second quarter 2012 and second quarter 2011, unless otherwise noted.)

Net sales in the U.S. increased \$3.1 million, or 2 percent, to \$132.1 million; Latin America/Asia Pacific (LAAP) region net sales increased \$7.5 million, or 10 percent, to \$84.1 million, including a 1 percentage point negative effect from changes in currency exchange rates; Europe/Middle East/Africa (EMEA) region net sales grew \$16.4 million, or 31 percent, to \$70.0 million, including a 2 percentage point negative effect from changes in currency exchanges rates; partially offset by a \$4.6 million, or 52 percent, decline in net sales in Canada, including a 1 percentage point negative effect from changes in currency exchanges rates. (See “Geographical Net Sales” table below.)

Apparel, Accessories & Equipment net sales increased \$22.9 million, or 11 percent, to \$240.9 million. Footwear net sales of \$49.5 million were down 1 percent. (See “Categorical Net Sales” table below.)

Columbia brand net sales increased \$21.6 million, or 9 percent, to \$260.7 million, accounting for nearly all of the growth in the quarter. (See “Brand Net Sales” table below.)

Balance Sheet

The company ended the second quarter with \$228.5 million in cash and short-term investments, compared with \$298.3 million at June 30, 2011.

Consolidated inventories totaled \$523.1 million at June 30, 2012, compared with \$422.0 million at June 30, 2011. The increase was primarily attributable to a higher composition of Fall inventory, due in part to earlier receipts of Fall 2012 production. Higher average unit costs and changes in product mix accounted for almost all of the inventory dollar increase; unit volumes were up a low-single digit percentage compared to one year ago.

Reaffirmed 2012 Financial Outlook

The company continues to expect sales growth of up to 1 percent in fiscal 2012 and operating margin (including restructuring charges of approximately \$4.0 million recognized in the first quarter of 2012) comparable to the 8.1 percent operating margin achieved in fiscal 2011. Full year gross margins are expected to contract approximately 30 to 50 basis points, offset by slight SG&A expense leverage.

The company expects a mid-single digit decline in third quarter net sales, primarily due to the timing shift of shipments to distributors in the second quarter and an anticipated decline in third quarter wholesale net sales, partially offset by higher direct-to-consumer sales. Third quarter gross margin is expected to decline approximately 25 basis points and anticipated flat SG&A expense is expected to result in SG&A deleverage of approximately 125 to 150 basis points, resulting in third quarter operating margin contraction of approximately 150 to 175 basis points.

The company's annual net sales are weighted more heavily toward the second half of the fiscal year, while operating expenses are more equally distributed, resulting in a highly seasonal profitability pattern weighted toward the second half.

All projections related to anticipated future results are forward-looking in nature and are subject to risks and uncertainties which may cause actual results to differ, perhaps significantly.
