Novelis Zhenjiang Named Airbus Quality Champion

Industry-leading quality and delivery performance recognized by Airbus; facility also achieves Aero Excellence Bronze status

SHANGHAI, Oct. 15, 2026 /PRNewswire/ -- Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today announced that its Zhenjiang plant in China received Airbus' Quality Champion award at the 2026 Airbus Supplier Conference in Toulouse, France.

Novelis was the only materials company selected for the award among thousands of Airbus suppliers worldwide. The recognition highlights the Zhenjiang plant's consistently outstanding performance in quality and delivery.

"Delivering the quality and reliability our aerospace customers expect requires consistency in how we operate every day," said Johan Petry, Vice President, Sales & Marketing, Global Aerospace, Novelis. "That's where the Novelis Operating System makes a difference, giving our teams a disciplined way to continuously improve how we work and serve our customers. Zhenjiang's recognition by Airbus demonstrates what that focus can achieve."

Novelis' Zhenjiang plant also recently achieved Bronze status in the Aero Excellence Initiative. Supported by major aerospace OEMs, Aero Excellence is a global improvement

and certification program that assesses industrial maturity and supply chain performance across the aerospace industry.

Bronze status confirms that the Zhenjiang facility meets industry-recognized standards for operational excellence, environmental stewardship and secure digital infrastructure. Novelis' sister plant in Koblenz, Germany, also achieved Bronze status in February 2026, further demonstrating the company's commitment to continuous improvement across its global aerospace manufacturing network.

Together, these recognitions reinforce Novelis' position as a trusted partner to the global aerospace industry. By combining world-class quality, operational excellence and sustainable manufacturing, Novelis continues to help aerospace customers meet the industry's most demanding performance standards while enabling a stronger and more resilient supply chain.

About Novelis

Novelis Inc. is driven by its purpose of shaping a sustainable world together. We are a global leader in the production of innovative aluminum products and solutions and the world's largest recycler of aluminum. Our ambition is to be the leading provider of low-carbon, sustainable aluminum solutions and to achieve a fully circular economy by partnering with our suppliers, as well as our customers in the aerospace, automotive, beverage can and specialties industries throughout North America, Europe, Asia and South America. Novelis had net sales of \$18.4 billion in fiscal year 2026. Novelis is a subsidiary of Hindalco Industries Limited, an industry leader in aluminum and copper, and the metals flagship company of the Aditya Birla Group, a multinational conglomerate based in Mumbai.
