# **Airgain® Ramps Up Partner Programs for FirstNet® MegaRange™ With HPUE Products Now Available from SYNEX Corporation**

*AirgainConnect® high power antenna-modem products are now available on SYNEX GSA Schedule contract. This expands Airgain's product reach nationwide and with multiple government organizations.*

SAN DIEGO--(BUSINESS WIRE)-- [Airgain, Inc. \(NASDAQ: AIRG\)](#), a leading provider of advanced wireless connectivity solutions and technologies used to enable high performance wireless networking across a broad range of devices and markets, including consumer, enterprise, and automotive, today announced that [SYNEX Corporation \(NYSE: SNX\)](#), will now offer Airgain's products to customers under its General Services Administration (GSA) Multiple Awards Schedule (MAS) Contract. SYNEX is a leading provider of distribution, systems design and integration services for the technology industry. These products include [AirgainConnect AC-HPUE™](#), the first and only antenna-modem built for [FirstNet® MegaRange™](#), the high-power user equipment (HPUE) solution available on Band 14. The SYNEX GSA Schedule is an important program that brings the power of distribution to government customers. It offers a dedicated senior level public sector sales team, nine distribution centers strategically located nationwide, and world-class logistics that caters specifically to the needs of government organizations. AirgainConnect AC-HPUE is the first and currently only HPUE antenna-modem available through the GSA Schedule program. This will help increase Airgain's product reach to multiple government entities across the United States.

SYNEX resellers serving government customers at the federal, state, and local levels will be able to purchase Airgain's products through the GSA. The availability of Airgain products through the GSA Schedule contract deepens Airgain's reach within the public sector and strengthens its channel program by enabling more customers to procure listed products through resellers.

"Airgain is a disruptor in the market and innovative solutions like the AirgainConnect platform will help us continue to offer products that address the specific needs of connectivity with government organizations," said Ed Somers, Vice President, Public Sector and Vertical Markets, SYNEX. "We are proud to provide Airgain's diverse product line to public sector entities through our resellers, and we believe AirgainConnect products will be particularly important to government customers."

"The GSA Schedule listing will make it easier and more affordable for government organizations and public safety agencies to procure our high performance connectivity

solutions for fleet vehicles and M2M applications,” said Bill Swafford, Airgain’s Vice President of Sales, North America. “We’re especially pleased to continue our long-term relationship with SYNEX, and expect this collaboration to help us reach more customers and build long-term partnerships with government organizations.”

The [AirgainConnect AC-HPUE](#) antenna-modem is part of a portfolio of products added to SYNEX’ GSA MAS Contract 47QTCA19D00MM. The products are available now for quoting and fulfillment. Government agencies can now review Airgain’s solutions directly from the GSA Advantage website: <http://www.gsaadvantage.gov>.

### **Forward-Looking Statements**

Airgain cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company’s current beliefs and expectations. These forward-looking statements include statements regarding the potential for government organizations and public safety agencies to procure our products through SYNEX resellers and for us to build long-term relationships with government customers. The inclusion of forward-looking statements should not be regarded as a representation by Airgain that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation: the market for our antenna products is developing and may not develop as we expect; the COVID-19 pandemic may continue to disrupt and otherwise adversely affect our operations and those of our suppliers, partners, distributors and ultimate end customers, and the overall supply chain that our antennas are used in; our products are subject to intense competition, including competition from the customers to whom we sell and competitive pressures from existing and new companies may harm our business, sales, growth rates, and market share; risks associated with the performance of our products; our ability to maintain a listing for our products under SYNEX’s GSA Schedule; and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission (SEC), including

under the heading “Risk Factors” in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
