# Tecogen Announces Chiller Order From a Large Educational Institution in Connecticut

WALTHAM, MA, Nov. 29, 2023 (GLOBE NEWSWIRE) -- via [NewMediaWire](#) – [Tecogen Inc.](#) (OTCQX: TGEN), a clean energy company providing ultra-efficient and clean on-site power, heating and cooling equipment, is pleased to announce an order for a 400-ton Tecochill unit from a large educational institution in Connecticut, facilitated by Clover Corp., a long-standing Manufacturers' Representative for Tecogen.

“Connecticut has some of the highest electric rates in the Northeast due to grid congestion in the area, and the Tecochill system offsets a significant amount of electrical demand,” noted Jeffrey Glick, Vice President of East Coast Sales at Tecogen. “The energy savings and reliability of gas cooling compared to electric chillers over the long lifespan of the Tecochill system are significant benefits. The chiller will also contribute to a reduction in greenhouse gas (GHG) footprint with the use of the heat recovery and updated emissions controls.”

## Forward Looking Statements

This press release contains “forward-looking statements” which may describe strategies, goals, outlooks or other non-historical matters, or projected revenues, income, returns or other financial measures, that may include words such as “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “likely” or “may” and similar expressions intended to identify forward-looking statements. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements speak only as of the date on which they are made, and we undertake no obligation to update or revise any forward-looking statements.

In addition to the Risk Factors described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q under “Risk Factors,” factors that could cause our actual results to differ materially from past and projected future results include the impact of the coronavirus pandemic on demand for our products and services, the availability of incentives, rebates and tax benefits relating to our products, changes in the regulatory environment relating to our products, competing technological developments, and the availability of financing to fund our operations and growth.

## About Tecogen

[Tecogen Inc.](#) designs, manufactures, sells, installs, and maintains high efficiency, ultra-clean, cogeneration products including combined heat and power, air conditioning systems and high-efficiency water heaters for residential, commercial, recreational and industrial use.

The company's cost efficient, reliable, and environmentally friendly products for energy production nearly eliminate criteria pollutants and significantly reduce a customer's carbon footprint.

In business for over 35 years, Tecogen has shipped more than 3,200 units, supported by an established network of engineering, sales, and service personnel throughout North America. Aggregate run hours on Tecogen's InVerde cogeneration systems exceed 6 million hours.
