Galaxy Gaming Wins With Industry Leaders, Top Clients, Influential Investors at Global Gaming Expo 2013

High Demand for High Card Flush, WPT(R) Heads Up Hold 'Em Affirms Company's Select Status in Rapidly Growing Table Games Industry

LAS VEGAS, Oct. 14, 2013 (GLOBE NEWSWIRE) -- Following its largest and most successful company presence ever at the annual Global Gaming Expo (G2E), Galaxy Gaming, Inc. (OTC:GLXZ) announced that the trade show represented a major turning point for the company and validated its non-traditional approach emphasizing product demonstration along with focused dialogue and personal interaction.

"By showcasing our unique table games and detailing our company's corporate values, we proved there is both high demand and lasting appeal for the world-class products we are producing every day," said Galaxy Gaming CEO Robert Saucier.

The company found widespread interest at G2E in its signature success High Card Flush table game as well as its exclusive licensing agreement with World Poker Tour in conjunction with the launch of a new table game: WPT® Heads Up Hold 'Em. "As a result of being on-site at G2E, we received new orders for our games as well as continued and expanded installations both nationwide and globally," added Saucier.

"We're pleased to work with Galaxy Gaming to present an exciting new table game that is well-positioned to attract poker fans at every level, and everywhere it is played," said WPT President Adam Pliska. Also presenting with Galaxy Gaming at G2E was WPT commentator Mike Sexton and the world-famous Royal Flush Girls who met with conference attendees and posed for complimentary souvenir photos produced on-site.

The company also stated that its strong financial position and aggressive growth strategy have brought about increased attention in the industry and continued private investment.

"Galaxy is not only an established table game company, we are the go-to team for new relationships and partnership opportunities," said Gary A. Vecchiarelli, Galaxy Gaming's Chief Financial Officer. "We are the inventor-friendly company where dialogue with designers is encouraged and inventors get the attention they deserve," he said.

Vecchiarelli also outlined two specific areas of focus and the success of Galaxy Gaming's external strategy on differing platforms.

"High Card Flush is a game we acquired, evaluated, modified and made an enormous success. Now, as we also win the future of electronic gaming in casinos and iGaming online, the investment and gaming communities are backing us all the way."

CEO Saucier concluded, "Throughout 2013, we've said Galaxy Gaming is on the move, gaining ground and establishing itself as an elite player in the table games industry. After taking the time to fully evaluate our outstanding G2E conference, we know we have truly arrived."

About Galaxy Gaming
