Intellinetics reported a net loss of \$(1,307,960) and \$(752,712) for the six months ended June 30, 2018 and 2017, respectively, representing an increase in net loss of \$555,248. The increased net loss was a result of lower revenue, driven by lower one-time software and professional services sales compared to 2017. Net loss per share for the six months ended June 30, 2018 and 2017 was (\$0.07) and (\$0.04), respectively.

[James F. DeSocio](#), President & CEO of Intellinetics, stated, “Our strategy to accelerate our sales through strategic solutions partners, and continue to grow our subscription sales so that we are less reliant on one-time sales, is taking hold. While our steady growth in Software as a Service is encouraging, our real optimism comes from seeing the improved sales pipeline build in our targeted markets. This includes making inroads in the K-12 education space with our new solutions partner in that market. We’ve already secured our first two orders from this initiative. Our campaigns targeted at our strategic markets, including K-12 as well as Human Service Providers, are expected to bear fruit in the second

half of this year.”

DeSocio continued, “This strategy, enabling us to provide greater revenue consistency and higher growth, will be a difference-maker for us. I am excited to see these roots take hold.”

Non-GAAP Financial Measure

Intellinetics uses non-GAAP Adjusted EBITDA as a supplemental measure of our performance that is not required by, or presented in accordance with, accounting principles generally accepted in the United States (GAAP).

A non-GAAP financial measure is a numerical measure of a company's financial

performance that excludes or includes amounts so as to be different from the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of a company. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to net income, operating income, or any other performance measure derived in accordance with GAAP, or as an alternative to cash flow from operating activities or a measure of our liquidity. Intellinetics urges investors to review the reconciliation of non-GAAP Adjusted EBITDA to the comparable GAAP Net Loss, which is included in this press release, and not to rely on any single financial measure to evaluate Intellinetics' financial performance.

We believe that Adjusted EBITDA is a useful performance measure and is used by us to facilitate a comparison of our operating performance on a consistent basis from period-to-period and to provide for a more complete understanding of factors and trends affecting our business than measures under GAAP can provide alone. We define "Adjusted EBITDA" as earnings before interest expense, any income taxes, depreciation and amortization expense, and other non-cash expenses such as share-based compensation, note conversion warrant expense and other financing related transaction costs.
