Intellinetics, Inc. Reports Third Quarter and Nine-Month Results

COLUMBUS, Ohio--(BUSINESS WIRE)-- Intellinetics, Inc., ([OTCQB: INLX](#)) a leading-edge technology company focused on the design, implementation and management of cloud-based Enterprise Content Management (ECM) systems in both the public and private sectors, announced financial results for the third quarter and nine-month periods ended September 30, 2014.

Third Quarter Results

Total revenues for the three months ended September 30, 2014 were \$316,762, as compared with \$381,078 for the same period in 2013, a decrease of \$64,316, or 17%, primarily attributable to decreases in revenues from the sale of software and professional services. Overall gross margins were 81% and 70% for the three months ended September 30, 2014 and 2013, respectively, an increase of 11%.

Total operating expenses were \$824,906 for the three months ended September 30, 2014, as compared with \$767,533 for the three months ended September 30, 2013, representing an increase of \$57,373 or 7%. The increase in operating expenses is primarily due to outside consulting for the sales and marketing department offset by the decrease in general and administration personnel.

Intellinetics reported a net loss of \$638,609 and \$541,412 for the three months ended September 30, 2014 and 2013, respectively, representing an increase in net loss of \$97,197, or 18%.

Nine-Month Results

For the nine months ended September 30, 2014, the Company's total revenues were \$942,297, as compared with \$1,207,123 for the same period in 2013, a decrease of \$264,826 or 22%, primarily attributable to decreases in revenues from the sale of software and professional services. Overall gross margins were 80% and 61% for the nine months ended September 30, 2014 and 2013, respectively, an increase of 19%.

Total operating expenses for the nine months ended September 30, 2014 and 2013 were \$1,991,418 and \$2,335,288 respectively, a decrease of \$343,870 or 15%. The decrease in operating expenses was primarily due to a reduction in sales and marketing expense and a decrease in administrative expenses from the reduction in personnel offset by consulting fees.

For the nine months ended September 30, 2014 and 2013, the Company reported a net loss of \$1,415,145 and \$1,732,106, respectively, representing a decrease of \$316,961 or 18%.

[Matthew L. Chretien, President and CEO](#) of Intellinetics, stated, "We have now substantially

completed the strategic shift in focus from premise-based, one-time sales to the new low-cost, cloud-based IntelliCloud™ model. I look forward to meaningful revenue growth in Q4 as a result of our expanding sales channel.”
