Tortoise Capital Resources Corp. Releases Fiscal 2009 Second Quarter Financial Results

LEAWOOD, Kan.--(BUSINESS WIRE)-- Tortoise Capital Resources Corp. (NYSE: TTO) (the company) today announced that it has filed its Form 10-Q for its second quarter ended May 31, 2009.

Recent Highlights

- Net assets of \$80.2 million or \$8.91 per share as of May 31, 2009
- Total assets of \$100.9 million as of May 31, 2009
- Distributable cash flow of \$1.3 million for the fiscal quarter ended May 31, 2009
- Second quarter 2009 distribution of \$0.13 per share paid June 01, 2009
- Credit facility balance of \$11.7 million as of July 06, 2009

Performance Review

The company views distributable cash flow (DCF) as a key indicator of its core financial performance. The company determines the amount of distributions paid to stockholders based on DCF, which is distributions received from investments less total expenses. Credit constraints and liquidity concerns have been factors in the reduction or suspension of cash distributions of certain investments in the portfolio, including Eagle Rock Energy Partners, L.P., Quest Midstream Partners, L.P. and Abraxas Energy Partners, L.P., thus reducing the company's DCF. DCF for the fiscal quarter ended May 31, 2009, was approximately \$1.3 million as shown below. On June 1, 2009, the company paid a distribution of \$0.13 per common share, a decrease of \$0.10 per share compared to the prior quarter.

Leverage

On June 19, 2009, the company entered into a 60-day extension of its amended credit facility effective June 20, 2009, through August 20, 2009. The company reduced the balance on its credit facility from \$23.1 million at Feb. 28, 2009, to a current balance of \$11.7 million. The amended credit facility retains the provision from the previous extension requiring the company to apply 100 percent of the proceeds from any private investment liquidation and 50 percent of the proceeds from the sale of any publicly traded portfolio assets to the outstanding balance of the facility. In addition, each prepayment of principal of the loans under the amended credit facility will permanently reduce the maximum amount of the loans under the amended credit agreement to an amount equal to the outstanding principal balance of the loans under the amended credit agreement immediately following the prepayment. During the extension, outstanding loan balances generally will accrue interest at a variable rate equal to the greater of (i) one-month LIBOR plus 3.00 percent, and (ii) 5.50 percent. The company continues to seek a longer-term lending arrangement and to reduce its leverage position through the sale of publicly traded securities. Additionally, the company

may have opportunities to realize liquidity from private holdings in order to further reduce, or even eliminate, its leverage.

Net Asset Value

At May 31, 2009, the company's net asset value was \$8.91 per share compared to \$8.67 per share at Feb. 28, 2009. Total assets decreased from \$103.5 million as of Feb. 28, 2009, to \$100.9 million as of May 31, 2009. The decrease in total assets resulted from a \$16.4 million increase in net unrealized appreciation of investments (before income taxes), offset by a reduction in assets due to sales of publicly traded securities and the utilization of those sales proceeds to reduce leverage. Total assets also decreased this quarter due to a decrease in the deferred tax asset (as a result of the increase in unrealized appreciation) to \$5.2 million (net of a \$5.3 million valuation allowance), or approximately \$0.58 per share, compared to \$9.3 million (net of a \$4.0 million valuation allowance), or approximately \$1.04 per share at Feb. 28, 2009. The company does not include the deferred tax asset in the calculation of its management fee.

Portfolio Review

As of May 31, 2009, the fair value of the company's investment portfolio (excluding short-term investments) totaled \$91.2 million, including equity investments of \$82.4 million and debt investments of \$8.8 million. The portfolio consists of 60 percent midstream and downstream investments, 8 percent upstream investments, and 32 percent in aggregates and coal. The weighted average yield-to-cost on the investment portfolio (excluding short-term investments) as of May 31, 2009, was 6.2 percent.

On June 30, 2009, Abraxas Petroleum Corporation (NASDAQ: [AXAS](#)) ("Abraxas Petroleum") and Abraxas Energy Partners, L.P. ("Abraxas Energy") announced that they had entered into a definitive merger agreement pursuant to which Abraxas Energy will merge into Abraxas Petroleum. The agreement provides for Abraxas Petroleum to acquire the outstanding common units of Abraxas Energy not currently held by a wholly-owned subsidiary of Abraxas Petroleum for \$6.00 per common unit payable in shares of Abraxas Petroleum common stock. The number of shares of Abraxas Petroleum common stock will be not less than 4.25 shares, and not more than 6.0 shares, per common unit of Abraxas Energy. The final number of shares will be determined by dividing \$6.00 by the volume weighted average closing price of Abraxas Petroleum on the NASDAQ during the 20 trading days ending three business days prior to a special meeting of Abraxas Petroleum stockholders. Holders of 96% of the common units of Abraxas Energy not held by a wholly-owned subsidiary of Abraxas Petroleum have executed a voting, registration rights and lock-up agreement with Abraxas Petroleum and Abraxas Energy. The voting agreement provides an automatic vote, or proxy to vote, by the unaffiliated unitholders of Abraxas Energy in favor of the merger and for a 90-day lock-up period followed by a multi-year staggered lock-up period. The voting agreement also provides for a standstill by the private investors on their rights under the existing exchange and registration rights agreement and a standstill by Abraxas Energy on its initial public offering. The merger is subject to approval by the holders of a majority of the outstanding Abraxas Petroleum common stock and 80% of the outstanding Abraxas Energy common units, and other usual and customary closing conditions.

On July 6, 2009, Quest Resource Corporation (NASDAQ: QRCP) ("QRCP"), Quest Energy

Partners, L.P. (NASDAQ: QELP) ("QELP") and Quest Midstream Partners, L.P. ("QMLP") announced that they had entered into a definitive merger agreement pursuant to which the three companies would recombine. The recombination would be effected by forming a new, yet to be named, publicly traded corporation that, through a series of mergers and entity conversions, would wholly-own all three entities. The completion of a recombination is subject to the satisfaction of a number of conditions, including the arrangement of one or more satisfactory credit facilities for the new entity, the approval of the transaction by the stockholders of QRCP and the unit holders of QELP and QMLP, and consents from each entity's existing lenders. There can be no assurance that the definitive documentation will be agreed to or that a recombination will occur.
