MRI Interventions to Present at 2013 Craig-Hallum Alpha Select Conference

IRVINE, Calif., Sept. 25, 2013 (GLOBE NEWSWIRE) -- MRI Interventions, Inc. (OTCQB:MRIC), a commercial stage medical technology company focused on creating innovative platforms for performing the next generation of minimally invasive surgical procedures in the brain and heart, announced today that Kimble Jenkins, MRI Interventions' Chief Executive Officer, will present at the Craig-Hallum Alpha Select Conference in New York on Thursday, September 26, 2013. The presentation is scheduled to begin at 8:35 a.m. ET. A live webcast of the presentation will be available under the [IR Calendar](#) section of the MRI Interventions website. For those unable to listen to the live webcast, a replay will be available on MRI Interventions' website following the presentation.

About MRI Interventions

Founded in 1998, MRI Interventions (OTCQB:MRIC) is a publicly traded company creating innovative platforms for performing the next generation of minimally-invasive surgical procedures in the brain and heart. Utilizing a hospital's existing MRI suite, the company's FDA-cleared and CE-marked ClearPoint[®] system is designed to enable a range of minimally-invasive procedures in the brain. MRI Interventions has a co-development and co-distribution agreement with Brainlab, a leader in software-driven medical technology, relating to the ClearPoint system. In partnership with Siemens Healthcare, MRI Interventions is developing the ClearTrace[®] system to enable MRI-guided catheter ablations to treat cardiac arrhythmias, including atrial fibrillation. Building on the imaging power of MRI, the company's interventional platforms strive to improve patient care while reducing procedure costs and times. MRI Interventions is also working with Boston Scientific Corporation to incorporate its MRI-safety technologies into Boston Scientific's implantable leads for cardiac and neurological applications.
