

MAMMOTH ENERGY SERVICES INVESTOR PRESENTATION

**SUMMER 2023
(NASDAQ: TUSK)**

Forward-Looking and Cautionary Statements

The information in this investor presentation of Mammoth Energy Services, Inc. ("Mammoth" or "Mammoth Energy") includes "forward-looking statements." All statements, other than statements of historical facts that address activities, events or developments that Mammoth expects, believes or anticipates will or may occur in the future are forward-looking statements. The words "anticipate," "believe," "ensure," "expect," "if," "intend," "plan," "estimate," "project," "forecasts," "predict," "outlook," "aim," "will," "could," "should," "potential," "would," "may," "probable," "likely" and similar expressions, and the negative thereof, are intended to identify forward-looking statements. Without limiting the generality of the foregoing, forward-looking statements contained in this investor presentation may include statements, estimates and projections regarding Mammoth's business outlook and plans, future financial position, liquidity and capital resources, operations, performance, acquisitions, returns, capital expenditure budgets, costs and other guidance regarding future developments. Forward-looking statements are not assurances of future performance. These forward-looking statements are based on management's current expectations and beliefs, forecasts for Mammoth's existing operations, experience and perception of historical trends, current conditions, anticipated future developments and their effect on Mammoth, and other factors believed to be appropriate. Although management believes that the expectations and assumptions reflected in these forward-looking statements are reasonable as and when made, no assurance can be given that these assumptions are accurate or that any of these expectations will be achieved (in full or at all). Moreover, these forward-looking statements are subject to significant risks and uncertainties, including those described in Mammoth's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other filings Mammoth makes with the Securities and Exchange Commission ("SEC"), which may cause actual results to differ materially from its historical experience and present expectations or projections which are implied or expressed by the forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to: any continuing impacts of the COVID-19 pandemic; demand for Mammoth's services; the volatility of oil and natural gas prices and the actions by the OPEC members and other exporting nations affecting commodity prices and production levels; the impact of the war in Ukraine on the global energy and capital markets and global stability; performance of contracts and supply chain disruption; inflationary pressures; rising interest rates and their impact on the cost of capital; instability in the banking and financial services sectors; the outcome of ongoing efforts to collect the amounts that remain unpaid to us by the Puerto Rico Electric Power Authority ("PREPA"); Mammoth's inability to replace the prior levels of work in its business segments, including its infrastructure and well completion services segments; risks relating to economic conditions, including concerns over a potential economic slowdown or recession; impacts of the recent federal infrastructure bill on the infrastructure industry and Mammoth's infrastructure services business; the loss of or interruption in operations of one or more of Mammoth's significant suppliers or customers; the loss of management and/or crews; the outcome or settlement of Mammoth's litigation matters; the effects of government regulation, permitting and other legal requirements; operating risks; the adequacy of capital resources and liquidity; Mammoth's ability to (i) continue to comply with or, if applicable, obtain a waiver of forecasted or actual non-compliance with certain financial covenants and other terms and conditions under its existing or any replacement revolving credit facility, (ii) extend, repay or refinance its existing revolving credit facility at or prior to the October 19, 2023 maturity on terms acceptable to Mammoth or at all and (iii) meet its financial projections associated with refinancing and/or reducing its debt; weather; natural disasters; volatility in commodity markets; competition in the oil and natural gas and infrastructure industries; and costs and availability of resources.

Investors are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date of this presentation. Except as otherwise required by applicable law, we disclaim any duty to update and do not intend to update any forward-looking statements, all of which are expressly qualified by the statements in this section, to reflect events or circumstances after the date of this presentation. The information included in this presentation should be read together with Mammoth's most recent earnings release and Mammoth's filings with the SEC.

This presentation includes financial measures that are not presented in accordance with generally accepted accounting principles ("GAAP"), including Adjusted EBITDA. While management believes such non-GAAP measures are useful for investors, they should not be used as a replacement for financial measures that are in accordance with GAAP. Please see the Appendix included at the end of this presentation and Mammoth's filings with the SEC for definitions and reconciliations of those measures to comparable GAAP measures and for other cautionary statements regarding these non-GAAP measures.

This presentation also includes the frac sand reserve information, based on the technical report summary prepared in February 2022 by John T. Boyd Company, Mammoth's third-party mining and geological consultant and an external qualified person ("John T. Boyd"), in compliance with Item 601(b)(96) and subpart 1300 of Regulation S-K, as updated by John T. Boyd for immaterial changes in Mammoth's frac sand reserves/resources as of December 31, 2022. Such information was prepared by John T. Boyd based on assumptions, qualifications and procedures that are described in more detail in the technical report incorporated by reference in Mammoth's Annual Report and in Mammoth's Annual Report.

Industry and Market Data

This presentation has been prepared by Mammoth and includes market data and other statistical information from third-party sources, including independent industry publications, government publications or other published independent sources. Although Mammoth believes these third-party sources are reliable as of their respective dates, Mammoth has not independently verified the accuracy or completeness of this information. Some data are also based on the Mammoth's good faith estimates, which are derived from its review of internal sources as well as the third-party sources described above.

Adjusted EBITDA is a supplemental non-GAAP financial measure that is used by management and external users of our financial statements, such as industry analysts, investors, lenders and rating agencies. We define Adjusted EBITDA as net income or loss before depreciation, depletion, amortization and accretion expense, gains on disposal of assets, net, stock-based compensation, interest expense, net, other income, net, and provision for income taxes, further adjusted to add back interest on trade accounts receivable. We exclude the items listed above from net income or loss in arriving at Adjusted EBITDA because these amounts can vary substantially from company to company within our industry depending upon accounting methods and book values of assets, capital structures and the method by which the assets were acquired. Adjusted EBITDA should not be considered as an alternative to, or more meaningful than, net income or loss or cash flows from operating activities as determined in accordance with GAAP or as an indicator of our operating performance or liquidity. Certain items excluded from Adjusted EBITDA are significant components in understanding and assessing a company's financial performance, such as a company's cost of capital and tax structure, as well as the historic costs of depreciable assets, none of which are components of Adjusted EBITDA. Our computations of Adjusted EBITDA may not be comparable to other similarly titled measure of other companies. We believe that Adjusted EBITDA is a widely followed measure of operating performance and may also be used by investors to measure our ability to meet debt service requirements.
