Global Payments Launches Enhanced Ecommerce Offering in Canada

TORONTO--(BUSINESS WIRE)-- Global Payments Inc. (NYSE: GPN), a leading worldwide provider of payment technology services, announced the launch of an enhanced ecommerce payments management offering for Canada. Leveraging the company's Realex ecommerce technology, the platform provides a range of cloud-based, software enabled technology services for both large and mid-sized businesses to enable them to accept payments online, as well as via phone, mail, email or mobile devices.

This new offering by Global Payments offers merchants mobile optimization and digital wallet support, consolidated payment acceptance, batch and recurring payment solutions, as well as enhanced fraud tools and analytics. With a range of integration options, merchants can be up and running in as little as five minutes and can leverage the hosted payment solution to help reduce PCI compliance requirements. The solution is pre-integrated with a wide range of platforms and shopping carts for a fast and seamless set-up across multiple payment channels.

"As we continue to broaden our selection of innovative payment solutions, we're pleased to offer Canadian businesses an enhanced ecommerce solution with a new suite of leading payment functionality," said René Bélanger, President of Global Payments Canada. "We are offering customers a flexible and customizable, easy-to-integrate payment management solution, designed to help them grow their businesses."

"We are thrilled to expand our ecommerce capabilities, addressing both simple and complex payment requirements in Canada and further enhancing our regional ecommerce and omnichannel offerings," said Jeffrey Burke, President of Worldwide Ecommerce for Global Payments. "The expansion of the Realex ecommerce technology to Canada, and other major markets around the world, allows our customers the unique opportunity to leverage Global Payments' unmatched worldwide presence to enter new markets and expand their global businesses."
