QuickLogic Set to Join Russell 2000® and Russell 3000® Indexes

SAN JOSE, Calif., June 2, 2026 /PRNewswire/ -- QuickLogic Corporation (NASDAQ: QUIK) ("QuickLogic" or the "Company"), a developer of embedded FPGA (eFPGA) Hard IP, Strategic Radiation Hardened and Antifuse FPGAs, and ruggedized programmable logic solutions, today announced that it is set to be added as a member of the broad-market Russell 3000® Index and the small-cap Russell 2000® Index, effective when the US market opens on June 29 as part of the 2026 Russell indexes reconstitution.

The June reconstitution of the Russell US indexes captures up to the 4,000 largest US stocks as of April 30, ranking them by total market capitalization. Membership in the Russell 3000® Index, which remains in place for half a year beginning 2026, means automatic inclusion in the small-cap Russell 2000® Index as well as the appropriate growth and value style indexes.

"Inclusion in the Russell Indexes is a significant milestone and reflects the growing investor recognition of QuickLogic's unique positioning in the eFPGA IP and Strategic Radiation Hardened FPGA markets," said Brian Faith, CEO of QuickLogic. "We welcome the enhanced visibility provided by our inclusion in these indexes as we continue to execute on our strategy, and drive continued growth and shareholder value."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. According to data as of the end of June 2025, about $12.2 trillion in assets are benchmarked against the Russell US indexes, which belong to FTSE Russell, the global index provider.

Fiona Bassett, CEO of FTSE Russell, an LSEG business, commented, "The Russell indexes have continuously adapted to the evolving dynamic US economy, and it's crucial to fully recalibrate the suite of Russell US Indexes, ensuring the indexes maintain an accurate representation of the market. The transition to a semi-annual reconstitution frequency this year will ensure our indexes continue to represent the market and maintain the purpose of the index as a portfolio benchmark."

For more information on the Russell 2000® Index and the Russell indexes reconstitution, go to the "Russell Reconstitution" section on the FTSE Russell website.

About QuickLogic

QuickLogic is a fabless semiconductor company specializing in embedded FPGA (eFPGA)

Hard IP, Strategic Radiation Hardened and Antifuse FPGAs, and ruggedized programmable logic solutions. QuickLogic's unique approach combines cutting-edge technology with open-source tools to deliver highly customizable low-power solutions for aerospace and defense, industrial, computing, and consumer markets.
