About CohBar

CohBar (OTCQX: CWBR and TSXV: COB.U) is an innovator and leader in the research and development of mitochondria-based therapeutics (MBTs), an emerging new class of drugs targeted for the treatment of diseases associated with aging. MBTs originate from the discovery by our founders of a novel group of peptides within the genome of mitochondria, the energy source within our cells. CohBar's ongoing development of mitochondria-based therapeutics offers potential break-through treatments and improved quality of life for millions of people afflicted with a broad range of diseases including type 2 diabetes, cancer, Alzheimer's and cardiovascular diseases.
