Antero Resources Announces Increase in Lender Commitments to \$1.45 Billion

DENVER, July 12, 2013 /PRNewswire/ -- **Antero Resources** announced today that effective June 27, 2013 the lender commitments under its bank credit facility increased to \$1.45 billion. This represents a \$250 million increase over Antero's previous lender commitments of \$1.2 billion driven by the May 2013 borrowing base redetermination. The \$1.45 billion in commitments can be expanded to the full \$1.75 billion borrowing base upon bank approval.

The bank syndicate, which is co-led by JPMorgan Chase Bank, N.A. and Wells Fargo Bank, N.A., is a diversified group consisting of nine domestic and seven foreign institutions. The next borrowing base redetermination is expected to occur in September 2013. Antero has \$25 million of debt maturing prior to the May 2016 maturity of the credit facility.

Antero Resources is an independent oil and natural gas company engaged in the acquisition, development and production of unconventional oil and liquids-rich natural gas properties primarily located in the Appalachian Basin in West Virginia, Ohio and Pennsylvania. Our website is located at www.anteroresources.com.

This release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond Antero's control. All statements, other than historical facts included in this release, are forward-looking statements. All forward-looking statements speak only as of the date of this release. Although Antero believes that the plans, intentions and expectations reflected in or suggested by the forward-looking statements are reasonable, there is no assurance that these plans, intentions or expectations will be achieved. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in such statements.

We caution you that these forward-looking statements are subject to all of the risks and uncertainties, most of which are difficult to predict and many of which are beyond our control, incident to the exploration for and development, production, gathering and sale of natural gas and oil. These risks include, but are not limited to, commodity price volatility, inflation, lack of availability of drilling and production equipment and services, environmental risks, drilling and other operating risks, regulatory changes, the uncertainty inherent in estimating natural gas and oil reserves and in projecting future rates of production, cash flow and access to capital, the timing of development expenditures, and the other risks described under the heading "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012.
