Employee Stock Options

Our stock option plans are part of a broad-based, long-term retention program that is intended to attract and retain talented employees and directors and align stockholder and employee interests.

The Board of Directors may grant options to selected employees, directors and consultants to the Company to purchase shares of the Company's common stock at a price not less than the fair market value of the stock at the date of grant. The 2006 Long-Term Incentive Plan (2006 Plan) was adopted during the second quarter of fiscal 2006 and replaced the 2001 Stock Option Plan and the 2001 Non-Employee Director Stock Option Plan and their predecessor plans (Prior Plans). The 2006 Plan provides for the grant of incentive and nonstatutory stock options as well as stock appreciation rights, restricted stock, restricted stock units, performance units and shares and other stock-based awards and will be the source of shares issued under the Executive Retirement Matching Contribution Plan (ERMCP). The share reserve under the 2006 Plan is equal to the shares available for future grant under the combined plans on the date the 2006 Plan was approved by the Company's stockholders, plus an additional 65,000,000 shares for a total of approximately 280,192,000 shares reserved. The share amount is automatically increased by the amount equal to the number of shares subject to any outstanding option under a Prior Plan that is terminated or cancelled (but not an option under a Prior Plan that expires) following the date that the 2006 Plan was approved by stockholders. Shares that are subject to an award under the ERMCP and are returned to the Company because they fail to vest will again become available for grant under the 2006 Plan. The Board of Directors of the Company may amend or terminate the 2006 Plan at any time. Generally, options outstanding vest over periods not exceeding five years and are exercisable for up to ten years from the grant date.
