Airgain Launches ULTRAMAX™ Glass 5G High-Performance Windshield Mount Antenna

5G in-vehicle antenna deepens company's portfolio of solutions that simplify and enhance 5G connectivity for vehicles and asset.

SAN DIEGO--(BUSINESS WIRE)-- [Airgain, Inc. \(NASDAQ: AIRG\)](#), a leading provider of wireless connectivity solutions that creates and delivers embedded components, external antennas, and integrated systems across the globe, today announced the introduction of its ULTRAMAX™ Glass 5G high-performance windshield or dashboard mount antenna. This is the latest addition to Airgain's growing portfolio of 5G antennas and offers maximum connectivity in a small footprint.

The ULTRAMAX Glass 5G is designed to provide high performance LTE and 5G connectivity for fleet and public safety vehicles and connects to virtually any vehicular router or modem. With a slim profile, this in-vehicle antenna is ideal for fleets that need covert antenna applications, since units are equipped with adhesive mounts for windshield or dashboard installations.

Airgain's latest 5G antenna features a 5-in-1 configuration that supports up to four LTE/5G cellular elements, up to four Wi-Fi 6/6E/7 elements and offers an optional Global Navigation Satellite System (GNSS) element for GPS location services. In addition, like all mobile antennas from Airgain, it is also covered by an industry-leading 5-year limited warranty.

"Fleet and first responder customers are constantly seeking for the right mix of flexibility and maximum performance in their vehicle connectivity," said Brian Critchfield, Vice President of Global Marketing for Airgain. "ULTRAMAX Glass 5G delivers a technology update to our highly popular line of in-vehicle antennas and offers the latest in 5G, LTE, WiFi, and GPS connectivity. Its combination of slim profile and adaptability to multiple environments makes connectivity simple across a wide range of applications."

About Airgain, Inc.

Airgain is a leading provider of wireless connectivity solutions that creates and delivers embedded components, external antennas, and integrated systems across the globe. Airgain simplifies wireless connectivity across a diverse set of devices and markets, from solving complex connectivity issues to speeding time to market to enhancing wireless signals. Our product offering includes three distinct sub-brands. Airgain Embedded represents our embedded modems, antennas, and development kits designed to help design teams quickly bring connected products to market. Airgain Integrated represents our fully integrated, off-the-shelf products, such as our asset trackers and AirgainConnect®

platform, that help solve connectivity issues in an organization's operating environment. Airgain Antenna+ represents our external antennas, such as our fleet, Internet of Things (IoT) antennas, and network antennas that help enhance wireless signals in some of the harshest environments. Our mission is to connect the world through optimized, integrated wireless solutions. Airgain is headquartered in San Diego, California, and maintains design and test centers in the U.S., U.K., and China. Forward-Looking Statements

Airgain cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company's current beliefs and expectations. These forward-looking statements include statements regarding the expected outcomes of the development, time to market, the performance of, and the demand and market for, Airgain's products or those of its partners. The inclusion of forward-looking statements should not be regarded as a representation by Airgain that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation: the market for our products is developing and may not develop as we expect; risks associated with the performance of our products, including bundled solutions with third-party products; if [our channel partners fail to perform, or] our partnerships are unsuccessful, we may not be able to bring our product solutions to market successfully or on a timely basis; our products are subject to intense competition, and competitive pressures from existing and new companies may harm our business, sales, growth rates and market share; risks associated with quality and timing in manufacturing our products and our reliance on third-party manufacturers; we may not be able to maintain strategic collaborations under which our bundled solutions are offered; if we cannot protect our intellectual property rights, our competitive position could be harmed or we could incur significant expenses to enforce our rights; and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission (SEC), including under the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
