

Airgain® to Participate in a Virtual Webinar and Panel of Industry Leaders to Discuss How AirgainConnect® Adds Resilience and Extends Coverage and Connectivity for First Responders

Panel will discuss AirgainConnect drive test results that demonstrate higher performance, extended coverage, and increased data speed beyond normal limits for public safety applications

SAN DIEGO--(BUSINESS WIRE)-- <u>Airgain, Inc. (NASDAQ: AIRG)</u>, a leading provider of advanced connectivity solutions and technologies used to enable high performance wireless networking across a broad range of devices and markets, including consumer, enterprise, and automotive, will be participating in a webinar and virtual panel of industry leaders moderated by IWCE's Urgent Communications to discuss how <u>AirgainConnect</u> extends coverage and connectivity for first responders in extensive drive testing scenarios.

WHAT: Virtual webinar and panel: "Extended Coverage for First Responders: Learn from Industry Leaders How AirgainConnect is Proof that High Power Broadband Works and What it Means to You"

Attendees will:

- Hear first-hand how industry leaders have tested AirgainConnect as they share their groundbreaking results.
- Learn how AirgainConnect extends coverage, enhances building penetration, and provides higher data rates for optimal throughput.
- Understand the importance of an uplink signal for end-user devices, such as vehicle routers, tablets, smartphones, and Internet of Things (IoT) connectivity.

WHEN: Wednesday, May 5, 2021 at 2:00 p.m. EDT

WHO: The panel features Andrew Seybold, CEO and Principal Analyst at Andrew Seybold, Inc., Ken Rehbehn, Senior Principal Analyst at Omdia, and Morad Sbahi, Senior Vice President of Global Product and Marketing at Airgain. The discussion will be moderated by Donny Jackson, Director of Content at IWCE's Urgent Communications. Panelist Ken Rehbehn, Senior Principal Analyst at Omdia covering critical communications, stated: "I am looking forward to sharing my field test observations from driving over 1,000 miles with an AirgainConnect device installed on the roof of my vehicle. The experience brought home the value of integrating HPUE modem capabilities into the antenna assembly and what this means for public safety responders."

WHY: AirgainConnect has been put to the test in urban, suburban, and rural areas, and the results speak for themselves. This webinar will share drive test results to prove that AirgainConnect's performance extends range beyond normal limits and increases data speeds for public safety applications.

About Airgain, Inc.

Airgain is a leading provider of advanced wireless connectivity solutions and technologies used to enable high performance wireless networking across a broad range of devices and markets, including consumer, enterprise, and automotive. Airgain's mission is to connect the world through advanced antenna systems and integrated wireless solutions. Combining design-led thinking with testing and development, Airgain's technologies are deployed in carrier, fleet, enterprise, residential, private, government, and public safety wireless networks and systems, including set-top boxes, access points, routers, modems, gateways, media adapters, portables, digital televisions, sensors, fleet, and asset tracking devices. Through its pedigree in the design, integration, and testing of high performance embedded antenna technology, Airgain has become a leading provider to the residential WLAN market, supplying to leading carriers, OEMs, ODMs, and chipset manufacturers who depend on Airgain to achieve their wireless performance goals. Airgain is headquartered in San Diego, California, and maintains design and test centers in the U.S., U.K., and China. Forward-Looking Statements

Airgain cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company's current beliefs and expectations. These forward-looking statements include statements regarding: the expected performance of, and market for, Airgain's products. The inclusion of forward-looking statements should not be regarded as a representation by Airgain that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation: the market for our products is developing and may not develop as we expect; risks associated with the performance of our products; if our solution partners fail to perform, or our partnerships are unsuccessful, we may not be able to bring our product solutions to market successfully or on a timely basis; we may not be successful in entering into additional collaborations on attractive terms, if at all; our products are subject to intense competition, and competitive pressures from existing and new companies may harm our business, sales, growth rates and market share; the COVID-19 pandemic may continue to disrupt and otherwise adversely affect our operations and those of our suppliers, partners, distributors and ultimate end customers; risks associated with quality and timing in manufacturing our products and our reliance on third-party manufacturers; if we cannot protect our intellectual property rights, our competitive position could be harmed or we could incur significant expenses to enforce our rights; and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission, including under

the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
