IRVINE, Calif., May 22, 2023 (GLOBE NEWSWIRE) -- **ToughBuilt Industries, Inc. ("ToughBuilt") (NASDAQ: TBLT; TBLTW)**, reported today their financial results for the first fiscal quarter of the year, ended March 31, 2023.

Financial Highlights for the Quarter Ended March 31, 2023:

- Revenues increase approximately 17% from 17.2 million for Q1 2022 to approximately \$20.2 million for Q1 2023. This increase in revenue was due primarily to increased marketplace penetration of ToughBuilt products, and a combination of recurring sales and new orders from new and existing customers. Additionally, first quarter 2023 Amazon.com gross sales increased by 10% to approximately \$3.8 million, compared to approximately \$3.4 million for the first quarter of 2022.
- Gross profit increased to approximately \$3.6 million in the first quarter of 2023, compared to approximately \$3.0 million in the first quarter of 2022, an increase of 18% year-over-year. This is a result of successful efforts to improve ToughBuilt's brand awareness and continued product innovation across all segments.
- Operating expenses were approximately \$19.3 million in the first quarter of 2023, compared to approximately \$18.4 million in the first quarter of 2022. The increase in operating expenses was primarily due to R&D for new multi-category tools, as well as circumstances created by the global impacts of inflation on materials and manufacturing.
- Net loss attributable to common shareholders in the first quarter of 2023 was approximately \$8.3 million, or \$0.56 per share, compared to a net loss of approximately \$12.1 million, or \$14.04 per share in the first quarter of 2022, representing a \$4.8 million, or 31% improvement. This improvement is attributed to prudent tightening of company spending and satisfaction of all major departmental hiring needs at the current headcount.

• Business Highlights for the Quarter Ended March 31, 2023

Wrenches, and Handheld Screwdrivers categories. These announcements comprised over 100 SKUs across all new segments and are being made available through major US and global home improvement retailers, servicing over 18,900 storefronts and online portals worldwide.
