Investor Presentation
November 2017

Information contained herein is as of September 30, 2017 unless otherwise noted. Not for distribution in whole or in part without the express written consent of Apollo Global Management, LLC. It should not be assumed that investments made in the future will be profitable or will equal the performance of the investments in this document.

Forward Looking Statements & Other Important Disclosures

This presentation may contain forward-looking statements that are within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements include, but are not limited to, discussions related to Apollo Global Management, LLC's (together with its subsidiaries, "Apollo", "we", "us", "our" and the "Company") expectations regarding the performance of its business, liquidity and capital resources and the other non-historical statements. These forward looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. When used in this presentation, the words "believe," "anticipate," "estimate," "expect," "intend" or future or conditional verbs, such as "will," "should," "could," or "may," and variations of such words or similar expressions are intended to identify forward-looking statements. Although management believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will prove to be correct. These statements are subject to certain risks, uncertainties and assumptions, including risks relating to our dependence on certain key personnel, our ability to raise new private equity, credit or real asset funds, market conditions generally, our ability to manage our growth, fund performance, changes in our regulatory environment and tax status, the variability of our revenues, net income and cash flow, our use of leverage to finance our businesses and investments by funds we manage ("Apollo Funds") and litigation risks, among others. We believe these factors include but are not limited to those described under the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K filed with the United States Securities and Exchange Commission ("SEC") on February 13, 2017; as such factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in our filings with the SEC. We undertake no obligation to publicly update or review any forward-looking statements, whether as a result of new information, future developments or otherwise, except as required by applicable law.

This presentation contains information regarding Apollo's financial results that is calculated and presented on the basis of methodologies other than in accordance with accounting principles generally accepted in the United States ("non-GAAP measures"). Refer to slides endnotes for the definitions of EI, ENI, FRE and DE, non-GAAP measures presented herein, and to the reconciliation of GAAP financial measures to the applicable Non-GAAP measures.

This presentation is for informational purposes only and does not constitute an offer to sell, or the solicitation of an offer to buy, any security, product, service of Apollo as well as any Apollo fund, whether an existing or contemplated fund, for which an offer can be made only by such fund's Confidential Private Placement Memorandum and in compliance with applicable law.

Unless otherwise noted, information included herein is presented as of the dates indicated. This presentation is not complete and the information contained herein may change at any time without notice. Except as required by applicable law, Apollo does not have any responsibility to update the presentation to account for such changes.

Apollo makes no representation or warranty, express or implied, with respect to the accuracy, reasonableness or completeness of any of the information contained herein, including, but not limited to, information obtained from third parties.

The information contained herein is not intended to provide, and should not be relied upon for, accounting, legal or tax advice or investment recommendations.

Past performance is not indicative nor a guarantee of future returns.

Traditional Private Equity Fund Performance: 39% Gross & 25% Net IRR Since Inception

Index Definitions
 Barclays Government/Credit Bond Index is a commonly used benchmark index for investment grade bonds being traded in the United States with at least one year until maturity. S&P 500 Index is a free floating capitalization-weighted index of the prices of 500 large-cap common stocks actively traded in the United States. National Council of Real Estate Investment Fiduciaries (“NCREIF”) is a quarterly time series composite total rate of return measure of investment performance of a very large pool of individual commercial real estate properties acquired in the United States private market for investment purposes only.

Please refer to endnotes at the end of this presentation and to Slide 39 for “Important Notes Regarding the Use of Index Comparison.”
 (1) Data as of March 31, 2017, the most recent data available. (2) Cambridge Associates LLC U.S. Private Equity Index and Benchmark Statistics, March 31, 2017, the most recent data available. Returns represent End-to-End Pooled Mean Net to Limited Partners (net of fees, expenses and carried interest) for all U.S. Private Equity. (3) Estimated Top Quartile PE, Cambridge Associates LLC U.S. Private Equity Index and Benchmark Statistics, March 31, 2017 the most recent data available. Estimated Top Quartile PE numbers are calculated by taking the 5 year, 10 year, and 25 year return metrics as described above and adding the average of the delta between Top Quartile IRRs and the Pooled Mean Net to Limited Partners for each vintage year in the selected timeframe. (4) Represents returns of traditional Apollo private equity funds since inception in 1990 through September 30, 2017. Past performance is not indicative of future results. Please refer to Gross IRR and Net IRR endnotes and definitions at the end of this presentation.

Apollo will continue to identify opportunities to leverage its existing platform and diversify into areas with meaningful synergies with its core business

(1) References to "AGER" from previous presentation materials have been changed to "Athora" in accordance with a rebranding effort that is underway, and is expected to launch in December 2017.

Apollo's Marketing Capabilities

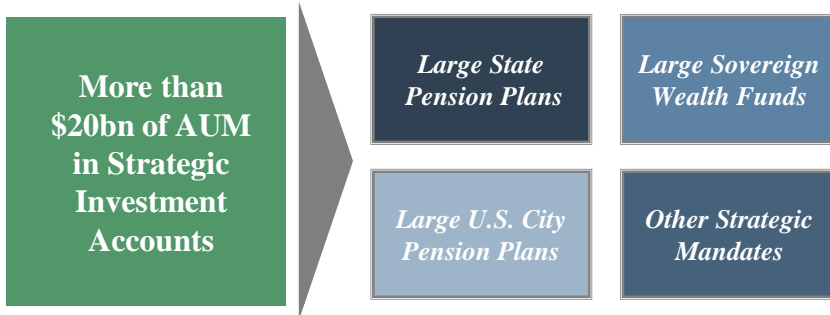

- Integrated global team structure incorporating sales coverage, product specialists, and investor relations
- Build new relationships and cross-sell across the Apollo platform
- Continue to expand the Apollo brand through multiple distribution channels
- Apollo's investor base continues to diversify by both type and geography
 - Nearly half of Apollo's LPs are located outside of the U.S.
 - Increasing contribution from high net worth and retail investors

Global Base of Long-Term Investors

Customized Solutions to Meet Evolving Investor Needs

Apollo is Attracting Capital to Invest Across its Platforms

We believe strategic investment accounts enable Apollo's institutional investors to be more opportunistic and well-positioned to capture value in today's market

Investor Base Diversified by Institution Type

Various Paths For Public Investors to Access Apollo's Expertise

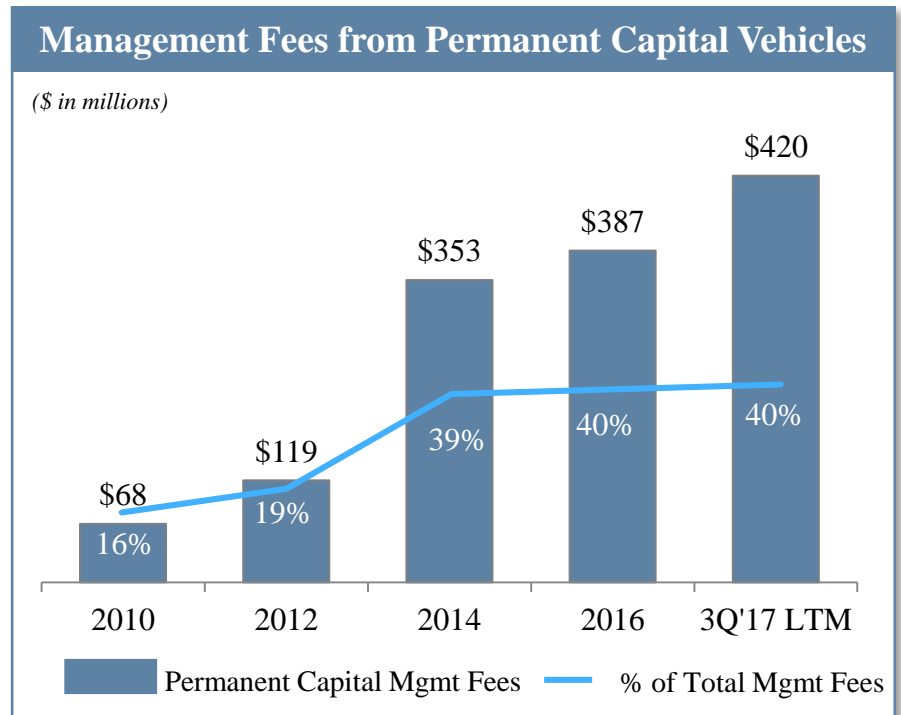

APOLLO

Publicly Traded Alternative Investment Manager		Ticker: APO (NYSE)	AUM: \$241.6 billion	Year of Listing: 2011
Business Development Company (BDC)		AINV (NASDAQ OMX)	\$4.4 billion⁽¹⁾	2004
Closed-End Limited Partnership		AAA (Euronext Amsterdam)	\$2.2 billion (NAV)⁽¹⁾	2006
Real-Estate Investment Trust (REIT)		ARI (NYSE)	\$4.0 billion⁽¹⁾	2009
Closed-End Funds (CEFs)		AFT & AIF (NYSE)	\$821 million	2011 & 2013

Permanent Capital Vehicles – A Strategic Differentiator

- As of September 30, 2017, Apollo had \$98.8 billion of AUM across seven Permanent Capital Vehicles⁽¹⁾:
 - Life Reinsurance:
 - *Athene (NYSE: ATH)*
 - *Athora*
 - Direct Origination: *MidCap*
 - Public BDC: *Apollo Investment Corp (Nasdaq: AINV)*
 - Mortgage REIT: *Apollo Commercial Real Estate Finance (NYSE: ARI)*
 - Closed-End Funds:
 - *Apollo Senior Floating Rate Fund (NYSE: AFT)*
 - *Apollo Tactical Income Fund (NYSE: AIF)*

- Approximately half of both Apollo’s AUM and management fees are derived from this locked-in, stable capital

(1) The investment management arrangements of the Permanent Capital Vehicles that Apollo manages vary in duration and may be terminated under certain circumstances. Refer to page 38 of this presentation for a definition of Permanent Capital Vehicles and additional information regarding the circumstances under which the investment management arrangements of the Permanent Capital Vehicles may be terminated.

- *Company Overview*
- *Business Segments*
- *Financial Information*

Highlights

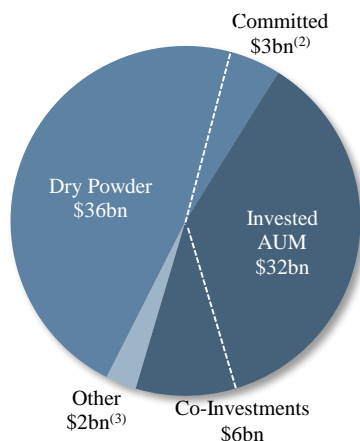

- \$70.5bn in total AUM
 - \$30.0bn fee-generating, \$25.2bn carry-generating
- \$36.0bn of dry powder, largely related to Fund IX (\$24.7bn)
- Value oriented: Transactions completed at lower EBITDA multiples than industry averages
- Investors have rewarded performance with larger amounts of capital with each successor flagship fund
- Significant focus on distressed since inception
 - \$13 billion+ in more than 250 distressed investments

Capital Deployment⁽⁵⁾

\$4.5bn average per year (2010-2016)

Please refer to the endnotes and definitions at the end of this presentation (1) Cambridge Associates LLC U.S. Private Equity Index and Benchmark Statistics, March 31, 2017, the most recent data available. Estimated Top Quartile PE numbers are calculated by taking the return metrics as described above and adding the average of the delta between Top Quartile IRRs and the Pooled Mean Net to Limited Partners for each vintage year in the selected timeframe. Represents returns of all Apollo Private Equity funds since inception in 1990 through March 31, 2017. S&P 500 return as of March 31, 2017. Refer to Slide 39 for "Important Notes Regarding the Use of Index Comparisons." (2) Represents capital committed to investments as of September 30, 2017 by Apollo's private equity funds which have not yet closed and may be subject to a variety of closing conditions or other contractual provisions which could result in such capital not ultimately being invested. (3) Other represents approximately \$2 billion of uncalled commitments which can be called for fund fees and expenses only and is not available for investment or reinvestment subject to the provisions of the applicable fund limited partnership agreements or other governing agreements. (4) Represents capital actually invested, committed to invest or used for fees and expenses, divided by aggregate committed capital. (5) Annual deployment figures include co-invest capital. Past performance is not indicative of future results.

Additional fund performance information is set forth in the investment records on slides 33-36 of this presentation. (1) For Escrow Ratio definition and related information, please refer to endnotes. (2) Investments selected based on non-performance criteria. (3) Represents the sum of capital actually invested, committed to invest or used for fees and expenses, divided by aggregate committed capital. Past performance is not indicative of future results.

Apollo Funds Rely on Three Investment Strategies to Capture Value Across Market Cycles

Opportunistic Buyouts

- Focus on industries and geographies that are out of favor or have come under pressure
- Often uncorrelated to macro environment or perceived to be less cyclical
- Aim to enter transactions several turns lower than industry averages, creating value upfront as well as over time

Select Examples:

BRIT

Buyout Creation Multiple: 6.8x

Corporate Carve-Out

- Build de novo businesses with companies in need of a financial partner
- Mitigate downside risk through attractive purchase price and structural protections
- Willing to trade complexity for value
- 26 transactions since inception

Select Examples:

Carve-out Creation Multiple: 5.9x

Distressed For Control

- Leader in complex corporate restructurings and bankruptcies
- Pioneered the first out of court restructuring in Europe
- Three main themes over last downturn: levered senior loans, distressed for control, portfolio company debt
- Distressed capabilities enhance our ability to effectively manage capital structures of all of our businesses

Select Examples:

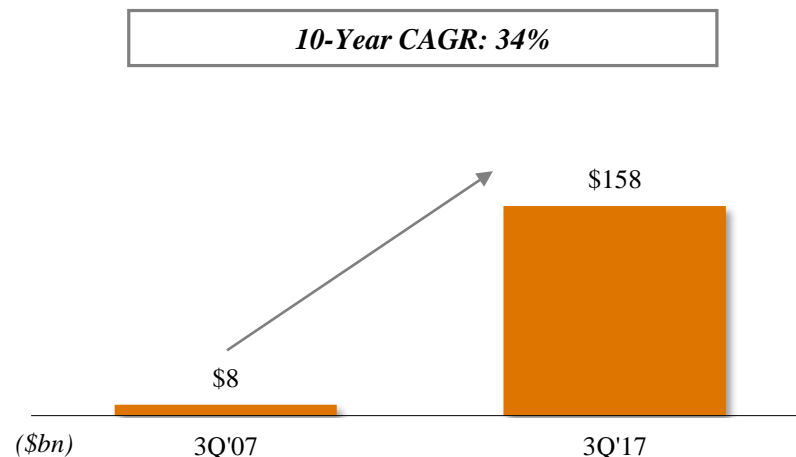

Distressed Creation Multiple: 5.6x

Highlights

- \$157.9bn in total AUM
 - \$126.9bn fee-generating, \$26.6bn carry-generating
- Same value-oriented approach as Private Equity
- Leverage Apollo's core industry expertise and benefit from integrated platform
- Products span broad range of credit spectrum from yield to opportunistic funds
- Target attractive relative returns with downside protected strategies

Significant Growth in Credit AUM

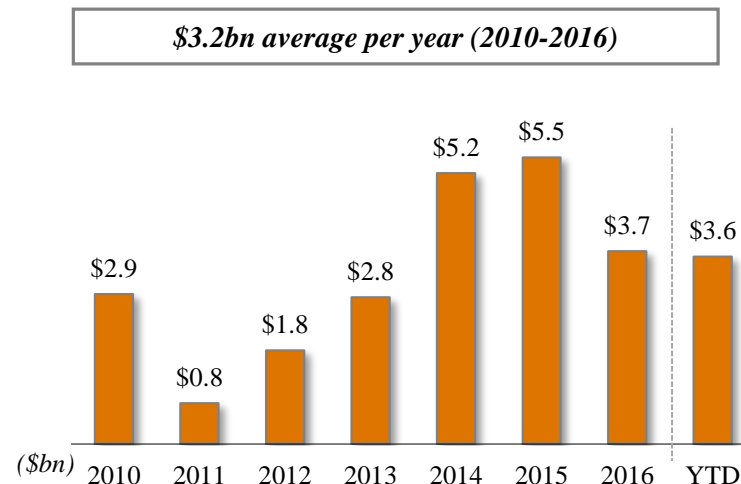

Supplemental Information

(\$ in billions)

\$158 billion AUM

Category	AUM	FG AUM	CE AUM	CG AUM	3Q'17 Gross Return ⁽¹⁾	YTD'17 Gross Return ⁽¹⁾	LTM Gross Return ⁽¹⁾
Liquid/Performing	\$42	\$37	\$21	\$10	1.4%	4.9%	6.6%
Drawdown ⁽²⁾	\$27	\$17	\$23	\$8	2.7%	8.2%	11.4%
Permanent Capital Vehicles							
MidCap, AINV, AFT, AIF	\$13	\$12	\$10	\$9	2.9%	8.8%	12.1%
Athene Non-Sub-Advised ⁽³⁾	\$57	\$57	—	—			
Athora Non-Sub-Advised ⁽³⁾	\$7	\$4	—	—			
Advisory ⁽⁴⁾	\$12	\$—	—	—			
Total Credit	\$158	\$127	\$54	\$27	1.9%	6.0%	8.2%

Drawdown Funds Capital Deployment

(1) Represents gross return as defined in the non-GAAP financial information and definitions section of this presentation with the exception of CLO assets in Liquid/Performing which are calculated based on gross return on invested assets, which excludes cash. The 3Q'17 net returns for Liquid/Performing, Drawdown, MidCap, AINV, AFT, AIF combined and total Credit excluding Athene Non-Sub-Advised were 1.3%, 2.2%, 2.0%, and 1.6%, respectively. The YTD net returns for Liquid/Performing, Drawdown, MidCap, AINV, AFT, AIF combined and total Credit excluding Athene Non-Sub-Advised were 6.1%, 9.4%, 8.2% and 7.1%, respectively. (2) Significant Drawdown funds and strategic investment accounts ("SIAs") had inception-to-date ("ITD") gross and net IRRs of 16.0% and 12.2%, respectively, as of September 30, 2017. Significant Drawdown funds and SIAs include funds and SIAs with AUM greater than \$200 million that did not predominantly invest in other Apollo funds or SIAs. (3) Athora currently is the holding company of Athene's German group companies. Athora has received subscriptions representing €2.2 billion from Athene and a number of global institutional investors for a capital raise conducted through a private placement. The closing of AGER is subject to regulatory approval. Athene Non-Sub-Advised and AGER Non-Sub-Advised reflects total combined AUM of \$81.9 billion less \$18.1 billion of assets that were either sub-advised by Apollo or invested in funds and investment vehicles managed by Apollo included within other asset categories. (4) Advisory refers to certain assets advised by Apollo Asset Management Europe, LLP ("AAME").

Athene & Athora: Differentiated & Strategic Growth Drivers

- Founded in 2009, Athene Holding Ltd. (“Athene”) is an insurance holding company focused on fixed annuities
- Founded in 2016, originally as ‘AGER’ consolidated within Athene Holding, Athora will be a standalone company focused on European insurance opportunities
- Through subsidiaries, Apollo managed or advised \$82 billion of AUM in accounts owned by or related to Athene and Athora; the U.S. portfolio (\$74 billion) is managed by Athene Asset Management (“AAM”) and the European portfolio (\$8 billion) is advised by Apollo Asset Management Europe (“AAME”)
- Of Athene’s total AUM, approximately \$18 billion, or 22%, was either sub-advised by Apollo or invested in funds and investment vehicles managed by Apollo
- On December 9, 2016, Athene completed its initial public offering on the New York Stock Exchange

Annualized
Management Fees

Net Impact

+\$200 million
Annualized
Management Fees⁽¹⁾

(1) Represents estimated net increase in management fees when Fund VIII moves to the post investment period phase and begins earning fees based on invested capital of approximately \$13 billion at a lower fee rate (rather than third-party committed capital of \$17.5 billion at a higher fee rate) and Fund IX enters the investment period and begins earning management fees based on the level of third party committed capital. Note that the future level of management fees could differ materially from these projections should there be any material loss of Fee-Generating AUM.

- At September 30, 2017, Apollo had \$931 million in cash and cash equivalents, \$199 million in U.S. Treasury securities, at fair value, \$1.8 billion of investments, and \$869 million of net carried interest receivable for a total net value of \$3.8 billion
- Long-term debt of \$1.4 billion (with maturities in 2021, 2024, and 2026) and an undrawn \$500 million revolving credit facility (expiring in 2021)
- Unfunded future general partner commitments totaled \$1.5 billion as of September 30, 2017, of which \$823 million related to Fund IX⁽¹⁾
- Aggregate share repurchases under previously announced plan totaled \$88 million through September 30, 2017, with \$162 million remaining authorized under the plan

<i>Share Repurchase Plan Authorization⁽⁷⁾</i>	<i>\$250</i>
<i>Average Price Paid Per Share⁽⁸⁾</i>	<i>\$17.39</i>

(1) Unfunded general partner commitments related to Fund IX are subject to future syndication to Apollo employees. (2) Investments and net carried interest receivable are presented on an unconsolidated basis. Investments and net carried interest receivable presented in the condensed consolidated statement of financial condition include eliminations related to investments in consolidated funds and VIEs. (3) Investment in Athene/AAA primarily comprises Apollo's direct investment of 15.7 million shares (subject to a discount due to a lack of marketability, as applicable) of Athene valued at a weighted average of \$50.19 per share and 1.6 million shares of AAA valued at NAV. (4) Represents Apollo's general partner investments in the funds it manages (excluding AAA) and other balance sheet investments. (5) Represents a reduction of Class A shares to be issued to employees to satisfy associated tax obligations in connection with the settlement of equity-based awards granted under the Company's 2007 Omnibus Equity Incentive Plan (the "Plan"). (6) With respect to the reduction of 3.9 million Class A shares to be issued to employees under the Plan, amounts represent the cash used by the Company to satisfy the applicable withholding obligations in respect of certain equity-based awards granted under the Plan. (7) In February 2016, the Company announced a plan to repurchase up to \$250 million in the aggregate of its Class A shares, which includes up to \$150 million through a share repurchase program and up to \$100 million through a reduction of Class A shares to be issued to employees to satisfy associated tax obligations in connection with the settlement of equity-based awards granted under the Plan. (8) Average price paid per share reflects total capital used for share repurchases to date divided by the number of shares purchased.

Well Capitalized with Strong Credit Metrics

APOLLO

Apollo believes it is well capitalized with moderate debt supported by strong income statement and balance sheet metrics

The SIAs included in the investment record table above have greater than \$200 million of AUM and do not predominantly invest in other Apollo funds or SIAs. Footnotes to the above table appear on page 29.

- (1) *Refer to the definitions of Vintage Year, Total Invested Capital, Realized Value, Remaining Cost, Unrealized Value, Total Value, Gross IRR and Net IRR in the non-GAAP financial information & definitions section of this presentation.*
- (2) *Returns have not been presented as the fund commenced investing capital less than 24 months prior to the period indicated and therefore such return information was deemed not meaningful.*
- (3) *The general partners and managers of Funds I, II and MIA, as well as the general partner of Fund III, were excluded assets in connection with the 2007 Reorganization. As a result, Apollo did not receive the economics associated with these entities. The investment performance of these funds, combined with Fund IV, is presented to illustrate fund performance associated with Apollo's Managing Partners and other investment professionals.*
- (4) *Total IRR is calculated based on total cash flows for all funds presented.*
- (5) *Funds are denominated in Euros and historical figures are translated into U.S. dollars at an exchange rate of €1.00 to \$1.18 as of September 30, 2017.*
- (6) *Amounts presented have been aggregated for (i) Drawdown funds with AUM greater than \$500 million that do not form part of a flagship series of funds and (ii) SIAs with AUM greater than \$200 million that do not predominantly invest in other Apollo funds or SIAs. Certain SIAs' historical figures are denominated in Euros and translated into U.S. dollars at an exchange rate of €1.00 to \$1.18 as of September 30, 2017. Additionally, certain SIAs totaling \$1.8 billion of AUM have been excluded from Total Invested Capital, Realized Value, Remaining Cost, Unrealized Value and Total Value. These SIAs have an open ended life and a significant turnover in their portfolio assets due to the ability to recycle capital. These SIAs had \$10.3 billion of Total Invested Capital through September 30, 2017.*
- (7) *U.S. RE Fund I and U.S. RE Fund II, closed-end private investment funds, had \$158 million and \$390 million of co-investment commitments raised as of September 30, 2017, respectively, which are included in the figures in the table. A co-invest entity within U.S. RE Fund I is denominated in GBP and translated into U.S. dollars at an exchange rate of £1.00 to \$1.34 as of September 30, 2017.*
- (8) *As part of the acquisition of Citi Property Investors ("CPI"), Apollo acquired general partner interests in fully invested funds. CPI Funds refers to CPI Capital Partners North America, CPI Capital Partners Asia Pacific, CPI Capital Partners Europe and other CPI funds or individual investments of which Apollo is not the general partner or manager and only receives fees pursuant to either a sub-advisory agreement or an investment management and administrative agreement. For CPI Capital Partners North America, CPI Capital Partners Asia Pacific and CPI Capital Partners Europe, the gross and net IRRs are presented in the investment record table since acquisition on November 12, 2010. The aggregate net IRR for these funds from their inception to September 30, 2017 was (2)%. This net IRR was primarily achieved during a period in which Apollo did not make the initial investment decisions and Apollo only became the general partner or manager of these funds upon completing the acquisition on November 12, 2010.*
- (9) *Certain private equity co-investment vehicles and funds with AUM less than \$500 million have been excluded. These co-investment vehicles and funds had \$8.2 billion of aggregate AUM as of September 30, 2017.*
- (10) *Certain credit funds and SIAs with AUM less than \$500 million and \$200 million, respectively, have been excluded. These funds and SIAs had \$1.7 billion of aggregate AUM as of September 30, 2017.*
- (11) *Certain accounts owned by or related to Athene, certain co-investment vehicles and certain funds with AUM less than \$500 million have been excluded. These accounts, co-investment vehicles and funds had \$5.3 billion of aggregate AUM as of September 30, 2017.*
- (12) *Remaining cost for certain of our credit funds may include physical cash called, invested or reserved for certain levered investments.*
- (13) *The investor in this U.S. Dollar denominated fund has chosen to make contributions and receive distributions in the local currency of each underlying investment. As a result, Apollo has not entered into foreign currency hedges for this fund and the returns presented include the impact of foreign currency gains or losses. The investor's gross and net IRR, before the impact of foreign currency gains or losses, from the fund's inception to September 30, 2017 was 10% and 9%, respectively.*

Note: The above tables summarize the investment record for our Liquid/Performing and Permanent Capital Vehicles as defined in the non-GAAP financial information & definitions section of this presentation (excluding Athene Non-Sub-Advised, which refers to that portion of Athene's assets which are managed or advised by Apollo but not sub-advised by Apollo or invested in funds and or investment vehicles managed by Apollo, and Athora Non-Sub-Advised, which refers to that portion of Athora's assets which are managed or advised by Apollo but not sub-advised by Apollo or invested in funds and or investment vehicles managed by Apollo). All amounts are as of September 30, 2017, unless otherwise noted. Footnotes to the above tables appear on page 36.

- (1) *Hedge funds primarily includes Apollo Credit Strategies Master Fund Ltd., Apollo Credit Master Fund Ltd. and Apollo Credit Short Opportunities Fund.*
- (2) *CLO returns are calculated based on gross return on invested assets, which excludes cash. Included within Total AUM of CLOs is \$1.0 billion of AUM related to a standalone, self-managed asset management business established in connection with risk-retention rules, from which Apollo earns investment-related service fees, but for which Apollo does not provide management or advisory services. CLO returns exclude performance related to this AUM.*
- (3) *Total returns are based on the change in closing trading prices during the respective periods presented taking into account dividends and distributions, if any, as if they were reinvested without regard to commission.*
- (4) *An initial public offering (“IPO”) year represents the year in which the vehicle commenced trading on a national securities exchange.*
- (5) *MidCap is not a publicly traded vehicle and therefore IPO year is not applicable. The returns presented are a gross return based on NAV. The net returns based on NAV were 2%, 6%, 2%, 4% and 6% for 3Q'17, YTD'17, 3Q'16, YTD'16 and FY'16, respectively. Gross and net return are defined in the non-GAAP financial information and definitions section of this presentation.*
- (6) *All amounts are as of June 30, 2017 except for total returns. Refer to www.apolloic.com for the most recent financial information on AINV. The information contained on AINV's website is not part of this presentation. Included within Total AUM of AINV is \$1.7 billion of AUM related to a non-traded business development company from which Apollo earns investment-related service fees, but for which Apollo does not provide management or advisory services. Net returns exclude performance related to this AUM.*
- (7) *Amounts are as of June 30, 2017. Refer to www.apollorait.com for the most recent financial information on ARI. The information contained on ARI's website is not part of this presentation.*

“**Assets Under Management**”, or “**AUM**”, refers to the assets of the funds, partnerships and accounts to which we provide investment management, advisory, or certain other investment-related services, including, without limitation, capital that such funds, partnerships and accounts have the right to call from investors pursuant to capital commitments. Our AUM equals the sum of:

- i) the fair value of the investments of the private equity funds, partnerships and accounts we manage or advise plus the capital that such funds, partnerships and accounts are entitled to call from investors pursuant to capital commitments;
- ii) the net asset value, or “NAV,” of the credit funds, partnerships and accounts for which we provide investment management or advisory services, other than certain collateralized loan obligations (“CLOs”) and collateralized debt obligations (“CDOs”), which have a fee-generating basis other than the mark-to-market value of the underlying assets, plus used or available leverage and/or capital commitments;
- iii) the gross asset value or net asset value of the real assets funds, partnerships and accounts we manage, and the structured portfolio company investments of the funds, partnerships and accounts we manage or advise, which includes the leverage used by such structured portfolio company investments;
- iv) the incremental value associated with the reinsurance investments of the portfolio company assets we manage or advise; and
- v) the fair value of any other assets that we manage or advise for the funds, partnerships and accounts to which we provide investment management, advisory, or certain other investment-related services, plus unused credit facilities, including capital commitments to such funds, partnerships and accounts for investments that may require pre-qualification or other conditions before investment plus any other capital commitments to such funds, partnerships and accounts available for investment that are not otherwise included in the clauses above.

Our AUM measure includes Assets Under Management for which we charge either nominal or zero fees. Our AUM measure also includes assets for which we do not have investment discretion, including certain assets for which we earn only investment-related service fees, rather than management or advisory fees. Our definition of AUM is not based on any definition of Assets Under Management contained in our operating agreement or in any of our Apollo fund management agreements. We consider multiple factors for determining what should be included in our definition of AUM. Such factors include but are not limited to (1) our ability to influence the investment decisions for existing and available assets; (2) our ability to generate income from the underlying assets in our funds; and (3) the AUM measures that we use internally or believe are used by other investment managers. Given the differences in the investment strategies and structures among other alternative investment managers, our calculation of AUM may differ from the calculations employed by other investment managers and, as a result, this measure may not be directly comparable to similar measures presented by other investment managers. Our calculation also differs from the manner in which our affiliates registered with the SEC report “Regulatory Assets Under Management” on Form ADV and Form PF in various ways.

We use AUM, Capital Deployed and Dry Powder as performance measurements of our investment activities, as well as to monitor fund size in relation to professional resource and infrastructure needs.

- “**AUM with Future Management Fee Potential**” refers to the committed uninvested capital portion of total AUM not currently earning management fees. The amount depends on the specific terms and conditions of each fund.
- “**Fee-Generating AUM**” consists of assets of the funds, partnerships and accounts to which we provide investment management, advisory, or certain other investment-related services and on which we earn management fees, monitoring fees or other investment-related fees pursuant to management or other fee agreements on a basis that varies among the Apollo funds, partnerships and accounts. Management fees are normally based on “net asset value,” “gross assets,” “adjusted par asset value,” “adjusted cost of all unrealized portfolio investments,” “capital commitments,” “adjusted assets,” “stockholders’ equity,” “invested capital” or “capital contributions,” each as defined in the applicable management agreement. Monitoring fees, also referred to as advisory fees, with respect to the structured portfolio company investments of the funds, partnerships and accounts we manage or advise, are generally based on the total value of such structured portfolio company investments, which normally includes leverage, less any portion of such total value that is already considered in Fee-Generating AUM.
- “**Carry-Eligible AUM**” refers to the AUM that may eventually produce carried interest income. All funds for which we are entitled to receive a carried interest income allocation are included in Carry-Eligible AUM, which consists of the following:
 - “**Carry-Generating AUM**”, which refers to invested capital of the funds, partnerships and accounts we manage, advise, or to which we provide certain other investment-related services, that is currently above its hurdle rate or preferred return, and profit of such funds, partnerships and accounts is being allocated to the general partner in accordance with the applicable limited partnership agreements or other governing agreements;
 - “**AUM Not Currently Generating Carry**”, which refers to invested capital of the funds, partnerships and accounts we manage, advise, or to which we provide certain other investment-related services that is currently below its hurdle rate or preferred return; and
 - “**Uninvested Carry-Eligible AUM**”, which refers to capital of the funds, partnerships and accounts we manage, advise, or to which we provide certain other investment-related services that is available for investment or reinvestment subject to the provisions of applicable limited partnership agreements or other governing agreements, which capital is not currently part of the NAV or fair value of investments that may eventually produce carried interest income allocable to the general partner.
- “**Advisory**” refers to certain assets advised by Apollo Asset Management Europe PC LLP, a wholly-owned subsidiary of Apollo Asset Management Europe LLP (collectively, “AAME”). The AAME entities are subsidiaries of Apollo. Until AAME receives full authorization by the UK Financial Conduct Authority (“FCA”), references to AAME mean AAME and Apollo Management International LLP, an existing FCA authorized and regulated subsidiary of Apollo in the United Kingdom.

“**Economic Income**” (previously referred to as Economic Net Income), or “**EI**”, as well as “**Economic Net Income**” (previously referred to as ENI After Taxes), or “**ENI**”, are key performance measures used by management in evaluating the performance of Apollo’s private equity, credit and real assets segments. Management uses these performance measures in making key operating decisions such as the following:

- Decisions related to the allocation of resources such as staffing decisions including hiring and locations for deployment of the new hires;
- Decisions related to capital deployment such as providing capital to facilitate growth for the business and/or to facilitate expansion into new businesses; and
- Decisions related to expenses, such as determining annual discretionary bonuses and equity-based compensation awards to its employees. With respect to compensation, management seeks to align the interests of certain professionals and selected other individuals with those of the investors in the funds and those of Apollo’s shareholders by providing such individuals a profit sharing interest in the carried interest income earned in relation to the funds. To achieve that objective, a certain amount of compensation is based on Apollo’s performance and growth for the year.

EI represents segment income (loss) before income tax provision excluding transaction-related charges arising from the 2007 private placement, and any acquisitions. Transaction-related charges includes equity-based compensation charges, the amortization of intangible assets, contingent consideration and certain other charges associated with acquisitions. In addition, segment data excludes non-cash revenue and expense related to equity awards granted by unconsolidated affiliates to employees of the Company, as well as the assets, liabilities and operating results of the funds and VIEs that are included in the consolidated financial statements.

ENI represents EI adjusted to reflect income tax provision on EI that has been calculated assuming that all income is allocated to Apollo Global Management, LLC, which would occur following an exchange of all AOG Units for Class A shares of Apollo Global Management, LLC. The economic assumptions and methodologies that impact the implied income tax provision are similar to those methodologies and certain assumptions used in calculating the income tax provision for Apollo’s consolidated statements of operations under U.S. GAAP.

Endnotes & Definitions (continued)

Fee Related Earnings, or “FRE”, is derived from our segment reported results and refers to a component of EI that is used as a supplemental performance measure to assess whether revenues that we believe are generally more stable and predictable in nature, primarily consisting of management fees, are sufficient to cover associated operating expenses and generate profits. FRE is the sum across all segments of (i) management fees, (ii) advisory and transaction fees, (iii) carried interest income earned from a publicly traded business development company we manage and (iv) other income, net, excluding gains (losses) arising from the reversal of a portion of the tax receivable agreement liability, less (y) salary, bonus and benefits, excluding equity-based compensation and (z) other associated operating expenses.

“**Distributable Earnings**”, or “DE”, as well as “**DE After Taxes and Related Payables**” are derived from Apollo’s segment reported results, and are supplemental measures to assess performance and amounts available for distribution to Class A shareholders, holders of RSUs that participate in distributions and holders of AOG Units. DE represents the amount of net realized earnings without the effects of the consolidation of any of the affiliated funds. DE, which is a component of EI, is the sum across all segments of (i) total management fees and advisory and transaction fees, excluding monitoring fees received from Athene based on its capital and surplus (as defined in Apollo’s transaction advisory services agreement with Athene), (ii) other income (loss), excluding the gains (losses) arising from the reversal of a portion of the tax receivable agreement liability, (iii) realized carried interest income, and (iv) realized investment income, less (i) compensation expense, excluding the expense related to equity-based awards, (ii) realized profit sharing expense, and (iii) non-compensation expenses, excluding depreciation and amortization expense. DE After Taxes and Related Payables represents DE less estimated current corporate, local and non-U.S. taxes as well as the payable under Apollo’s tax receivable agreement.

Escrow Ratio, As of September 30, 2017, the remaining investments and escrow cash of Fund VII, Fund VI and U.S. RE Fund II were valued at 99%, 93% and 113% of the fund’s unreturned capital, respectively, which were below the required escrow ratio of 115%. As a result, these funds are required to place in escrow current and future carried interest income distributions to the general partner until the specified return ratio of 115% is met (at the time of a future distribution) or upon liquidation. As of September 30, 2017, Fund VI had \$167.6 million of gross carried interest income, or \$110.7 million net of profit sharing, in escrow. As of September 30, 2017, Fund VII had \$66.8 million of gross carried interest income, or \$37.2 million net of profit sharing, in escrow. As of September 30, 2017, U.S. RE Fund II had \$3.6 million of gross carried interest income, or \$1.9 million net of profit sharing, in escrow. With respect to Fund VII, Fund VI and U.S. RE Fund II, realized carried interest income currently distributed to the general partner is limited to potential tax distributions per the fund’s partnership agreement.

Gross IRR of a private equity fund represents the cumulative investment-related cash flows (i) for a given investment for the fund or funds which made such investment, and (ii) for a given fund, in the relevant fund itself (and not any one investor in the fund), in each case, on the basis of the actual timing of investment inflows and outflows (for unrealized investments assuming disposition on September 30, 2017 or other date specified) aggregated on a gross basis quarterly, and the return is annualized and compounded before management fees, carried interest and certain other fund expenses (including interest incurred by the fund itself) and measures the returns on the fund’s investments as a whole without regard to whether all of the returns would, if distributed, be payable to the fund’s investors. In addition, gross IRRs at the fund level differ from those at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Gross IRR does not represent the return to any fund investor.

Gross IRR of a credit fund represents the annualized return of a fund based on the actual timing of all cumulative fund cash flows before management fees, carried interest income allocated to the general partner and certain other fund expenses. Calculations may include certain investors that do not pay fees. The terminal value is the net asset value as of the reporting date. Non- U.S. dollar denominated (“USD”) fund cash flows and residual values are converted to USD using the spot rate as of the reporting date. In addition, gross IRRs at the fund level differ from those at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Gross IRR does not represent the return to any fund investor.

Gross IRR of a real assets fund represents the cumulative investment-related cash flows in the fund itself (and not any one investor in the fund), on the basis of the actual timing of cash inflows and outflows (for unrealized investments assuming disposition on September 30, 2017 or other date specified) starting on the date that each investment closes, and the return is annualized and compounded before management fees, carried interest, and certain other fund expenses (including interest incurred by the fund itself) and measures the returns on the fund’s investments as a whole without regard to whether all of the returns would, if distributed, be payable to the fund’s investors. Non-USD fund cash flows and residual values are converted to USD using the spot rate as of the reporting date. In addition, gross IRRs at the fund level differ from those at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Gross IRR does not represent the return to any fund investor.

Gross Return of a credit or real assets fund is the monthly or quarterly time-weighted return that is equal to the percentage change in the value of a fund’s portfolio, adjusted for all contributions and withdrawals (cash flows) before the effects of management fees, incentive fees allocated to the general partner, or other fees and expenses. Returns of Athene Sub-advised portfolios and CLOs represent the gross returns on invested assets, which exclude cash. Returns over multiple periods are calculated by geometrically linking each period’s return over time.

Net IRR of a private equity fund means the gross IRR applicable to a fund, including returns for related parties which may not pay fees or carried interest, net of management fees, certain fund expenses (including interest incurred or earned by the fund itself) and realized carried interest all offset to the extent of interest income, and measures returns at the fund level on amounts that, if distributed, would be paid to investors of the fund. To the extent that a fund exceeds all requirements detailed within the applicable fund agreement, the estimated unrealized value is adjusted such that a percentage of up to 20.0% of the unrealized gain is allocated to the general partner of such fund, thereby reducing the balance attributable to fund investors. In addition, net IRR at the fund level will differ from that at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Net IRR does not represent the return to any fund investor.

Net IRR of a credit fund represents the annualized return of a fund after management fees, carried interest income allocated to the general partner and certain other fund expenses, calculated on investors that pay such fees. The terminal value is the net asset value as of the reporting date. Non-USD fund cash flows and residual values are converted to USD using the spot rate as of the reporting date. In addition, net IRR at the fund level will differ from that at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Net IRR does not represent the return to any fund investor.

Net IRR of a real assets fund represents the cumulative cash flows in the fund (and not any one investor in the fund), on the basis of the actual timing of cash inflows received from and outflows paid to investors of the fund (assuming the ending net asset value as of September 30, 2017 or other date specified is paid to investors), excluding certain non-fee and non-carry bearing parties, and the return is annualized and compounded after management fees, carried interest, and certain other expenses (including interest incurred by the fund itself) and measures the returns to investors of the fund as a whole. Non-USD fund cash flows and residual values are converted to USD using the spot rate as of the reporting date. In addition, net IRR at the fund level will differ from that at the individual investor level as a result of, among other factors, timing of investor-level inflows and outflows. Net IRR does not represent the return to any fund investor.

Permanent Capital Vehicles refers to (a) assets that are owned by or related to Athene or AGER, (b) assets that are owned by or related to MidCap FinCo Limited (“MidCap”) and managed by Apollo, (c) assets of publicly traded vehicles managed by Apollo such as Apollo Investment Corporation (“AINV”), Apollo Commercial Real Estate Finance, Inc. (“ARF”), Apollo Tactical Income Fund Inc. (“AIF”), and Apollo Senior Floating Rate Fund Inc. (“AFT”), in each case that do not have redemption provisions or a requirement to return capital to investors upon exiting the investments made with such capital, except as required by applicable law and (d) a non-traded business development company from which Apollo earns certain investment-related service fees. The investment management agreements of AINV, AIF and AFT have one year terms, are reviewed annually and remain in effect only if approved by the boards of directors of such companies or by the affirmative vote of the holders of a majority of the outstanding voting shares of such companies, including in either case, approval by a majority of the directors who are not “interested persons” as defined in the Investment Company Act of 1940. In addition, the investment management agreements of AINV, AIF and AFT may be terminated in certain circumstances upon 60 days’ written notice. The investment management agreement of ARI has a one year term and is reviewed annually by ARI’s board of directors and may be terminated under certain circumstances by an affirmative vote of at least two-thirds of ARI’s independent directors. The investment management or advisory arrangements between MidCap and Apollo and Athene and Apollo, may also be terminated under certain circumstances.

Private Equity fund appreciation (depreciation) refers to gain (loss) and income for the traditional private equity funds (i.e., Funds I-VIII), ANRP I & II, Apollo Special Situations Fund, L.P. and AION Capital Partners Limited (“AION”) for the periods presented on a total return basis before giving effect to fees and expenses. The performance percentage is determined by dividing (a) the change in the fair value of investments over the period presented, minus the change in invested capital over the period presented, plus the realized value for the period presented, by (b) the beginning unrealized value for the period presented plus the change in invested capital for the period presented. Returns over multiple periods are calculated by geometrically linking each period’s return over time.

“**Realized Value**” refers to all cash investment proceeds received by the relevant Apollo fund, including interest and dividends, but does not give effect to management fees, expenses, incentive compensation or carried interest to be paid by such Apollo fund.

“**Remaining Cost**” represents the initial investment of the general partner and limited partner investors in a fund, reduced for any return of capital distributed to date, excluding management fees, expenses, and any accrued preferred return.

“**Total Invested Capital**” refers to the aggregate cash invested by the relevant Apollo fund and includes capitalized costs relating to investment activities, if any, but does not give effect to cash pending investment or available for reserves.

“**Total Value**” represents the sum of the total Realized Value and Unrealized Value of investments

Traditional Private Equity fund appreciation (depreciation) refers to gain (loss) and income for the traditional private equity funds (i.e., Funds I-VIII) for the periods presented on a total return basis before giving effect to fees and expenses. The performance percentage is determined by dividing (a) the change in the fair value of investments over the period presented, minus the change in invested capital over the period presented, plus the realized value for the period presented, by (b) the beginning unrealized value for the period presented plus the change in invested capital for the period presented. Returns over multiple periods are calculated by geometrically linking each period’s return over time;

“**Unrealized MOIC**” or “**Unrealized Multiple of Invested Capital**” is calculated as Unrealized Value divided by Remaining Cost;

“**Unrealized Value**” refers to the fair value consistent with valuations determined in accordance with GAAP, for investments not yet realized and may include pay in kind, accrued interest and dividends receivable, if any. In addition, amounts include committed and funded amounts for certain investments; and

“**Vintage Year**” refers to the year in which a fund’s final capital raise occurred.

Important Notes Regarding the Use of Index Comparisons

Index performance and yield data are shown for illustrative purposes only and have limitations when used for comparison or for other purposes due to, among other matters, volatility, credit or other factors (such as number and types of securities). It may not be possible to directly invest in one or more of these indices and the holdings of any fund managed by Apollo may differ markedly from the holdings of any such index in terms of levels of diversification, types of securities or assets represented and other significant factors. Indices are unmanaged, do not charge any fees or expenses, assume reinvestment of income and do not employ special investment techniques such as leveraging or short selling. No such index is indicative of the future results of any fund managed by Apollo.
